On 7/20/2022 at approximately 1945 hours, Det. Sgt. Oretga notified me of a Humboldt County Critical Incident Response Team activation and advised me to respond to the Eureka Police Department for a briefing. Once at EPD I was advised the briefing venue had moved to Humboldt County Sheriff's Office.

Once at HCSO I received a briefing from HCSO Lt. Williams and HCSO Det. Sgt. Taylor and the following is a summary of that briefing:

An EPD officer attempted traffic on a white SUV which fled. EPD pursued the vehicle before terminating. An HCSO patrol vehicle saw a white SUV in the area shortly after and attempted to conduct a traffic stop before the vehicle fled again. During the pursuit, a passenger in the white SUV fired multiple rounds at the pursuing deputy's vehicle in at least two locations. One of the locations where shots were fired was believed to be in the area of Eureka St. and Vance Ave., while the second was at Utah St. and Highland Ave. A deputy in the pursuing vehicle returned fire in the area of Utah St. and Highland Ave. The pursuit continued until the suspect vehicle collided with an uninvolved vehicle at the intersection of Buhne St. and Harrison Ave. Three subjects were detained at the crash scene with no further incident.

I was assigned as a team leader at the Utah St. and Highland Ave. scene with Evidence Technicians [redacted] from EPD and [redacted] from APD, Humboldt County District Attorney Investigator Morris, FoPD Officer Burley, EPD Detective Cosetti and California Department of Fish and Wildlife Warden Hampton with his K9 partner Leeloo. Warden Hampton advised me Leeloo was trained to detect gunpowder residue.

Once at the scene I contacted EPD Officers Couch and Soltow. Ofc. Couch informed me both him, Soltow and a third officer conducted a canvass for evidence on Utah St. from Allard Ave. to South St. In their canvass, they located a bullet fragment in front of [redacted] Utah St., south of South St. and a possible ricochet mark on the eave of the same address.

I assigned DAI Morris and Ofc. Burley to conduct a canvass for witnesses and cameras while the rest of the team conducted another search for evidence. (Refer to ET [redacted] report for more information regarding evidence collection and DAI Morris and Ofc. Burley's reports for more information regarding their canvass).

DAI Morris advised me the K9 had alerted to a telephone pole on the south east corner of Central Ave. and Burrill St., one block north of Utah St. and South St. Utah St. turns into Central Ave. north of South St.

CDFW Warden Hampton pointed to a low area of the pole where I could see splintering in the wood. He advised me the K9 hit on it with a lot of interest indicating a recent gun powder exposure. CDFW Warden Hampton explained the scent of gun powder dissipates after a few hours.

The splintering was near the edge of the pole and appeared to have both an entry and exit consistent with a bullet strike. The K9 as well as investigators checked the area beyond the pole for possible bullet fragments however we did not locate any.

ET [redacted] took photographs of the strike mark.

After completing our tasks on Utah St., Det. Sgt. Taylor advised my team to respond to Vance Ave. at Eureka Way and assist Det. Sgt. Ortega's team. Once there Det. Sgt. Ortega assigned myself and Ofc. Burley to conduct a canvass of the neighborhood for witness. We knocked on several doors along Eureka Street with no answer. It was approximately 0130 hours and all houses we knocked on were dark inside with no lights on.

After the canvass Det. Sgt. Ortega informed me there was a bullet core that was not collected from [redacted] Vance Ave. I attempted contact with the resident however there was no answer.

I was advised to clear from the scene at approximately 0330 hours.

On 7/21/22 Det. Sgt. Ortega told me Inv. Hicks requested we attempt to retrieve the bullet core from [redacted] Vance Ave. again. ET [redacted] EPD Det. Cossetti and EPD ET [redacted] responded to the residence. (Refer to ET [redacted] report for more information).

CONTROLLED DOCUMENT- DO NOT DUPLICATE

On 07/20/2022 at approximately 1948 hours, Detective Sergeant Ortega contacted me and requested I respond to the Eureka Police Department for a CIRT briefing regarding an officer-involved shooting that had just occurred. After arriving at EPD, the venue of the briefing changed to HCSO CID. I attended the briefing and was assigned to assist in evidence collection in the area of Utah St. and Highland Ave., which was one of the scenes where shots were believed to be fired.

Upon my arrival, I was briefed by EPD Officer Soltow and EPD Officer Couch who had already canvassed the area for evidence. EPD Officer Couch alerted me to a possible ricochet mark that he had located on the eave of [redacted] Utah St. and a bullet fragment laying near the gutter in front of the same residence. EPD ET [redacted] and I conducted an additional canvass for evidence, however nothing further was located.

EPD ET [redacted] photographed the scene and utilized a laser scanner to create a 3D diagram. EPD ET [redacted] requested that I also manually take measurements of the evidentiary items' location. Utilizing a roll meter and measuring tape, I obtained the following measurements:

- **bullet fragment:** located near gutter on west side of roadway in front of [redacted] Utah St.
  - approximately 9.5" east of western curbline of Utah St.
  - approximately 114' south of southern curbline of South St.

- **possible ricochet mark:** located on eave of [redacted] Utah St. near the northeast corner of the residence
  - approximately 8'7" above sidewalk
  - approximately 4'8" south of eastern facing house edge

Refer to EPD ET [redacted] supplemental report and 3D scans for more information.

While canvassing the area to the north of our location, U.S. Fish and Wildlife Service K9 Leeloo alerted to the smell of gun powder on the power pole (marked #48) located on the southeast corner of the intersection of Burrill St. and Central Ave. After examining the power pole, I observed what appeared to be a bullet hole near the base of the pole that continued all the way through with a northeast trajectory. K9 Leeloo and investigators searched the area to the northeast of the power pole, but did not locate any bullet fragments or shell casings. The entry point was approximately 1'4" above the sidewalk and the exit point was approximately 1'3" above the sidewalk. The bullet hole was photographed by EPD ET [redacted]

I then responded to Eureka St. and Vance Ave. to assist with evidence collection. I canvassed the length of Vance Ave. and did not locate any additional evidence that had not already been identified by investigators on scene. Detective Sergeant Ortega requested that I relieve HCSO Deputy Boyer and maintain security of the shell casing located in the gutter near the intersection of Eureka St. and Leonard Dr. I later relinquished control of the shell casing to HCSO Deputy Del Rosario and HCSO Deputy Jones who arrived to document its location with their 3D laser scanner.

I request a copy of this supplemental report be sent to HCSO for inclusion with their report.

CONTROLLED DOCUMENT- DO NOT DUPLICATE

On 07/21/2022 at approximately 1330 hours, Detective Sergeant Ortega requested that I respond to [redacted] Vance Ave. in an attempt to locate the core of the bullet that passed through the wall of the residence and landed on a female occupant. The bullet jacket was previously recovered, but the core of the bullet was still outstanding.

A short time later, Detective Johnson, EPD Sr. Detective Cosetti, EPD ET [redacted] and I arrived on scene and met with the resident, [redacted] advised us that she had recently vacuumed the living room and had heard a loud clank in the vacuum, possibly from suctioning up a rock or metal object. [redacted] had not yet emptied the vacuum canister and allowed us to search it. We dumped the contents of the canister into a paper bag and sifted through the debris looking for the bullet core, but did not find it. We then checked near the bullet's exit point in the wall and the surrounding area of the living room, but we were still unable to locate it.

At approximately 1530 hours, EPD Sr. Detective Cosetti advised us that [redacted] had located the bullet core in the laundry basket. The bullet core was concealed within a towel which [redacted] later remembered she had moved from the window sill to the laundry basket. Detective Johnson, EPD Sr. Detective Cosetti, and I responded back to [redacted] Vance Ave. and collected the bullet core from [redacted]. I photographed the bullet core and then sealed it in a manila envelope with evidence tape. I transported the bullet core to HCSO and released it to HCSO Detective Head.

I request a copy of this supplemental report be sent to HCSO for inclusion with their report.

CONTROLLED DOCUMENT- DO NOT DUPLICATE

On 07/20/2022, I was in full police uniform and driving a fully marked patrol vehicle that was equipped with emergency overhead lights.

At approximately 1929 hours, I was dispatched to Buhne Street/Harrison Avenue in Eureka CA, regarding an officer involved shooting. I responded from the Arcata Police Department with my emergency overhead lights and sirens activated.

The shooting was over and three individuals were detained prior to my arrival. Upon arrival, I observed a white SUV and a blue/gray sedan that appeared to have been in a vehicle collision, in the middle of the intersection of Buhne Street/Harrison Avenue. I also observed multiple outside agency patrol vehicles and units.

I assisted the outside agencies by setting up crime scene tape and staying inside of the crime scene tape to ensure unauthorized personnel could not enter the crime scene. I also assisted with readjusting one of the detainee's handcuffs.

DISPOSITION: CLOSED

On July 20, 2022, at approximately 1946 hours, I received an after-hours phone call from Arcata Police Department (APD) Communications, notifying me of a Humboldt County Critical Incident Response Team (CIRT) activation, for an Officer Involved Shooting (OIS) in Eureka.

I was informed Humboldt County Sheriff's Office (HCSO) deputies engaged in a vehicle pursuit in the City of Eureka, and gunfire had been exchanged with the occupant(s) of the fleeing vehicle. APD Sergeant Chris Wilson and APD Officer David Lee responded from Arcata to assist at the termination point of the pursuit, which had culminated in a traffic collision at Harrison Ave, and Buhne St in Eureka. The three vehicle occupants were currently detained from this location. There were no reported injuries or fatalities as a result of this incident.

I contacted APD CIRT members, Detective Victoria Johnson, and Evidence Technician (ET) [redacted] and instructed them to respond to the Eureka Police Department (EPD) for a CIRT incident briefing. I spoke to APD Operations Commander Bart Silvers, and apprised him of our deployment. The briefing location was changed from EPD to the HCSO shortly after our arrival.

At approximately 2130 hours, Detective Johnson, ET. [redacted] and I attended a CIRT Incident briefing at the HCSO Major Crimes Division. The briefing was facilitated by HCSO Detective-Sergeant Brian Taylor, HCSO Investigator Scott Hicks and HCSO Investigations Lieutenant Sam Williams. Investigators from various CIRT member agencies were in attendance.

During this briefing, assignments were given in accordance with the Humboldt County CIRT Protocol, and a synopsis of the information known to investigators at the time was provided. HCSO Investigator Hicks, and Humboldt County District Attorney Investigator (HCDAI) Braden Brauner were assigned as CIRT Incident Lead and Co-Lead.

In summary, I learned a marked HCSO patrol unit, consisting of a Field Training Officer (FTO) and his recruit, had been in pursuit of a vehicle near the Eureka Municipal Golf Course, and had been fired upon, with a high powered rifle, by the front passenger of the fleeing vehicle. At some point during the pursuit, the pursuing deputies returned fire, likely from their department issued patrol rifle, and likely from within their vehicle. The fleeing vehicle eventually crashed at the intersection of Buhne Street and Harrison Ave, and the three occupants were detained there. An AK-47-style rifle was located inside the suspect vehicle.

An EPD officer had engaged in a very brief pursuit, of likely the same vehicle, and had terminated just prior to the involved deputies initiating their independent pursuit.

Three physical crime scene locations along the pursuit route were designated as follows:

- **Location #1:** Vance Avenue at Eureka Street
- **Location #2:** Highland Avenue at Utah Street
- **Location #3:** Harrison Avenue at Buhne Street

Location #1 was identified as the likely location where shots were first fired by the suspect(s) at the pursuing deputies. **Location #2** was identified as the likely location where additional shots were fired by the suspect(s),

and where deputies likely returned fire. **Location #3** was identified as the pursuit termination point, due to a traffic collision.

I was assigned as **Team Leader for Location #1**, with the following personnel assigned to this team:

- California Department of Justice (CALDOJ) Senior Criminalist [redacted]
- CALDOJ Criminalist [redacted]
- CALDOJ Criminalist [redacted]
- California Department of Fish & Wildlife (CDFW) K-9 Warden Shane Embry
- Humboldt State University Police Department (HSUPD) Lieutenant Peter Cress
- Fortuna Police Department (FoPD) Officer JJ Mullens

HCSO Detective Sergeant Bryan Taylor gave me additional details for **Location #1,** to include, HCSO deputies had secured this location and were currently standing by, an inhabited residence at [redacted] **Vance Ave** had been struck by a bullet, two expended bullet casings had been secured by deputies after they were found in the street.

I arrived at **Location #1** at approximately 2233 hours. I noted the secured crime scene perimeter consisted of a five to six residential block radius, between Herrick Ave and Meyers Ave. It was delineated by yellow crime scene tape strung across the intersection of Meyers Ave and Eureka St, to the northeast, and yellow tape across the intersection of Vance Ave and Herrick Ave, to the southwest. I observed an HCSO Deputy guarding the northeast access point and another Deputy was guarding the southwest. I confirmed a crime scene log had been initiated and was told Deputy Stoner had been assigned.

Inside the crime scene, I spoke to HCSO Lieutenant Jessie Taylor, who directed my attention to the residence with a likely bullet strike ([redacted] Vance Ave), as well as one of the bullet casings still lying in the street being guarded by a deputy. I was informed the second casing had been picked up off of the street by a resident, within the crime scene, and was handed to a deputy who secured it in his vehicle.

I spoke to HCSO Patrol Sergeant Matt Helm at the scene, and he assisted me by coordinating deputies assigned to scene security.

After receiving an initial scene briefing, I assumed responsibility for **Location #1** and delegated the following tasks:

Processing of the residence struck by a bullet ([redacted] Vance Ave):

- DOJ Criminalist [redacted]
- DOJ Criminalist [redacted]
- DOJ Criminalist [redacted]

Neighborhood Canvass for witnesses and video footage:

- HSUPD Lieutenant Cress
- FoPD Officer Mullens

Hand-search of entire scene for additional evidence:

- CDFW Warden Embry and his Ammo Detection K-9
- DOJ Criminalist [redacted]
- DOJ Criminalist [redacted]
- DOJ Criminalist [redacted]

Collection of spent casings:

- DOJ Criminalist [redacted]

At approximately 0100 hours, the following persons arrived at **Location #1** to assist with the canvassing effort:

- APD Detective Johnson
- APD ET. [redacted]
- HCDA Investigator Martin Morris
- FoPD Officer Burley
- EPD Detective Cassetti

The canvass effort consisted of an attempt to make contact at every residence on Vance Ave and Eureka Street, between Herrick Ave and Myers Ave.

After the residence at [redacted] Vance Ave had been processed and released, I was notified by DOJ Criminalist [redacted] that we were able to retrieve bullet jacket fragments, but no bullet core was found. He suspected the bullet had traveled beyond the interior wall and was perhaps somewhere inside the residence. I instructed Detective Johnson and ET. [redacted] to make contact at the residence once again for a secondary search, but they received no response; likely due to the late hour.

At approximately 0230 hours, I participated in a CIRT Team Lead debriefing phone call, while **Location #1** was still being processed. I relayed pertinent scene information during this debriefing, to including the issue with the bullet at [redacted] Vance Ave, and it was agreed that we would make another attempt the following day.

Three dimensional scanning of the scene was completed by:

- HCSO Deputy Tim Jones
- HCSO Deputy Patrick Del Rosario

At approximately 0330 hours, at the conclusion of the 3D scanning process, I instructed deputies to collapse the perimeter and we release the scene.

The following morning, APD Detective Johnson, APD ET. [redacted] and EPD Detective Cassetti located and retrieved the bullet from inside the residence at [redacted] **Vance Ave**.

Refer to individual investigative reports for details and results of each assigned task at **Location #1,** to include canvassing efforts, witness statements, existence of residential video footage or lack thereof, 3D scanning, evidence collection, processing and chain of custody.

DISPOSITION:

This report will be forwarded to CIRT Incident Lead and Co-Lead Investigators Hicks and Brauner.

CLOSED.

CONTROLLED DOCUMENT- DO NOT DUPLICATE

On 7-20-22 at about 1929 hours, I responded to Buhne St and Harrison Ave, Eureka, after the Humboldt County Sheriffs Office (HCSO) requested assistance. HCSO deputies had been involved in a pursuit in which a passenger had fire multiple shots at the pursuing deputies. The pursuit had terminated at this location after the vehicle collided with an uninvolved vehicle in the intersection.

I responded Code-3 (emergency lighting and siren activated) and arrived on scene a short time later. As I arrived on scene, HCSO deputies and Eureka Police Department officers were detaining a third person from the suspect vehicle.

I assisted the deputies and officers in providing cover on the suspect vehicle while a team cleared it to verify that no one else was inside and then assisted with clearing the vehicle that had been struck.

I then provided scene security and assisted in adjusting the handcuffs on one of the detained suspects.

Disposition: CLOSED

Good Morning,

I spoke with [redacted] this morning. He's also fine with releasing the pistols as long as they've been processed and confirmed not to have been fired/involved in the OIS. He also added, "…and as long as there's no plan to sell it" in the off chance something comes up later or it's needed for whatever reason down the road for trial purposes... So yes, the pistols can be released.

From: Hicks, Scott <SHicks@co.humboldt.ca.us>
Sent: Monday, August 1, 2022 1:38 PM
To: [redacted]
Cc: Brawner, Braden <BBrawner@co.humboldt.ca.us>; [redacted]
Subject: Officer Involved Shooting

[redacted]

As our investigation proceeds, I have a few questions on how you best like to proceed. I have CCd [redacted] and Investigator Brawner so that they may weigh in as well.

LAW ENFOCEMENT WEAPONS:
Through our investigation, we have determined that the only shots fired by law enforcement were from the rifle of Deputy Walstrom. The night of the incident we collected pistols from Deputy Walstrom and Deputy Dickson. The rifle is set to be sent to DOJ for functionality testing and test fire. We were seeking permission to release the pistols back to the Deputies without further analysis. Yes, those may be returned.

VEHICLES:
On July 27, 2022, we served a search warrant of the vehicles. DOJ is preparing their report on that search. There were no bullet strikes in the suspect vehicle. We recovered several phones (11 I think) some small amounts of drugs (user quantities), and some personal property of [redacted]. The patrol vehicle had 6 strikes. 5 ricochet or fragments and 1 strike that appears to be a direct hit to the radiator that we were unable to recover. The officer's are coming to remove their gear tomorrow then we will be ready to turn the vehicles over to your office.

[redacted] from DOJ suggested attempting to have the garage provide us any bullets they recover when they repair it.. [redacted] from suggested that if we have our garage remove the radiator and bumper and booked them into evidence, the rest of the vehicle would have not evidentiary value and we would not have to store it. The vehicles remain at Humboldt Tow and we will coordinate turning them over to your office but wanted to make sure you had [redacted] opinion. We did not know if you wanted to receive both vehicles or if you wanted to try and collect the radiator and bumper and release the patrol vehicle as [redacted] had suggested. After [redacted] and Braden inspect the vehicle if they are OK releasing it, then we need to notify the defense before the vehicle is released. I like [redacted] idea but we must preserve the evidence until the defense has had an opportunity to look at it as well.

[redacted] **PROPERTY:**
[redacted] has inquired about retrieving property she had in the suspect vehicle. She has retained [redacted] as counsel and I have been trying to coordinate with him to obtain a statement from her. We removed the following items from the suspect vehicle that belong to [redacted].

1. Cell phone
2. Chromebook
3. Pink sequined bag containing Chromebook and paperwork (she outlines the paperwork as being for her job preparing tax returns)
4. Black purse with misc personal items

These items were taken as part of the search warrant. I am not sure of the evidentiary value of the cell phone and Chromebook at this point as we do not have an interview of [redacted]. The bag and purse do not appear to have any evidentiary value and were removed as she is a potential victim and clearly belong to her. I would like to return the bag and purse and was wondering if you would agree with me and how we can proceed on getting the items released since they were part of the search warrant? That sounds fine and we need to file a PC 1536 with the court in order to return any property taken during a search warrant. Braden – can you help Scott with the form we always use to return property seized during a warrant. THANKS.

Thanks,
Scott

DUPLICATION OR REISSUANCE CONTROLLED BY LAW

On 7/21/22 at about 1957 hours I was off-duty when I received a phone call from the Cal Poly Humboldt Dispatcher advising there had been an officer involved shooting in Eureka and that the involved agency was requesting a mutual aid call out to assist. I responded to the Humboldt County Sheriff's Department where Sgt. B. Taylor briefed the assembled personnel on the facts known at the time. I was assigned to the area of [redacted] Vance Avenue in Eureka. My role was to canvas the neighborhood seeking witness statements. I partnered with Officer J.J. Mullen from the Fortuna Police Department. By way of summary, Officer Mullen and I attempted contact at the following locations with the following general results:

[redacted]Vance Ave. where Officer Mullen obtained a witness statement.
[redacted]Vance Ave. where the resident had not been home during the time of the call.
[redacted]Eureka St. where Officer Mullen obtained a witness statement.
[redacted]Eureka St. where the resident had not been home at the time of the incident.
[redacted]Eureka St. where Officer Mullen obtained a witness statement.
[redacted]Eureka St. where I obtained a witness statement from [redacted] and [redacted]
[redacted]Leonard St. where Officer Mullen obtained a witness statement.
[redacted]Leonard St. where I obtained a witness statement from [redacted] and [redacted]
[redacted]Eureka St. where no one answered the door.
[redacted]Eureka St. where I obtained a statement from [redacted] and [redacted].
[redacted]Eureka St. where the resident advised they had heard or seen nothing.
[redacted]Meyers St. where there was no answer at the door.
[redacted]Eureka St. where the was no answer at the door.
[redacted]Eureka St. where there was no answer at the door.
[redacted]Eureka St. where Officer Mullen obtained a witness statement.
[redacted]Eureka St. where there was no answer at the door.

I audio recorded a conversation with [redacted] and [redacted] at [redacted]. I later attached the recording to the case in RIMS. In summary, [redacted] and [redacted] said they were home, inside their house, between 1900 and 2000 hours. [redacted] heard a loud crash that sounded like a ladder falling off of a vehicle. The sound came from the area near Eureka and Vance Streets. [redacted] then heard sirens and gunshots simultaneously. Based on the sounds, [redacted] believed there was a non-police vehicle that sped by the house first with the police vehicle following. [redacted] believed the non-police vehicle was driving the fastest he had ever seen on the street. He heard about three guns shots in quick succession. The sirens passed by the house. [redacted] went to the door and heard/saw another patrol vehicle drive past the house about 30 seconds behind the first sirens. [redacted] added that the sounds appeared to be gunshots. She first thought that the sounds were backfires from a car and she mentioned that to [redacted] in the moment. She heard three shots and heard the sirens at the same time.

I audio recorded a conversation with [redacted], and [redacted] at [redacted]. I later attached the recording to the case in RIMS. In summary, [redacted] said she was inside her kitchen when she heard gunshots. [redacted] thought she heard two gunshots initially. The shots sounded like they were coming from the west of her location near Vance and Eureka Streets.

[redacted] said he was outside his house when he heard two gunshots coming from the area of Vance and Eureka

Streets. They sounded like they occurred just to the south of Eureka Street on Vance Street. [redacted] then heard the vehicles approaching eastbound on Eureka Street. He then heard two additional gun shots that occurred on Eureka Street about 40 yards west of [redacted] location. [redacted] heard a non-police car go by. [redacted] walked toward his gate where he was able to see the street. He saw two police cars with sirens chasing the non-police car (which he had only heard). About a minute later another police car drove past. [redacted] said he continued to hear the chase as it went toward Bonomini's Market. He heard four more shots occur in the distance near what he estimated to be Bonomini's Market.

[redacted] and [redacted] said the shots that occurred nearest their house occurred simultaneously with the sirens. [redacted] did not remember hearing sirens at the time she heard the first shots come from the area around Eureka and Vance Streets. [redacted] and [redacted] said that after the incident they had walked to Fairway Market where the owner said he had seen the police chasing a white vehicle. [redacted] said the firearm sounded like a pistol to him. [redacted] was in the kitchen and did not hear any shots coming from the area of Vance and Eureka Streets. She did hear a gun shot near her house with the sounds of the police cars following moments thereafter.

I audio recorded a conversation with [redacted] and [redacted] at [redacted]. I later attached the recording to the case in RIMS. In summary, [redacted] said that between 1930 and 2000 hours he was in the backyard of the house with his girlfriend. They heard a couple of loud noises from the street and almost immediately heard sirens driving eastbound on Eureka Street. [redacted] added that she looked out and saw three police cars driving by.

After completing the neighborhood canvas I cleared the scene and went off-duty. I request that this case be forwarded to Investigator Scott Hicks at the Sheriff's Office for inclusion in HCSO case 2022003774.

DUPLICATION OR REISSUANCE CONTROLLED BY LAW

Humboldt County Sheriff's Office

Criminal Investigations Division

Charging Summary (Report to follow)

CASE:
202203774

ARRESTEE:
[redacted]

CHARGES REQUESTED:
PC664/187(a) (2 counts) attempted homicide of peace officer, PC29800(a)(1) felon in possession of a firearm, PC3056, violation of parole

ARRESTEE:
[redacted]

CHARGES REQUESTED:
VC2800.2, felony evading, VC14601.2(a), driving on a suspended license, PC3056, violation of parole

SUMMARY:
On July 20, 2022, at about 1920 hours, Humboldt County Sheriff's Deputies observed a white Kia [redacted] traveling on Fairway Drive at a high rate of speed. [redacted] was driving the vehicle. [redacted] was in the front passenger seat. [redacted] was in the rear seat on the passenger side.

Deputies Dickson and Walstrom were a double unit behind the Kia [redacted] and initialed a vehicle pursuit. The vehicle was a marked black and white Sheriff's patrol vehicle. They had their overhead lights and siren activated. Deputy Anderson was in a vehicle behind them. At this point it is unknown if Deputy Anderson was there at the initiation of the pursuit or joined it quickly after it started.

The pursuit continued to intersection of Vance Avenue and Eureka Street in the unincorporated area of Eureka. [redacted] fired rounds at the patrol vehicle occupied by Deputies Dickson and Walstrom.

The pursuit continued to the area of Utah Street and Highland Avenue in the City of Eureka. At this point [redacted] fired rounds at the patrol vehicle occupied by Deputies Dickson and Walstrom. Deputy Walstrom returned fire.

The pursuit continued to the intersection of Central Avenue and Henderson Street. The pursuit traveled eastbound on Henderson Street. Henderson Street is two lanes of one way westbound traffic clear to I Street.

The pursuit traveled to eastbound Buhne Street approaching Harrison Avenue. At the intersection of Harrison Avenue and Buhne Street the Kia [redacted] collided with a Blue Toyota [redacted] occupied by [redacted].

The entire pursuit was on city streets. During the pursuit Deputies regularly updated dispatch with speeds ranging from 30-70 miles per hour.

[redacted], [redacted] and [redacted] were detained without further incident. No injuries were reported at this time.

District Attorney Investigator Branwer and I interviewed [redacted]. Investigator Branwer read [redacted] a Miranda Admonishment and he stated he understood his rights. [redacted] provided the following statement:

[redacted], [redacted] and [redacted] were "driving around". [redacted] was holding an SKS rifle in his lap because he needs a gun to feel safe. When the Deputies initiated a traffic stop he pointed the gun at the center mass of [redacted] and told him to flee. [redacted] stated he directed [redacted] when to turn and what direction to go.

[redacted] leaned out the passenger window and displayed the rifle to the Deputies to get them to stop pursing. The patrol vehicle got closer to the Kia and [redacted] believed the patrol vehicle was going to hit the Kia in an attempt to end the pursuit.

[redacted] fired several shots at the Deputies. [redacted] said he was glad the Deputies did not get hurt. He stated he had "two strikes" and knew he "was done for", indicating he would be going to prison for 25 years to life.

[redacted] said as he was pulling the gun back into the vehicle, a round fired into the air.

[redacted] was unable to determine how much longer the pursuit continued when he and a Deputy exchanged gunfire.

[redacted] stated that after the crash he held the gun outside of the vehicle to show Deputies it was no longer a threat so that they did not shoot. [redacted] started he did not want [redacted] or [redacted] to get shot.

Investigator Brawner and I attempted to interview [redacted]. Investigator Brawner read [redacted] Miranda Admonishment and he stated he understood his rights. [redacted] indicated he wanted to speak with an attorney.

Investigator Brawner and I attempted to interview [redacted]. Investigator Brawner read [redacted] a Miranda Admonishment and she stated she understood her rights. [redacted] indicated she wanted to speak with an attorney.

[redacted] and [redacted] were booked into the Humboldt County Correctional Facility. [redacted] was released and provided a ride home.

A resident at [redacted] called and reported that a bullet had struck her residence. Investigators responded and learned that when the bullet struck the residence a piece of the bullet jacketing had landed on the resident's arm.

California Highway Patrol Officer Bjork investigated the collision. As part of his investigation he spoke with [redacted] stated he was traveling southbound on Harrison Avenue at Buhne Street and stopped at the intersection because the light was red. When the light turned green he entered the intersection and observed the Kia traveling at him at a speed he estimated to be 40 miles per hour. The Kia then collided with the passenger side of his vehicle.

At the intersection of Harrison Avenue and Buhne Street, near the front passenger door, Investiagtors recovered AK style semi-automatic rifle with a 30round detachable magazine attached.

[redacted] has multiple felony conviction making it illegal to possess a firearm. [redacted] is on active parole for possession of a controlled substance for sales.

[redacted] has a suspended driver's license with valid service. He is on active parole for vehicular homicide. He had a warrant for absconding parole.

This document is intended to provide information to assist the District Attorney's Office in making charging decisions. This is not a complete account of the case. This is an ongoing investigation. A complete account of the case to the current point will be forwarded to the District Attorney's Office as soon as possible. Additional reports will follow as the case progresses.

Case Number: CHP M075-107-22/HCSO 20223774
Suspect(s): [redacted]

SUMMARY

On 07/20/2022, at approximately 2000 hours, I was contacted by CHP Captain Shawn Morris, ID 16859, and notified of an Officer Involved Shooting involving an employee of the Humboldt County Sheriff's Office (HCSO) within the Eureka city limits. Captain Morris related the Humboldt County Critical Incident Response Team (CIRT) protocol had been activated. An initial briefing was held at the Humboldt County Sheriff's Office at approximately 2115 hours.

I attended the briefing and learned that two HCSO Deputies, within the same patrol vehicle, had been involved in a pursuit. During the pursuit, an occupant within the suspect vehicle had fired multiple rounds from an "AK" type variant long gun at the deputies. I also learned that one of the deputies had returned fire at the suspect vehicle with a patrol rifle during the pursuit. The suspect vehicle was involved in a traffic collision at the intersection of Harrison Avenue at Buhne Street in Eureka. Three occupants in the suspect vehicle were detained without further incident by the deputies.

I was assigned by HCSO Lieutenant Sam Williams as team leader at the pursuit termination point to assist in processing the scene located at Harrison Avenue at Buhne Street in Eureka. Fortuna Police Detective B. Taylor was assigned to assist me.

I was advised by Captain Morris that CHP Officer Bjork, ID 20962, was assigned to investigate the property damage collision*. Refer to CHP collision report 9125-2022-00532.

**Investigator's note: The collision occurred within the Eureka city limits.*

At approximately 2210 hours, I responded to the pursuit termination point and arrived on scene at approximately 2216 hours. Upon my arrival, I entered the scene and contacted Eureka Police Department (EPD) Officer C. Baird who was maintaining the scene log.

Shortly after my arrival, HCSO Deputies Tim Jones and Patrick Delrosario conducted a Leica scan of the scene.

After completing the Leica scan, HCSO Evidence Technician [redacted], HCSO Detective Destry Henderson and EPD Detective Ray Nunez arrived. They conducted weapon inspections and round counts on the two HCSO vehicles that contained shotguns and patrol rifles and collected the AK-47 variant rifle. Refer to their reports for a complete listing of evidence.

I observed the following while in the scene:

- HCSO Ford Patrol Utility Vehicle, California exempt license plate [redacted], located in the westbound lane of Buhne Street, west of Harrison Avenue with emergency lighting activated.
  - Front windshield damage consistent with occupant discharging a firearm from within vehicle. Damage from the discharge was approximately 5 inches in diameter with cracking of windshield radiating outwards. Damage was located left of center of the windshield (perspective as seated within vehicle).
  - Six (6) bullet strikes to right front fender/grill area.
  - AR-15 patrol rifle situated in between driver's seat and center console with muzzle facing towards floorboard.
  - Less lethal shotgun in locked mount between driver and passenger seat.

- HCSO Ford Patrol Utility Vehicle, California exempt license plate [redacted] located within the eastbound lane of Buhne Street at Harrison Avenue facing in a northeasterly direction. Patrol vehicle's front end partially in crosswalk, with emergency lighting activated.
  - No damage observed.
  - AR-15 patrol rifle and less lethal shotgun located in locked mounts between driver and passenger seats.

- Eureka Police Department Ford Patrol Utility Vehicle, California exempt license plate [redacted], located in westbound lane of Buhne Street, west of Harrison Avenue, to the rear of HCSO vehicle [redacted], with emergency lighting activated.
  - No damage observed.
  - Weapon status not noted, Vehicle operator, EPD Sgt. Eddie Wilson not involved in shooting.

