news release

Feb. 7, 2022

1 Death, 2 New Hospitalizations, 336 New Cases Since Friday

Humboldt County Public Health reported today the death of a resident in their 60s due to COVID-19. Staff in the Department Operations Center extend their condolences to all who have lost a loved one to the virus.

Two new hospitalizations, a resident in their 60s and another aged 80 or older, were reported since Friday. An additional 336 new cases were also reported, bringing to 18,200 the total number of confirmed positive cases of the virus locally.

Residents, including those who are unvaccinated, are urged to continue to take protective measures against COVID-19 by washing hands frequently, wearing a [well-fitted mask approved by the Centers for Disease Control and Prevention](#) (CDC), distancing six feet from others when possible and avoiding crowds and poorly ventilated spaces. The state remains under a mandatory mask order in all indoor public spaces through Feb. 15.

The California Department of Public Health (CDPH) recommends individuals stay home and away from others and get tested if they become sick or experience COVID-19 symptoms. These symptoms may include fever, cough, shortness of breath, fatigue or muscle aches and often mimic common cold or flu illnesses.

Vaccines remain readily available and, as always, Humboldt County's vaccination and testing services are available free of charge. While walk-ins are allowed at all Public Health clinics and some pharmacy vaccination sites, appointments are recommended for all vaccinations and are the best way to ensure a shot is available during your visit. Appointments can be made at [MyTurn.ca.gov](https://myturn.ca.gov).

Vaccines, including boosters, are available at local pharmacies. To check the availability of a specific vaccine, visit the vaccines.gov page, or text your ZIP code to 438829 to locate a nearby pharmacy offering vaccines.

See the schedule below for specific Public Health vaccination and testing clinic dates, times, locations and available services. Questions about clinic services can be directed to the Joint Information Center at 1-707-441-5000.