- [redacted] Kia [redacted] California license plate [redacted], registered owners (pending master file): [redacted] & [redacted], [redacted]. Located within the intersection of Buhne Street and Harrison Avenue facing in an easterly direction.
  - Moderate front end damage due to collision.
  - Rear hatchback opened, some luggage and catalytic converter located on ground to rear.

- AK-47 variant type long gun with folding stock and high-capacity magazine partially under right front tire.

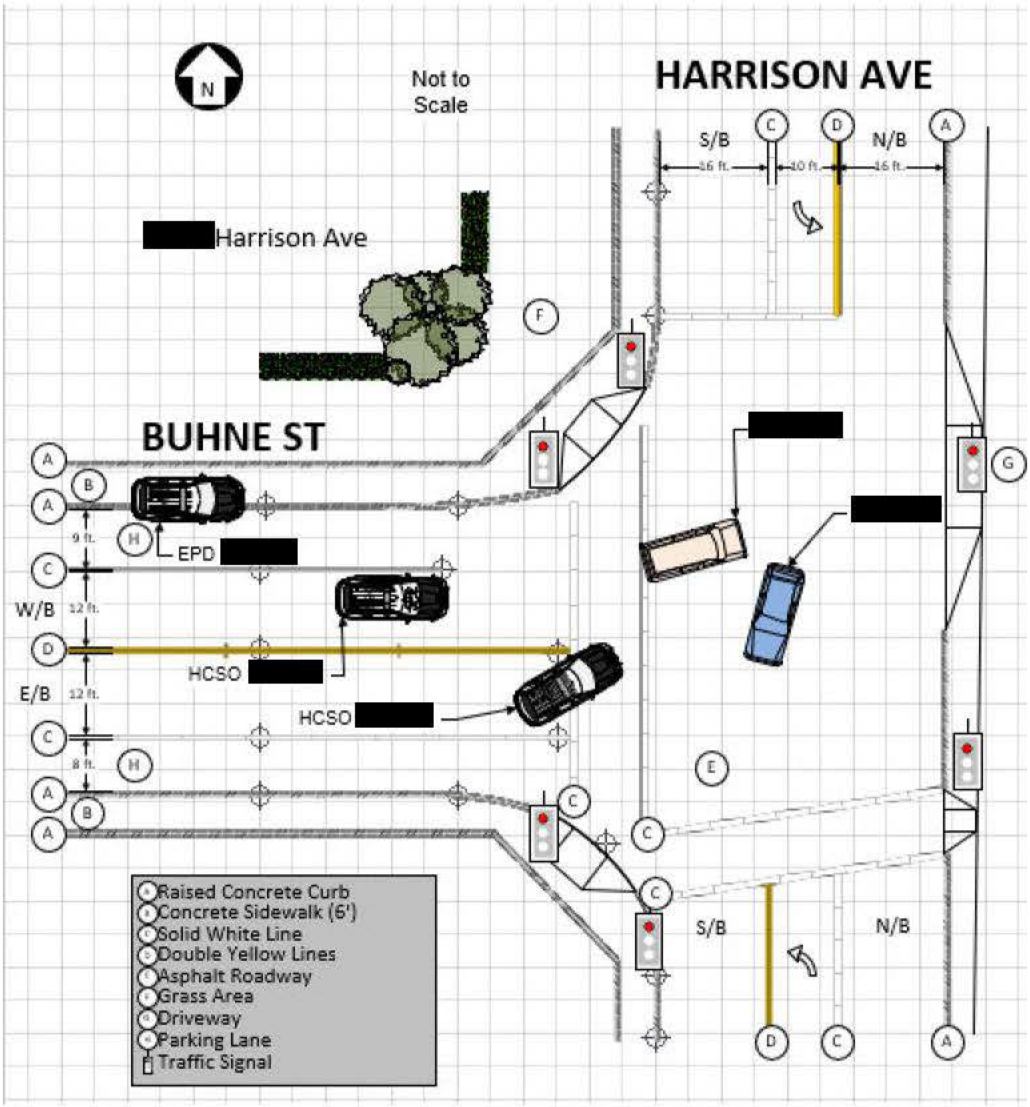

- [redacted] Toyota [redacted] California plate [redacted]. Registered owner: [redacted], [redacted]. Located within intersection of Harrison Avenue and Buhne Street facing in a southerly direction. The vehicle was being driven by [redacted], California license [redacted], at time of the collision.
  - Vehicle sustained moderate right-side damage as result of being struck by the Kia [redacted]

Also observed in the crime scene were sunglasses in front of HCSO patrol vehicle #[redacted], and a red trucker's hat in the middle of the intersection of Harrison Avenue and Buhne Street.

Refer to Page 4 for approximate orientations of the vehicles within the crime scene/termination point of pursuit.

At approximately 2318 hours, I was contacted by HCSO Detective Brandon Head and advised that a search warrant had been obtained for the [redacted] Kia [redacted] California license plate [redacted]. Detective Head e-mailed me a copy of the warrant. It was decided the search of the suspect vehicle would not take place at the scene but would be done the following day in daylight hours.

Case Number: CHP M075-107-22/HCSO 20223774
Suspect(s): [redacted]

At approximately 0110 hours, I contacted Humboldt CHP Communication Center (HCC) and obtained [redacted] telephone number. I then contacted [redacted] and informed him that he would be able to have access to his vehicle soon. I inquired with [redacted] if he would need a ride and he responded he would. I advised him I would pick him up and bring him to his vehicle once we were finished.

At approximately 0130 hours Humboldt Towing was contacted by HCSO for their patrol vehicle and the suspect vehicle. I contacted [redacted] and advised him that I was responding to his residence to pick him up.

I responded to [redacted] address, picked him up and returned to the scene. His vehicle was then removed from the scene.

Humboldt Towing had arrived on scene and towed the involved patrol vehicle and suspect vehicle. Humboldt County Sheriff's Office completed the CHP 180 paperwork.

The scene was cleared at approximately 0215 hours.

On 07/27/2022, CHP Captain S. Morris provided a statement to me as a witness to the pursuit:

> The purpose of this supplemental is to document my observations of an allied agency vehicle pursuit, in which the suspect fired gunshots at the pursuing unit, on the evening of 7/20/2022. I am currently assigned as the Commander of the CHP Humboldt Area in Humboldt County. On 07/20/2022, at approximately 1920 hours, I was in my residence, located on the [redacted], when my attention was drawn to the sound of a police siren moving closer to my location. Upon hearing the siren, I looked out the front window of my residence and saw a white SUV (suspect vehicle) being pursued by a fully marked, black and white police utility vehicle (PUV) with its full code-3 lights and siren activated. The PUV was pursuing the suspect vehicle northbound on Vance Avenue at a high rate of speed approaching Eureka Street. The pursuit continued onto eastbound Eureka Street at a high rate of speed. Suddenly and without warning, I heard the sounds of gunfire (three gunshots) as the pursuit continued on Eureka Street and then onto Meyers Avenue and out of my sight. Upon seeing the pursuit and hearing the gunshots, I called the CHP Humboldt Communications Center (HCC) and reported that I saw and heard an allied agency pursuit pass my location and

that gunshots were possibly fired during the pursuit. HCC confirmed the Humboldt County Sheriff's Office (HCSO) was in pursuit of a white SUV at my location and that shots had been fired at the pursuing unit. I advised HCC that I would be enroute to assist HCSO and likely the Eureka Police Department as this event was occurring within their jurisdiction. Upon my arrival to the termination point of the pursuit, at Buhne Street and Harrison Avenue, I responded to the allied agency command post and established myself as the liaison for CHP operations in assistance to this incident.

**Investigator's note: Captain Morris provided his exact address to me in his statement. I have redacted his exact address from his statement for confidentially reasons.*

RECOMMENDATIONS

I recommend that a copy of this supplemental report be forwarded to the Humboldt County Sheriff's Office.

COUNTY OF HUMBOLDT

PEOPLE OF THE STATE OF CALIFORNIA, State of California Plaintiff, vs. [redacted] Defendant.	CASE NO. CR2202006 HCSO#202203774 SW NO. SW2200440 REQUEST FOR RELEASE OF SEIZED PROPERTY (PENAL CODE SECTION 1536)

Comes now Investigator Braden Brawner, a peace officer employed by the District Attorney of Humboldt County, alleges as follows:

On or about 07/21/2022, Search Warrant Number SW2200440 was issued by the Court and executed by the Humboldt County Sheriff's Office & CA Department of Justice. The seized property is indicated on the attached evidence list (Exhibit 1).

Items of personal value belonging to an involved party, [redacted], were discovered inside the seized property. The owner of these items requests their return. Of the items requested, the following were analyzed and determined by case investigators to hold no evidentiary value to the charges filed in this case:

1) HCSO Property ID# 46: Black Coach Purse - contains driver's license, social security card, credit cards, and various other miscellaneous items.
2) HCSO Property ID# 48: Sequenced Tote Bag - containing clothing, personal grooming items, notebooks, folders, and various paperwork.

Wherefore, I respectfully request the Court's authorization to release the above-listed items seized pursuant to said search warrant as otherwise authorized by law.

DATED: 8/2/2022

P/N 2466

On 07/20/2022, I was requested to assist with an OIS investigation, I responded to the Humboldt County Sheriff's Office for a briefing.

I accessed the Visual Labs Inc. website to view any body worn camera that may be associated with the incident. Several other investigators at the briefing reviewed the footage with me. I was able to view body worn camera footage that had been uploaded by Deputy Dickson and Deputy Anderson.

I was assigned along with Investigator Henderson and Detective Nunez from the Eureka Police Dept (EPD) to process the involved deputies. We responded to EPD where the involved deputies were waiting.

Deputy Walstrom was processed first. I took overall photographs of Walstrom including his gear. Round counts were conducted on Walstrom's firearm and spare magazines, counts were verified by Detective Nunez and photographed by me. See Investigator Henderson's report for round counts totals and further details. The following items were collected from Walstrom:

1. Glock 17 Gen 5 handgun, Ser# [redacted] 1 Hornady 9mm round from the chamber, the magazine contained 22 Hornady 9mm rounds, 3 spare magazines, each with 22 rounds of Hornady 9mm ammo

Located: on duty belt and duty vest

2. Galaxy Xcover Pro dept. issued cell phone, placed in airplane mode, locked, pass code of [redacted] provided

Located: duty vest

3. Swab of reddish brown stain of potential blood

Located: front of duty vest above name tag

Deputy Dickson was processed next. I took overall photographs of Dickson including his gear. Round counts were conducted on Dickson's firearm and spare magazines, counts were verified by Detective Nunez and photographed by me. See Investigator Henderson's report for round count totals and additional details. The following items were collected from Dickson:

1. Glock 17 gen 4 handgun, 1 Hornady 9mm round from chamber, magazine with 16 Hornady 9mm rounds, 2 spare magazines, each with 16 rounds of Hornady 9mm ammo

Located: on duty belt and duty vest

2. Galaxy Xcover Pro dept. issued cell phone, placed in airplane mode, locked, pass code provided of [redacted]

Located: from duty vest

Deputy Anderson was processed next. I took overall photographs of Anderson including his gear. Round counts were conducted on Anderson's firearm and spare magazines, counts were verified by Detective Nunez and photographed by me. See Investigator Henderson's report for round count totals and additional details. No items were collected from Anderson.

I then responded to Buhne and Harrison with Investigator Henderson and Detective Nunez to assist with processing the scene for evidence. I took overall photographs of the scene.

The scene was closed off with evidence tape on the south and north side of Harrison ave at the intersection of Harrison and Buhne. A larger perimeter was also set up with crime scene tape further out from the intersection. The crime scene was being controlled by LE personnel and a sign in sheet was being kept.

Prepared By:	Date:	Approved By:	Date:
2015 [redacted]	07/21/2022	1377 TAYLOR, BRIAN	08/31/2022
[ ] *BODY CAMERA RECORDED*			

In the middle of the intersection facing to the south west corner was a Toyota [redacted] CA Lic#[redacted]. Also in the middle of the intersection facing to the north east was a white Kia [redacted] Ca lic#[redacted]. A HCSO patrol vehicle (07221) was parked in the cross walk across Buhne St., to the rear of the Kia [redacted] and facing in the north east direction. A second HCSO patrol vehicle (07236) was parked in the west bound lane of Buhne St. facing to the east. Parked behind this patrol vehicle was an EPD patrol vehicle (99) facing the same direction. The overhead lights of both HCSO vehicles were on.

The [redacted] had crash damage to the front passenger side door area. I was informed this vehicle was uninvolved in the pursuit other than being crashed into by the suspect vehicle at the end of the pursuit.

The [redacted] had minor crash damage to the front bumper area. The rear hatch to the vehicle was open and several items wee on the ground behind it including a suitcase and vehicle parts. The rear, passenger side door was open. On the ground underneath the front passenger side wheel was a 7.62x39 FEG SA 2000M rifle. Skid marks lead from prior to the intersection to the [redacted] resting place. A cell phone was visible in the center console. I placed the cell phone in airplane mode and returned it to the car. Black sunglasses and a red hat were located on the ground to the south of the [redacted] these two items were placed in the vehicle along with the items which appeared to have fallen out of the trunk. The car was sealed with evidence tape for towing as evidence and processing at a later date.

HCSO patrol vehicle 07236 had both front doors open. A projectile defect was in the front windshield in front of the driver. There appeared to be several projectile defects in the passenger side grill and bumper of the vehicle. A patrol issued rifle was lying in the driver's seat area.

Rounds counts were conducted on the following guns located in vehicle 07236:

1. M4 carbine 5.56mm cal. ser#[redacted]. There was 1 Hornady .223 Rem round in the chamber and 23 rounds of the same make and caliber in the magazine

2. Remington Wingmaster Model 870, ser#[redacted] There were no rounds in the chamber and 5 rounds on the stock of the shotgun.

The round count was verified by Detective Nunez. I photographed the round count. The less lethal shotgun was locked in the gun rack in the vehicle. 1 casing was visible on the floorboard of the drivers seat. This vehicle was sealed with evidence tape for towing as evidence and processing at a later date.

Round counts were conducted on the following two guns located in the locked gun rack of HCSO patrol vehicle 07221:

1. M4 Carbine cal 5.56mm ser#[redacted], 29 Hornady 223 rem rounds in magazine

2. Remington Wingmaster Model 879, ser#[redacted], no rounds in chamber or on stock of gun

Round counts were verified by Detective Nunez. I photographed the round counts. This vehicle was not taken as evidence.

The following items were collected from the crime scene at Harrison and Buhne.

1. M4 carbine 5.56mm cal. ser#[redacted], 1 Hornady .223 Rem round from the chamber and 23 rounds of the same make and caliber in the magazine

2. Remington Wingmaster Model 870, ser#[redacted] No rounds in the chamber and 5 rounds on the stock of the shotgun.

3. 7.62x39 FEG SA 2000M rifle ser#[redacted], one wolf 7.62x39 round removed from chamber, magazine

w/ 7 wolf 7.62x39 rounds.

The scene was scanned with a Leica C10 scanner. See Deputies Del Rosario and Jones for details. I returned to HCSO with all items collected and placed them in my locked office.

On 07/21/2022, I copied all photographs to a DVD and booked it into evidence along with all other items collected.

On 07/21/2022, I received the below two items from Detective Casseti and EPD and Evidence Tech [redacted] from EPD:

1. Expended bullet
2. Flash drive with Faro RAW scan data and deliverable

These items were collected at Utah and Highland, I booked them into evidence. See Detective Cassette and Evidence Tech [redacted] reports for details.

On 07/21/2022, I performed a Digital Forensic examination on Deputy Anderson's dept. issued cell phone. See Digital Forensic Examination 1, Supp. #27 for details.

On 07/26/2022, I assisted with serving a search warrant on HCSO vehicle 07236 and the Kia [redacted] which had been towed for evidence. Both vehicles were located at Humboldt towing, in Eureka. Investigator Hicks and CDOJ criminalists [redacted] and [redacted] were also present. Criminalist [redacted] took photographs, see his report for additional details. I collected the following items of evidence from the [redacted]

1. Apple iPhone model A1387, no power
Located: in minecraft backpack in trunk
2. LG cell phone, no battery, Model LGVS501, IMEI [redacted]
Located: black Adidas bag
3. Samsung cell phone, broken, no power, model SM-S124DL(GP), IMEI [redacted]
4. Plastic box of w/ crystalline substance wrapped in paper towel
Located: in trunk
5. 1GB Dane flash drive
Located: in Camo back pack from rear seat
6. iPhone, no power, in black case
Located: in black coach purse in back seat
7. Coach purse, contains misc loose change, cards etc.
Located: in back seat
8. Lenovo Idea Pad 3, SN [redacted], off
Located: in sparkle bag in back seat
9. Sparkle bag containing makeup and misc. Items
Located; in back seat
10. iPhone, silverModel A1549, IMEI [redacted] no power
Located: in back seat pocket of driver's chair
11. iPhone black, no power, placed in airplane mode on scene

Prepared By:	Date:	Approved By:	Date:
2015 [redacted]	07/21/2022	1377 TAYLOR, BRIAN	08/31/2022
[ ] *BODY CAMERA RECORDED*			

Located: on top of center console

12. White a black silicone container with pink, red and white chunk of chalky substance and rainbow container with pink residue

Located: on steering column

13. Baggie with white crystalline substance

Located: attached to bong in center console area

14. At&T phone, black, broken screen, no power

Located: in center console

15. Samsung, no power, broken screen, IMEI: [redacted]

Located: in center console

16. Motorola Model #Xt1952-6, no power, IMEI: [redacted]

Located: in center console

17. Motorola, blue, no power

Located: plugged into car, between center console and passenger seat

18. Motorola, no power, cracked screen

Located: in glove box

No items were collected by HCSO from the patrol vehicle. Items related to firearms were collected directly by DOJ. On 07/27/2022, I booked into evidence all items collected from the vehicles.

On 08/01/2022, I responded to South Bay Union Elementary school district with DA Investigator Morris to retrieve security camera footage from Pine Hill Elementary school. I copied the footage to an external hard drive. Upon returning to the HCSO, I created a copy for Investigator Hicks and copied the footage to a flash drive. I booked the flash drive into evidence.

On 08/02/2022, I performed a Digital Forensic Examination on Walstrom and Dickson's dept. issued cell phones. See Digital Forensic Examination 2, Supp. #28 for details. After the examination I took Deputy Walstrom's phone out of airplane mode and connected it to WiFi. This allowed the Visual Labs body worn camera footage to upload to the Visual Labs portal.

On the Visual Labs portal which retains HCSO body worn camera footage I located all items associated with this incident. I marked 19 items with the caption 202203774 OIS and marked their retention as indefinite. This included 17 videos and 2 audio recordings.

On 08/04/2022, I fingerprinted the FEG rifle. See attached Fingerprint Examination report for details.

On 08/10/2022, I was provided a search warrant for the electronics collected as evidence from the KIA [redacted] see Digital Forensic Examination 3, supp #26 for details.

Nothing further.

Prepared By:	Date:	Approved By:	Date:
2015 [redacted]	07/21/2022	1377 TAYLOR, BRIAN	08/31/2022
[ ] *BODY CAMERA RECORDED*			

On 07/20/2022, at approximately 1955hrs., I was contacted by MCD Sgt. Taylor, regarding a CIRT activation regarding an Officer Involved Shooting(OIS). MCD Sgt. Taylor advised to respond to the Main Station of the Humboldt County Sheriff's Office for briefing.

Arriving at the office, MCD Lt. Williams advised there was an officer involved shooting in Eureka and HCSO Deputies were involved. LT. Williams also advised briefing would be conducted in MCD at 2115hrs.

From briefing I learned that there was a pursuit with the suspects. The number one unit in the pursuit was HCSO Deputy Walstrom and his trainee Deputy Dickson. The number two unit in the pursuit was HCSO Deputy Anderson. During the pursuit the suspect vehicle fired multiple times at the deputies and it was believed Deputy Walstrom returned fire. No other law enforcement personnel were believed to have fired a weapon. Refer to Inv. Hicks' report for complete summary of this incident.

Next, I responded to the Eureka Police Department, 604 C St. Eureka CA 95501 to contact Deputy Waltrom, Deputy Dickson and Deputy Anderson who were there waiting our arrival to conduct a round count. Responding to the Eureka Police Department with me was EPD Det. Nunez and HCSO Evidence Technician [redacted] All three of us were invovled in the individual processing of the deputies and I took notes of the round counts and firearms. Each deputy was processed individually and the other inovled deputies were not present.

At the police department all involved officer were separated and were with their peer support person prior to my arrival.

*****Deputy processing and round begins at approximately 2220hrs.*****

Deputy Walstrom was processed first. E.T. [redacted] photographed Deputy Walstrom, along with all his gear. Deputy Walstrom's ballistic carrier appeared to have a drop of blood on it and without questioning, Deputy Walstrom indicated it may have been from him biting his own lip. E.T. [redacted] took a swab sample of the substance.

Deputy Walstrom sidearm was as follows:

Glock G17 gen5 9mm serial - #[redacted](frame and slide) with a trijicon RMR rear optical sight. The firearm also had a Streamlight TLR-1HL weaponlight mounted to it. The firearm had one 9mm Hornady round in the chamber and one 22 round magazine with base plate extension.

(3) 22 round magazines with base plate extentsion(including the magazine in the firearm). The ammunition was Hornady 9mm.A label on each mag with "2271." 2271 is Deputy Walstrom's county PIN.

All three magazines were filled to capacity.

Deputy Walstrom also had one Bola Wrap serial #[redacted], with cartridge.

Prepared By:		Date:	Approved By:		Date:
1949	HENDERSON, DESTRY	07/21/2022	1377	TAYLOR, BRIAN	08/10/2022
[ ] *BODY CAMERA RECORDED*					

At this time Deptuy Walstrom's department cellphone/body worn camera was collected and he provided the passcode of [redacted]

Deputy Walstrom's firearm was collected by E.T. [redacted] along with the magazines and ammunitions.

Deputy Dickson was next and E.T. [redacted] also photographed Deputy Dickson and all of his gear.

Deputy Dickson's sidearm was as follows:

Glock G17 gen4 9mm serial- # [redacted] (frame and slide). The firearm had one round in the chamber and a 17 round magazine containing 16 rounds. The firearm had a Streamlight TLR-1HL weaponlight mounted to it. The ammunition was Hornady 9mm.

(2) 17 round magazines- ammunition was Hornady 9mm filled to capacaity

Taser serial # [redacted]

At this time Deputy Dickson's department issued cellphone/body worn camera was collected by E.T. [redacted]

Deputy Anderson was the final deputy and he was also photographed by E.T. [redacted]

Deputy Anderson's sidearms was as follows:

Glock 17 gen5 9mm serial # [redacted] frame and slide). The firearm had one round in the chamber and a 17 round magazine of Hornady 9mm.

(2)17 round magazines- 16 rounds in each of Hornady 9mm. Deputy Anderson indicated he loads all his magazines to 16 rounds and did not realize the magazine in his firearm contained 17 rounds.

Taser serial # [redacted]

Deputy Anderson did not fire a weapon and his sidearm was not collected.

Once finished with the round counts, we responding to the purusit termination location, the intersection of Harrison and Buhne St. to assist at that location.

Arriving on scene, I checked with with EPD Officer Baird who was documenting the crime scene log.

During this time CHP Det. Unsinger advised he had the signed search warrant for the suspect vehicle. Refer to CHP Det. Unsinger's report for further details.

I was also infomred during the first portion of my time on scene that the suspect firearm was under the front tire of the suspect vehicle. Later, Deputy Jones and Cpl Del Rasario who were assisting with processing the scene for evdience, collected that firearm, making is safe and documented the neccessary information.

Once the processing of the scene was completed, E.T. [redacted], Det Nunez and I conducted a round count of the firearms located in both the HCSO patrol vehicles on scene. Refer to Det. Nunez's report for details regaridng those firearms.

While on scene, it was determined the best pratcitce was to search the vehicle during daylight hours. The vehicle was secured after E.T. [redacted] placed a cellphone lying on the center console into airplane mode and items that had fallen from the truck were back into the vehicle.

I cleared the scene at approximately 0200hrs., once tow trucks were on scene and loading the suspect vehicle and the damaged patrol vehicle.

Recommendation: attach to orignal and forward to the Humboldt County District Attorney's Office.

Case Status: closed.

1949 HENDERSON, DESTRY	07/21/2022	1377 TAYLOR, BRIAN	08/10/2022
[ ] *BODY CAMERA RECORDED*			

On 7/20/22, I was working as an HCSO Patrol Sergeant assigned to the Main Station Patrol Division. At around 1920 hours, I overheard radio traffic of a pursuit involving Main Station Patrol Deputies. The Deputies were Walstrom, Dickson, and Anderson. The radio traffic was somewhat difficult to make out due to the broken broadcasts. Shortly after the pursuit began, I overheard a broadcast of shots fired. I started driving to the location of pursuit which was in the Pine Hill area. I continued observing the broadcasts while the pursuit continued through the Eureka area and terminated at the intersection of Harrison and Buhne Streets. I drove the location and saw numerous HCSO and EPD patrol officers on scene. A female subject was being escorted away from the suspect vehicle in handcuffs while Deputies conducted a felony car stop on the remaining passenger. The female was detained in the back seat of my patrol car shortly after I arrived. I then approached the passenger side of Deputy Anderson's patrol vehicle and assisted with clearing the suspect vehicle. As the suspect vehicle was cleared, I observed an AK-47 style rifle laying on the ground near the passenger side door of the vehicle. The rifle looked as it had an extended 30 round magazine.

Once the scene was secure, Sgt. Helm and I spoke with Deputies Walstrom, Dickson, and Anderson. I asked where the shooting occurred and if any deputies involved were injured and/or returned fire. Deputy Walstrom advised me the suspect, later identified as [redacted] shot at him near the intersection of Allard and Eureka, and a second time near the Highland area of Eureka. Deputy Walstrom advised he returned fire when he had been shot at near the Highland area. Deputy Walstrom said he was the driver of the patrol vehicle and Deputy Dickson was the passenger Deputy Walstrom advised Deputy Dickson did not fire his service weapon. I spoke with Deputy Dickson who confirmed he did not fire. I then spoke with Deputy Anderson who also confirmed he had not fired and was secondary in the pursuit. Sgt. Helm and I then checked Deputies Walstrom, Dickson, and Anderson. None appeared injured.

Due to the multiple locations of the shootings, I instructed other deputies on scene to respond to the Pine Hill area and attempt to locate and secure the scene. EPD Sgt. Wilson was on scene, and he had EPD Officers respond to the Highland area and secure any scene they located.

I remained on scene performing scene security. HCSO Major Crimes Division Sgt. B. Taylor arrived on scene a short while later and I provided him with a brief summary of the incident. HCSO Lt. Miller also arrived and took control of the scene. Eventually, the three detained subjects were transported to the HCSO Major Crimes Division. The suspect vehicle along with Deputy Walstrom's patrol vehicle were towed for evidence from the scene by Humboldt Towing.

For further information refer to other narratives.

[X] *BODY CAMERA RECORDED*			

On 07-20-22 at approximately 2015 hours, I was contacted by Sergeant B. Taylor about a Critical Incident Response Team call out regarding and Officer Involved Shooting. I briefed at the Sheriff's Office Main Station and was assigned to scanning the scene at Buhne Street at Harrison Avenue, Eureka, California (County of Humboldt). I was doubled with Corporal Jones and was the primary evidence technician. I utilized the department's Leica C10 3D laser scanner (serial number [redacted]).

Buhne Street at Harrison Avenue Scene -

We arrived at Buhne Street at Harrison Avenue at about 2218 hours and concluded at about 0130 hours. The weather was dark, cool, clear and overcast. I created a scan plan to use as notes to assist with the diagramming process. Once the scan data was processed, I destroyed the scan plan.

I scanned the scene from six (6) locations that I believed would capture the pertinent portions of the intersection relative to this investigation. I placed a four (4.0) foot long scanning artifact within the scene at Scanworld 1 for the purpose of verifying the accuracy of the scan data. [During the registration, the scanning artifact was found to measure at 4.00 foot.]

Due to the time of day (night), the imaging function was not utilized to complete the model. The scene was photographed by other investigators/evidence technicians.

I began by scanning the intersection of Buhne Street at Harrison Avenue. I started at the west side of Buhne Street within the inner perimeter and worked in a counterclockwise fashion to create on Modelspace of the entire scene; Scanworlds 1,2,3,4,5,6,7,8. Scanworld 1-8 captured the termination point of the vehicle pursuit and traffic collision (the intersection); three (3) patrol vehicles (two HCSO and one EPD), the suspect vehicle, and another vehicle.

For Scanworlds 1-8, the scanner was placed on the tripod in order to capture the intersection as completely as possible.

It should be noted after scanning Scanworld 4, "standard setup" my not have been selected prior to scanning Scanworld 5. Due to this, Scanworld 5 was re scanned as Scanworld 6 and Scanworld 4 was re scanned as Scanworld 7. Besides these two errors, I noted no further unusual incidents during the operation of the scanner during this process.

After completing the scan, I was requested to clear the suspect's firearm. I observed what appeared to be a black AMD-65 clone (AKM-47 variant) rifle with the rear grip under the rear of the suspect vehicle's right front tire. I was unable to remove the firearm out from the tire. Due to the ejection port facing up, I was able to render the firearm safe. I removed the thirty (30) round box magazine from firearm by depressing the magazine catch. Inside the magazine, I observed it to be loaded with ammunition. I cycled the bolt rearward, and a live cartridge was extracted out of the breech indicating the firearm was loaded. I informed Evidence Technician [redacted] of my findings.

[ ] *BODY CAMERA RECORDED*			

Vance Avenue at Eureka Street Scene –

We arrived at Vance Avenue at Eureka Street at about 0143 hours and concluded at about 0313 hours. The weather was dark, cool, clear, and overcast. I created a scan plan to use as notes to assist with the diagramming process. Once the scan data was processed, I destroyed the scan plan.

I scanned the scene from five (5) locations that I believe would capture the pertinent portions of the streets and residence relative to this investigation. I placed a four (4.0) foot long scanning artifact within the scene at Scanworld 1 for the purpose of verifying the accuracy of the scan data. [During the registration, the scanning artifact was found to measure at 4.00 foot.]

I began by scanning Eureka Street, just east of Leonard Drive, and worked in a westward then southwest fashion to create on Modelspace of the entire scene; Scanworlds 1,2,3,4,5. Scanworld 1-5 captured Eureka Street, Vance Avenue, and the residence/front porch located at [redacted] Vance Avenue (street side). Scanworlds 2 and 3 were used as "connectors" to connect [redacted] Vance Avenue and Eureka Street (Scanwold 1).

For Scanworlds 1-5, the scanner was placed on the tripod in order to capture the streets and residence.

It should be noted after starting Scanworld 4, I failed to remove the handle from the scanner. Besides the error, I noted no further unusual incidents during the operation of the scanner during this process.

On 08-18-22, Corporal Jones and I registered the scan data from the Buhne Street at Harrison Avenue scene on the department laptop. The registration was accomplished by using the Leica Cyclone software. During the registration, Scanworld 5 would not register with the other scanworlds. This was possibly due to "standard setup" before scanning Scanworld 5. Scanworld 5 was re scanned as Scanworld 6. Scanworld 6 aligned with the other adjacent scanworlds. I observed the registration was an accurate model of the scene as I observed when I scanned it. I created a Truview of this scene and saved it to the department laptop.

Forward to the District Attorney's Office.

Forward to Major Crimes Division.

[ ] *BODY CAMERA RECORDED*			

On August 6, 2022, I was working as a plain cloths Correctional Deputy at the Humboldt County Correctional facility assigned to the B-7 post position Assistant Classification Officer.

At approximately 1610, I responded to inmate [redacted] attempting to hang himself. After [redacted] was handcuffed and the rope was removed from his neck. I observed a piece of paper and an envelope on the floor in the day room of the unit. I opened the envelope n the units officer station. The envelope contained a card that can be ordered off commissary. The letter was to [redacted] who is currently [redacted] with [redacted] child. The letter said something to the effect of [redacted] was sorry for his actions and that he cried out for help though this crime. I gave the letter to the housing officer to keep it along with the noose. The letter was later brought to the processing area where it was then secured in the HCCF evidence lockers. I later booked the letter into evidence.

I request this report and letter be forwarded to the DA.

Interview of **Brad Anderson,** Humboldt County Sheriff's Deputy.

Current Assignment: Patrol
Current Title: Deputy
Collateral Duty: Field Training Officer
Career Time: approximately 6 years. 1 year at HCCF and 5 years on patrol
Interviewed by: HCSO Investigator Destry Henderson
EPD Detective Ray Nunez

This interview was digitally recorded, and a copy of that recording was later booked into evidence as item #38, code 1949-1. This narrative is a summary of Deputy Anderson's statement and is written for reader comprehension not necessarily in the order the conversation took place.

At the time of the incident, Deputy Anderson was working uniformed patrol in the Eureka area on his normal workday. Deputy Anderson normally works Monday-Wednesday and every other Thursday from 1800-0600hrs. During this incident, Deputy Anderson was not assigned a trainee and was working solo.

On 07/22/2022, at approximately 1226hrs Deputy Anderson spoke with EPD Det. Nunez and I regarding this incident. The interview was conducted at the main station of the Humboldt County Sheriff's Office 826 4th St. in Eureka, CA.

Prior to this interview, Deputy Anderson was allowed to watch his body camera footage. Deputy Anderson declined having a union representative or legal counsel present during the interview. Deputy Anderson was also advised his statement was voluntary which he acknowledged by saying "yes."

I further explained to Deputy Anderson that the purpose of the interview was for the criminal investigation and not for administrative purposes. I informed Deputy Anderson an interview for administrative reasons may or may not come after this and reconfirmed with him that was not the purpose of this interview.

I also instructed Deputy Anderson to keep his answers to what he knew and not to guess.
Prior to the interview Deputy Anderson was offered to be driven through the route of the pursuit or to go to the termination location of the pursuit. Deputy Anderson declined both.
Deputy Anderson was provided two maps which were printed from the Visual Labs software, which tracks the location of the pursuit based upon body camera data. These printouts were provided to me by E.T. [redacted].

Deputy Anderson believed the map was accurate from his recollection when I asked him. Deputy Anderson also confirm it was accurate enough to help him through the interview.

Deputy Anderson explained the following:

Shortly after beginning his shift, Deputy Anderson responded to a call for service near the [redacted] "F" St. Deputy Anderson described after he left that incident he travelled "F" St. toward Herrick Ave. While driving past

the Eureka Golf Course, near a parking lot on the golf course, he was following behind another vehicle, when a separate vehicle passed him. Deputy Anderson explained that this vehicle passed him and the vehicle in front of him, crossed over the double yellow lines and into the oncoming lane of traffic. Deputy Anderson described the vehicle trying to navigate a corner down a small hill and almost lost traction. During this time Deputy Anderson saw a small amount of smoke from the vehicle's tires. Deputy Anderson activated his emergency lights, which moved the vehicle in front of him out of the way. Deputy Anderson then tried to catch up to the vehicle. Deputy Anderson explained he transmitted to dispatch that he was trying to catch up to a high-speed vehicle and requested another unit to assist.

This part of "F" St that Deputy Anderson described was in fact Fairway Dr. In this area "F" St. turns into Fairway Dr. as it passes the golf course, then Fairway Dr. becomes Herrick Ave. The Fairway Dr. portion of the roadway is the section near the golf course. This area of the roadway also has a "dip" in it, which can be described as going downhill/uphill.

Deputy Anderson continued to explain that he just cleared the previous call with Deputy Walstrom and his trainee (Deputy Dickson), he did not know where they were, but figured they were in the area.

Deputy Anderson explained as he began to go uphill on Fairway Dr., he saw the suspect vehicle pass Deputy Walstrom. Deputy Anderson clarified his statement by saying he saw the back of a patrol vehicle and assumed it was Deputy Walstrom.

Deputy Anderson stated Deputy Walstrom took over radio traffic at that point and that he was in pursuit. Deputy Anderson continued by stating that Deputy Walstrom relinquished radio traffic to Deputy Anderson who started calling out the pursuit.

Deputy Anderson detailed that the pursuit continued on Herrick Ave, then the suspect turned right onto Vance St. Deputy Anderson stated once the suspect vehicle passed Pine Hill School, 5230 Vance St., in Eureka, he saw the suspect throw something out of the window, which looked like a "Mcflurry," which Deputy Anderson transmitted over the radio.

Next, the pursuit turned onto Eureka St., with Deputy Anderson still in the number 2 position, Deputy Anderson saw the suspect vehicle's right rear tire go over the curb. Deputy Anderson stated at that point he thought the suspect's tire had popped, because Deputy Anderson had heard a loud "pop" sound. As the pursuit continued straight on Eureka St., Deputy Anderson heard several additional "pops." Deputy Anderson stated, "I thought in my head are they shooting at us?" Deputy Anderson explained he could not see any passengers in the suspect vehicle, since he was the second vehicle in the pursuit. Deputy Anderson then heard Deputy Walstrom say they were being shot at.

Deputy Anderson described the pursuit continued on Eureka St and turned left onto what he believed was Meyers St. Deputy Anderson stated, "I could smell the gun smoke and was like oh ok." Deputy Anderson explained the pursuit continued with the running of the stop sign at the intersection of Meyers and Alpha St., then the pursuit turned right on Madison, then it turned left onto Union St, "down the big hill," Deputy

Anderson believed the next street was Highland St, which the pursuit turned left onto . Deputy Anderson stated he was not good with streets in Eureka and was reading the street names on his GPS. Deputy Anderson did not remember what street he turned onto from Highland, but the pursuit did turn onto Silva St, eventually the pursuit got onto Allard, then it turned right onto Utah St. Deputy Anderson explained as the pursuit passed Alice Birney Elementary School, 707 South Ave., in Eureka, he heard several more gunshots and transmitted that on the radio.

Deputy Anderson explained that he could not see anyone leaning out of the suspect vehicle, because Deputy Walstrom's vehicle was obstructing his view. Deputy Anderson then explained Deputy Walstrom then transmitted "he had also fired shots, or shots were fired by police."

The pursuit continued straight with the suspect failing to stop at the stop sign where Utah St. turns into Central St. Deputy Anderson explained the pursuit continued through the red light at Harris and Central St then it turned the wrong way on Henderson St. Deputy Anderson described the pursuit continued the wrong way on Henderson St. until "O" St. Deputy Anderson explained that once the pursuit reached that point, he had a large gap between his patrol vehicle and Deputy Walstrom's patrol vehicle. Deputy Anderson explained Deputy Walstrom was right behind the pursued vehicle making it easier for Deputy Walstrom to clear all the intersection, but Deputy Anderson had to re-clear all the intersection he went through so he wouldn't cause a traffic accident. Deputy Anderson described that Deputy Walstrom gained a large distance from Deputy Anderson and that this is when Deputy Anderson believed Deputy Dickson took over radio traffic. Deputy Anderson stated this allowed him enough time to catch up so Deputy Anderson could get a visual on Deputy Walstrom. Deputy Anderson stated the pursuit turned on "O" St. and he was "chasing" Deputy Dickson's directions. Deputy Anderson stated the pursuit then turned right onto Buhne St., and the pursuit went through the red light at Buhne and "S" St.

Deputy Anderson described as he was travelling down the hill on "S" St., nearing the bottom (approx. 2200blk), he heard on the radio the suspect vehicle had "T/C'd" (been involved in a traffic collision. Deputy Anderson stated as he crested the hill, he could see that the vehicle is stopped and there are a bunch of "random civilians" and vehicles in the way. Deputy Anderson stated Deputy Walstrom's vehicle was parked the wrong way on Buhne St. Deputy Anderson stated there was a vehicle in the right lane. Deputy Anderson stated he went to the right of that vehicle and told the other vehicle to leave. Deputy Anderson explained there was a vehicle stopped at the stop light and he was yelling at that vehicle to leave, while giving commands to the people in the suspect vehicle to "get out and prone out." Deputy Anderson described that until everyone was "proned out" they got all the civilians out and started to do a "call out."

Deputy Anderson finished after that statement, and I asked some clarifying questions which are as follows:

- Deputy Anderson was driving near the golf driving range of the Eureka City Golf Course heading toward Herrick Ave, when a vehicle passed him and another vehicle over double-yellow lines.
- The vehicle that passed Deputy Anderson was the same vehicle that was involved in a traffic collision at the intersection of Buhne and Harrison St.
- Deputy Anderson saw Deputy Walstrom's vehicle after the suspect passed him in the 400-500blk of Herrick Ave.

- After hearing the second sets of "pops," Deputy Anderson believes the first "pop" where he thought the suspect vehicle popped a tire, was, instead gun fire.
- Deputy Anderson does not see gun fire or muzzle flash but sees "puffs" of smoke from bullets "hitting concert" or "from something of the effect."
- Deputy Anderson "smells the smell of gun fire" and confirms he is talking about burnt gunpowder.
- The occupants of the suspect vehicle never became visible to Deputy Anderson during the pursuit.
- Deputy Anderson only saw the suspects at the termination point.
- Deputy Anderson estimated he was approximately 2 vehicle length behind Deputy Walstrom until he lost sight of the pursuit.
- During the time Deputy Anderson had sight of the pursuit, he estimated Deputy Walstrom was approximately 2 vehicle lengths behind the suspect vehicle.
- Deputy Anderson loss sight of the pursuit for several blocks. Deputy Anderson believed this occurred around "O" and Henderson St. Once the pursuit turned onto Buhne St, Deputy Anderson had caught up to the pursuit.
- The reason Deputy Anderson loss sight of the pursuit was due to the wrong way travel on Henderson St. Deputy Anderson explained the stop lights were facing the wrong way, so he had to clear each intersection.
- Deputy Anderson maintained the number 2 position during the entire time of the pursuit.
- At no time during the pursuit could Deputy Anderson see who was firing.
- Deputy Anderson believed the passenger side of the suspect vehicle was firing at them but did not know why he assumed that. Deputy Anderson stated it was a high stress situation.
- Deputy Anderson was far enough away where he could only see the vehicle, but he heard the gun shots and believed the subjects in the pursed vehicle had fired. When the transmission "The police fired..." was heard by Deputy Anderson believed Deputy Walstrom had fired back at the suspect vehicle.

During the interview the term "Deputy Walstrom" was used generically for who was driving the lead Sheriff's patrol vehicle. During the pursuit Deputy Anderson stated he "assumed" the trainee (Deputy Dickson) was driving the patrol vehicle. Deputy Anderson explained that as a Field Training Officer you are afforded the option of driving, but the standard practice it to have the trainee drive. Deputy Anderson stated his assumption changed later after some self-reflection. Deputy Anderson described that when he arrived at the traffic collision Deputy Walstrom was on the driver side of the vehicle and Deputy Dickson was on the passenger side of the vehicle.

Deputy Anderson initially believed the suspect vehicle was just a reckless driver, possibly teenagers, and did not know until later that EPD had initiated a pursuit on the vehicle earlier.

Next, I asked Deputy Anderson what he was thinking was he realized there was gun fire. Deputy Anderson stated "that's a hard question...more or less that I didn't expect this to happen," "it was such a random pursuit," "that I was kinda shocked that just a car randomly passes us and now they're shooting at us seemingly as like an ambush scenario, I mean you can imagine if you pass the police you're going to get stopped and then now they're shooting at us shortly after, it felt very much like a very odd ambush type scenario."

Deputy Anderson also explained that once shots were fired, he thought they needed more people and that is why he called a code 30. ***Code 30 is officer needs assistance and it transmitted to local agency for all available units to respond.***

Deputy Anderson stated he thought "what I am thinking" was a difficult question. Deputy Anderson explained he was engrained into the pursuit. Deputy Anderson stated his other thoughts were difficult to recall. Deputy Anderson followed up by stating that he thought he might get shot, and that he did not know what the suspects were shooting at the deputies with or why. Deputy Anderson stated through the pursuit he kept thinking "this was probably going to be a gunfight at the termination point." Deputy Anderson explained besides that he was thinking about normal pursuit protocol, calling out a pursuit, staying calm on the radio, make sure they don't get into an accident, not putting the public in danger, doing it as safely as possible, but that "they" probably weren't going to terminate the pursuit unless it "gets completely out of hand."

I asked Deputy Anderson if what he was thinking changed or evolved as the pursuit continued and he stated, "not really."

Next, we talked about Deputy Anderson's comment about not terminating the pursuit. Deputy Anderson explained the following: "pursuits are scaled.... We are not going to chase somebody the wrong way on Henderson or through the city of Eureka at high traffic levels, high speeds, for some minor traffic infraction, um, if they're a murder suspect we will raise that a little higher, if they're randomly shooting out of the window, that puts a huge risk on the public we are going to continue that pursuit longer, um if they're willing to shoot at us through the window who else are they willing to shoot out the window at, so my thought is always going through my head during a pursuit, should we continue this, should we continue this, and that's a lot lesser because they're shooting at us, this will go a lot longer then or we will let this go in more, shouldn't say unsafe conditions, but we'll let that level rise a little higher..."

At no point did Deputy Anderson think about firing at the vehicle. When asked, Deputy Anderson explained there was never an opportunity to fire at the vehicle that's why he never considered it.

Next, EPD Det. Nunes and I asked Deputy Anderson a series of questions. The answers are detailed below.

- When arriving to the termination location Deputy Anderson saw the following:
    - The suspect vehicle had "t-boned" another vehicle in the intersection(Harrison/Buhne)
    - There was a person outside the vehicle of the civilian vehicle that was involved in the collision.
    - A person was out of the suspect vehicle on the passenger side, who appeared to be unarmed. Deputy Anderson stated this changed the immediateness of "our" response.
    - Deputy Waltstrom's patrol vehicle was in the "wrong way direction of traffic" on Buhne St. facing Harrison St.
    - In the correct lane of travel was a parked sedan on Buhne St.
    - Parked on southbound Harrison was another sedan, likely a witness according to Deputy

Anderson.

- Once the civilian vehicles move Deputy Anderson saw the following:
  - A subject in a grey and red hat that had got out of the "right front passenger side" (suspect vehicle) and the subject (male) beginning to walk down Harrison while "we" are giving him commands. The subject "prone out" in that area, according to Deputy Anderson. Deputy Anderson explains that once the subject moves away from the vehicle, he can see a black rifle lying next to the right front tire of the suspect vehicle.
  - Deputy Anderson describes the person who got out of the driver seat of the suspect vehicle as an "heavy set" Native American male wearing black.
  - Deputy Anderson stated the female subject came out of the vehicle on the right rear passenger side. Deputy Anderson did not know where the female was seated in the vehicle.
  - Deputy Anderson did not know how the one occupant got out of the vehicle before he arrived on scene.
  - No occupants made any statements to Deputy Anderson that he could remember.
  - Deputy Anderson explained the driver of the victim vehicle was instructed to move out of the area. Deputy Anderson explained the driver eventually walked south on Harrison St.
  - Deputy Andersson saw that Deputy Walstrom's patrol vehicle had 2-3 bullets holes in the windshield near the steering wheel. The shots looked to be from inside to outside, so Deputy Anderson thought the shots were fired from inside the patrol vehicle.
  - After watching his body camera footage and having a few days to think about the incident, Deputy Anderson believed all his radio traffic transmissions were accurate regarding details of the pursuit.
  - During the pursuit Deputy Anderson could remember thinking that he did not know if Deputy Walstrom or Deputy Dickson had been injured but assumed they would have transmitted that information if they had been.

In closing, Deputy Anderson added that he was told by Sgt. Massaro that the passenger which he described as the subject in the grey, had made a spontaneous statement while being detained that "he was the only shooter, and that he had shot because he knew that he was done, he's a double striker, he was going back to prison."

Next, a break was taken, and the interview resumed at approximately 1306hrs.

During this follow up interview Deputy Anderson confirmed Deputy Walstrom, Deputy Dickson and the "subject in the grey" were already out of the vehicle. Deputy Anderson stated everything happened really quickly and for unknown reasons Deputy Anderson believed the subject was unarmed. Deputy Anderson also added he thought the subject in the grey was the "shooter" but did not know why he thought that.

Even though Deputy Anderson called a "code-30" no other law enforcement beat him to the termination point, and no one was behind Deputy Anderson at that point in the incident.

Deputy Anderson stated the first person to arrive on scene was EPD Sgt. Eddie Wilson, who arrived behind Deputy Anderson. Deputy Anderson stated the subjects were already "proned out" when EPD Sgt. Wilson arrived.

Next, I talked to Deputy Anderson about a breathing technique he did while we reviewed his body camera. Deputy Anderson explained it was a high stress situation and he was attempting to break up the tunnel vision he was getting and to stay aware of the situation. Deputy Anderson was trying to slow down his breathing and heart. Deputy Anderson called it tactical breathing.

The interview was concluded without further incident.

After the interview I reviewed a Cellebrite download for the day of the incident from Deputy Anderson's department issued cellphone that was provided to me by E.T. [redacted] and did not find anything of relevance. A copy of that download was booked into evidence as item #63, code 2015-63

Recommendation: attach to original and forward to the Humboldt County District Attorney.

Case Status: closed.

Date: 08/04/2022

Results of Examinations:

Item #	Processing Techniques applied:	Results:
1	Visual, photography, swabbing, cyanoacrylate fuming, dusting	Negative

Summary/Results of Examination: I visually examined the above listed items and took overall photographs of them. I then swabbed the trigger, front grip and back grip for touch DNA, utilizing sterile swabs wet with sterile water, followed by dry sterile swabs. I then treated he gun and magazine with cyanoacrylate (superglue) fumes and dusted them with black fingerprint powder. No latent impressions were observed or developed.

The Humboldt County Sheriff's Office conducts latent fingerprint examinations using the Analysis, Comparison, Evaluation, and Verification (ACE-V) process. If usable latent impressions were developed, then the ACE-V process is conducted. Known prints are retrieved from the California Department of Justice (CDOJ) Automated Archive System (AAS) unless otherwise stated. If no known prints are available for comparisons, or no identification has been made, an AFIS search is conducted. The latent impression is entered into the CDOJ Automated Latent Print System (ALPS) and/or the FBI's Next Generation Identification (NGI) system.

Verification: N/A

Disposition of Evidence: All items examined were returned to the Humboldt County Sheriff's Office evidence. A request was made for the item to be sent to CDOJ for a firearms examination.

No further action.

Appendix:

Results Definitions:
--**Negative:** No latent impressions observed or developed.
--**No Value:** No latent impressions of comparison value were observed or developed.
--**Usable:** Latent impressions of comparison value were observed or developed

Value Definitions:
--**Latent impression of value:** The latent impression may be of value for identification or exclusion. Level one detail is discernible, but level two details may be limited, unreliable or not reproduced in the exemplar, therefore the comparison could result in an inconclusive result.
--**Latent impression not of value:** The latent impression cannot be identified or excluded due to lack of sufficient, reliable level two detail.

Complexity Definitions:
--**Basic**: region and orientation of the impression are easily determined, 2nd level detail and 3rd level detail is abundant, not all data is needed for an identification, there is low ambiguity.
--**Advanced:** region and orientation have multiple possibilities, ancillary features (scars, creases, incipient ridges) are being used, not all data is needed for identification, and interpretation has slight ambiguity and may be interpreted differently by others.
--**Complex:** Limited data, predominant ambiguity, difficult to demonstrate.

Evaluation Conclusions:
--**Identification:** is the conclusion reached when an examiner determines two friction ridge impressions are in agreement and that the friction ridge impressions originated from the same source.
--**Exclusion:** The determination by an examiner that there is sufficient quality and quantity of detail in disagreement to conclude that two friction ridge impressions did not originate from the same source.
--**Inconclusive:** An inconclusive decision occurs when an examiner is unable to identify or exclude the source of a impression because the corresponding areas of friction ridge detail are absent or unreliable.

Date: 08/10/2022

The Humboldt County Sheriff's Office (HCSO) conducts digital forensic examinations utilizing licensed Cellebrite UFED 4PC software (version 7.57) and Cellebrite UFED Physical Analyzer (PA) software (version 7.56). The UFED platform allows for data extractions from mobile devices (phones, tablets), Subscriber Identity Modules (SIM), external media cards (SD/Micro-SD, USB flash drives) and some sUAS (drones). The software can perform logical, file system and physical data extractions and can include deleted information. The software has the capability of bypassing many locked (password protected/pattern locked) devices. The extraction, decoding and analysis of data can include call logs, phonebook, text messages (SMS), pictures, videos, audio files, and more from BlackBerry, Windows, Android, and iOS devices. Extractions and generated reports are stored on remote flash drives that have been forensically sterilized.

I hold certifications from Cellebrite in mobile Forensic Fundamentals, Certified Operator, Certified Physical Analyst and Cellebrite Advanced Smartphone Analysis.

Summary/Results of Examination: I received a signed Superior Court of California, County of Humboldt search warrant for the above listed items, SW#2200471. The search warrant specified for data between the dates of 05/05/2022-08/05/2022. I took overall photographs of each item.

Item #1 (Galaxy S8): The phone was on and fully charged. The phone was in airplane mode. The phone was not locked. I set the lock screen to none. I enabled developer options, stay awake, and usb debugging. I disabled verify apps over USB. I utilized UFED 4PC to perform a file system and logical extraction on the phone. A physical extraction was not supported. I utilized PA to parse the data and generate a Cellebrite report for the data between the dates of 05/05/2022 through 08/05/2022 as specified in the search warrant. I briefly reviewed the report, I did not see anything of evidentiary value.

Item #2 (iPhone 4S): The phone was off. I charged the phone and powered it on. I placed the phone in airplane mode. The phone was not locked. I set auto-lock to never. I utilized UFED 4PC to perform an advanced logical extraction on the phone. I utilized PA to parse the data and generate a Cellebrite report for the data between the dates of 05/05/2022 through 08/05/2022 as specified in the search warrant. I briefly reviewed the report. The device was named "[redacted]". A Gmail address of "[redacted]" was associated with the device. I did not see anything of evidentiary value.

Item #3 (LG K20 V): The phone had no power due to not having a battery. I was unable to locate a replacement battery. No extractions were conducted on this phone.

Item #4 (Galaxy Tab S2): The phone had no power due to the battery being detached. I reattached the battery and attempted to charge the phone. The phone would not charge. No extractions were conducted on this phone.

Item #5 (Dane flash drive): The packaging for this item had been opened and the flash drive was copied by HCSO

property for the DA's office prior to a search warrant being obtained and my examination of the item. I utilized UFED 4PC to perform a file system extraction of the flash drive. I utilized PA to parse the data and generate a Cellebrite report for the data between the dates of 05/05/2022 through 08/05/2022 as specified in the search warrant. I briefly reviewed the report, I did not see anything of evidentiary value.

Item #6 (iPhone XR): The phone was off. I removed the SIM card. I charged the phone and powered it on. Upon powering on the home screen read "iPhone locked to owner "[redacted]" location can be seen by owner. This indicates that Activation Lock had been enabled and Apple securely stores your Apple ID on its activation servers and links it to your device. Your Apple ID password or device pass code is required before anyone can turn off Find My, erase your device, or reactivate and use your device. It is also possible the device was wiped remotely with this feature. I utilized UFED 4PC to perform an advanced logical extraction of the SIM card. I was unable to perform an extraction on the phone due to the activation lock being enabled. I utilized PA to parse the SIM card extraction and generate a Cellebrite report for the data between the dates of 05/05/2022 through 08/05/2022 as specified in the search warrant. The phone number associated with the SIM card is [redacted] This phone number is associated with [redacted] in RIMS.

Item #7 (iPhone 6): The phone was off. I charged the phone and powered it on. The phone was locked with a 6 digit pass code. I unlocked the phone with the pass code "[redacted]' through social engineering. I placed the phone in airplane mode and set auto-lock to never. I utilized UFED 4PC to perform an advanced logical extraction on the phone. I utilized PA to parse the data and generate a Cellebrite report for the data between the dates of 05/05/2022 through 08/05/2022 as specified in the search warrant. I briefly reviewed the Cellebrite report. The owner of the device was "[redacted]" There was no data on the device other than device info that was within the date range of the search warrant.

Item #8 (iPhone X): The phone was off. I removed the SIM card and charged the phone. The phone had been placed in airplane mode on scene prior to collection. The phone lost power prior to collection. I powered on the phone. The phone was locked with a 6-digit pass code. UFED 4PC is unable to bypass the pass code on this model phone. No extractions were performed on the phone due to being unable to bypass the pass code. I utilized UFED 4PC to perform an advanced logical extraction on the SIM card. I utilized PA to parse the data and generate a Cellebrite report for the extraction from the SIM card. The phone number associated with the phone was [redacted]

Item #9 (At&T): The phone was off. I charged the phone and powered it on. The phone was locked with a pass code after restart. UFED 4PC is unable to bypass the pass code on this model. I was unable to bypass the pass code with social engineering. No extractions were conducted on this phone due to being unable to bypass the pass code.

Item #10 (Moto G7 Play): The phone was off. I attempted to charge the phone. The phone would not charge. No extractions were performed on the phone due to not being able to power it on .

Item #11 (Galaxy A02s): The phone was off. I charged the phone and powered it on. The phone powered on in setup mode, indicating it had been factory reset. Due to this no extractions were performed on the phone.

Item #12 (Moto G Play): The phone was off. I removed the SIM card and charged the phone. I powered on the phone. The phone was locked with a pass code and was required after restart. I placed the phone in airplane mode. UFED 4PC is unable to bypass the pass code on this model phone. Due to this, no extractions were

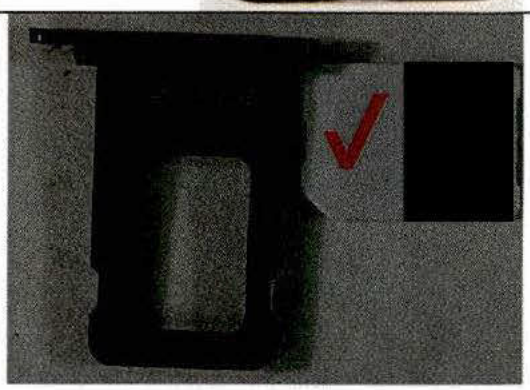

performed on the phone. I utilized UFED 4PC to perform an advanced logical extraction on the SIM card. I utilized PA to parse the extraction and generate a Cellebrite report of the SIM card extraction. The phone number associated with this phone is [redacted].

Item #13 (Moto G stylus): The phone was off. I removed the SIM card and charged the phone. I powered on the phone. The phone was locked with a pass code and was required after restart. I placed the phone in airplane mode. UFED 4PC is unable to bypass the pass code on this model phone. Due to this, no extractions were performed on the phone. I utilized UFED 4PC to perform an advanced logical extraction on the SIM card. I utilized PA to parse the extraction and generate a Cellebrite report of the SIM card extraction. The phone number associated with this phone is [redacted]

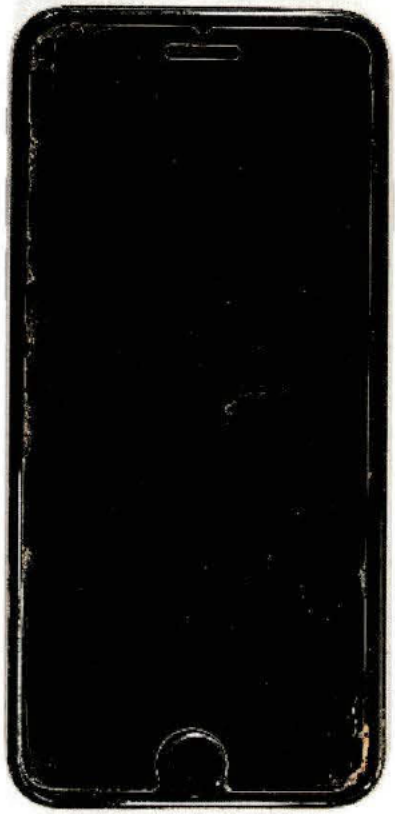

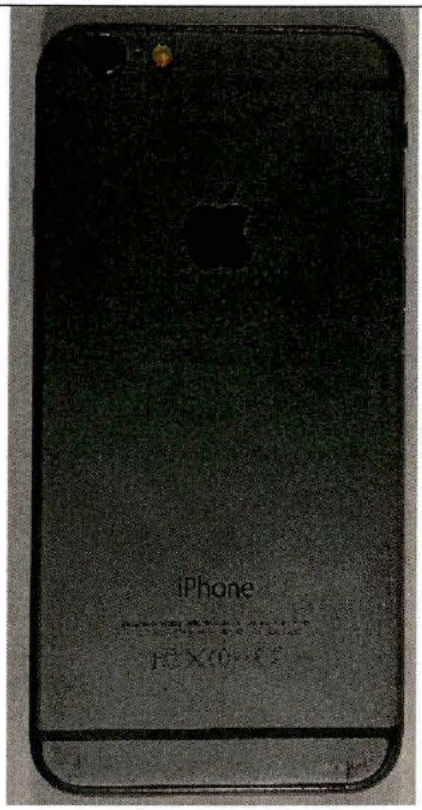

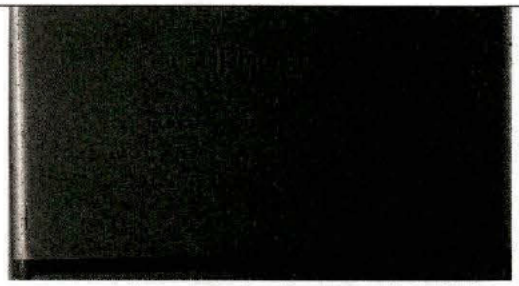

Item #14 (Idea Pad 3): The HCSO does not currently have the tools necessary to perform a forensic examination on Chromebooks, this item was not analyzed beyond overall photographs. If the owner is known, a search warrant to Google for the associated Google account will yield the most data.

14	N/A	N/A	N/A	N/A

Verification: Verification was done through manual scrolling.

Disposition of Evidence: All items examined were returned to evidence. I copied all Cellebrite reports to a flash drive and booked it into evidence.

No further action.

Appendix:

GSM-Global System for Mobile Communication CDMA-Code Division Multiple Access

ICCID: Integrated Circuit Card Identifier	ESN: Electronic Serial Number
IMEI: International Mobile Equipment Identity	MEID: Mobile Equipment Number
SIM: Subscriber Identity Module	MIN: Mobile ID Number
IMSI: International Mobile Subscriber Identity	MDN: Mobile Directory Number
MCC: Mobile Country Code	
MNC: Mobile Network code	
LAI: Location Area ID	
MSISDN: Mobile Station International Directory Number	

Logical Extraction: Performed through Application Programming Interface (API). Contains SMS, contacts, call logs, media and app data.

System File Extraction: Device-specific methods to copy the file system. Contains, SMS, contacts, call logs, media, app data, files and hidden files.

Physical Extraction: (full flash image, most data) extracts a bit by bit binary image of the flash memory. Has file system, user data, and unallocated space (deleted files), can contain passwords.

Image Hash Verification: Conducting pre and post examination hash verification is considered best practice in digital forensics. A hash value is the outcome of a mathematical algorithm, used to uniquely identify the content of a file. It shows that the data was not altered after the initial extraction.

Verification: Verification of findings can be done through hand scrolling, third party tools, or database

verification and analysis. All three methods can prove the extracted information is true and accurate.

Sterilized media: All bytes on a drive are replaced with a known value.

Decoding: Translates the RAW data within a database file to a recognizable format.

BFU: Before-First- Unlock

Secure Start up: A lock that requires a passcode to decrypt the device each time it is powered on or restarted.

Date: 7/21/2022

The Humboldt County Sheriff's Office (HCSO) conducts digital forensic examinations utilizing licensed Cellebrite UFED 4PC software (version 7.57) and Cellebrite UFED Physical Analyzer (PA) software (version 7.56). The UFED platform allows for data extractions from mobile devices (phones, tablets), Subscriber Identity Modules (SIM), external media cards (SD/Micro-SD, USB flash drives) and some sUAS (drones). The software can perform logical, file system and physical data extractions and can include deleted information. The software has the capability of bypassing many locked (password protected/pattern locked) devices. The extraction, decoding and analysis of data can include call logs, phonebook, text messages (SMS), pictures, videos, audio files, and more from BlackBerry, Windows, Android, and iOS devices. Extractions and generated reports are stored on remote flash drives that have been forensically sterilized.

I hold certifications from Cellebrite in mobile Forensic Fundamentals, Certified Operator, Certified Physical Analyst and Cellebrite Advanced Smartphone Analysis.

The below listed items were examined:

Item #	Barcode#	Description:	Memory Card	SIM card	Received from:
1	N/A	Samsung Galaxy Xcover Pro	none	Yes	Investigator Henderson

Item #	Make	Model	ICCID	IMSI	IMEI	MSISDN
1	Samsung	SM-G715U	[redacted]	unk	[redacted]	[redacted]

Summary/Results of Examination: Investigator Henderson provided me with Deputy Anderson's phone and requested an extraction for data from 07/20/22 through 07/21/22.

Item #1(Galaxy Xcover Pro): The phone was on and in airplane mode. The phone was locked. I unlocked the phone with the pass code "[redacted]" provided to me by Investigator Henderson. I set the lock screen to none. I enabled developer options and USB debugging. Verify apps over USB was disabled.I utilized UFED 4PC to perform a file system extraction on the phone. A logical extraction was also performed, however, SMS and MMS were not supported. I took screenshots of SMS messages. I did not perform an extraction on the SIM card. I utilized PA to parse the data and generate a Cellebrite report of the combined extractions for data on the date of 07/20/2022 to 07/21/2022. I did not review the Cellebrite report.

Image Hash Verification:

Item #	SIM Advanced Logical	Phone Physical	Phone File System	Phone Logical

Extractions and generated reports are stored on remote flash drives that have been forensically sterilized.

I hold certifications from Cellebrite in mobile Forensic Fundamentals, Certified Operator, Certified Physical Analyst and Cellebrite Advanced Smartphone Analysis.

The below listed items were examined:

Item #	Barcode#	Description:	Memory Card	SIM card	Received from:
1	202203774-026	Galaxy Xcover Pro	none	Yes	MCD cell phone locker
2	202203774-028	Galaxy Xcover Pro	None	Yes	MCD cell phone locker

Item #	Make	Model	ICCID	IMSI	IMEI	MSISDN
1	Samsung	SM-G715U	unk	unk	[redacted]	[redacted]
2	Samsung	SM-G715U	unk	unk	[redacted]	[redacted]

Summary/Results of Examination: I retrieved Deputy Walstrom's and Deputy Dickson's phones from the locked MCD locker where they had been stored in an on and fully charged state since collection.The phones had also been in airplane mode since collection. I was tasked with performing an extraction on the phones for data on the date of 07/20/22.

Item #1 (Galaxy Xcover Pro): The phone was on and in airplane mode. The phone was locked. I unlocked the phone with the pass code "[redacted]" provided to me by Deputy Walstrom. I set the lock screen to none. I enabled developer options and USB debugging. Verify apps over USB was disabled. I utilized UFED 4PC to perform a file system extraction on the phone. A logical extraction was also performed, however, SMS and MMS were not supported. I manually inspected the phone and determined that no SMS or MMS messages had been made on 07/20/22. I did not perform an extraction on the SIM card. I utilized PA to parse the data and generate a Cellebrite report of the combined extractions for data on the date of 07/20/2022 . I did not review the Cellebrite report.

Item #2 Galaxy Xcover Pro): The phone was on and in airplane mode. The phone was locked. I unlocked the phone with the pass code "[redacted]" provided to me by Deputy Dickson. I set the lock screen to none. I enabled developer options and USB debugging. Verify apps over USB was disabled.I utilized UFED 4PC to perform a file system extraction on the phone. A logical extraction was also performed, however, SMS and MMS were not

supported. I manually inspected the phone and determined that no SMS or MMS messages had been made on 07/20/22. I did not perform an extraction on the SIM card. I utilized PA to parse the data and generate a Cellebrite report of the combined extractions for data on the date of 07/20/2022 . I did not review the Cellebrite report.

Secure Start up: A lock that requires a passcode to decrypt the device each time it is powered on or restarted.

On July 20, 2022 at approximately 2046 hours, I was at home when I received a phone call from HCSO Dispatch. I was advised of a pursuit and officer-involved shooting that had occurred in Eureka and I was requested to assist with the scanning of the crime scenes. I responded to the HCSO Major Crimes Unit and was briefed with the other Investigators.

I learned there were three scenes throughout Eureka where shots had been fired. I was paired with HCSO Corporal Del Rosario and we were assigned the scenes at Buhne Street at Harrison Street, where the pursuit ended with a traffic collision, as well as the scene at Vance Street at Eureka Street, where a bullet struck a residence.

We responded first to Buhne Street and Harrison Street, where I assisted Corporal Del Rosario in scanning that scene. We arrived there at approximately 2218 hours and concluded scanning at approximately 0130 hours.

While scanning that scene, we placed a 4 foot long scanning artifact near the scanner in Scanworld 1. This was later used to verify the accuracy of the scan data. (During the registration process, it was found to measure 4.00'.)

We opted not to use the imaging function of the scanner due to the fact that it was nighttime and photographs would not have been of much value to the completed models. (The scene was being photographed by other investigators.)

It should be noted that while scanning this scene, I believe I moved the scanner from Scanworld 4 to Scanworld 5 without first pressing the Standard Setup button on the scanner. Because of this, the scanner did not register that it had been moved from one location to another. That scan was not usable for the registration process, and therefore was not part of the registration that was created. Those two locations were re-scanned as Scanworlds 6 and 7 so as to have a complete and accurate model of the scene. Aside from this, there were no issues noted during the scanning of this scene.

After scanning Buhne Street at Harrison Street, we relocated to Vance Street at Eureka Street. We arrived there at approximately 0143 hours and concluded scanning at approximately 0313 hours. We scanned Eureka Street, starting East of Leonard Drive because there was an empty shell casing lying along the south curbline of Eureka Street. We again placed the 4 foot scanning artifact near the scanner in Scanworld 1. (During the registration process, I found it to measure 4.00' long.) Our final scan (Scanworld 5) was located on the front porch of [redacted] Vance Street, where a bullet had struck the east wall near the front door. There was a trajectory rod still in place in that bullet hole when we scanned this location. Scanworlds 2,3 and 4 were located down the length of Eureka Street and were made to connect Scanworlds 1 and 5. There were no issues during the scanning of this scene.

On July 26, 2022, I downloaded the raw scan data from the scanner onto a flash drive. I used that flash drive to upload the raw scan data onto the department laptop used to process scan data. I kept that flash drive secured solely in my custody until I booked it into evidence at HCSO on August 29, 2022.

On August 22, 2022, Corporal Del Rosario and I registered the scan data from the scene at Buhne Street at

Harrison Street. This was accomplished using the Leica Cyclone software. I uploaded the raw scan data from the flash drive onto the department's laptop used specifically for scan data registration. There were no issues during the upload process.

We used the Cyclone software to register (put together) the individual scans into one model of the scene. We also used that software to "clean" the scans. (Cleaning scans refers to placing irrelevant data "noise" captured by things or people moving in front of the scanner while it's running onto hidden layers, to show an accurate representation of the scene without the "noise".) We also used the software to create a Truview for future presentation purposes, which was saved on that laptop.

On August 24, 2022, I registered the scan data from the scene at Eureka Street at Vance Street, using the same Cyclone software and laptop. I noted that during the registration, Scanworlds 1 and 5 would not align with each other. This was not surprising to me because of their locations, relative to each other. They both aligned properly with the scanworlds adjacent to them. I saw that the resulting registration was an accurate model of the scene as I saw it when we scanned it. I created a Truview of this scene as well, and saved it on the laptop.

This concluded my involvement in this investigation.

DISTRICT ATTORNEY

On 07/20/2022 at approximately 1920 hours, I was working uniformed patrol for the Humboldt County Sheriff's Office (HCSO) and driving a marked HCSO vehicle.

I was dispatched to assist Deputy Anderson and Deputy Walstrom on a felony traffic stop which later resulted in the arrest of [redacted] Prior to the felony stop, a "Code 30" was issued when shots were fired at deputies from the vehicle in the area of Vance Avenue and Eureka Street.

At Sgt. Waxler's request, I responded to the intersection of Vance Avenue and Eureka Street at approximately 2000 hours. Upon arrival I secured the area with crime scene tape, creating an outer perimeter closure. I remained at this location and assisted completing a crime scene log until approximately 0225 hours.

This is a supplemental report.

CONTROLLED DOCUMENT

On 07/20/2022, I was working uniformed patrol for the Humboldt County Sheriff's Office. I was wearing a distinctly marked HCSO uniform and operating a marked HCSO patrol vehicle.

At approximately 1930 hours I self-dispatched myself to respond to the Eureka area for an ongoing pursuit between Deputies and the suspect vehicle after the pursuing Deputies reported that shots had been fired.

I activated my Code-3 lighting, forward facing red lamp and siren and responded from the McKinleyville area to the location that the pursuit ended at the intersection of Buhne St and Harrison Ave. Upon arrival I deployed my department issued patrol rifle and took lethal cover on the suspect vehicle due to not knowing if any further suspects were in the vehicle. After a short period of time, I assisted in clearing the vehicle and making the scene safe. At that time, I began assisting in further efforts to contain the scene and render it safe for bystanders and other responding Officers and Deputies.

Sergeant Helm advised me that he needed me to respond to the area of Vance Ave and Eureka Street to set a perimeter and attempt to locate any evidence in the area. I was advised that this is where the suspect's fired the initial shots at Deputies and it was requested I attempt to locate any bullet casing as well as any persons that may have been injured during the pursuit. I parked my car blocking the roadway at the intersection of Vance Ave and Eureka St with my lighting equipment activated.

I was immediately contacted by (M) [redacted] who advised me that she had heard the chase pass by her residence. She stated that she had walked out after the chase went by and saw a bullet casing laying in the road. She walked over and picked the casing up off the roadway. She stated that as soon as she picked it up, she felt that she had made a mistake but figured it was too late and held onto the casing to hand over to Law Enforcement. [redacted] handed me a spent casing that appeared to be a 7.62x39 casing. I took custody of the casing and placed it into a bag and stored it in the rear storage area of my patrol vehicle to retain the chain of custody until an evidence technician took possession of the evidence. This ended my conversation with [redacted].

I was approached by (M) [redacted] immediately after finishing my conversation with [redacted] [redacted] stated the following to the best of my recollection:

She stated that she had been sitting in her house located at [redacted] when she heard the suspect car pass by along with the patrol vehicles in pursuit. She stated that she felt something land on her arm thinking it was a spider. She swatted the item off of her arm realizing that it was not a spider, and it was a bullet that had passed through her wall and landed on her arm, burning her arm. I asked if she needed medical attention, she advised that she was fine and that she was not injured. I took her information and advised that Deputies would contact her in the near future to take her statement and collect any evidence. This concluded my conversation with [redacted].

At this time, I started walking down Eureka Way in attempt to locate any further evidence that may be in the area. I started walking towards Meyers Ave near Eureka St and Leonard Drive. I located another 7.62x39 casing laying on the ground near a gold sedan. I marked the casing and photographed it with my department issued

[X] *BODY CAMERA RECORDED*			

phone and have attached them to this case. I continued to check the area but was unable to locate any further evidence on Eureka Street or Vance Ave.

Another subject spoke with me about the incident as to give me a better idea of where the gunshots had occurred. (M) [redacted] advised that he had heard multiple gunshots near the school on Vance Ave (Pine Hill Elementary) and at least four additional shots on Eureka Street. I took [redacted] information and informed him that Deputies may contact him at a later time.

Deputy Stoner and I canvased the area from Eureka St down Vance Ave to Herrick Ave attempting to locate further evidence but was unable to locate any. At that time the Deputies on scene remained in place as to secure the location until relieved by evidence technicians.

Once relieved I responded back to the Buhne St and Harrison Ave location to assist the units on scene there by completing CHP-180's for both the suspect vehicle and the patrol vehicle that were being towed for evidence. Once the CHP-180's were completed, I contacted HCSO Dispatch and requested they start Humboldt Towing Company to recover the vehicles for an evidence tow. Humboldt Towing arrived on scene and loaded the vehicles onto two separate flatbeds.

At that time, I followed the flatbeds to their storage facility located at 101 H St in Eureka where I observed the employees for Humboldt Towing store the vehicles in their secured location. I advised Dispatch that the vehicles were released to the tow company at that time and that I was clear the location.

At that time, I returned to HCSO Main Station and began my report as per the request of my supervisor. This report is for supplemental report only, for further information about the incident see the other attached supplemental and primary reports.

Nothing further at this time.

Attachments: Photos, CHP-180.

[X] *BODY CAMERA RECORDED*			

On 07/20/2022, I was working for the Humboldt County Sheriff's Office as a Corporal in the McKinleyville area. At approximately 1920 hours, I heard radio traffic from Deputy Anderson that he was initiating a traffic enforcement stop on a high-speed motorist on Fairway Drive in Eureka. Deputy Anderson then quickly advised that he was in pursuit. A

t approximately 1921 hours, I heard Deputy Anderson call "shots fired" over the radio and request all available units. Moments later Deputy Anderson broadcast the directions of the pursuit as it made its way through the greater Eureka area. Deputy Anderson then advised that the vehicle he was pursuing was involved in a traffic collision at the intersection of Buhne St and Harrison Ave.

I began responding to the Eureka area with my emergency lighting and sirens activated as soon as I heard Deputy Anderson advice "shots fired." While en route, Sgt. Helm phoned me and requested that I notify the Duty Watch Commander, Lt. Williams, of the known facts of the incident up to this point.

I arrived on scene at the western edge of the Buhne St and Harrison Ave intersection. I could see deputies on the south edge of the intersection detaining a male subject as apart of a high-risk style arrest. I coordinated with several deputies and officers from the Eureka Police Department and the Arcata Police Department to form a contact team to clear the pursued vehicle and the vehicle that it had collided with which were resting in the center of the intersection. Utilizing Deputy Anderson's patrol vehicle as cover we pushed forward to a closer vantage point of the vehicles. Sgt. Waxler, Sgt. Wilson (APD) and I then closed distance on the vehicle and confirmed there were no additional occupants in ether vehicles.

I then stood by with Deputies Walstrom and Dixon due to their involvement in the officer involved shooting portion of this incident. During this time Deputy Walstrom informed me that he was cold and requested his patrol jacket out of the trunk of his vehicle. I retrieved Deputy Walstrom's jacket and provided it to him.

I then responded to the area of Vance St and Eureka St which was determined to be one of the locations that shots had been fired. On scene I assisted Deputy Nasca who was contacting [redacted] at [redacted]. [redacted] had reported that her home had been struck by a bullet. On the front exterior wall of the home, just left of the front door, I could see what appeared to be a bullet hole. Refer to Deputy Nasca's supplemental report for further on [redacted] statement of events.

I completed a check of the exterior of [redacted] home and located no additional damage or areas that appeared to be struck by gun fire.

I stayed on scene at Vance St and Eureka St until relieved by members of the multi-agency CIRT team.

All BWC footage was tagged as evidence in accordance with HCSO policy.

This report is for supplemental purposes to the initial report.

Nothing further.

On 7/20/22 at approximately 1920 hours, I was on uniformed patrol assigned to the greater Willow Creek area. At about this time, I was in Hoopa and heard via radio traffic as Eureka Main Station units were involved in a vehicle pursuit. I heard the radio transmission that shots were fired and I began responding Code 3.

Somewhere in the area of Lord Ellis Summit, I heard radio traffic advising to cancel the Code 30 response and that three suspects were detained. I then responded to cover the greater McKinleyville area with Deputy Thompson. I did not respond to the scene and had no further involvement in this case.

Disposition: Cleared

On 07/20/2022, I was working as a Deputy Sheriff for the Humbodlt County Sheriff's Office (HCSO) driving a fully marked HCSO patrol vehicle and wearing a distinct HCSO uniform.

At approximately 1922 hours, I overheard Deputy Anderson broadcast "Code 30" over the radio. I was aware that he and other HCSO units were in a pursuit in the Eureka area. I responded Code 3 from milemarker four on SR 96. At approximately 1940 hours, I overheard a deputy broadcast to cancel the "Code 33." At that time I turned off my lights and siren but continued to respond. Once I reached Arcata, I was advised that the "Code 30" was cancelled. I then remained in McKinleyville area and responded to calls for service for the remaineder of my shift with Deputy McKenzie.

This report is a supplemental.

Nothing further.

On 07/20/2022, I was working as a uniformed Deputy for the Humboldt County Sheriff's Office. I was operating a fully makred patrol vehicle.

I was driving south bound on 101 just north of the College of the Redwoods exit when I heard radio traffic stating units were in a pursuit and that shots were fired. I took the CR exit and got back on Hwy 101 north bound. While headed north on Harris from Broadway, I observed multiple law enforcement vehicles also driving north bound.

While approaching Harrison, I heard radio traffic that the vehicle was involved in a traffic collision. I turned west on Harrison and stoped jest east of where Harrison intersects with Buhne. I observed a white SUV and a dark colored sedan stopped in the road way. I exited my patrol vehicle and retrieve my K9. I then took up positionwith Sgt. Massaro at his driver's side door.

I observed a male subject and a female subject laying prone near the vehicles. Other Deputies began issuing commands and detained all subject.

After the vehicles were cleared, I assiste with setting up an inner and exterior perimeter. Once completed, I maintained the east boarder of the perimeter until I was asked to transport Deputy Anderson to the Eureka police department. I stood by with Deputy Anderson until he was cleared to leave. I was then tasked with transporting Deputy Walstrom home. After Dropping Deputy Walstrom off at home, I then went off duty.

Forward with other reports.

On 7/20/22 I was in full duty uniform patrolling the Willow Creek, Ca (County of Humboldt) area in a marked Humboldt County Sheriff's Office (HCSO) patrol vehicle.

After clearing a call for service, I overheard radio traffic on HCSO main channel of a vehicle pursuit in t Eureka area. Shortly after hearing the deputies call pursuit, I overheard additional radio traffic of shots being fired at the deputies.

I responded from the Willow Creek Station (WCS) using my emergency lights and siren.

About mile marker 7.50 on Hwy 299, I observed several other deputies that were on scene clearing from the call. At this time I contacted HCSO dispatch via telephone and confirmed I was no longer needed.

I cleared from the incident and went en route off duty.

My department issues Body Worn Camera was not activated during this response.

[X] *BODY CAMERA RECORDED*			

On 07-21-22 at approximately 2015 hours, I was contacted by Sergeant B. Taylor about a Critical Incident Response Team call out regarding and Officer Involved Shooting. I briefed at the Sheriff's Office Main Station and was assigned to scanning the scene at Buhne Street at Harrison Avenue, Eureka, California (County of Humboldt). I was doubled with Corporal Jones and was the primary evidence technician. I utilized the department's Leica C10 3D laser scanner (serial number 1261541).

Buhne Street at Harrison Avenue Scene -

We arrived at Buhne Street at Harrison Avenue at about 2218 hours and concluded at about 0130 hours. The weather was dark, cool, clear and overcast. I created a scan plan to use as notes to assist with the diagramming process. Once the scan data was processed, I destroyed the scan plan.

I scanned the scene from six (6) locations that I believed would capture the pertinent portions of the intersection relative to this investigation. I placed a four (4.0) foot long scanning artifact within the scene at Scanworld 1 for the purpose of verifying the accuracy of the scan data.

I began by scanning the intersection of Buhne Street at Harrison Avenue. I started at the westside of Buhne Street within the inner perimeter and worked in a counterclockwise fashion to create on Modelspace of the entire scene; Scanworlds 1,2,3,4,5,6,7,8. Scanworld 1-8 captured the termination point of the vehicle pursuit and traffic collision (the intersection); three (3) patrol vehicles (two HCSO and one EPD), the suspect vehicle, and another vehicle.

For Scanworlds 1-8, the scanner was placed on the tripod in order to capture the intersection as completely as possible.

It should be noted after scanning Scanworld 4, "standard setup" was not selected prior to scanning Scanworld 5. Due to this, Scanworld 5 was re scanned as Scanworld 6 and Scanworld 4 was re scanned as Scanworld 7. Besides these two errors, I noted no further unusual incidents during the operation of the scanner during this process.

After completing the scan, I was requested to clear the suspect's firearm. I observed what appeared to be a black AMD-65 clone (AKM-47 variant) rifle with the rear grip under the rear of the suspect vehicle's right front tire. I was unable to remove the firearm out from the tire. Due to the ejection port facing up, I was able to render the firearm safe. I removed the thirty (30) round box magazine from firearm by depressing the magazine catch. Inside the magazine, I observed it to be loaded with ammunition. I cycled the bolt rearward, and a live cartridge was extracted out of the breech indicating the firearm was loaded. I informed Evidence Technician A. [redacted] of my findings.

Vance Avenue at Eureka Street Scene –

We arrived at Vance Avenue at Eureka Street at about 0143 hours and concluded at about 0313 hours. The weather was dark, cool, clear, and overcast. I created a scan plan to use as notes to assist with the diagramming process. Once the scan data was processed, I destroyed the scan plan.

Prepared By:	Date:	Approved By:	Date:
1958 DEL ROSARIO, PATRICK	07/22/2022		
|| *BODY CAMERA RECORDED*			

I scanned the scene from five (5) locations that I believe would capture the pertinent portions of the streets and residence relative to this investigation. I placed a four (4.0) foot long scanning artifact within the scene at Scanworld 1 for the purpose of verifying the accuracy of the scan data.

I began by scanning Eureka Street, just east of Leonard Drive, and worked in a westward then southwest fashion to create on Modelspace of the entire scene; Scanworlds 1,2,3,4,5. Scanworld 1-5 captured Eureka Street, Vance Avenue, and the residence/front porch located at 5064 Vance Avenue (street side). Scanworlds 2 and 3 were used as "connectors" to connect [redacted] Vance Avenue and Eureka Street (Scanwold 1).

For Scanworlds 1-5, the scanner was placed on the tripod in order to capture the streets and residence.

It should be noted after starting Scanworld 4, I failed to remove the handle from the scanner. Besides the error, I noted no further unusual incidents during the operation of the scanner during this process.

The download of the scanner data will be documented at a later date. When the data from the scanner is transferred for registration and processing, it will be documented by supplemental report.

Forawrd to the District Attonrey's Office.

Forawrd to Major Crimes Divison.

[] *BODY CAMERA RECORDED*			

On 07/20/22 at approximately 2045 hours, I was off duty. I was contacted by HCSO dispatch. They informed me of this incident and requested I respond to assist with scene security. I responded to HCSO Main Station and met with Lt. Williams. Lt. Williams requested special services respond to the intersection of Buhne and Harrison and meet with Undersheriff Braud for further assignment.

I was instructed to relieve a State Parks Officer who was staffing a road closure on S Street at the intersection with Buhne Street. I staffed this road closure until the crime scene was opened back up at approximately 0210 hours.

Supplemental report for documentation only.

RECEIVED
AUG 02 2022
DISTRICT ATTORNEY

On 07/20/2022 at about 1935 hrs., I was off duty and out at my residence when I received a phone call on my department issued cell phone from HCSO Major Crimes Division Lt. Williams who inquired if I had been contacted regarding an officer involved shooting just occurred involving HCSO patrol deputies. I advised him I had not been notified. Lt. Williams requested I standby for a Critical Incident Response Team (CIRT) call out while he gathered more information. A short time later, at about 1948 hrs., I received a second call from Lt. Williams requesting I activate the HCSO CIRT Team members and respond to the MCD for briefing. Initial CIRT activation was requested by the Eureka Police Department, but it was later determined HCSO would take on the role of primary during the CIRT Investigation.

I contacted Inv. S. Hicks, Inv. D. Henderson, Inv. B. Head and Evidence Technician A. [redacted] and requested they respond to the MCD. I deployed and prepared to head to the MCD as well. While enroute, I again spoke to Lt. Williams who had gained more information regarding the incident. I was informed that deputies had initiated a vehicle pursuit in the Pine Hill area of Eureka during which gunfire was exchanged between the suspect and deputies. The pursuit was ended when the suspect vehicle crashed into another, uninvolved vehicle near the intersection of Buhne and Harrison in the City of Eureka. Three suspects were detained at that time and no injuries to any parties had been reported. It was determined I would respond to the pursuit termination point to gather briefing information for the CIRT Team. I responded to the intersection of Buhne and Harrison streets in Eureka and met with Patrol Sergeants B. Waxler, M. Helm and B. Massaro. I arrived on scene at approx. 2040 hours.

I spoke with Main Station Patrol Sgt. Waxler and requested he brief me on the information known to him regarding the incident up to that point in time. Sgt. Waxler advised the following in summary (refer to his supplemental report for details):

Eureka Patrol Officer "Endsley" had initiated a pursuit on the suspect vehicle for excessive speed. EPD's pursuit was terminated and HCSO received a BE ON LOOKOUT (BOLO) information regarding the reckless driver and vehicle over the radio. A doubled training unit consisting of Field Training Officer J. Walstrom and Deputy Z. Dickson located the vehicle in the "Herrick area" and initiated a traffic enforcement stop for an unknown violation. A pursuit was initiated by deputies when the suspect vehicle failed to yield. During the pursuit "SHOTS FIRED" was broadcast by deputies near the intersection of Vance and Eureka streets. A second "SHOTS FIRED" was broadcast by unknown deputies in the area of Utah and Highland streets in Eureka. The pursuit continued Eastbound on Buhne to the intersection of Harrison street where it terminated when the suspect vehicle collided with an uninvolved vehicle. Two male and one female suspect were detained at that time. The only suspect identity known by Sgt. Waxler was that of alleged shooter (S) [redacted] Sgt. Waxler advised only one deputy had fired his weapon "more than once" and the shots appeared to have been fired through the patrol vehicle windshield at the suspect. Sgt. Waxler clarified this was only his opinion, based on his observations. No suspects or firearms were reported to be outstanding. No other parties were believed to have been injured as a result of the incident. FTO B. Anderson was identified as having been the secondary unit in the pursuit. Walstrom and Dickson had been escorted to the Eureka Police Department. Anderson remained on scene. No information other than public safety statements were requested of the involved deputies on scene.

I spoke briefly with Sergeants Massaro and Helm. Both related information similar to Sgt. Waxler's statement

that contained no new, relevant information. Refer to their supplemental reports for further details.

I responded to HCSO Main Station and briefed the CIRT Team members in attendance. I was notified Inv. Hicks and District Attorney Inv. B. Brawner would co-lead the CIRT investigation. A response plan was developed and four teams were dispatched to four scenes to collect/process evidence and further investigate the incident. Refer to Inv. Hicks initial report and individual supplemental reports for assignment details.

I remained at the MCD to assist with logistics, support and investigation supervision duties.

This report is for information only.

Nothing further.

1377 TAYLOR, BRIAN	07/21/2022	1285 WILLIAMS, SAMUEL	08/03/2022
[] *BODY CAMERA RECORDED*			

On 07-20-2022, I was on uniformed patrol driving a fully marked HCSO patrol vehicle. I was assigned to the Southern Humboldt area of Humboldt County for my twelve-hour nighttime patrol shift.

At approximately 1927 hours, I observed a call for service in RIMS wherein numerous HCSO deputies were involved in a vehicle pursuit in the Eureka CA area of Humboldt County. I observed in the call that shots had been fired and a "Code 30" was initiated; meaning all available units respond to assist.

I traveled to Eureka from Garberville to assist where needed. During the time I was traveling north, numerous scenes were being secured by patrol staff. I initially responded to the road closure located at Vance St. and Herrick Ave. in Eureka. This location was an outer perimeter closure.

I did drive to each incident scene to provide food and beverages to on-duty personnel. While at the Buhne St. and Harrison St. location, I did not cross the crime scene perimeter therefore I was not logged as being in the scene.

At approximately 0050 hours on 07-21-2022, I was tasked to transport [redacted] from the HCCF to St. Joseph's Hospital to be medically cleared for booking. When I arrived at the Hospital, I was joined by Sergeant J. McCall who stood by with me as [redacted] was cleared for booking by medical personnel.

At approximately 0153 hours, [redacted] was cleared for booking and I transported him back to the HCCF.

I was not assigned any further details regarding this incident.

END

[ ] *BODY CAMERA RECORDED*			

On 20 July 2022 I was working as a Patrol Sergeant for the Humboldt County Sheriff's Office (HCSO), driving a marked patrol vehicle, and wearing a distinct uniform. I was assigned to the North Area Command (NAC), stationed out of McKinleyville, County of Humboldt, California.

At around 1920 hours, I was in the Eureka area and had just left the Sheriff's Office Main Station to respond back to McKinleyville. I overheard radio traffic being broadcast by Deputy Anderson who advised he was attempting to conduct a traffic enforcement stop on a high-speed vehicle on Fairway Drive near the Eureka Municipal Golf Course, in Eureka.

Deputy Walstrom, who is a Field Training Officer (FTO), was doubled up with Deputy Dickson and I overheard that they were with Deputy Anderson attempting to conduct the traffic stop. Moments later, I heard that the suspect vehicle was failing to yield, and the incident escalated into a vehicle pursuit. Upon hearing this, I elected to stay in the Eureka area and began to respond towards their location to assist.

I overheard Deputy Anderson advise the suspect vehicle had turned onto Vance Avenue and was heading north, passing by Pine Hill School, located at 5230 Vance Avenue. Suddenly one of the pursuing deputies shouted on the radio that shots had been fired by the suspect vehicle, towards them. They continued pursuing the suspect vehicle along various roads in the Pine Hill area of Eureka, heading north back towards the city limits of Eureka.

I upgraded my response utilizing my patrol vehicles emergency lighting and siren. I headed towards where the pursuit was taking place and overheard the pursing deputies advise that the suspect had fired additional rounds at them, somewhere on Utah Street in the City of Eureka.

The pursuit continued along several other surface streets in the city, heading both north and then eastbound where the suspect vehicle was beginning to drive the wrong way on Henderson Street. The pursuit continuously changed directions, heading northeast and ended up on Buhne Street from O Street, where it continued east.

At about 1927 hours, Deputy Anderson advised that the suspect vehicle was involved in traffic collision at the intersection of Buhne Street and Harrison Avenue. I continued my response towards that location from Harris Street and I Street. I arrived at their location at about 1929 hours and situated my patrol unit facing north just south of the intersection.

I noted that the suspect vehicle, later determined to be a white, [redacted] Kia, [redacted] displaying California license: [redacted] was situated in the middle of the intersection and it had collided with a black sedan. I observed that there were three subjects that had been commanded to lay down on the ground near the damaged vehicles. Believing these were the occupants of the suspect vehicle, I deployed my department issued rifle and assisted with the high-risk detention of the suspects. I assisted Sergeant Massaro with the detention of (SA) [redacted].

Once the suspects were detained, I completed a physical check of the involved pursuing deputies for any possible physical injuries. I checked the persons of Deputy Walstrom, Deputy Dickson, and Deputy Anderson and confirmed that they did not require any immediate emergency medical attention.

1284 HELM, MATTHEW	07/21/2022	1025 MILLER, KEVIN A	08/03/2022
[ ] *BODY CAMERA RECORDED*			

It was determined that there were multiple crime scenes from the pursuit and subsequent shootings. Sergeant Waxler and I advised Corporal Leipzig, Deputy Boyer, and Deputy Stoner to respond to the crime scene located near the intersection of Vance Avenue and Eureka Street to secure it.

I then stood by until Lieutenant Miller arrived and took over command of the scene for HCSO. I assisted as needed on scene with coordinating responding units and scene security. At one point, it was asked if I had a digital audio recorder and it was provided to Sergeant Wilson of the Eureka Police Department (EPD) to be placed in his patrol unit where one of the additional suspects, (SA) [redacted] was detained. I later received the audio recorder back from Sergeant Wilson. While trying to review the recorded audio, it was determined that the recorder had some sort of malfunction, and the audio did not record.

I stood by for several hours at the termination point of the pursuit and then responded to the crime scene at Vance Avenue and Eureka Street. I assisted with coordinating with scene security with HCSO deputies for some time and then departed the scene.

This supplemental report is complete. Refer to all additional supplemental reports and the main report for details not mentioned here.

Nothing further.

[ ] *BODY CAMERA RECORDED*					

On 07/20/2022 at approximately 1730 hours, I was on uniformed patrol for the Humboldt County Sheriff's Office. I was travelling southbound on Highway 101 approaching the Humboldt Hill exit in Eureka, when I heard Deputy B. Anderson and Deputy J. Walstrom initiate a pursuit traveling westbound on Herrick Ave approaching Vance Street.

I exited Highway 101 at Humboldt Hill and took the northbound Highway 101 northbound to join the pursuit. I caught up with the other units after the suspect vehicle was involved in a traffic collision at the intersection of Buhne Street and Harrison Avenue in Eureka. I positioned my patrol car facing northbound on Harrison Avenue at the intersection of Harrison Avenue and Buhne Street.

I exited my patrol vehicle and proceeded to engage the three subjects in a high-risk traffic stop. I communicated with my arrest team consisting of Sergeant B. Massaro, and Sergeant M. Helm, among other officers from various assisting agencies. I ordered clear concise instructions to (SA) [redacted] and assisted in taking [redacted] into custody without incident.
After all three subjects were taken into custody and placed in the back seat of patrol vehicles I began to help establish a inner and outer crime scene perimeter using department issued caution tape.

At approximately 1920 hours I was dispatched to contact (M) [redacted] at her residence of [redacted] [redacted] residence had been struck by a bullet during the pursuit and I was instructed by Sergent Helm to contact [redacted], take an initial statement, photograph the scene, and secure the evidentiary integrity of the scene until investigators arrived.
I arrived at [redacted] at approximately 1930 hours and contacted [redacted]. The following is a summary of [redacted] statement:

[redacted] was sitting on her living room floor watching a movie with her son (M) [redacted] when she heard sirens pass her house and a loud bang. [redacted] felt something hot land on her arm. [redacted] looked down and realized it was a bullet. [redacted] then grabbed [redacted] and retreated to the kitchen and called law enforcement.

I inspected the exterior and interior of the household and observed the following. On the left side of the front door there was a hole where I suspected a bullet stuck the house. On the interior side of the same wall there was what I observed to be a exit point for the bullet. At the time of the incident there was a canvas painting hanging on the wall where the bullet struck. I observed a circular dent in the frame of the painting consistent with a bullet striking it. I photographed and documented the entrance point, exit point, and the canvas painting that was struck. I also took photographs of the small visible burn mark on the right arm of [redacted] where the bullet landed. I collected the bullet fragment from [redacted] and later turned it over to the forensic team to be processed and booked into evidence.

I concluded my interview with [redacted] and secured the scene until the forensic evidence team arrived.

At approximately 2031 hours, I was instructed by Sergeant B. Waxler to contact [redacted] at CID's office in Eureka to transport [redacted] to the Humboldt County Correctional Facility.

Prepared By:	Date:	Approved By:	Date:
2415 NASCA, PHILLIP	07/21/2022	0872 QUENELL, BRYAN J	07/21/2022
[X] *BODY CAMERA RECORDED*			

I arrived at Humboldt County Sheriff's Office and along with Sergeant Massaro, escorted [redacted] to HCCF to be released to the custody of HCCF Staff.

At approximately 0059 hours, I returned to the crime scene at Buhne Street and Harrison Avenue. On scene I contacted Sergeant Waxler who instructed me to complete CHP-180 forms for the suspect's vehicle ([redacted]) and Deputy Walstrom's patrol vehicle (#07236). I completed a CHP-180 form for Deputy Walstom's patrol vehicle and partially completed a CHP-180 form for the suspect's vehicle. Deputy Boyer completed the CHP-180 form for the suspect's vehicle.

At approximately 0133 hours, I arrived back on scene at [redacted]Vance Avenue. I contacted the forensic evidence team and transferred the bullet fragment I had retrieved from the residence.
At approximately 0146 hours I was dispatched to Saint Joeseph's Hospital to take custody of (SA) [redacted]. I stood by with [redacted]as he was medically cleared by Saint Joeseph's medical staff.

At approximately 0252 hours, I transported [redacted] to HCCF. Upon arrival at HCCF I informed [redacted] of the search warrant that was issued for his personal belongings and clothing. I informed [redacted] that he was required to remove his clothing and I would be taking possession of them for evidence. Upon informing [redacted] he mentioned he was in possession of a small plastic bag containing Fentanyl. After taking possession of [redacted] clothes and allowing him to dress in HCCF prisoner attire, I observed a small plastic bag fall from his waistband and land on the floor of the Sally Port. I collected the bag and later booked it into HCSO Property as evidence.

Upon booking the plastic bag containing suspected Fentanyl, I weighed the bag which had a gross field weight of 9.27 grams. I booked [redacted] clothing into HCSO Property as evidence.

I recorded the felony traffic stop and my interview with [redacted] on my Body Worn Camera and tagged both with a case number.

This report is a supplemental for case 202203774.

Prepared By:	Date:	Approved By:	Date:
2415 NASCA, PHILLIP	07/21/2022	0872 QUENELL, BRYAN J	07/21/2022
[X] *BODY CAMERA RECORDED*			

On July 20, 2022, I was working as a patrol deputy for the Humboldt County Sheriff's Office and assigned to work in the Garberville station patrol area. I was wearing the marked uniform of a HCSO Deputy Sheriff and driving a marked patrol vehicle.

At approximately 1927 hours, while monitoring my Mobile Data Terminal in the Garberville area, I learned that other HCSO Units were involved in a vehicle pursuit during which an occupant in the suspect vehicle began shooting at Deputies. This initiated a "Code 30" call, which is a request for all available law enforcement officers respond to the incident location for assistance. I immediately responded to the Eureka area. Refer to main narrative for further details.

At approximately 2017 hours, I arrived at the intersection of Herrick Avenue and Vance Avenue in Eureka, which had been identified as the southern boundary of a crime scene where the suspect first fired his weapon at deputies during the pursuit. HCSO Deputies had blocked Vance Avenue to further vehicle traffic. I was directed to respond to the intersection of Meyers Avenue and Eureka Street to relieved HCSO Lieutenant Taylor, who had positioned himself there to block off vehicle traffic at the northern end of the crime scene.

At approximately 2033 hours, I relieved Lt. Taylor at the intersection of Meyers Avenue and Eureka Street. I positioned my patrol vehicle to partially block both lanes of traffic and activated my patrol vehicle's emergency lighting to warn traffic traveling southbound on Meyers Avenue as they approached my position. I also set up yellow "Crime Scene" tape between two power poles to further block traffic from the intersection. Lt. Taylor initially stated that residents who lived in the cordoned off area should be allowed entry. This continued until Arcata Police Department Sergeant Ortega arrived on scene with an evidence collection team, at which time I was instructed by Sgt. Ortega to restrict all traffic at the intersection until further notice. While at my post, I allowed various law enforcement officers to access the scene as part of the investigation. Refer to the crime scene log for additional information.

At approximately 0225 hours, I was relieved of my position by HCSO Deputy T. Rogers and cleared the scene.

Supplemental report for information only. Any further information will be documented in a supplemental report.

Nothing further.

Prepared By:	Date:	Approved By:	Date:
2363 CAMPADONIA, RYAN	07/21/2022	0872 QUENELL, BRYAN J	07/21/2022
[ ] *BODY CAMERA RECORDED*			

On 07/20/2022, I was working in an on-call capacity as an investigator for the Humboldt County Sheriff's Office (HCSO).

At approximately 1956 hours I was called out to assist with a reported officer involved shooting. Upon arriving at the office, I reviewed the call for service, HCSO incident #2207200161, listened to segments of body worn camera footage from this incident and received a briefing of the incident from Detective Sergeant B. Taylor. The following is a combined summary of the information I received.

At 1920 hours, an HCSO patrol unit attempted to initiate a traffic stop on a high-speed vehicle traveling on Fairway Drive in Eureka, CA. The patrol unit was a double unit with FTO Walstrom and his trainee, Deputy Dickson. A license plate number of [redacted] was provided for the suspect vehicle. Approximately one minute later, the deputies indicated they were in pursuit of that vehicle. At 1921 hours the deputies advised shots had been fired from the suspect vehicle. The radio traffic related to this incident was a combination of multiple deputies that were involved in the pursuit.

Additional shots were fired from the suspect vehicle at 1924 hours in the area of Utah and Highland Streets in Eureka. On the body worn camera footage, I heard FTO Walstrom indicate shots had been fired by officers near that location as well. The pursuit continued going the wrong way on the one-way portion of Henderson Street and led to eastbound Buhne Street. The suspect vehicle ultimately collided with another vehicle in the intersection of Buhne St and Harrison St where the pursuit ended.

I contacted HCSO Undersheriff Braud via phone who was at the location of the traffic collision. US Braud confirmed the license plate number in the call for service and described the suspect vehicle as a white Kia [redacted] (SUV). US Braud told me an assault rifle type firearm was located on the ground in-between the suspect vehicle and the other vehicle involved in the collision.

As a result of the pursuit, three passengers of the suspect vehicle were detained. I spoke to HCSO Sergeant Helm who observed [redacted] Sergeant Helm said [redacted] was a passenger of the suspect vehicle.

I then spoke with HCSO Sergeant Waxler who spoke with the other two occupants of the suspect vehicle after they were detained. Sergeant Waxler told me [redacted] was identified by an ID card he had on his person and [redacted] identified herself by name.

Using this information, I authored a search warrant and contacted the Honorable Judge Kelly Neel, who was on-call. Judge Neel approved and signed the search warrant returning it to me via email. The search warrant was assigned a number the following morning, SW2200437.

After obtaining the signed warrant, I advised Detective Unsinger with the California Highway patrol. He had been assigned as the team leader of crime scene segment that contained the suspect vehicle. I provided him a copy of the search warrant via email.

At that time, I was told the suspects were going to be brought in to the HCSO main station for interviews. The

search warrant I had obtained authorized the collection of a DNA reference sample from all three suspects.

[redacted] was the first suspect to be interviewed. When [redacted] was brought in, some of his belongings were contained in a small paper bag and provided to investigators by Sergeant Massaro. I have no other information surrounding the collection of these items.

I observed the interview of [redacted] from an alternate room as it occurred. Refer to Investigator Hicks' and Brawner's reports for more information. At the conclusion of their interview, it was requested I obtain the DNA reference sample from [redacted]. I entered the interview room wearing gloves and had a Bode DNA Buccal Collector still in the sealed plastic packaging. I told [redacted] I had a search warrant to obtain his DNA reference sample and explained to him how to collect his own sample. [redacted] swabbed the inside of both his cheeks and then placed the collector into a new transport pouch. I later booked the pouch into property as evidence.

Some time later, [redacted] was walked over to the Humboldt County Correctional Facility (HCCF) by Sergeant Massaro and Deputy Nasca. Sergeant Massaro later returned with [redacted] clothing that had been collected at the time of his booking into the HCCF and placed into paper bags. I later booked [redacted] personal items and clothing into property as evidence. Those items and [redacted] other property are described as indicated below.

I first examined the contents of the small paper bag first provided by Sergeant Massaro. Inside the bag I located:

Locs brand sunglasses
a cell phone
two black and white velcro patches which read "SWAT"
BIC lighter
one syringe
purple and green knife
Blue Lake Casino rewards card with the name "[redacted]"
brown tri-fold wallet.

The contents of the wallet were as follows:

Bear River Casino door key-card
Las Vegas Coin Laundry card
Gold Caesars reward card
Moneytree card
Spring 2019 Housatonic Community College Student ID card for "[redacted]"
Nevada ID card for [redacted]
Social Security Card for [redacted]
Visa Debit Card ending [redacted]

I further examined the cell phone and was unable to locate any additional model or device information. I recognized the operating system as Android and the device did not appear to be password protected when I placed it into airplane mode. I booked the device into locker #5 in the secured MCD phone storage area. The device had a cracked screen, silver back plate and a silver finger loop adhered to the back of the device.

The clothing collected from [redacted] is described as follows:

Left Shoe - Black Converse size 11
Right Shoe - Black Converse size 11
White & Blue boxer shorts
Two white and black socks
Gray Hanes T-shirt
Black and white Shaka Wear shorts

[redacted] was the next person to be interviewed. Fortuna Police Detective Taylor brought [redacted] from the scene to the station, along with a paper bag containing [redacted] property. At the conclusion of the interview, I again obtained a DNA reference sample. I entered the interview room wearing gloves and had a Bode DNA Buccal Collector still in the sealed plastic packaging. I told [redacted] I had a search warrant to obtained his DNA reference sample and explained to him how to collect his own sample. [redacted] swabbed the inside of both his cheeks and then provided me the collector. I placed the collector into a new transport pouch. I later booked the pouch into property as evidence.

The personal property brought along with [redacted] was later booked by me and is described as follows.

Baseball cap
Black tri-fold wallet
Large torch lighter
Bear river key-card
Unopened pack of Kamel cigarettes
CA driver's license [redacted]
White latex glove
-assorted plastic bags
2 resealable plastic bags - sandwich size

I viewed the contents of the plastic bags and all but one appeared to be empty. One single bag that depicted a blue stamped character appeared to contain a very small amount of a white powdery substance. I did not test the substance as it did not appear to be a testable amount and the plastic bags were booked along with the glove as potential drugs.

I then viewed the contents of the wallet that contained a large number of different cards, see photos for more information. Also in the wallet was $38 in US currency that Investigator Hicks also counted. The

denominations of the bills were 1-$20, 1-$10, 1-$5, 3-$1. I booked the currency into property as a separate item. The cards and driver's license were put back into the wallet and booked into property together. The left over items were then booked in together as the final property item associated with the items i had for [redacted].

[redacted] was last to be interviewed. I was asked to obtain her reference sample during a break in the interview. I entered the interview room wearing gloves and had a Bode DNA Buccal Collector still in the sealed plastic packaging. I told [redacted] I had a search warrant to obtained her DNA reference sample and explained to her how to collect her own sample. [redacted] swabbed the inside of both her cheeks and then provided me the collector. I placed the collector into a new transport pouch. I later booked the pouch into property as evidence.

All three individuals were provided a copy of the search warrant for their own records. Photographs of all booked items were copied and booked into property as evidence.

On 07/21/2022, I spoke with Evidence Technician [redacted] and learned only one item had been seized as a result of the scene and suspect vehicle examination at the intersection of Buhne St and Harrison St. This item was a FEG AK-47 type rifle with serial [redacted]. ET [redacted] told me he had located a cell phone inside the suspect vehicle and placed it in airplane mode. The device was left inside the vehicle and the vehicle was towed to Humboldt Towing in Eureka for further examination. No further search other than what was in plain view was conducted for the contents of the suspect vehicle.

I returned the first search warrant and subsequently sought an additional warrant to conduct a search of the suspect vehicle at Humboldt Towing in Eureka, CA. This search warrant was signed by the Honorable Judge Gregory Elvine-Kreis, SW2200440.

Phone Call - [redacted]
07/21/2022

On 07/21/2022, [redacted] called into the HCSO dispatch center to advise she had witnessed part of this incident.

[redacted] said she was walking her dog in the area known as "Jacobs Field". This field is located east of Utah Street and in between Alice Barney Elementary School and the old Zoe Barnum School buildings. [redacted] said she observed a white SUV and two police cars "fly by" toward the mall. [redacted] said she heard several "pops" and thought the car in front was shooting towards the police cars. [redacted] also said she felt as thought the bullets went into the field area. [redacted] said she heard 3-4 "pops". [redacted] said she thought the cars would have been traveling through the "little dip" between the two schools. [redacted] then helped me find the locations she was talking about as I looked at a overhead map of the area. [redacted] had no additional information for me at that time. [redacted] said she could only hear the gunfire and did not see the vehicles at the time of the shots.

Key Retrieval
07/22/2022

On 07/22/2022, I was tasked with retrieving items from Deputy Walstrom's Patrol vehicle that had been towed in relation to this case. Investigator Hicks told me Deputy Dickson had requested someone locate and provide him with the keys to his personal vehicle. Investigator Hicks said the keys would be located in the front passenger door pocket or inside Deputy Dickson's patrol bag in the trunk compartment the patrol vehicle. Investigator Hicks also provided me with two keys to the patrol vehicle.

I notified Humboldt Towing of my intent to access the vehicle. I contacted DA Investigator Brawner who walked with me to Humboldt Towing. I signed us both in at 0903 hours. The patrol vehicle was inside the larger storage area backed in to a row of other vehicles. I observed the vehicle number to be 07236. I observed the patrol vehicle to be unlocked. I cut the tape to the front passenger door and opened it. I could immediately see there were no keys in the door pocket. I then shut the door. I was able to get the trunk hatch opened after cutting the two pieces of evidence tape sealing it and called DAI Brawner back to witness the collection. There were two patrol bags in the trunk area and one was labeled with a patch identifying it as Deputy Walstrom's. I then checked the contents of the other bag's main pocket and located a key ring with two key fobs, one for a Honda. I checked two other small pockets on the bag and did not locate anymore keys. I closed the trunk hatch and locked the doors. I then signed us out at 0912 hours. I performed no additional examination or search of the vehicle at that time. I turned over the patrol vehicle keys and the key ring I collected to Investigator Hicks.

Evidence Booking
07/22/2022

On 07/22/2022, ET [redacted] and EPD Sr Detective Cosetti arrived at the HCSO main station. I was told they had recovered evidence in this case and were requesting it be booked into property. I was provded a small envelope that had writing on the outside. The writing indicated the contents had been collected from [redacted] Vance Street. I removed the contents and observed what appeared to be a bullet fragment. I took two photographs of the fragment and then booked it into property as evidence, item #37. Refer to ET [redacted]s and Sr Detective Cosetti's reports for more information about the coolection of the item.

SW2200440 - Suspect Vehicle
07/26/2022

On 07/26/2022, Investigator Hicks, ET [redacted] and a team from CA DOJ served SW2200440 at Humboldt Towing in Eureka, CA.

I was not present for the service and subsequent search. Refer to their reports for additional information. On 07/28/2022, I was provided two search warrant inventory forms indicating the items seized. I returned the warrant the following day and have attached a copy of the documents to this report in RIMS.

Prepared By:	Date:	Approved By:	Date:
2066 HEAD, BRANDON	07/21/2022	1285 WILLIAMS, SAMUEL	08/03/2022
[ ] *BODY CAMERA RECORDED*			

On 07/20/22, I was employed by the Humboldt County Sheriff's Office (HCSO) as a Sheriff's Sergeant assigned to the Special Services Division. On that date I was contacted while off duty at about 2045 hours and asked to respond to the Eureka area to assist with scene security related to an officer involved shooting (OIS) that occurred in the course of a pursuit that the HCSO had been involved in.

At about 2110 hours, I responded to Eureka where I met with Under Sheriff Braud and Lt. Miller at the termination point of the pursuit and OIS at the intersection of Harrison Ave. and Buhne Street. I remained at this location until around 2315 - 2330 hours when I moved to Harrison Ave. north of Buhne St. to relieve a CHP (California Highway Patrol) unit manning the road closure at that location.

At around 0045 hours on 07/21/22, I was directed by US Braud to respond to St. Joseph's ER to meet a deputy who was transporting one of the in-custody subjects to that location for medical clearance for booking. At about 0058 hours, I met with Deputy Soeth at the hospital and stood by at that location with him until around 0150 hours when (SA) [redacted] was cleared medically and transported to jail by Deputy Soeth. I then returned to the nearby scene I had previously been assigned to.

At around 0213 hours I responded to the intersection of Vance Ave. and Herrick Ave. in Eureka where Deputy Stoner was manning a road closure for crime scene preservation north of that location. I relieved Deputy Stoner and took control of the crime scene log he was responsible for at this location. I maintained this post until about 0315-0320 hours when the area was reopened. At that time I provided the crime scene log to HCSO Deputy T. Jones and then cleared the scene.

Nothing further at this time.

[ ] *BODY CAMERA RECORDED*			

On 07-20-22 at approximately 2045 hours, I was off duty. I was contacted by HCSO dispatch. They informed me of this incident and requested I respond to assist with scene security. They also instructed me to contact Lt. Williams for more information. I contacted Lt Williams by phone. He requested that Sergeant McCall, Deputy Whilloughby and I respond to the pursuit termination point at the intersection of Buhne and Harrison and meet with Undersheriff Braud for further assignment.

I arrived at this location at approximately 2200 hours. When I arrived Sergeant McCall was already on scene. I was instructed to relieve a CHP Officer who was staffing a road closure on Harrison Street at the intersection with Russ Street. I relieved the CHP Officer and staffed this road closure until the crime scene was opened back up at approximately 0210 hours.

After completing this assignment I was dispatch to go relieve Deputy Campadonia who was staffing a road closure at the intersection of Myers Ave and Eureka Street. I arrived at this location at approximately 0220 hours and relieved Deputy Campadonia. I remained at this location until this crime scene was opened back up at approximately 0320 hours.

Supplemental report for documentation only.

SUPPLEMENT:

On 7/20/2022 at approximately 2015 hours, I responded to the area of Buhne Street and Harrison Avenue, City of Eureka, to assist a Deputy who was involved in an Officer Involved Shooting. I had no prior knowledge of the events leading up to, or the events during the incident. I was requested by the primary Deputy involved to be their peer support.

I arrived on scene at approximately 2023 hours. Upon my arrival, I contacted the primary Deputy involved in the incident. I acted as peer support; and informed them of the process to follow, seeing as I had previously been on scene for an Officer Involved Shooting.

I collected the involved Deputy's exterior vest and secured it in the trunk of my vehicle. At approximately 2036 hours, I transported the involved Deputy to the Eureka Police Department where the Deputy was subsequently contacted by Detectives. I arrived at the Eureka Police Department at approximately 2041 hours and remained with the Deputy until I was advised by the Sheriff I could leave. While at the Eureka Police Department; the Deputy's vest was taken, photographed, and then returned to the Deputy. I left the Eureka Police department at approximately 2330 hours.

This outlines and concludes my involvement in the incident.

DISPOSITION:

Attach to original report.

2453 DEARING, JORDAN	07/25/2022	0872 QUENELL, BRYAN J	07/25/2022
[ ] *BODY CAMERA RECORDED*			

On 7/20/2022 at about 1920 hours, I was on duty driving a marked HCSO patrol SUV. I was traveling on Broadway St., Eureka when I heard radio traffic from Deputy B. Anderson initiating a traffic enforcement stop in the area of Fairway Dr., Eureka. Deputy Anderson's voice was calm and collected as he requested an additional unit for assistance. Shortly after, I heard the voice of Deputy Z. Dickson over the radio. His voice was elevated and rapid, advising units were in pursuit of the vehicle Deputy Anderson was attempting traffic on.

Within less than a minute of that transmission, I heard radio traffic that shots were being fired and the Deputy calling for more units.

I heard radio traffic the suspect vehicle was traveling the wrong way on Henderson St. I know Henderson St. to be a one-way street traveling West, which told me the suspect vehicle was traveling East. I drove East on Harris St., listening for updates when I heard radio traffic the suspect vehicle had been involved in a traffic collision in the intersection of Buhne St. and Harrison Ave.

I responded to that intersection and positioned my vehicle on Harrison Ave., South of the intersection, facing North. I observed Deputy P. Nasca and his vehicle positioned to my left facing the same direction. Upon arrival I observed a white SUV and a blue sedan in the middle of the intersection that appeared to have been involved in a traffic collision. Additional deputies were positioned on Buhne St. facing East towards the collision.

I observed a male subject being called back to the deputies on Buhne St. and then detained in handcuffs. I then observed a female subject called back to the deputies on Buhne St. and then detained in handcuffs. A third male subject was laying in the prone position on the ground to the front of the blue sedan. His head was pointed South and his feet were pointed North.

Deputies on the Buhne St. side yelled to me they wanted the prone subject called to my location and detained. Deputy Nasca and I coordinated calling the prone subject away from the vehicles, to our location. I detained the subject in double-linked handcuffs behind his back and performed a quick pat search of high-risk areas on his person (i.e. waistband, side pockets, mid-back). The subject informed me that he had a pocket knife in one of his pockets. I did not immediately feel anything resembling a weapon. I walked the subject to the rear of my patrol vehicle where I emptied the contents of his pockets onto the ground.

It should be noted that I recognized this subject from prior Law Enforcement contacts as [redacted] [redacted] was compliant and cooperative during this process.

In the right pocket of [redacted] shorts, I located a folding knife having an iridescent handle, a hypodermic syringe, two (2) tactical Velcro patches bearing "SWAT", and a plastic card. In his left pocket, I located a wallet. I did not open the wallet or examine its contents in any way. I then placed [redacted] in the back seat of my patrol vehicle and rolled down the windows at his request. I returned to the property removed from [redacted] person and placed it into a paper bag.

I asked [redacted] if he needed anything else before I returned to assist with the scene and he asked if we could speed up the process and allow him to speak with whomever he needed to talk to about the incident. He made

spontaneous statements that he was the only one in the car that shot, he already had two (2) strikes against him and this was "Game Over" for him, and just wanted to get on with the process.

I then returned to the scene and began assisting with setting up barrier tape and various tasks as assigned.

I returned to check on [redacted] and he complained about pain in his back. I lifted [redacted] shirt and looked at his back. I saw no redness, bruising, or obvious signs of injury. [redacted] asked how much longer this was going to take. I informed him that the incident had a lot of moving parts, other people involved, and several scenes to be processed. [redacted] spontaneously stated that the other persons in the vehicle with him were not involved; he ([redacted]) forced them to drive the car, and he ([redacted]) was the only one shooting. He then began talking about how he initially wanted to hurt the deputies chasing him, but then realized that the shots he was hitting the patrol car with were having no effect because the vehicle has "armor". [redacted] added that he stopped shooting because he was concerned someone else (uninvolved) was going to get hurt. [redacted] made statements that he had a thirty (30) round magazine and more ammunition in the vehicle, so he could have shot more if he wanted to.

These statements were not recorded with my body worn camera or voice recorder. After these statements were made, I placed my audio recorder in the vehicle to record any future conversations. At the time of this report, I have not reviewed any of my BWC recordings regarding this case.

I thanked [redacted] for his candor and cooperation and advised him that we were working on getting an investigator to come talk with him soon. Shortly after, at his request, [redacted] was served/given water from a fresh water bottle. [redacted] remained handcuffed during this process.

At about 2257 hours, I departed the scene with [redacted] and transported him to the interview room of the Major Crimes Division of the Humboldt County Sheriff's Office. I released him to the care and custody of Humboldt County Investigator S. Hicks and Humboldt County DA Investigator B. Brawner. The property collected from [redacted] person at the time of his detention was provided to MCD Investigators.

I returned to the intersection of Buhne St. and Harrison Ave., Eureka at about 2329 hours. At about 0013 hours, I was tasked with transporting [redacted] from HCSO-MCD to the HCCF for booking. I arrived at HCSO-MCD at about 0018 hours.

With the assistance of Deputy Nasca, I escorted [redacted] to the HCCF where his clothes were collected and bagged as evidence. [redacted] was then walked to the processing room where he was denied medical clearance by HCCF medical staff due to his involvement in the earlier traffic collision without having been cleared by medical staff at a hospital (per HCCF medical staff protocol).

[redacted] was transported to St. Joseph's Hospital by Deputy M. Soeth.

Deputy Nasca and I returned to HCSO-MCD and handed [redacted] clothing to Investigator S. Hicks.

NARRATIVE

Investigation:

On 08/01/2022 I received an email from [redacted]. [redacted] is employed as the Coordinator of Maintenance, Operations and Transportation for the [redacted] informed me that she is able to access video surveillance from Pine Hill Elementary School from the evening hours of 07/20/2022. [redacted] informed me that she does not have the knowledge to download or send the video but could make the video available for me to view if I was interested in doing so. [redacted] explained that the person who has that knowledge and ability is currently on vacation and would not be back until 08/08/2022.

Fearing that the video could be overwritten at any time, I requested that [redacted] allow me to take a video recording of the surveillance video as it played on the surveillance screen. I met with [redacted] at about 1140 hours to do so. I recorded and saved four videos of which depict a white in color SUV being pursued by two marked HCSO Police Vehicles at (a displayed time of) 1921 hours on 07/20/2022. The videos are captured from two cameras on a northeast and southeast side of Pine Hill Elementary School. **Investigators Note: The cameras do not capture audio.**

I've included a copy of those recordings with my report.

NARRATIVE

Investigation:

On 07/20/2022 at about 1959 hours, I was notified by Chief Investigator Kyla Baxley that an Officer Involved Shooting had occurred in the County of Humboldt. I was directed to attend an operational briefing at the Humboldt County Sheriff's Office Main Station at 2115 hours.

The briefing was conducted by HCSO Lt. Sam Williams and HCSO Sgt. Brian Taylor. I learned that three suspects had been detained and had yet to be interviewed. I also learned that Law Enforcement had cordoned off three locations within and on the outskirts of the City of Eureka. Those locations were Vance Ave. at Eureka St., Utah St. at Highland Ave. and Buhne St. at Harrison Ave. At the briefing I was assigned to Team Two led by APD Detective Victoria Johnson to process and canvas the area of Utah St. at Highland Ave.

Team Two consisted of APD Det. Victoria Johnson, Eureka Police Evidence Technician [redacted] DAI Martin Morris, Eureka Police Sr. Detective Amber Cosetti, Arcata Police Evidence

Technician [redacted] and Fortuna Police Officer Dylan Burley.

I paired with Det. Johnson and we traveled from HCSO to Utah St. at South Ave, where we entered a taped off incident scene at approximately 2215 hours. I met with Eureka Police Officer Henrich Soltow and Eureka Police Detective Joseph Couch as they were standing inside the taped off location. Det. Johnson requested that Officer Soltow begin a crime scene log. I asked Det. Couch to brief me on the incident scene as he knew it. Det. Couch informed me that a suspect vehicle had been pursued by HCSO Deputies through the cordoned off area and that he understood an exchange of gunfire may have occurred between the suspect and pursuing deputies near the intersection of Utah St. and Highland Ave. While awaiting additional resources to respond, Det Couch informed me that Officers had noticed what appeared to be a firearm projectile (bullet fragment) on the shoulder of the roadway as well as one apparent projectile impact point on the eve of a residence several feet away. Both evidence items were marked for identification so as to prevent any accidental disturbance of the evidence.

Around this time a California Department of Fish and Wildlife Police Officer (Warden) Mike Hampton arrived at this location with a Police K9 named "Leeloo". "Leeloo" (a German Shepard) is a trained K9 certified in locating ammunition cartridges, including their projectiles and casings to assist CDFW Warden's predominantly in poaching investigations. Beginning at east sidewalk of Utah St. at South Ave, "Leeloo" (directed by Warden Hampton) searched the east shoulder of the roadway in a southern direction on Utah St. all the way to Allard Ave. "Leeloo" then continued a search on the western shoulder of the roadway in a northern direction on Utah St. across South Ave. and northbound on Central Ave to Burrill Street. At this intersection "Leeloo" alerted to a power pole on the east corner of the intersection of Central Ave. and Burrill St. Investigators located a possible bullet graze on that power pole about eighteen inches off the ground. Evidence Technicians inspected the damage to the pole and photographed it. "Leeloo" then continued in a southern direction on Central Ave. back to her initial starting point of Utah St. at South Ave, making a full circle.

Multiple Police Officers conducted a neighborhood canvas looking for audible witnesses, visual witnesses and available video evidence commonly contained within surveillance camera systems. Likely due to the evening hour many residents did not answer the door. I left my business card requesting a telephone call at each residence that appeared to have surveillance equipment.

County of Humboldt Office of the District Attorney INVESTIGATIVE REPORT	DEFENDANT / SUSPECT NAME	DATE	CASE NUMBER
	[redacted]	07/21/2022	DA22-146

CRIME	CROSS REFERENCE AGENCY	AGENCY CASE NUMBER	SUPPLEMENTAL NUMBER
Attempted Murder	HCSO	202203774	1

During a canvass, Officer Burley and I spoke with [redacted] who resides at [redacted]. [redacted] confirmed that he'd been home during the evening and recalled hearing four or five gunshots outside his home in rapid succession. [redacted] was in the garage at the time and did not visually witness anything. [redacted] lives alone and no one else was in his home at the time. [redacted] was vaguely familiar with operation of his Ring security system thus handed his tablet to Officer Burley to look through any stored videos. Officer Burley looked through the videos but found that the system was not triggered to capture any videos around the time of the shooting incident.

Officer Burley and I spoke with a woman who identified herself as [redacted] at [redacted]. [redacted] was inside her home when she heard approximately three shots outside her home. [redacted] explained that her two granddaughters were outside her home cleaning their car and [redacted] feared that they'd been shot at. [redacted] became emotional explaining such fear to Officer Burley and I. [redacted] said that she went outside and saw that her grand daughters were ok and had merely witnessed part of the incident. One of those granddaughters lives with [redacted] at the [redacted] residence and was present at the home when we spoke with [redacted]. [redacted] explained that the granddaughter was hesitant to speak with investigators fearing for her safety. I told [redacted] that I'd noticed she has a surveillance system attached to her home and asked her about the storage of any video. [redacted] explained that her camera system is live feed only and does not store video. Ultimately Officer Burley and I did speak with [redacted] granddaughter and identified her as [redacted]. [redacted] told us that she was outside the residence of [redacted] in the driveway cleaning out her car. [redacted] said that she observed two police cars with their lights and sirens pursuing a white SUV. [redacted] said that she observed an officer in the passenger seat of one of the pursuing police cars pointing a rifle at the white SUV they were following. [redacted] said that she then heard about three gunshots.

Once the Utah St. location was fully processed. Det. Johnson told me that Team One (led by APD Sgt. Chris Ortega) was in need of assistance. This team was collecting evidence and canvasing the neighborhood located on Vance Street between Herrick Ave. and continuing north onto Eureka St. to Meyers Ave. I responded to this scene with Det. Johnson. I canvassed the neighborhood with other investigators. I did not personally make contact with any individuals, nor did I locate any items of evidence. I noticed an extensive surveillance system at Pine Hill Elementary School. I left my business card at the entrance of the school and planned to follow up with School Administration on 07/21/22. I left this scene at about 0140 hours on 07/21/2022 once I was relieved by Det. Ortega.

County of Humboldt Office of the District Attorney INVESTIGATIVE REPORT	DEFENDANT / SUSPECT NAME	DATE	CASE NUMBER
	[redacted]	07/21/2022	DA22-146

CRIME	CROSS REFERENCE AGENCY	AGENCY CASE NUMBER	SUPPLEMENTAL NUMBER
Attempted Murder	HCSO	202203774	1

On 07/21/2022 at about 1035 hours I received a call from [redacted]. [redacted] told me that he lives at [redacted] and found my business card on his door. I informed [redacted] of the investigation and that I had noticed that he has a Ring Surveillance System on his residence that may have captured video which would assist our investigation. [redacted] recalled hearing several loud noises (gunfire) outside his home during the evening hours but dismissed them because he frequently hears fireworks outside his home in the evening hours. [redacted] said that he was willing to provide me any video he had and agreed to check his system for video I was seeking. I asked [redacted] to notify me whether or not he found that his device stored video of the event.

On 07/21/2022 at about 1225 hours, I received a telephone call from [redacted] who resides at [redacted]. [redacted] informed me that she found my business card on the door of her residence and was calling me back upon request. [redacted] said that she nor her husband [redacted] heard or observed anything the prior evening 07/20/2022 outside their residence. [redacted] confirmed that she does have a working surveillance system attached to her home. I asked [redacted] to check the system for the presence of stored video from 07/20/2022 which may depict any of the events being investigated. I asked [redacted] to call me back once she'd looked through her system and inform me whether or not she found that her device stored video of the event.

On 07/21/2022 at about 1259 hours, I received an email from [redacted] informing me that his camera system was offline at the time and did not record any video of the event on 07/20/2022.

On 07/21/2022 I emailed Pine Hill Elementary School [redacted] requesting a copy of his campus video surveillance for the evening of 07/20/2022.

On 07/21/2022 about 1427 hours I received a telephone call from [redacted] [redacted] informed me that she'd checked her surveillance system and determined that no video of the event was recorded.

On 07/24/2022 I received an email from [redacted] advising me that he had directed his staff to provide me with any surveillance images they have that depict the event. I will supplement this report with another should I receive any such video(s).

FIELD INVESTIGATION REPORT

To: Investigator Scott Hicks
Humboldt County Sheriff's Office, Eureka

Investigator Braden Brawner
Humboldt County District Attorney's Office

AGENCY CASE NUMBER: HCSO 202203774

BFS Case Number:	EU-22-000675-0001
Victim(s):	DEPUTY JORDAN WALSTROM DEPUTY ZACKARIAH DICKSON DEPUTY BRADFORD ANDERSON
Suspect(s):	[redacted]
Offense Date:	07/20/2022
Start of Testing:	07/20/2022
End of Testing:	09/09/2022
Report Date:	09/14/2022

ANAB Certificate FT-0334

BACKGROUND

I received a call from HCSO Detective Scott Hicks at approximately 2054 hours on July 20, 2022. Detective Hicks requested BFS laboratory assistance with processing what was described as an officer-involved shooting involving multiple locations across the city of Eureka earlier in the day. The events began when a Humboldt County Sheriff's deputy attempted a traffic stop on a vehicle. The vehicle failed to yield and a pursuit ensued. During this pursuit, an individual inside the vehicle reportedly shot at pursuing deputies; one deputy returned fire. The pursuit concluded when the suspect vehicle was involved in a traffic collision. Three occupants of the vehicle were detained.

The Humboldt County Critical Incident Response Team was activated to investigate this incident. Three primary areas along the pursuit route were identified for evidence processing. Two locations were associated with shots fired from the suspect vehicle and the third was the location of the collision and termination of the pursuit.

FIELD ACTIVITIES

I departed from the BFS Eureka Laboratory at approximately 2143 hours on July 20, 2022, with Criminalists [redacted] and [redacted]. We arrived at the Humboldt County Sheriff's Office in Eureka for an already in-progress briefing at approximately 2153 hours. The Eureka BFS staff were tasked with processing the location of the first reported shots fired from the suspect vehicle in the Pine Hill area of Eureka under the direction of team leader APD Detective Chris Ortega. Criminalists [redacted], and I arrived at the corner of Vance Avenue and Eureka Street in the Pine Hill area of Eureka at approximately 2223 hours.

Item S101 is an expended cartridge case. The cartridge case was located in the gutter on the south side of Eureka Street east of Leonard Drive and under guard by a uniformed deputy on our arrival. I collected the item after it had been scanned in place by a separate HCSO team.

Item S102 is an expended cartridge case. The cartridge case was reportedly recovered from the roadway by a resident on Eureka Street and then transferred to HCSO Deputy Boyer for safekeeping. Deputy Boyer transferred the cartridge case to me during scene processing.

Item S103 is an expended bullet jacket fragment. The bullet jacket fragment was reportedly recovered by a resident at [redacted] Vance Avenue after it struck her and then transferred to HCSO Deputy Nasca for safekeeping. Deputy Nasca transferred the bullet jacket fragment to me during scene processing.

This report shall not be reproduced, except in full, without written approval from the laboratory.

FIELD ACTIVITIES (continued)

Perforating bullet damage associated with item S103 was observed adjacent to the upper left edge of the [redacted] Vance Avenue residence front door. The bullet entered from the east-side exterior wall adjacent to the front door, perforated the wall, and reportedly knocked a picture off the wall before a bullet jacket fragment struck the resident inside. I documented with photos the exterior and interior residence bullet damage, the damaged picture, and an apparent burn injury reportedly caused by the bullet fragment to the right upper arm of the resident. I placed a trajectory rod through the bullet damage in the wall and left it in place for the HCSO scanning team.

The roadway, sidewalk, driveways, and sidewalk-adjacent lawn areas of Eureka Street and Vance Avenue, between Meyers Avenue and Herrick Avenue, were visually searched for expended bullets, expended bullet fragments, and expended cartridge cases; none were found other that those previously described. Given the history of the pursuit progressing west to east on Eureka Street, east facing structures, vehicles, and the roadway of Eureka Street between Meyers Avenue and Vance Avenue were visually searched for bullet damage; none was observed other that the previously described damage to [redacted] Vance Avenue.

All examinations were conducted using the methods outlined in TP-5.

EVIDENCE

I collected the following evidence during overnight scene processing on July 21, 2022:
Item S101: One expended cartridge case

I received the following evidence from Deputy Boyer during overnight scene processing on July 21, 2022:
Item S102: One expended cartridge case

I received the following evidence from Deputy Nasca during overnight scene processing on July 21, 2022:
Item S103: One expended bullet jacket fragment

I generated the following evidence at the Eureka Laboratory on July 22, 2022:
Item S104: One DVD with 34 photos taken during scene processing and a photo log

DISPOSITION

The item S104 DVD will be transferred to your agency in the normal course of business. The remaining evidence will be retained by the BFS Eureka Laboratory pending examination.

BACKGROUND

On July 20, 2022, an attempted traffic stop resulted in a pursuit and officer-involved shooting. The pursuit concluded when the suspect vehicle was involved in a traffic collision.

On July 26, 2022, a search warrant was served on the suspect vehicle. A Sheriff's patrol vehicle involved in the pursuit was also examined.

FIELD ACTIVITIES

I responded with Criminalist [redacted] to Humboldt Towing at a pre-arranged time on July 26, 2022. We were met by HCSO Investigator Scott Hicks and HCSO Forensic Specialist II [redacted]

Examination of Kia [redacted] suspect vehicle
The suspect vehicle was designated vehicle number one (V1). The vehicle was a Kia [redacted] with California license plates [redacted] Intact tape seals were present on all four doors, the hatchback, and hood. Brown paper bags were taped over both front windows; this was reportedly the solution to a dead vehicle battery that prevented window closure when it was seized on July 20.

From the hatchback area I collected a single expended cartridge case (V101) and a fanny pack containing mixed ammunition (V102). Other items observed but not collected from the hatchback area included duffel bags with clothing, two battery powered reciprocating saws, a vehicle floor jack, and two catalytic converters.

I collected no items from the rear seat area of the vehicle. Items observed but not collected from the rear seat area included a radio scanner and a single two-way radio.

From the front seat area of the vehicle I collected boxed ammunition (V104) and a single loose intact cartridge (V105). I also collected three containers (V103), each containing white powder residue, for safekeeping.

No apparent bullet damage or other obvious gross damage was observed to the vehicle's exterior. See HCSO reports for items collected by that agency during examination of the Kia [redacted] including suspected controlled substances and cell phones.

This report shall not be reproduced, except in full, without written approval from the laboratory.

FIELD ACTIVITIES (continued)

Examination of Ford Expedition patrol vehicle
The HCSO patrol vehicle was designated vehicle number two (V2). The vehicle was a Ford Expedition with California exempt license plates [redacted] Intact tape seals were present on all four doors, the hatchback, and hood.

Two pistol magazines, each containing seventeen rounds of intact 9mm Luger cartridges, were located in a chest rig which was in the hatchback-area of the vehicle. No other intact ammunition was located in the vehicle. The magazines and ammunition were not collected.

Three expended cartridge cases were collected from front seat area of the vehicle. The individual cartridge cases were located on the driver's seat floorboards (V201), between the driver's seat and center console (V202), and between the passenger seat and center console (V203).

Observed damage in the driver's side of the windshield was consistent with a firearm being fired outward from the front seat area of the vehicle.

Possible bullet or projectile damage was observed at nine (H1-H9) locations in the passenger side front end of the vehicle. Directions in the descriptions below are from the perspective of a person facing the front end of the vehicle. The following damage was observed:

- H1 – a single irregular hole in the forward facing portion of the passenger side side-view mirror housing. No damage was observed to the mirror behind the hole.
- H2 – a single irregular hole in the bumper below the passenger side fog light. The bumper was cut into at this location and additional perforating damage was observed at three to five locations in the wheel well liner behind the H2 hole.
- H3 – damage observed to the open diamond pattern portion of the plastic grill. This damage may be associated with the H9 damage described below; this was not confirmed.
- H4 – a single irregular hole in the grill with no observed penetration beyond the outer hole. Debris pattern adjacent to hole suggests a trajectory up and towards the right.
- H5 – a single irregular hole in the grill. Additional perforating damage behind H5, above and to the right of the hole in the grill, left plastic debris in the engine compartment. However, no bullets or bullet fragments were observed.
- H6 – a single irregular hole in the grill with no observed penetration beyond the outer hole.
- H7 – a single irregular hole in the bumper above the passenger side fog light. The bumper was not cut into at this location to inspect the surfaces behind.
- H8 – a single irregular hole in the bumper adjacent to the lower left corner of the passenger side fog light. The bumper was not cut into at this location to inspect the surfaces behind.
- H9 – A single semi-circular hole in the radiator with associated leaking radiator fluid. This hole was located slightly above and to the right of the damage at H3.

Based on the irregular shapes of the damage, penetration limited to outer surfaces only, or combinations thereof, damage at locations H1 through H8 cannot be attributed to direct bullet strikes. Damage at locations H1 through H8 may have been caused by bullet fragments, secondary projectiles propelled by a bullet, or may be totally unrelated damage. The circular size and shape of the radiator damage at H9 was consistent with bullet damage; the radiator was not removed to look for that potential evidence. A bullet or undocumented bullet damage may still be present in the engine compartment. Assuming the radiator is replaced at a later date, an investigator should be present to document and possibly collect any evidence exposed by the work.

FIELD ACTIVITIES (continued)

Examination of intact ammunition and expended cartridge cases collected during from the vehicles will follow in a subsequent report.

All examinations were conducted using the methods outlined in TP-5.

EVIDENCE

I collected the following evidence during examination of the vehicles on July 26, 2022:

Item V101: Expended cartridge case
Item V102: Fanny pack containing ammunition
Item V103: One metal and two glass containers, each containing white powder residue
Item V104: Boxed ammunition
Item V105: One intact cartridge
Item V201: Expended cartridge case
Item V202: Expended cartridge case
Item V203: Expended cartridge case

I generated the following evidence at the Eureka Laboratory August 1, 2022:

Item V204: One DVD with 241 photos taken during vehicle processing and a photo log

DISPOSITION

The item V204 DVD will be transferred to your agency in the normal course of business. The remaining evidence will be retained by the BFS Eureka Laboratory pending examination.

SUMMARY

Item 032 is a Colt model M4 Carbine AR-platform rifle. The rifle was determined to be functional.

Items V201, V202, and V203 are each expended 223 Remington cartridge cases. Items V201, V202, and V203 were each fired in the item 032 rifle.

Item 034 is an FEG model SA2000M AK-platform rifle. The rifle was determined to be functional.

Items V101, S101, and S102 are each expended 7.62x39mm cartridge cases. Items V101 and S101 were each fired in the item 034 rifle. The item S102 cartridge case was most likely fired in item 034 rifle but may have been fired in one of a limited number of firearms manufactured with the same tooling used to manufacture the item 034 rifle.

Item S103 is an expended bullet jacket fragment. Item S103 was most likely fired from the item 034 rifle but may have been fired from another firearm with similar barrel rifling class characteristics.

EVIDENCE

I collected the following evidence during overnight scene processing on July 21, 2022:
Item S101: One expended cartridge case

I received the following evidence from Deputy Boyer during overnight scene processing on July 21, 2022:
Item S102: One expended cartridge case

I received the following evidence from Deputy Nasca during overnight scene processing on July 21, 2022:
Item S103: One expended bullet jacket fragment

I collected the following evidence during examination of the suspects' vehicle on July 26, 2022:
Item V101: Expended cartridge case
Item V102: Fanny pack containing ammunition
Item V103: One metal and two glass containers, each containing white powder residue
Item V104: Boxed ammunition
Item V105: One intact cartridge

I collected the following evidence during examination of a patrol vehicle on July 26, 2022:
Item V201: Expended cartridge case
Item V202: Expended cartridge case
Item V203: Expended cartridge case

This report shall not be reproduced, except in full, without written approval from the laboratory.

EVIDENCE (continued)

The following evidence was submitted to the laboratory on August 11, 2022:

Item 032: Colt model M4 Carbine rifle, scope, weapon light, rifle magazine, and ammunition
Item 034: FEG model SA2000M rifle, rifle magazine, and ammunition

I generated the following evidence during examination of item 032 on September 22, 2022:

Item 032T: Three cartridge cases test-fired in the item 032 rifle

I generated the following evidence during examination of item 034 on September 28 and 29, 2022:

Item 034T: Five cartridge cases and three bullets test-fired in the item 034 rifle

EXAMINATION

Ammunition recovered from the suspects' vehicle

Item V102 is a black fanny pack or hip bag that contained a variety of intact ammunition, expended cartridge cases, tools, and hardware. The specific calibers of intact cartridges, intact shotgun shells, and expended cartridge cases were determined and are listed in table 1 below.

Specific caliber	Number of intact cartridges or shells	Number of expended cartridge cases
380 Auto	1	
38 S&W	1	
38 Special	1	
357 Magnum	12	
357 Sig	27	
9mm Luger		27
7.62x39mm		19
308 Winchester	2	
12 gauge	9	

Table 1: intact ammunition and expended cartridge cases found in item V102

Item V104 consisted of five unopened and one partial box of 7.62x51mm NATO cartridges. The unopened boxes contained 20 cartridges each. The partial box contained 14 cartridges.

Item V105 consisted of a single intact 25 AUTO cartridge.

AR-platform rifle and related evidence

Item 032 is a Colt model M4 Carbine AR-platform rifle, rifle scope, weapon light, and rifle magazine containing 23 intact 223 Remington cartridges. The rifle was marked with serial number [redacted], chambered for the 5.56x45mm NATO cartridge, and operated as a semi-automatic only. Rifles chambered for the 5.56x45mm NATO cartridge are also effectively chambered for the 223 Remington cartridge. The rifle was determined to be functional and was test-fired three times using the supplied magazine and laboratory supplied ammunition. Test-fired bullets were not recovered. Test-fired cartridge cases were retained as item 032T.

Items V201, V202, and V203 are each expended 223 Remington cartridge cases. The cartridge cases were compared to the item 032T cartridge cases test-fired in the item 032 rifle. Based on matching firearm-related class characteristics and significant correspondence of individualizing detail, I determined that items V201, V202, and V203 were each fired in the item 032 rifle.

EXAMINATION (continued)

AK-platform rifle and related evidence
Item 034 is an FEG model SA2000M AK-platform rifle, rifle magazine containing seven intact cartridges, and one loose intact cartridge. The rifle was marked with serial number [redacted], chambered for the 7.62x39mm cartridge, and operated as a semi-automatic only. Item 034 is a semi-automatic rifle that accepts ammunition from a detachable magazine, has a pistol grip, a forward pistol grip, and a folding stock. Therefore, item 034 meets the definition of an "assault weapon" per California Penal Code 30515(a)(1). The rifle was received with a magazine that had a measured capacity of 31 7.62x39mm cartridges. The rifle was determined to be functional and was test-fired five times using the supplied magazine and laboratory-supplied ammunition. Three test-fired bullets and all five test-fired cartridge cases were retained as item 034T.

Items V101, S101, and S102 are each expended 7.62x39mm cartridge cases. The cartridge cases were compared to the item 034T cartridge cases test-fired in the item 034 rifle.

- Based on matching firearm-related class characteristics and significant correspondence of individualizing features, I determined that the items V101 and S101 cartridge cases were fired in the item 034 rifle
- Based on matching firearm-related class characteristics and significant correspondence of individualizing detail, I determined that the item 034T and the item S102 cartridge cases could be identified to a common source. The common source is most likely the item 034 rifle but may be the same tooling used to manufacture a limited number of firearms including the item 034 rifle.

Item S103 is an expended bullet jacket fragment. The bullet jacket fragment was compared to bullets test-fired in the item 034 rifle; the examination was inconclusive. While the firearm-related class characteristics were the same, the limited correspondence of individualizing detail found between the item S103 bullet jacket fragment and the item 034T test-fired bullets was insufficient for an identification. Item S103 was most likely fired from the item 034 rifle but may have been fired from another firearm with similar barrel rifling class characteristics.

Other evidence
Item V103, a collection of containers with white powder residue, was not examined.

All examinations were conducted using the methods outlined in TP-8.

DISPOSITION

The evidence will be released to your agency in the normal course of business.

Investigator Scott Hicks
Humboldt County Sheriff's Office
826 4th Street
Eureka, CA 95501
(707)268-3645 (desk)
(707)445-7251 (dispatch/24 hours)

On Wednesday, July 20th 2022 at about 2000 hours I was off duty when I received a phone call from Eureka Police Dispatch. Dispatch requested I respond to Headquarters to assist with a critical incident which had occurred. I immediately responded to Headquarters and was directed to respond to a crime scene which was located at Buhne and Harrison Streets. I donned my department issued patrol uniform, with exterior protective vest cover, and responded to the scene in a City of Eureka Police vehicle, a Crown Victoria.

I arrived on scene at about 2021 hours and relieved Officer Endsley, who was maintaining the crime scene log. I maintained the crime scene log until July 21st 2022 at about 0145 hours when the crime scene was collapsed. At about 0136 hours all evidence had been collected and the involved vehicles on scene had been secured.

Body Worn Camera worn during this incident and available to authorized parties upon request. Due to report submission deadlines the BWC footage was not reviewed prior to the writing of this report. This report was written based on my recollection of the incident.

Initial Response

On 07-20-22 I was contacted by Senior Detective Cosetti who told me The Humboldt County Sheriffs Office(HCSO) initiated a CIRT response. The HCSO was involved in a vehicle pursuit. During this pursuit shots were fired at a the HSCO Deputy vehicle by a subject from inside of the suspect vehicle. HSCO Deputies also fired shots at the suspect vehicle. This pursuit ended in a traffic collision. Multiple subjects were detained at the scene.

I responded to the Eureka Police Department Headquarters(EPD) where I met with Senior Detective Cosetti. From this location we responded to the HCSO for the CIRT briefing.

Eureka Police Department Headquarters

After the CIRT briefing I responded to EPD Headquarters where I met HCSO Detective Henderson and HCSO Evidence Technician [redacted]. It was our assignment to conduct evidence collect procedures on the three involved HCSO Deputies who were at EPD Headquarters. These subjects were Deputy Walstrom, Deputy Dickson and Deputy Anderson.

HCSO Evidence Technician [redacted] took digital images of all three deputies, their duty gear and firearms/magazines. I assisted in clearing all firearms of magazines/ammunition, ammunition counts and confiscating firearms. Deputy Walstrom's and Deputy Dickson's handguns, magazines and ammunition were confiscated. These items wear placed into a gun boxes and sealed by HCSO Evidence Technician [redacted].

Refer to HCSO Detective Henderson and HCSO Evidence Technician [redacted] reports for further details.

Collision Scene

After this assignment was completed HCSO Detective Henderson, HCSO Evidence Technician [redacted] and I responded to the intersection of Buhne St/Harrison Ave. This was the location were the pursuit ended in a traffic collision.

Upon arrival I saw that a perimeter was set around the entire intersection of Buhne St/Harrison Ave. All traffic was diverted away from this location. The suspect vehicle was stopped in the middle of the intersection facing east bound. The vehicle was a white in color KIA SUV with license plate number [redacted] Several of the doors to the vehicle were open including the trunk. Items from the trunk were lying on the ground, these included a suitcase and a what I believed to be a catalytic converter. In front of the suspect vehicle was a Toyota sedan that appeared to have been collided into by the suspect vehicle. The Toyota sedan was facing southbound and was located in the intersection of Buhne St/Harrison Ave. Two HSCO patrol units were on Buhne St facing eastbound. One of the patrol units was significantly closer to the suspect vehicle then the other patrol unit. I later found out this vehicle was used as "rolling cover" in order for deputies/officers to get closer to the suspect vehicle. This patrol unit was determined to be driven by Deputy Anderson. The other patrol unit was determined to be driven/occupied by Deputy Walstrom and Deputy Dickson. I saw a what appeared to be an AK Rifle style

firearm laying on the ground near the suspect vehicles right front tire. Upon looking closer it was discovered the suspect vehicle tire partially rolled onto the pistol grip portion of the AK Rifle style firearm.

Deputy Walstrom/Deputy Dickson patrol unit

HCSO Detective Henderson entered Deputy Walstrom/Deputy Dickson patrol unit and retrieved a rifle. This rifle was lying against the driver seat with its barrel facing the floor board of the driver seat. The rifle was on safe. HCSO detective Henderson removed the magazine from the rifle and pulled the charging handle to the rear. This caused a live ammunition round to eject from the rifle. The magazine that was removed from the rifle contained 23 live 223 caliber Hornady ammunition rounds

Firearm and attachments:

COLT M4, Serial Number [redacted]
AIM POINT Patrol Rifle Optic, Serial Number [redacted]
STREAMLIGHT TLR-1 HL

This patrol rifle, magazine and ammunition were confiscated.

HCSO Detective Henderson removed a less lethal shotgun from Deputy Walstrom/Deputy Dickson patrol unit. The shotgun was not loaded, meaning there were no less lethal ammunition in the magazine tube or in the chamber. There were 5 live less lethal ammunition rounds in the saddle attached to the less lethal shotgun.

Firearm:

REMINGTON WINGMASTER 870 12 Gauge
Serial Number [redacted]

This less lethal shotgun and ammunition were confiscated.

Anderson patrol unit

HCSO Detective Henderson entered Deputy Anderson patrol unit and removed retrieved a rifle. The magazine was removed from the rifle and the charging handle was pulled to the rear. The rifle was on safe and the chamber was empty. There were 29 live Hornady 223 caliber ammunition rounds in the magazine.

Firearm and attachments:

COLT M4, Serial Number [redacted]
AIM POINT Patrol Rifle Optic, Serial Number [redacted]
STREAMLIGHT TLR-1 HL

HCSO Detective Henderson removed a less lethal shotgun from Deputy Anderson patrol unit. The shotgun was not loaded, meaning there were no less lethal ammunition in the magazine tube or in the chamber.

Firearm:

REMINGTON MAGNUM 870 12 Gauge
Serial Number [redacted]

Suspect Firearm

It was decided HCSO Deputy Del Rosario would be the person to render the suspect firearm safe due to his familiarity with this type of firearm. HCSO Deputy Del Rosario was on scene in an evidence collection capacity and had responded due to the CIRT response. At this time the rifle was still stuck under the right front tire of the suspect vehicle. HCSO Del Rosario removed the magazine from the rifle and pulled the charging handle to the rear. A live ammunition round ejected from the rifle. The magazine contained 7 live 7.62x39 Wolf ammunition rounds.

It was discovered the suspect vehicle was actually in neutral. I pushed the vehicle forward slightly and HCSO Deputy DEL Rosario was able to remove the rifle from under the tire.

Firearm:

FEG AMD 65
Serial Number [redacted]

This firearm, magazine and ammunition were confiscated.

I sealed the suspect vehicle and Deputy Walstrom/Deputy Dickson patrol unit using evidence tap. I signed and dated each area that was sealed. Both vehicles were towed from the scene by Humboldt Towing.

On 07-22-22 at 1100 I responded to HCSO Investigations Unit office. On this day I assisted HCSO Detective Henderson with interviewing Deputy Anderson. Prior to Deputy Anderson's arrival, HCSO Detective Henderson and I reviewed Deputy Anderson's body worn camera footage from the day of the incident.

Upon Deputy Anderson arrival he reviewed his body worn camera footage from the day of the incident.

After Anderson finished watching his body worn camera footage the interview was conducted. Refer to HCSO Detective Henderson report for further details.

The crime scene log was given to me by Officer Baird. I attached the crime scene log to this report and booked it as evidence at EPD Headquarters.

This was the extent of my involvement in this incident.

[] *BODY CAMERA RECORDED*

CONTROLLED DOCUMENT - DO NOT DUPLICATE

On 7-20-22 at about 1917 hours, I, Officer Endsley was conducting a 'patrol check' in the Henderson Center business district in the area of the 2900 block of F St (see CAD # 2207200182). I was wearing my complete EPD dark blue patrol uniform with EPD patches utilizing my EPD issued exterior patrol vest with EPD badge #77 displayed. A BWC camera was affixed to my exterior vest. I was driving a fully marked EPD black and white patrol vehicle, #2077, with overhead emergency lights. My EPD issued patrol rifle was secured in the locking rifle mount between the front seats.

I parked facing east along the south curb of Wood St. just east of F St. A few moments later at about 1918 hours as I was looking in my vehicle's center rear view mirror, I saw a white SUV traveling south on F St. through the intersection with Wood St. at a very high rate of speed which I visually estimated to be approximately 50 mph in a marked 25 mph zone (*violation of CVC 22350 - No person shall drive a vehicle upon a highway at a speed greater than is reasonable or prudent having due regard for weather, visibility, the traffic on, and the surface and width of, the highway, and in no event at a speed which endangers the safety of persons or property).*

The 2900 block of F St. is a north and south bound City of Eureka street which has one lane in each direction with retail, food, and small businesses on both sides of the street.

Concerned about the excessive speed of the white SUV, I turned around and drove to F St. and turned south. I did not expect the white SUV to still be visible due to its speed and the time it took me to get turned around. I saw the SUV had just cleared the intersection of F and Harris, which is controlled by traffic lights, and was now accelerating quickly southbound on F St. into a residential area which is still marked 25 mph. I surmised the vehicle had stopped at Harris for the red light and that was why the vehicle was still visible to me.

As I drove south on F St. approaching the intersection with Harris, the light turned red. Based on the excessive speed I had witnessed in the 2900 block of F St., and the rapid acceleration I was witnessing in what was now a residential street, I activated my overhead lights and siren, waited for Harris St. traffic to yield the intersection to me, and drove after the white SUV to issue a warning or citation to the driver or to conduct further investigation.

As I closed the distance to the white SUV, I estimated its speed to be approximately 45 mph in the marked 25 mph zone of F St. south of Harris St. Traffic north and south bound on F St. was heavy (F has only one lane in each direction) and the white SUV had to slow down for southbound traffic which was in front of it.

In or about the 3500 block of southbound F St. (near Handy Market) and as I neared the white SUV, the two vehicles in front of the white SUV, yielded to the right curb (my lights and siren were continuously activated). The white SUV, now with no vehicles in front of it, began to accelerate very rapidly from about 30 mph to near 60 mph. I was directly behind the white SUV and it was pulling away from me.

I saw there was **light brown dirt** on the bumper and lower part of the hatchback area.

At about 1919 hours, I radioed EPD dispatch that I was behind the white vehicle which was failing to yield to my lights and siren southbound on F St. approaching the intersection with Oak St. (*violation CVC 21806 - Upon the immediate approach of an authorized emergency vehicle which is sounding a siren and which has at least one*

lighted lamp exhibiting red light that is visible, under normal atmospheric conditions, from a distance of 1,000 feet to the front of the vehicle, the surrounding traffic shall, except as otherwise directed by a traffic officer, do the following: (a)(1)...the driver of every other vehicle shall yield the right-of-way and shall immediately drive to the right-hand edge or curb of the highway, clear of any intersection, and thereupon shall stop and remain stopped until the authorized emergency vehicle has passed.)

I was unable to read the California license plate or see into the passenger compartment of the white SUV. I did see however a round medallion on the hatchback which appeared to possibly be a Toyota symbol (later determined to be a round KIA symbol). I notified EPD dispatch that I was in pursuit and back up units were dispatched to assist (*violation CVC 2800.2 (a) If a person flees or attempts to elude a pursuing peace officer in violation of Section 2800.1 and the pursued vehicle is driven in a willful or wanton disregard for the safety of persons or property, the person driving the vehicle, upon conviction, shall be punished by imprisonment in the state prison, or by confinement in the county jail for not less than six months nor more than one year. The court may also impose a fine of not less than one thousand dollars ($1,000) nor more than ten thousand dollars ($10,000), or may impose both that imprisonment or confinement and fine.)*

Watch Commander Sgt. Edward Wilson instructed EPD dispatch to make notification to the HCSO and Humboldt CHP. Note: the speed limit for southbound F St. changes to 30 MPH at about Oak St.

Twice I saw the white SUV drive southbound in the northbound lane of F St. as it unsafely changed lanes without signaling and passed vehicles which were legally traveling in the southbound lane as well as driving at an excessive speed toward oncoming traffic. (*violation CVC 22107 - No person shall turn a vehicle from a direct course or move right or left upon a roadway until such movement can be made with reasonable safety and then only after the giving of an appropriate signal in the manner provided in this chapter in the event any other vehicle may be affected by the movement. & violation CVC 21650 - Upon all highways, a vehicle shall be driven upon the right half of the roadway, except as follows: (a) When overtaking and passing another vehicle proceeding in the same direction under the rules governing that movement.)*

As the white SUV started up an incline on F St. near Laurel St., the white SUV drove south in the northbound lane and passed a southbound firetruck (see my 2 BWC snapshots attached to this report as evidence item #5).

I estimated the SUV's speed was now in excess of 60 mph (additional violation of CVC 22350 - unsafe speed). Due to the danger to persons and property on the highway in a residential area with sidewalks and crosswalks, the moderate to heavy traffic conditions, the time of day, the dangerous excessive speed of the white SUV, and my knowledge that F St. was about to turn into Fairway Drive which consists of multiple curves near residences and the Eureka Municipal Golf Course with limited road visibility due to several hills, I discontinued pursuing the white SUV and turned off my lights and siren. I radioed EPD dispatch that I was no longer in pursuit but was continuing to drive in the last known direction of the white SUV after it left my vision. I activated my BWC (see my recording: "07/20/22 19:19:06 Endsley, A BWC2-018650")

Less than a minute later, EPD dispatch radioed the HSCO was now in pursuit of the vehicle in the vicinity of the

Eureka Municipal Golf Course and provided a license plate of [redacted] (a [redacted] white Kia SUV).

As I drove from Fairway Drive onto Herrick Drive, EPD dispatch radioed that the HSCO pursuit had passed Pine Hill school (Vance Ave.) and that deputies were being shot at from the Kia (declaring a "code 30" - a mutual aid request for assistance from all available Law Enforcement Agencies). I reactivated my over head lights and siren. EPD dispatch continued to listen to HSCO radio traffic and relay the pursuit information to EPD units.

All on duty EPD Units responded to assist which included Sgt. Wilson (3L23), Officer Swanson (3B85) with trainee Officer Stancliff (3B93) [a two person patrol unit], and Officer Soltow (3B42). As the HCSO pursuit proceeded generally north and easterly back into the City of Eureka, I continually drove toward their updated positions. At about 1928 hours, I heard over the radio that the pursuit had terminated in a collision at the intersection of Buhne and Harrison Streets and that deputies and Sgt Wilson had suspects at gun point. Sgt. Wilson directed that responding units stop traffic on Harrison at Buhne.

I drove north on Harrison and stopped south of the intersection with Buhne. I saw the white SUV (Kia) was facing eastbound in the intersection and that a black Toyota was facing generally southwest in the intersection just south and east of the white SUV. I immediately recognized the white SUV as the same vehicle which had recklessly fled from me on F St.

Based on the radio broadcasts that gun shots had been fired from the white SUV during the HSCO pursuit, I deployed my EPD patrol rifle and took a position of defense behind my patrol vehicle facing the white SUV. Multiple HCSO patrol vehicles arrived on Harrison just south of Buhne within seconds of my arrival and took up defensive positions just east of me in the roadway.

Officers Swanson and Stancliff arrived and blocked northbound Harrison traffic adjacent to the St. Joseph's Hospital.

I saw a light skinned male wearing a white shirt, checkered shorts, white socks, and a red baseball cap lying chest down on the roadway facing south toward my position on the passenger side of the white SUV (I later heard this individual identify himself to an HCSO deputy as "[redacted]").

I saw a light skinned heavy set female wearing a dark shirt with long blond or brown hair lying on the ground just west and north of [redacted]. I saw a light skinned male in a dark shirt and dark baseball cap standing nearer the driver's side of the white SUV. This dark shirted male was being ordered to walk backward toward deputies and officers positioned to the west of him on Buhne St. where he was then detained.

Initially as I arrived, [redacted] started to move to possibly stand up. I loudly ordered him to not move. I observed the female get detained by deputies and officers on Buhne. As [redacted] was lying on the ground his red baseball cap came off and remained on the ground. [redacted] was ordered up and detained by deputies who where next to me on Harrison.

I saw officers and deputies from Buhne advance on the vehicles and clear them of any other individuals. No

other persons were found in the vehicles. I walked up to the vehicles and observed a black AK style rifle with a folding stock (folded) on the roadway next to the KIA's right front tire. I observed [redacted] red baseball cap and some black sunglasses on the roadway south of the vehicles.

I told Sgt. Wilson I would monitor the collision / crime scene and directed Officer Soltow to put up a crime scene police tape perimeter. Officer Soltow was assisted by HSCO Deputy Hwang in establishing an initial crime scene perimeter. I asked for and was provided with a crime scene log by Officer Stancliff.

I started the crime scene log and provided it to HSCO Sgt. Helm who added his and other agency personal names to the log. He returned the log to me. EPD Chief Tod Jarvis arrived on scene and watched the perimeter for a few minutes as I secured my rifle back in my patrol vehicle. I then returned to the perimeter and maintained it and the log until relieved by EPD reserve Officer Baird who took possession of the log.

While there, I took photographs of the scene which I later booked into the M Drive at EPD HQ as evidence.

After leaving the scene, I later took photographs of the Redwood Capital Bank's surveillance cameras near the intersection of F and Henderson Streets and of the Discovery Shop at 2942 F St. Both locations may have surveillance recordings of the KIA traveling south on F St. as it passed by at about 1918 or 1919 hours. I emailed Detective Cosetti regarding this possible surveillance evidence.

I reviewed my BWC and observed that the GPS (property of Officer Sollom who was not on duty) attached to my vehicle's windshield recorded my locations and speed as the pursuit began. My top speed showed at 65 MPH just prior to discontinuing the pursuit at which time the KIA was accelerating away from me placing its speed at near 75 MPH+ as it passed the firetruck southbound on F St. near Laurel St.

On 7-21-22, I went to Henderson Center and drove south on F St. I observed the following locations may have surveillance recordings based on seeing exterior cameras pointed generally toward F St:

SPS - 436 Harris (707-445-9641)
JoAnn Fabrics - 510 Harris (707-442-9391)
residence - ring camera [redacted]
residence - exterior cameras [redacted]

I contacted the male resident at [redacted] based on seeing a camera pointed toward F St. I was informed his camera is a "dummy camera" and does not record.

This concludes my involvement in his case. It is forwarded to CID for investigation.

A Body Worn Camera was worn during this incident and recordings are available to authorized parties upon request.

CONTROLLED DOCUMENT - DO NOT DUPLICATE

On 7/20/22 at approximately 1940 hours I was off-duty but established as the on-call Evidence Technician when I was contacted at home by Sr. Det. Cosetti regarding this case. Sr. Det. Cosetti requested that I respond to EPD HQ to assist with a CIRT call out for the incident.

I arrived at EPD HQ at approximately 2000 hours and met with Sr. Det. Cosetti, Det. Nunez and several members of allied law enforcement agencies. Briefing took place at the HCSO Criminal Investigations Unit at 2115 hours.

I was assigned to 'Scene 2', which consisted of the intersection of Utah St./Highland St and the surrounding proximity. It was relayed that a HCSO Deputy fired approximately 4-5 shots approximately northbound and the suspect vehicle fired an unknown amount of shots generally southbound. I arrived on scene at approximately 2300 hours and documented the vicinity with photography. The stretch of Utah Street between South Ave and Gibson Ave was cordoned off with police tape. Several officers were already on scene and had performed a line search, locating a brass-colored projectile in the western curbline in front of the residence located at [redacted] A potential strike mark on the upper gutter area of [redacted] was additionally observed and documented. APD ET [redacted] documented the measurements of the locations for the projectile and strike mark.

A secondary line-search was performed stretching from Allard Avenue to Central Ave/Burrill St. intersections utilizing a canine trained to detect gunpowder residue. At the southeast corner of Central Ave/Burrill St, the canine provided a positive response or 'hit' on a wooden utility pole. The pole had damage that was consistent with being struck by a projectile (smaller entrance with a 'blow-out' type exit) on the outer edge. The projectile trajectory appeared to move slightly northeast through the pole and at a slight upward angle (upward towards the northeast). No associated strike mark was located on the roadway. No associated projectile was located in the vicinity of the strike mark; it must be noted this portion of the scene was not cordoned. APD ET [redacted] documented the height measurements associated with the strike mark.

I took several scans of the scene utilizing a Faro Focus 3D X 330 scanner (active calibration certificate #LLS07564-20191204-PA). These scans were later rendered into a 3D scan that was uploaded to EPD's secure evidence server (M:Drive). The projectile in front of [redacted] was secured and provided to HCSO ET [redacted] the following day (7/21/22) along with a digital copy of the Faro scan raw data and deliverable 3D scan.

Please refer to Sr. Det. Cosetti's report for further information.

CONTROLLED DOCUMENT - DO NOT DUPLICATE

On 7-20-22, at approximately 1922 hours, I was on duty when I responded to the intersection of F St and Oak St to assist Officer Endsley in a vehicle pursuit. Officer Endsley reported via radio that he was pursing a high speed vehicle headed southbound on F St from Oak St. I responded from the 2100 block of H St.

By the time I neared the area, Officer Endsley had discontinued the pursuit due to traffic conditions, however, Humboldt County Sheriff's Office Deputies had picked up the pursuit and were pursing the vehicle on Herrick Ave. They reported that shots were being fired at them from a subject within the vehicle. They reported via radio that they were on Meyers Ave. As I neared Herrick Ave, deputies reported they were on Silva Ave.

I turned around in an attempt to parallel or get ahead of the pursuit. Due to the high rate of speeds involved, I was not able to do so. The pursuit ultimately ended at the intersection of Buhne St and Harrison Ave, where the suspect vehicle collided with a citizen's vehicle.

I arrived on scene where there were several deputies already present. Officer Endsley and Sergeant Wilson were also on scene. I saw a white SUV (the suspect vehicle) and a black sedan (the citizen's vehicle) at the intersection. I saw three subjects laying on the ground near the vehicles, two males and a female. One male was near the drivers side of the SUV and the other male and female were near the passenger side.

Due to the report of shots fired I had retrieved my patrol rifle. I saw a rifle laying on the ground near the front passenger side of the SUV, closest to the female subject laying on the ground. Due to danger posed by the unsecured firearm and the report of shots fired, I believed the subjects posed a deadly threat, I therefore pointed my rifle at the subjects. We (Deputies and Officers) conducted a high-risk stop and detained all three subjects in handcuffs without further incident. We cleared the vehicles and saw that no one else was present within.

After clearing the vehicles I was assigned to mark the perimeter with scene tape. I was then assigned to search the intersection of Utah St between Highland Ave and South Ave for a secondary scene. Deputies involved in the shots fired reported that was one of the locations shots had been fired at. I walked the scene but was initially unable to find anything. At approximately 2039 hours, Officer Duke and Officer Couch arrived on scene to assist. We again canvassed the area but were unable to locate evidence. While searching, we were hailed by a citizen who directed us to another citizen name [redacted], who lived at [redacted] said his homes security camera system recorded part of the pursuit. [redacted] later e-mailed me a digital copy of the video footage, which I later booked into evidence.

We obtained additional information that the shots had occurred near the Alice Birney School. We narrowed our search and were hailed by residents at [redacted] who reported some damage to the fascia board of their residence. There appeared to be an impact mark directly above a street facing window. I took some photos of the damage, which I later booked into evidence.

We checked the area and located a mostly complete bullet fragment on the street in front of the residence, just a few inches from the western curb. We taped the area off, blocked the road as traffic was nearly non-existent and we did not want traffic to potentially disturb further evidence.

CONTROLLED DOCUMENT - DO NOT DUPLICATE

We waited for CIRT investigators to respond. Upon their arrival I started a scene log (see attached). CIRT investigators processed the scene; upon completion of their work we opened the road, cleared the scene tape, and I ended the scene log.

This concluded my involvement in the incident.

Body Worn Camera worn during this incident and available to authorized parties upon request.

NOTIFICATION

On 7-20-22, I was off duty when I received a call from Capt. Stephens advising HCSO (Humboldt County Sheriff Office) was involved in an OIS (Officer Involved Shooting) and the CIRT (Critical Incident Response Team) had been activated. I responded to EPD (Eureka Police Department) headquarters and was contacted by HCSO Lt. Williams who advised HCSO was handling the investigation and briefing would occur at 2215 hours.

BRIEFING

At the briefing which took place at HCSO, CIRT members were provided with a summary of events as they were known up to that point. We were informed an officer with EPD had observed a vehicle traveling at high rates of speed and traveling the wrong way. The officer attempted to stop the vehicle however the driver fled from the officer. A short pursuit took place and was terminated by the officer.

Shortly after the pursuit was terminated, HCSO deputies observed the vehicle and attempted to stop it. During that process the driver of the vehicle fled from deputies and fired at them several different times. A HCSO deputy fired back at the suspect vehicle. During the pursuit the vehicle collided into a citizen's vehicle at the intersection of Buhne and Harrison. The occupants of the vehicle including the person who shot at officers were detained.

Three possible crime scenes were identified. One at Eureka and Vance Streets. Another at Utah and Highland Streets. Another at Buhne and Harrison Streets. I was assigned to assist at the Utah and Highland Streets scene. It was believed some of the shots fired occurred in that vicinity. Officers were already on scene and had secured the area.

UTAH AND HIGHLAND SCENE

I arrived at the scene along with Sr. ET (Evidence Technician) [redacted] The area was secured by several EPD officers. Officers had located a bullet fragment on the ground partially in the roadway in front of [redacted] which is on the west curb line. Officers also located a scuff style mark on the upper gutter area of [redacted] It is unknown if that scuff mark was a result of this incident.

Myself and fellow deputies with the HCSO, investigators with the DA's Office, and detectives/evidence technicians with APD (Arcata Police Department) checked the area for any additional evidence. An officer with Fish and Wildlife also assisted with his K9. The K9 was trained to locate firearm evidence. The K9 located what appeared to be damage from a bullet on the lower portion of a power pole at the south east corner of Central and Burrill Streets. Surveillance footage was also located by investigators.

EPD Sr. ET [redacted] processed the scene and operated the Faro scanner. I collected the bullet fragment that was located in front of [redacted] I stored the bullet at EPD then gave it to HCSO ET [redacted] on 7-21-22.

EUREKA AND VANCE SCENE

After assisting at Utah and Highland Streets, I assisted with a neighborhood canvas at Eureka and Vance Streets. I attempted contact with each house on Vance Street around 0100 hours on 7-21-22. I was unable to make contact with any resident likely due to everyone being asleep. The majority of the residences had all of their lights turned off.

On 7-21-22, I assisted APD Detective Johnson and APD ET [redacted] with collecting another bullet fragment that entered the residence of [redacted]. The occupant had located the fragment in a towel she placed in the laundry basket earlier that morning. APD ET [redacted] collected the fragment.

SURVEILLANCE

On 7-26-22, I forwarded a letter of request for surveillance to Redwood Capital Bank located at 2816 F Street. EPD Officer Endsley informed me it was possible the bank surveillance recorded some of the suspects' and officers' actions during this incident. On 8-1-22, I retrieved the surveillance footage from the bank which was placed on a disk by [redacted] The footage covered the controlled intersection of F and Henderson Streets. The footage did not have sound.

I viewed the footage and learned that at about 1921 hours an EPD patrol vehicle with its lights activated was traveling westbound on Henderson and made a turn onto F Street, traveling southbound. At about 19:25:12 hours, an EPD patrol vehicle with lights activated was traveling northbound on F Street then turned westbound onto Henderson Street. At about 19:25:39, the white Kia SUV was traveling at a high rate of speed eastbound on Henderson passing F Street. Henderson is a one way street carrying westbound traffic. The Kia SUV was traveling in the #2 lane and had to pass three citizen vehicles which were in the #1 lane. The Kia SUV was being pursued by two HCSO patrol vehicles and one EPD vehicle.

I booked the surveillance footage onto the EPD M Drive as evidence.

On 07/21/2022 at approximately 1927 hours, I received a phone call from EPD Dispatch advising me that our patrol units had been involved in a pursuit, shots had been fired, and a Code 30 had been declared. Dispatch advised me that the suspect vehicle had been involved in a traffic collision at the intersection of Buhne and Harrison Ave. and units on scene were in the process of detaining the involved persons. I notified EPD Chief Todd Jarvis and responded to the scene.

I arrived at the scene at 1941 hours. I had heard via my police radio that all involved parties had been detained. I assumed the role of Incident Commander and initiated the CIRT (Critical Incident Response Team) call-out. I was briefed by EPD Sergeant Eddie Wilson as well as received valuable information from HCSO Sergeants that were on scene. It was determined that only HCSO personnel were involved in the Officer Involved Shooting.

During the briefing, I learned that the suspect had fired shots at the deputies in three locations. The first was in the county's jurisdiction near Eureka and Vance Streets. The second was on Utah near Highland and the third was on Henderson Street, the exact location on Henderson was unknown by the personnel on scene. Law enforcement personnel were sent to the two known locations to secure any crime scenes and evidence that could be located. * See other supplemental reports for this information. *

California Highway Patrol (CHP) Captain Shawn Morris was on scene and briefed regarding the traffic collision at the conclusion of the pursuit. It was determined that no intervention actions were taken and the suspect vehicle collided with a citizen's vehicle and became disabled. Since this occurred during the active pursuit, CHP agreed to handle the traffic collision portion of the investigation. The scene was secured at Buhne and Harrison and I remained at this location.

Over the course of the initial investigation, I worked a unified command with HCSO administration, Undersheriff Braud and Lieutenant Kevin Miller, to ensure all aspects of the response were being handled. I was notified that HCSO would be the lead on this investigation.

The driver and the registered owner of the victim vehicle in the traffic collision made a request early in the investigation to have his cell phone retrieved from his vehicle. I was told by HCSO deputies that he was having a hard time and needed his phone to call someone to help him. They obtained verbal consent from him for me to enter his vehicle to retrieve his phone. At approximately 2002 I activated my Body Camera, recorded the time, vehicle type, plate and that the driver gave us permission to retrieve his phone. I entered the car through the unlocked driver's side door and retrieved a black cell phone from the center console/lower dash area. I turned that phone over to Deputy Hwang to give to the driver.

At approximately 2243 hours, I relinquished Incident Command to Lt. Kevin Miller and cleared from the scene. This concluded my direct involvement in this investigation.

Body Worn Camera worn during this incident and available to authorized parties upon request.

[ ] *BODY CAMERA RECORDED*					

SUMMARY:

On 7-20-22 at approximately 1920 hours, I heard, via radio, Officer Endsley attempt to make a traffic stop on a vehicle. Officer Endsley radioed the vehicle was failing to yield and traveling at a high rate of speed.

NARRATIVE:

Officer Stancliff and I were a doubled unit, due to Officer Stancliff being on the FTO Training Program and were on a traffic stop at Broadway and W. Hawthorne at the time Officer Endsley initiated the pursuit.

Officer Stancliff completed his citation, and we proceeded southbound on Broadway. Officer Endsley had radioed he had discontinued his pursuit but he was continuing to trail the vehicle southbound on F St, and was approaching Fairway Dr. I believed the vehicle may be heading towards the Herrick Overpass, and was going to try and intercept the vehicle on the overpass. As we were traveling southbound on Broadway, EPD Dispatch radioed the Humboldt County Sheriff's Department was in pursuit of the vehicle. EPD Dispatch radioed there had been shots fired from the suspect vehicle. We upgraded to Code 3 while traveling southbound on Broadway near the Bayshore Mall.

As we were traveling southbound on Broadway, EPD Dispatch radioed the Humboldt County Sheriff's Department was in pursuit of the vehicle on Vance Ave. We turned around and started heading northbound on Broadway, again to try and intercept the vehicle. We turned eastbound on McCullens Ave. We observed a HCSO Deputy in front of us continue eastbound on McCullens towards Utah St. We turned and went southbound on Glen St. While traveling southbound on Glen St, EPD Dispatch updated the pursuit, via radio, that HCSO was pursuing the vehicle eastbound on Henderson. We turned eastbound on Harris, in an attempt to parallel the pursuit. I heard Sgt Wilson radio he could see the vehicles approaching Henderson and D St, continuing to travel eastbound. As we were traveling eastbound on Harris, I heard, via radio, the pursuit was on O St. We continued to travel eastbound on Harris, and had two HCSO deputies behind us both responding Code 3.

While we were traveling eastbound on Harris, EPD Dispatch updated the pursuit, that the suspect vehicle had been involved in a traffic collision at Harrison and Buhne. I then heard, via radio, there were three suspects proned out on the ground at gun point. We turned northbound on Harrison and observed several law enforcement vehicle's at the intersection of Harrison and Buhne. We pulled to the right side of the road and let the other patrol vehicles pass us. We then blocked the street at the intersection of Harrison and Erie.

Due to several vehicles still attempting to travel northbound on Harrison from the hospital we moved our road block to St. Joseph's Ln and Harrison. While blocking traffic, we contacted the driver of the vehicle that the suspect collided into. The driver identified himself with a California Driver's license as [redacted] [redacted] denied the need for any medical assistance. We had [redacted] stay behind the roadblock until California Highway Patrol could contact him in regards to the traffic collision.

After all the subjects were detained from the vehicle, and the scene was secure, Humboldt Bay Fire Support [redacted] [redacted] arrived on scene and took over the traffic control at St. Joseph's Ln and Harrison. Officer Stancliff and I

moved to the outer perimeter at Harrison and Renfrew. Silva stood by at the outer perimeter with Officer Stancliff and myself until he was contacted by a CHP Officer.

At approximately 2025 hours, Officer Stancliff and I cleared the scene to handle calls for service. This concluded our involvement with the case.

Body Worn Camera worn during this incident and available to authorized parties upon request.

Due to report submission deadlines the BWC footage was not reviewed prior to the writing of this report. This report was written based on my recollection of the incident.

Rev. 11/2015

SUPPLEMENTAL REPORT:

On 07/20/2022, I was on uniformed patrol in a marked patrol SUV and parked against the north curb of Seventh Street west of B Street making a telephone call. I was assigned as the graveyard sergeant. At about 1919 hours, I became aware that Officer Endsley had initiated a traffic stop on a high speed vehicle near F and Oak Streets. A short time later, I heard Officer Endsley (3B77) broadcast that the vehicle had failed to yield and that he was now "in pursuit."

I acknowledged my dispatch to Officer Endsley's location, and began driving eastbound on Seventh Street to E Street, then southbound on E Street. By the time I traveled a few blocks to the south, I heard Officer Endsley broadcast that he had discontinued the pursuit as the suspect vehicle was driving in the wrong lane, but that he was still trailing the suspect vehicle southbound on F Street approaching Fairway. Officer Endsley initially described the suspect vehicle as a "white Honda."

Moments later EPD dispatch broadcast that the Humboldt County Sheriff's Office was now in pursuit of the suspect vehicle near Pine Hill School. I continued southbound on E Street in an attempt to put myself in position to assist. EPD dispatch then updated that the pursuit was now near Highland and Glen, then westbound on Silva.

At this time, I was south of Henderson Center on E Street as I had been driving toward the initial location of the pursuit as it was near Pine Hill School, outside the city limits of Eureka. However, with the updated information that the pursuit was now at Highland and Glen, I turned off of E Street and onto to F Street in about 3600 block and drove northbound. At that time, EPD dispatch broadcast to Officer Endsley that there had been "multiple shots fired."

I continued northbound on F Street using my emergency lights and siren entering the Henderson Center shopping area. EPD dispatch updated me that additional shots had been fired by both the suspects and law enforcement, and that the situation was still mobile.

As I approached the intersection of F Street and Henderson, EPD dispatch updated me that the pursuit was now the wrong way (eastbound) on Henderson. As I turned westbound onto Henderson from F Street clearing vehicles from my path, I saw emergency lights approaching on Henderson near about A or B Streets. I then saw a white SUV driving eastbound the wrong way rapidly approaching my location. After clearing the intersections of Henderson at E and F Streets, I immediately pulled to the north curb and onto the small portion of D Street north of Henderson to avoid being struck by the suspect vehicle or involved HCSO vehicles. Once off of Henderson, the white SUV (later determined to be a white Kia) continued past me at a speed I estimated to be in excess of 70mph. Both involved HCSO units were close behind the suspect vehicle as it passed through the traffic signal controlled intersections of E Street at Henderson St, F Street at Henderson Street and H Street at Henderson.

Once the pursuit had passed me, I made a U-turn and continued eastbound on Henderson the wrong direction to H Street to insure that there were no vehicle collisions. I then turned southbound onto H Street, eventually

moving back over to Henderson to continue to re-locate the pursuit while driving eastbound. EPD dispatch continued to provide updates as to the pursuit's location that included Henderson and M Streets, O Street and Hayes, northbound on O Street, and then Buhne and S Streets.

As I turned northbound onto S Street from Henderson, EPD dispatch broadcast that the suspect vehicle had been involved in a collision at the intersection of Buhne and Harrison. Upon receiving this information, I requested that EPD dispatch notify the department administration. I arrived on scene at Buhne and Harrison at about 1928 hours.

Upon my arrival, I parked directly behind an HCSO patrol SUV that was facing eastbound toward the intersection of Buhne and Harrison. I immediately moved toward the driver side door, which was open as cover for two deputies pointing their firearms toward three subjects that were in various locations on the pavement within the intersection. I then noticed that the white SUV had come to rest in the intersection in a northeasterly direction after colliding with what appeared to be a small Toyota sedan. The small Toyota sedan came to rest in a southwesterly direction. At least one passenger door was open on the white SUV, and I could see that the airbags had deployed on the Toyota sedan, but I could not see if it was still occupied.

I was briefly advised by HCSO Deputy Walstrom that the occupants had fired shots at them, and that shots had been fired in return. I then moved to the passenger's side door where I was asked to cover the female who was laying face down on the pavement in a north/south direction. One of male suspect was down on the pavement near the driver side door, with the female and second male suspect down on the pavement near the passenger side of the white SUV. I was also informed at some point of the presence of a rifle on the ground near the suspects.

I asked the deputies the status of the driver of the Toyota sedan and I was informed that he had been directed out of the vehicle and away from the intersection. I then requested through EPD dispatch that responding units shut down traffic northbound and southbound on Harrison. Officer Endsley broadcast that he was shutting down the south side, and Officer Swanson with Recruit Officer Stancliff also ended up in a traffic control position on Harrison near St Joseph Way.

It was decided that the suspect near the driver side of the white SUV would be the first person detained. At that time, the male was given instructions and detained in handcuffs without incident. I personally detained the male on the driver side, later identified as [redacted], in handcuffs. I then conducted a high risk search of his person for weapons and placed him in the passenger's side backseat of my EPD patrol SUV (Unit #2099).

I returned to my position and providing coverage as other personnel on scene handcuffed the female, then the second male suspect.

I requested that EPD dispatch stage fire and medical services on Buhne near Open Door Clinic until we could determine that the driver of the Toyota sedan was uninjured.

Once all suspects were detained in handcuffs, a contact team was formed that included myself, Officer Soltow,

Arcata PD Sergeant Wilson and multiple HCSO deputies. Additionally, an HCSO patrol SUV was used as cover in our approach forward to clear the interior of the white SUV. The team moved forward and the white SUV was found to be unoccupied to include the rear hatch, which was opened with some property removed to make sure no one was concealed there.

After clearing the white SUV, I updated EPD dispatch that we were "Code 4" (meaning the scene was now stable). Officer Soltow then began establishing an inner crime scene perimeter using yellow crime scene tape. Officer Endsley then initiated a crime scene log and maintained visual coverage of the rifle on the pavement near the white SUV.

At about 1941 hours, EPD Captain Stephens arrived on scene. I met with Captain Stephens and briefed him on the known circumstances of this incident. Captain Stephens assumed incident command and began to initiate the CIRT protocol.

While on scene, I was approached by HCSO Sergeant Waxler who requested assistance in locating and securing a potential scene where gunfire took place in the vicinity of South and Utah Streets near Alice Burney School. I assigned Officer Soltow to this task and he drove to the above area and began a canvas for a scene and potential evidence.

Sgt. Waxler also requested that I contact and assess [redacted] again to make sure he did not require any medical attention. I went to the driver side rear of my patrol SUV and opened the passenger side rear door. I asked [redacted] if he needed any medical attention and he declined. He only seemed concerned about the fact that his cell phone was still in the white SUV.

Since [redacted] was in my patrol SUV, and that my patrol SUV was part of the inner perimeter of the crime scene, I remained on scene for multiple hours.

I periodically checked on [redacted] as he sat in my patrol car to insure his status did not change. Toward the end of my time on scene, [redacted] began to complain of shoulder pain do to being in handcuffs for an extended period of time. (It should be noted that after all three suspects were initially handcuffed and secured in patrol vehicles, I requested that APD Sergeant Wilson and another APD officer remove [redacted] and place a second set of handcuffs on his wrists to give him more freedom of movement).

On one occasion while checking on [redacted], it was discovered that he had discarded multiple clear plastic bindles on the rear seat of my patrol SUV. The bindles had a white residue inside them. At that time, it occurred to me that I had only completed a high risk search of his person for weapons, but had not completely emptied his pockets. At that time, HCSO Sergeant Masarro assisted me while I checked and emptied all pockets on [redacted] person. His pocket contents were placed into his ball cap and in my patrol car pending his final disposition.

With approval from investigators and command staff on scene, [redacted] was eventually removed from my patrol SUV and placed in the back of Fortuna Police Detective Taylor's patrol SUV. I also transferred his ball cap

and pocket contents to Detective Taylor. After doing so, [redacted] continued to complain about shoulder pain from being handcuffed. I asked [redacted] if he wanted an ambulance to respond and he said yes. I then requested that City Ambulance respond to assess his complaint and check his vital signs. City Ambulance arrived on scene at about 2330 hours and ultimately did not transport [redacted]

I cleared the scene resumed my patrol responsibilities at 2358 hours.

It is assumed that all evidence items submitted for analysis are in the lawful possession of law enforcement, whether by warrant, consent, or other recognized justification, and the requested examination falls within the scope of that legal authority.* ***BFS Laboratories shall decide the specific method of analysis.*

UNIFORM STATUTORY FORM POWER OF ATTORNEY (California Probate Code section 4401)

NOTICE: THE POWERS GRANTED BY THIS DOCUMENT ARE BROAD AND SWEEPING. THEY ARE EXPLAINED IN THE UNIFORM STATUTORY FORM POWER OF ATTORNEY ACT (CALIFORNIA PROBATE CODE SECTIONS 4400 to 4465). IF YOU HAVE ANY QUESTIONS ABOUT THESE POWERS, OBTAIN COMPETENT LEGAL ADVICE. THIS DOCUMENT DOES NOT AUTHORIZE ANYONE TO MAKE MEDICAL AND OTHER HEALTH CARE DECISIONS FOR YOU. YOU MAY REVOKE THIS POWER OF ATTORNEY IF YOU LATER WISH TO DO SO.

I [redacted] *[name of principal]*, appoint [redacted] *[name of the person appointed, or of each person appointed]* as my agent (attorney-in-fact) to act for me in any lawful way with respect to the following initialed subjects:

TO GRANT ALL OF THE FOLLOWING POWERS, INITIAL THE LINE IN FRONT OF (N) AND IGNORE THE LINES IN FRONT OF THE OTHER POWERS.

TO GRANT ONE OR MORE, BUT FEWER THAN ALL, OF THE FOLLOWING POWERS, INITIAL THE LINE IN FRONT OF EACH POWER YOU ARE GRANTING.

TO WITHHOLD A POWER, DO NOT INITIAL THE LINE IN FRONT OF IT. YOU MAY, BUT NEED NOT, CROSS OUT EACH POWER WITHHELD.

INITIAL

_____ (A) Real property transactions.

_____ (B) Tangible personal property transactions.

_____ (C) Stock and bond transactions.

_____ (D) Commodity and option transactions.

_____ (E) Banking and other financial institution transactions.

_____ (F) Business operating transactions.

_____ (G) Insurance and annuity transactions.

_____ (H) Estate, trust, and other beneficiary transactions.

_____ (I) Claims and litigation.

_____ (J) Personal and family maintenance.

_____ (K) Benefits from social security, medicare, medicaid, and other governmental programs, or civil or military service.

_____ (L) Retirement plan transactions.

_____ (M) Tax matters.

[redacted] (N) ALL OF THE POWERS LISTED ABOVE.

YOU NEED NOT INITIAL ANY OTHER LINES IF YOU INITIAL LINE (N)

SPECIAL INSTRUCTIONS

ON THE FOLLOWING LINES YOU MAY GIVE SPECIAL INSTRUCTIONS LIMITING OR EXTENDING THE POWERS GRANTED TO YOUR AGENT.

I would like her to handle all my affairs with my tribe [redacted] be it Bizzness or My money ect... I

UNLESS YOU DIRECT OTHERWISE ABOVE, THIS POWER OF ATTORNEY IS EFFECTIVE IMMEDIATELY AND WILL CONTINUE UNTIL IT IS REVOKED.

This power of attorney will continue to be effective even though I become incapacitated.

STRIKE THE PRECEDING SENTENCE IF YOU DO NOT WANT THIS POWER OF ATTORNEY TO CONTINUE IF YOU BECOME INCAPACITATED.

EXERCISE OF POWER OF ATTORNEY WHERE MORE THAN ONE AGENT DESIGNATED.

If I have designated more than one agent, the agents are to act _____.

IF YOU APPOINTED MORE THAN ONE AGENT AND YOU WANT EACH AGENT TO BE ABLE TO ACT ALONE WITHOUT THE OTHER AGENT JOINING, WRITE THE WORD "SEPARATELY" IN THE BLANK SPACE ABOVE. IF YOU DO NOT INSERT ANY WORD IN THE BLANK SPACE, OR IF YOU INSERT THE WORD "JOINTLY", THEN ALL OF YOUR AGENTS MUST ACT OR SIGN TOGETHER.

I agree that any third party who receives a copy of this document may act under it. Revocation of the power of attorney is not effective as to a third party until the third party has actual knowledge of the revocation. I agree to indemnify the third party for any claims that arise against the third party because of reliance on this power of attorney.

Signed this 23 day of 09 *[month]*, 2022 *[year]*.

NOTIFICATION:

On Wednesday July 20, 2022, at about 1945, I was off duty and assigned as the On-Call Investigator for the Humboldt County Sheriff's Office Major Crimes Division. Sergeant Taylor called me and advised me there had been an officer involved shooting. I was directed to respond to the office.

BRIEFING:

At about 2115 hours, a briefing was conducted in the Major Crimes Division. Sergeant Taylor provided the following information:

Eureka Patrol Officer Endsley had initiated a pursuit on a white SUV for excessive speed. The pursuit was terminated and the Sheriff's Office received a BE ON LOOKOUT (BOLO) information regarding the reckless driver and vehicle over the radio.

A doubled training unit consisting of Field Training Officer Deputy Walstrom and Trainee Deputy Dickson located the vehicle in the "Herrick area" and initiated a traffic enforcement stop. The vehicle failed to yield and a pursuit was initiated.

During the pursuit "SHOTS FIRED" was broadcast by deputies near the intersection of Vance and Eureka streets. A second "SHOTS FIRED" was broadcast by unknown deputies in the area of Utah Street and Highland Avenue in Eureka. The pursuit continued through city streets. The pursuit was headed eastbound on Buhne Street approaching the intersection of Harrison Avenue where it terminated when the suspect vehicle collided with an uninvolved vehicle. Two males and one female suspect were detained at that time.

[redacted] was identified as the alleged shooter and was requesting to make a statement. No suspects or firearms were reported to be outstanding. No other parties were believed to have been injured as a result of the incident. Deputy Anderson was identified as having been the secondary unit in the pursuit. Deputy Walstrom and Deputy Dickson had been escorted to the Eureka Police Department. Deputy Anderson remained on the scene at Buhne Street and Harrison Avenue.

During the briefing it was determined that Deputy Anderson needed to be escorted to the Eureka Police Department so that he could be processed.

ASSIGNMENTS:

At the briefing the following initial assignments were made:

CIRT Incident Commander:	Lieutenant Williams-HCSO
Investigative Supervisor:	Sergeant Taylor-HCSO
Lead Investigator:	Investigator Hicks-HCSO
Co-Lead Investigator:	Investigator Brawner-HCDA
Eureka/Vance Scene:	Sergeant Ortega-APD (Team Leader)
	Officer Mullen-FoPD

SCENE:

At the conclusion of the briefing, Investigator Brawner and I drove to the area of Fairway Drive. We drove a route similar to the pursuit route. Our route varied as we did not know all of the exact streets the pursuit took, some areas were cordoned off as crime scenes, and Henderson Street is a one way street.

We stopped at the scene of Eureka Street and Vance Avenue and observed the scene from outside of the scene perimeter.

We drove past the scene at Utah Street and Highland Avenue and observed the scene from inside my vehicle.

We stopped at the scene of Buhne Street and Harrision Avenue, exited my vehicle, and entered the scene perimeter. I observed a white Kia [redacted] and a dark colored Toyota [redacted] in the intersection. A semi automatic rifle was on the ground near the front passenger door of the Kia. A marked Sheriff's patrol vehicle was parked on Buhne Street facing eastbound. The windshield of the patrol vehicle had a hole in it with glass protruding outward. See Corporal DelRosario and Corporal Jones' reports for complete details of the scene.

I spoke with Lieutenant Miller and Sergeant Massaro to coordinate having [redacted] transported to the Major Crimes Division to be interviewed.

We then responded to the Major Crimes Division.

SUSPECT INTERVIEWS:

Investigator Brawner and I interviewed [redacted] in the Major Crimes Division interview room. See Investigator Brawner's report for details on the interviews.

ARRESTS:

At the conclusion of interviewing [redacted] it was determined that he would be arrested for PC664/187(a) attempted homicide of a peace officer, and PC29800(a)(1), felon in possession of a firearm. I completed the Booking Request, and Statement of Probable Cause. Custody of [redacted] was turned over to Sergeant Massaro to be transported to the Humboldt County Correctional Facility.

At the conclusion of interviewing [redacted] it was determined that he would be arrested for VC2800.2, felony evading. I completed the Booking Request and Statement of Probable Cause. Custody of [redacted] was turned over to Deputy Nasca to be transported to the Humboldt County Correctional Facility.

DEPUTY WALSTROM INTERVIEW:

On Friday July 22, 2022 at about 1108 hours, Investigator Brawner and I interviewed Deputy Walstrom in the Major Crimes Division Conference Room. Also present during the interview were Lieutenant Allen and Deputy Walstrom's attorney, [redacted].

I advised Deputy Walstrom of the purpose of the interview and confirmed with him that he was there voluntarily. Deputy Walstrom gave the following statement:

Deputy Walstrom has been employed as by the Humboldt County Sheriff's Office since July of 2019. Deputy Walstrom's rank was Deputy Sheriff II and Field Training Officer.

Prior to working at the Sheriff's Office, Deputy Walstrom was employed as a Police Officer with the Fortuna Police Department for 1 year and 8 months.

Prior to working at the Fortuna Police Department, Deputy Walstrom was employed as a Police Officer with the Rio Dell Police Department for 2 years.

Deputy Walstrom's employment with the three agencies was consecutive.

Deputy Walstrom was assigned to Main Station Patrol on C Watch. C Watch is weekday night shift. The shift hours were 1800-0600. The shift days were Monday, Tuesday, Wednesday, and every other Thursday. I advised Deputy Walstrom that the incident occurred on a Wednesday night and inquired if he would have been scheduled to work on Thursday or if it was his "short week". Deputy Walstrom indicated it was his "short week".

I asked Deputy Walstrom about his sleep prior to the incident. Deputy Walstrom indicated he got off shift on the morning of July 20, 2022 and went to sleep. He indicated that he got 7-8 hours of sleep and indicated he got good sleep.

HUMBOLDT COUNTY SHERIFF

I asked Deputy Walstrom how much sleep he had gotten since the incident. Deputy Walstrom indicated "not much". I asked Deputy Walstrom to estimate how much sleep he had gotten. Deputy Walstrom estimated he had a total of about 6-7 hours of sleep. Deputy Walstrom stated the sleep was not consecutive. Deputy Walstrom last slept "last night". Deputy Walstrom stated he went to bed at about 0200 hours and "tried to" sleep. Deputy Walstrom stated he woke up a lot as he slept and "tossed and turned".

I asked Deputy Walstrom if he wore glasses or any other aides. Deputy Walstrom stated he wears contacts and was wearing them at the time of the incident.

Deputy Walstrom confirmed that photos were taken of him after the incident. Deputy Walstrom stated these photos accurately depicted his appearance during the incident.

I spoke with Deputy Walstrom about his rifle. Deputy Walstrom stated his rifle is a department issued Colt M4 .556 caliber rifle. Deputy Walstrom had possessed the rifle for about 1 1/2 years. The only modification Deputy Walstrom made to the rifle was that he put a sling on it when the department issued sling broke. Deputy Walstrom indicated that the firearms coordinator was aware of this change. Deputy Walstrom last qualified with the rifle in May of 2022. Deputy Walstrom stated the magazines for the rifle have a capacity of 30. Deputy Walstrom carries his magazines loaded with 28 rounds. The ammunition was all the same and was department issued.

The rifle is stored in the rifle lock of vehicle with an empty chamber, with the bolt forward, and a magazine in place. Deputy Walstrom stated to his knowledge the rifle was functioning properly on the day of the incident.

I spoke with Deputy Walstrom about his pistol. Deputy Walstrom stated his pistol is a 5th generation Glock model 17 and is personally owned. It is a 9mm. He has possessed the pistol for about 1 year. The pistol is equipped with a Trijicon suppressor height sights, Trijicon RMR optic, and a Glock OEM magazine well. Deputy Walstrom last qualified with his pistol in May of 2022. The magazines have a capacity of 17 rounds. Deputy Walstrom has Strike industries baseplates increasing the capacity to 23. He loads his magazines with 22 rounds. Deputy Walstrom carries his pistol with a round loaded in the chamber and 22 rounds in the magazine. The ammunition was all the same and was department issued.

I asked Deputy Walstrom if he possessed any other firearms during the incident. Deputy Walstrom advised the vehicle he was driving was issued a less lethal shotgun and that he possessed a BolaWrap which met the ATF definition of a firearm.

Deputy Walstrom stated the less lethal shotgun was a Remington 870 shotgun equipped with less lethal ammunition. Deputy Walstrom did not know how the status of how the shotgun was loaded. To his knowledge the shotgun was functioning properly.

Deputy Walstrom carries his pistol in a personally owned Safariland level-II holster.

THIS DOCUMENT CONTAINS RESTRICTED INFORMATION. DISTRIBUTION TO UNAUTHORIZED PERSONS IS PROHIBITED
HUMBOLDT COUNTY SHERIFF

Deputy Walstrom carries 3 additional pistol magazines on his person while on duty. Each magazine is loaded with 22 rounds.

Deputy Walstrom does not carry a Taser. Deputy Walstrom carries a Bolawrap affixed to the dropleg platform of his pistol holster.

I asked Deputy Walstrom about the uniform he was wearing the day of the incident. Deputy Walstrom stated he was wearing green pants and a tan shirt. Deputy Walstrom was wearing a duty belt with a baton ring and drop platform for his sidearm. Deputy Walstrom wears a Richard Cowell overcarrier vest. In the vest he carries 2 sets of handcuffs, OC (Oleoresin capsicum) Spray, three flashlights, 3 pistol magazines, a police radio, a window breaker, a window punch, and a pulse oximeter. The carrier also carries body armor.

Deputy Walstrom stated he carries two cell phones while on duty. Deputy Walstrom carries his department issued cellular phone in pocket on vest. Deputy Walstrom carries his personal in a pocket or in the visor of the patrol vehicle. Deputy Walstrom stated that his work cellular phone serves as a body camera. Deputy Walstrom stated that his body camera was functioning and turned on during the incident.

I asked Deputy Walstrom about the vehicle he was in during the incident. Deputy Walstrom stated he was in patrol vehicle 07-236 which was a 2020 Ford Explorer. Deputy Walstrom described the vehicle as a distinctly marked black and white patrol vehicle with the word "Sheriff" across the back and the word "Sheriff" and a Sheriff's badge on the front driver's and front passenger's door. The vehicle has emergency lights compliant with the California Vehicle Code visible to the from the front of the vehicle. Deputy Walstrom stated the lighting is part of a "slick top" design meaning the lights were incorporated with the design of the car and there was not an overhead light bar. Deputy Walstrom stated to his knowledge all of the vehicle's equipment and lighting was working on the night of the incident.

Deputy Walstrom stated that on July 20, 2022, he was assigned as a training officer working Main Station patrol. He was assigned to train Deputy Dickson. Deputy Walstrom was driving the vehicle that night.

I asked Deputy Walstrom to provide a dialogue of the incident from before everything started until the moment he fired his last shot.

Deputy Walstrom stated that he was on patrol with Deputy Dickson. They had just cleared a domestic violence call. They were about a mile away from the domestic violence call and had been checking the area for the suspect in that call.

Deputy Walstrom stated he was driving on Fairway Drive and heard Deputy Anderson on the radio advising he was "attempting traffic on a high speed vehicle." Deputy Walstrom pulled to the right side of the road to wait for additional information. Deputy Walstrom observed a white SUV approaching from behind and driving in the opposing lane to pass his patrol vehicle. The SUV was driving at a high rate of speed. Deputy Walstrom accelerated and positioned his patrol vehicle behind the SUV. Deputy Walstrom advised dispatch he was behind the vehicle and initiating a pursuit.

DO NOT DUPLICATE
THIS DOCUMENT CONTAINS
RESTRICTED INFORMATION
DISTRIBUTION TO UNAUTHORIZED
PERSONS IS PROHIBITED
HUMBOLDT COUNTY SHERIFF

Deputy Walstrom broadcasted the SUV's license plate number over the radio. Deputy Walstrom stated the SUV was speeding was not currently crossing into oncoming traffic lane. The SUV turned onto Vance Avenue. Deputy Walstrom observed the front passenger throw out a
"Slushie" that hit a vehicle and splashed up into the air. The front passenger then threw out a lit cigarette.

Deputy Walstrom then observed a "black AK-47 style rifle come out the front passenger window. The front foregrip appeared to be full length. There was an extended magazine and no stock. Deputy Walstrom told Deputy Dickson to duck. Deputy Walstrom observed the firearm initially come out the window "perfectly sideways" and Deputy Walstrom was able to the see the profile of the firearm. The firearm was then fired and "coming back toward us". Deputy Walstrom ducked down. Deputy Walstrom and Deputy Dickson drew their sidearms.

Deputy Walstrom used the radio to advise "we were being shot at". Deputy Walstrom continued pursing the vehicle. The vehicle "looped through neighborhoods" and eventually got to the area of Allard Avenue and Utah Street. Deputy Walstrom recalled "the firearm coming out of the vehicle a couple more times".

Deputy Walstrom did not know how many shots had been fired by the suspect but recalled hearing multiple shots.

Deputy Walstrom stated the pursuit turned onto Utah Street and was headed northbound. Deputy Walstrom described Utah Street as "pretty straight and starts to dip down". At that point, Deputy Walstrom observed the firearm come out the window of the vehicle.

Deputy Walstrom stated he had holstered his sidearm and retrieved his rifle. He had the rifle on the dashboard of the patrol vehicle "in the event he began firing at us again".

The firearm came out the vehicle's window and was pointed directly at the patrol vehicle. Deputy Walstrom could see the head of the suspect exposed. Deputy Walstrom believed that the suspect was "going to murder myself or my partner". Deputy Walstrom fired his firearm "attempting to stop him from shooting us. Stop the threat." Deputy Walstrom stated he fired a small burst of rounds. He did not know the exact number of rounds he fired.

Deputy Walstrom stated he was aiming at the suspect when he fired and was not aiming at the vehicle. The suspect ducked back into the vehicle. Deputy Walstrom stated to the best of his knowledge no more shots were fired after this.

I asked Deputy Walstrom to focus on the one second before he fired and asked what he was thinking. Deputy Walstrom stated "that he had already shot at us once, and when the firearm came back out of the vehicle, I was convinced he was going to try and shoot through the windshield and kill either me or my partner."

I asked Deputy Walstrom what emotions he was feeling. Deputy Walstrom stated he was "terrified" and

DO NOT DUPLICATE
THIS DOCUMENT CONTAINS RESTRICTED INFORMATION
DISTRIBUTION TO UNAUTHORIZED PERSONS IS PROHIBITED
HUMBOLDT COUNTY SHERIFF

indicated that "I was definitely shaking". Deputy Walstrom stated he was concerned for Deputy Dickson who was his "trainee".

I asked Deputy Walstrom how far apart the suspect vehicle and patrol vehicle were apart at the time Deputy Walstrom fired. Deputy Walstrom estimated they were 20-30 yards apart.

I asked Deputy Walstrom where the suspect was in the vehicle. Deputy Walstrom indicated the suspect was in the front passenger seat.

I asked Deputy Walstrom to close his eyes and visualize what he saw, heard, and smelled. Deputy Walstrom stated he recalled driving down Utah Street, the suspect had waved his hands in a shooing motion. Deputy Walstrom looked and saw two small children "in the grass area of the old Alice Burney School." Deputy Walstrom stated that he knew the children would be behind him if the suspect fired again.

The suspect pointed the firearm in the direction of the patrol vehicle and Deputy Walstrom heard a shot. Deputy Walstrom believed the suspect was trying to kill him and Deputy Dickson. Deputy Walstrom stated, "I just wanted him to stop shooting."

I asked Deputy Walstrom what feelings he was having after he fired his last shot. Deputy Walstrom stated, "terrified still". Deputy Walstrom stated he had concerns that Deputy Dickson was ok. Deputy Walstrom stated he was concerned if he, Deputy Walstrom, was ok. Deputy Walstrom was concerned that he was shot and that he did not know it. He did not know where the shots fired by the suspect hit.

Deputy Walstrom stated he felt "thuds" against the patrol vehicle and initially thought there were shockwaves from the suspects firearm but then as Deputy Walstrom was processing things through he realized it was bullets hitting the patrol vehicle and the suspect "was not just shooting to shoot, he was shooting to kill us."

Deputy Walstrom stated as the incident continued, he remained "terrified that we were going to be shot again".

I asked Deputy Walstrom what he believed would have happened had he not acted. Deputy Walstrom stated he believed the suspect would continue shooting. Deputy Walstrom stated that, "Myself or Deputy Dickson could have been killed. Or let alone any civilian, as he had already fired off the firearm at police why wouldn't he shoot at other people as well."

I asked Deputy Walstrom where the incident first began. Deputy Walstrom stated he was unsure where Deputy Anderson first observed the vehicle. Deputy Walstrom stated the vehicle passed him as he was pulling partially into a driveway. Deputy Walstrom's vehicle was pointed in a south or west direction. Deputy Walstrom stated he was in the driveway on Fairway Drive just past the golf course. Deputy Walstrom stated he pulled the patrol vehicle partially into the driveway and turned on his emergency lights as part of his vehicle was still in the roadway.

I asked Deputy Walstrom where they were when the suspect fired his first shots. Deputy Walstrom the first shots

DO NOT DUPLICATE
THIS DOCUMENT CONTAINS RESTRICTED INFORMATION
DISTRIBUTION TO UNAUTHORIZED PERSONS IS PROHIBITED
HUMBOLDT COUNTY SHERIFF

were fired as they turned onto Eureka Street from Vance Avenue.

Deputy Walstrom was not certain what other locations the suspect fired shots as when he saw the firearm exit the vehicle, he would duck down to protect himself. Deputy Walstrom was certain the suspect shot right into the patrol vehicle while on Utah Street. Deputy Walstrom could not remember the exact location but indicated he had told the sergeant what the location was that night.

I asked Deputy Walstrom to continue his dialogue of the events from the time he stopped firing until the incident ended.

Deputy Walstrom stated the initial pursuit was over a traffic infraction. When the suspect "produced the firearm and shot at us" the incident escalated to "an on view attempted homicide" Deputy Walstrom stated, "he was 100 % trying to kill us." Deputy Walstrom stated "the need for apprehension was the highest it could be."

Deputy Walstrom stated the suspect vehicle continued down Utah Street and Deputy Walstrom followed. They continued down Utah Street as Utah Street turned into Central Avenue. The pursuit continued toward West Henderson Street. The suspect vehicle turned the wrong way (east) onto West Henderson Street and Deputy Walstrom followed. The pursuit traveled on West Henderson "between the number 1 and number 2 lanes".

Deputy Walstrom stated he did not know how fast they were going. Deputy Walstrom stated he focused on clearing intersections as he could not see the stop lights. Deputy Walstrom was also watching for any collisions that the suspect vehicle may have caused. Deputy Walstrom stated to the best of his knowledge there were no collisions during this portion of the pursuit. Deputy Walstrom stated he did not see any near collisions as the other drivers "parted ways" to get out of the way of the suspect vehicle and pursing deputies.

At one point, while the pursuit was traveling down Henderson Street, Deputy Walstrom saw a marked Eureka Police vehicle with its emergency lights on. Deputy Walstrom stated he was concerned that the suspect was going to shoot at the Eureka Police Officer. The pursuit passed the Eureka Police vehicle and continued eastbound on Henderson Street.

The suspect turned onto N Street and Deputy Walstrom followed. Deputy Walstrom stated that Deputy Anderson had stated (over the radio) the pursuit turned onto M Street. Deputy Walstrom used the radio to provide the correct location. Deputy Walstrom threw the radio mic to Deputy Dickson and advised him that he would call out the locations and Deputy Dickson would advise dispatch of the location.

The suspect vehicle turned onto Buhne Street and Deputy Walstrom followed. Deputy Walstrom stated the suspect vehicle was traveling at an "extremely high rate of speed". Deputy Walstrom stated the suspect vehicle was traveling faster than Deputy Walstrom was comfortable driving and "began to get distance on us as we came down the large dip", referring to the section of Buhne Street east of S Street.

Deputy Walstrom stated, "as we crested the hill" he observed that the suspect vehicle collided with "a civilian vehicle".

DO NOT DUPLICATE
THIS DOCUMENT CONTAINS RESTRICTED INFORMATION
DISTRIBUTION TO UNAUTHORIZED PERSONS IS PROHIBITED
HUMBOLDT COUNTY SHERIFF

Deputy Walstrom stated he believed there was "No way he's not gonna start shooting at us again". Deputy Walstrom observed the civilian was still in the vehicle. Deputy Walstrom exited his patrol vehicle and attempted to get the civilian to exit his vehicle so that he could be removed from the situation. Deputy Walstrom yelled at the civilian to get his attention. The civilian finally saw Deputy Walstrom and began to move away from the collision.

Deputy Walstrom observed the passenger door to the suspect vehicle open. Deputy Walstrom observed the rifle exit the vehicle. Deputy Walstrom observed "a momentary flash of it right at us". Deputy Walstrom was concerned that the suspect "was going to shoot at us". Deputy Walstrom stated that the civilian was in the backdrop and Deputy Walstrom took cover.

Deputy Walstrom observed the rifle drop to the ground and the suspected exited the vehicle. Deputy Walstrom yelled at the civilian to get away. The civilian complied.

Deputy Walstrom gave the suspect commands to "get on the ground" and "stop". The suspect turned away from Deputy Walstrom. Deputy Walstrom was concerned the suspect was going to run. Deputy Walstrom then recognized the suspect as [redacted] Deputy Walstrom had previously encountered [redacted] when he was working in the jail. Based on the encounter in the jail, Deputy Walstrom know that [redacted] had a broken leg and "was not running anywhere."

[redacted] did eventually comply with commands and got on the ground. Deputy Walstrom instructed other Deputies to be quiet and he would issue commands. Deputy Walstrom issued commands to the other occupants of the vehicles. The suspect and two other occupants of the vehicle were detained without further incident. After everyone was detained a contact team was formed and approached the suspect vehicle to confirm no one else was inside.

I asked Deputy Walstrom if any force other than uniform presence, voice commands, and pointing of firearms was used by him or anyone else while detaining the occupants of the suspect vehicle. Deputy Walstrom stated there was not.

I asked Deputy Walstrom if there were any opportunities to give commands to the suspects prior to the crash. Deputy Walstrom said there was not as they were "taking fire from an AK-47."

I asked Deputy Walstrom if he was able to verbally identify himself during the pursuit. Deputy Walstrom stated he was unable to verbally identify himself but that he had all of the vehicle's emergency lights and siren activated. I confirmed with Deputy Walstrom that he was in a marked Sheriff's patrol vehicle and that the suspect had passed his vehicle at the beginning of the incident.

I asked Deputy Walstrom if [redacted] had made any statements during the incident. Deputy Walstrom stated that at the end of the incident when [redacted] started to walk away, Deputy Walstrom told [redacted] "in an attempt to gain compliance, I told him that if he didn't stop walking, he would be shot." [redacted] stated,

DO NOT DUPLICATE
THIS DOCUMENT CONTAINS RESTRICTED INFORMATION
DISTRIBUTION TO UNAUTHORIZED PERSONS IS PROHIBITED
HUMBOLDT COUNTY SHERIFF

CONTROLLED DOCUMENT

"you would be doing me a favor."

I asked Deputy Walstrom if [redacted] verbally or physically threatened him other than the firing of the rifle that we had already discussed. Deputy Walstrom stated he had not.

I asked Deputy Walstrom if he knew who the suspect was prior to the suspect exiting the vehicle. Deputy Walstrom said he did not. I asked Deputy Walstrom if he had any information about who was possible in the suspect vehicle. He said he did not.

I asked Deputy Walstrom recalled where he was when he drew his pistol. Deputy Walstrom stated it was at the intersection of Vance Avenue and Eureka Street when the suspect first shot at them.

I asked Deputy Walstrom if he was familiar with the area. Deputy Walstrom stated other than the area of N Street, O Street, and Hayes Street he was generally familiar with the areas the pursuit traveled.

I asked Deputy Walstrom if he had a search warrant or arrest warrant for the suspect. He stated he did not.

I asked Deputy Walstrom what his probable cause for the initial traffic stop was. Deputy Walstrom stated the reasonable suspicion for the traffic stop was crossing the double yellow lines, speeding, and fleeing from Deputy Anderson. Deputy Walstrom stated near the intersection of Vance Avenue and Eureka Street the probable cause changed to attempted homicide.

I asked Deputy Walstrom if he had any additional contacts with [redacted] other than the time he saw him in the jail. Deputy Walstrom stated he did not.

I asked Deputy Walstrom if he knew the criminal history of [redacted]. Deputy Walstrom stated that [redacted] had made comments in the jail about his criminal history but he did not know anything other than what [redacted] had said. I confirmed with Deputy Walstrom that at the time of the shooting, Deputy Walstrom did not know [redacted] was the suspect and therefore did not know anything about the criminal history of the shooter.

I asked Deputy Walstrom if, prior to the shooting, he had any information about anyone in the vehicle being violent or potentially being a threat. Deputy Walstrom stated he did not.

I asked Deputy Walstrom if, prior to seeing the firearm, he had any information about anyone in the vehicle being armed. Deputy Walstrom stated he did not.

I asked Deputy Walstrom if he recalled how [redacted] was dressed. Deputy Walstrom stated [redacted] was wearing a light colored shirt when he exited the vehicle. I asked Deputy Walstrom if he observed any of [redacted] clothing prior to him exiting. Deputy Walstrom stated he did not observe any of [redacted] clothing prior to him exiting the vehicle.

CONTROLLED DOCUMENT

I confirmed with Deputy Walstrom that prior to him (Deputy Walstrom) shooting, that he saw [redacted] head outside of the vehicle. I asked Deputy Walstrom to describe [redacted] as he saw him at that moment. Deputy Walstrom stated medium complected male with a shaved head.

I asked Deputy Walstrom about the speeds of the pursuit. I confirmed with Deputy Walstrom that he did not know the speeds of the pursuit but that as the suspect vehicle was driving down Buhne Street it was going faster than Deputy Walstrom was comfortable driving. I asked Deputy Walstrom to estimate any speeds. Deputy Walstrom stated "I wouldn't say they were crazy fast" and stated he never looked down at his speedometer. Deputy Walstrom stated that Deputy Anderson was the secondary unit in the pursuit and the responsibility of reporting speeds would be his. Deputy Walstrom stated that on Buhne Street when the suspect vehicle was traveling faster than he felt comfortable driving, he estimated the suspect vehicles speed to be "roughly 100 miles per hour".

I asked Deputy Walstrom if there were any passengers in the vehicle. Deputy Walstrom stated that they found out there was an additional passenger in the vehicle at the end of the pursuit.

I asked Deputy Walstrom how many people he knew were in the vehicle when he fired his rifle. Deputy Walstrom stated he knew there were at least two people in the vehicle. He knew there was a driver and a front passenger.

Investigator Brawner asked Deputy Walstrom about his initial observations of the suspect vehicle. Deputy Walstrom stated the vehicle was a white SUV. Deputy Walstrom was able to read the license plate and broadcast the license plate number. Deputy Walstrom observed the vehicle cross over the double yellow lines to pass his patrol vehicle. Deputy Walstrom stated he visually estimated the vehicle to be traveling at 65 miles per hour. Deputy Walstrom stated he has previous experience as a RADAR/LIDAR operator.

Investigator Brawner asked Deputy Walstrom if there was any question in his mind that the suspects knew he was a law enforcement officer. Deputy Walstrom stated that when he moved his patrol vehicle to the right side of the road, he activated his rear flashing lights to warn any traffic that his patrol vehicle was still partially in the roadway. Deputy Walstrom stated when he got behind the vehicle, his forward facing lights and siren were activated.

Investigator Brawner asked what part of the suspect vehicle Deputy Walstrom saw the firearm. Deputy Walstrom stated the firearm came out of the front passenger window. Deputy Walstrom did not recall the firearm coming out of any other windows.

Investigator Brawner asked Deputy Walstrom about the clothing description of the shooter. Deputy Walstrom stated he did not notice anything about the suspect clothing as he was focused on the firearm.

Investigator Brawner asked Deputy Walstrom to provide a description of the shooter. Deputy Walstrom stated he initially saw the suspect when he saw the firearm come out. Deputy Walstrom recalled seeing darker skin. Deputy Walstrom stated he believed he broadcast over the radio "the passenger, I believe was a BMA."

Deputy Walstrom stated when the suspect fired a second time, when the rounds hit the car, "I observed him to be medium skinned, shaved head, male." Deputy Walstrom stated once the pursuit ended, the subject that dropped rifle was the same subject that exited the front passenger door and was [redacted].

Investigator Brawner asked if Deputy Walstrom was able to see into the vehicle during the pursuit. Deputy Walstrom stated he was unable to see into the vehicle due to dark tinting on the windows.

Investigator Brawner asked if there was a time during the pursuit that Deputy Walstrom lost sight of the suspect vehicle. Deputy Walstrom stated "nothing more than momentarily rounding corners" and momentarily when cresting the hill on Buhne Street.

I asked Deputy Walstrom if he was injured during the incident. Deputy Walstrom stated there was a small amount of blood on his vest at the conclusion of the incident. Deputy Walstrom was uncertain where the blood came from but speculated he bit his lip at some point during the pursuit. Deputy Walstrom stated he got glass in his eyes and washed it out with eye drops after the incident was over.

I asked Deputy Walstrom how long he had been a Field Training Officer. Deputy Walstrom stated he had been a Field Training Officer for about 8 months.

I asked Deputy Walstrom how long he had been training Deputy Dickson. Deputy Walstrom stated Deputy Dickson was on his last day of the third week with Deputy Walstrom. Deputy Walstrom stated that he drives on the last day that he has a trainee and that is why he was driving the night of the incident. I asked Deputy Walstrom how long Deputy Dickson had been on the Field Training Program. Deputy Walstrom stated it was Deputy Dickson's sixth week of the training program.

I asked [redacted] if he had any questions.

[redacted] asked Deputy Walstrom if [redacted] was the person that came out of the front passenger door of the suspect vehicle. Deputy Walstrom stated it was. [redacted] asked if that was the same person that Deputy Walstrom saw drop the rifle. Deputy Walstrom stated it was.

[redacted] asked if the person who was leaning out the window and shooting matched the description of [redacted]. Deputy Walstrom stated, "without a doubt in my mind that's who had shot at us."

[redacted] asked if there was any doubt in Deputy Walstrom's mind that [redacted] "was trying to hurt you or kill you". Deputy Walstrom replied "No." [redacted] asked if [redacted] "had the ability, the intent, the opportunity to do that?" Deputy Walstrom stated, "Yeah he was showing all those." [redacted] asked if Deputy Walstrom had, "reasonable belief that was occurring or were you actually witnessing that was occurring?" Deputy Walstrom stated he was witnessing that occurring.

I spoke with Deputy Walstrom about his body camera. Deputy Walstrom stated that his body camera is set up to

CONTROLLED DOCUMENT

activate with a "double tap". Deputy Walstrom stated sometimes the buttons on the body camera don't work. Early during the incident, Deputy Walstrom looked down and saw that his camera was not activated. Deputy Walstrom then activated the camera and told Deputy Dickson to activate his body camera. Deputy Walstrom stated he did not review any body camera footage of the incident prior being interviewed.

The interview ended at about 1200 hours.

The interview was audio recorded. The recording was later transferred to CD and booked into evidence.

DEPUTY DICKSON INTERVIEW:

Prior to being interviewed Deputy Dickson requested to view his body camera footage. On July 22, 2022 at about 1330 hours, Deputy Dickson and his attorney [redacted] with the law firm [redacted] arrived at the Major Crimes Division. I escorted them to the Major Crimes Division conference room and provided them with a laptop computer and a USB drive containing Deputy Dickson's body camera video. They were left alone in the conference room to view the video.

On Friday July 22, 2022 at about 1437 hours, Investigator Brawner and I interviewed Deputy Dickson in the Major Crimes Division Conference Room. Also present during the interview were Lieutenant Allen and Deputy Dickson's attorney, [redacted] with the law firm [redacted]

I advised Deputy Dickson of the purpose of the interview and confirmed with him that he was there voluntarily. Deputy Dickson gave the following statement:

Deputy Dickson is a 24 years old and a Deputy Sheriff I with the Humboldt County Sheriff's Office. He started that position in June of 2022. Prior to that he worked as a Correctional Deputy with the Humboldt County Sheriff's Office for about 2 1/2 years. Deputy Dickson was assigned as a patrol Deputy on the Field Training Program. On July 20, 2022 Deputy Dickson was assigned to C Shift.

C Shift is weekday night shift. The shift hours were 1800-0600. The shift days were Monday, Tuesday, Wednesday, and every other Thursday. I advised Deputy Dickson that the incident occurred on a Wednesday night and inquired if he would have been scheduled to work on Thursday of if it was his "short week". Deputy Dickson indicated it was his "short week"

I asked Deputy Dickson about his sleep prior to the incident. Deputy Dickson stated on July 20, 2022 he slept from about 0700 hours to 1200 hours.

I asked Deputy Dickson how much sleep he had gotten since the incident. Deputy Dickson indicated he has slept "on and off". Deputy Dickson stated that on July 23, 2022 he went to sleep sometime between 0400 and 0600 hours and woke up between 1000 and 1100 hours.

I asked Deputy Dickson if he wore glasses or any other aides. Deputy Dickson stated he did not.

HUMBOLDT COUNTY SHERIFF

Deputy Dickson confirmed that photos were taken of him after the incident. Deputy Dickson stated these photos accurately depicted his appearance during the incident.

I asked Deputy Dickson about his pistol. Deputy Dickson stated he carries a department issued 9mm Glock 17. He has possessed the firearm about 3 years. He was issued the firearm when he was a Correctional Deputy. There were no modifications to the firearms. Deputy Dickson last qualified with the firearm in June 2022. Deputy Dickson's pistol magazines have 17 round capacity. Deputy Dickson stated his pistol was loaded with one round in the chamber and 16 rounds in the magazine. He carries two additional magazines that were each loaded with 17 rounds. The ammunition was all the same and all department issued. To Deputy Dickson's knowledge his pistol was functioning properly on the night of the incident. Deputy Dickson carries his pistol in his department issued holster.

Deputy Dickson carries a Taser X26P with two cartridges. The Taser was not deployed during the incident.

I asked Dickson about his uniform. Deputy Dickson stated he was wearing a tan shirt with patches on each sleeve, green pants, black boots, green Sheriff's Office hat, and a Cowell tactical outer vest with markings on the front and back identifying him as a Sheriff's Deputy.

I asked Deputy Dickson about the items/equipment he carries on his belt. Deputy Dickson stated he carries his fireman on right side, Raptor safety shears, a Taser, a flashlight, and a baton.

I asked Deputy Dickson about the items/equipment he carries in his vest. Deputy Dickson stated he carries 2 pistol magazines, a radio, handcuffs, narcan, a flashlight, and OC spray.

I asked Deputy Dickson about cellular phones he carries on duty. Deputy Dickson stated he carries his department issued cellular phone in his breast pocket, and his personal cell phone in left cargo pocket of his pants.

I asked Deputy Dickson about his field training program. Deputy Dickson stated on the night of the incident he was assigned to Field Training Officer Deputy Walstrom. Deputy Dickson had trained with Deputy Walstrom for the previous 3 weeks. Deputy Dickson stated he had just completed his 6th week of training.

I asked Deputy Dickson about the vehicle he was in on the night of the incident. Deputy Dickson stated the vehicle was a black Ford Explorer. The two front doors were white with the Sheriff's Office star and the word Sheriff below. The word Sheriff was on the back of the vehicle. The vehicle was equipped with emergency lighting and siren. The lighting is incorporated in the body style and does not have an overhead light-bar. To Deputy Dickson's knowledge, the vehicle and all of its equipment was working properly on the night of the incident. Deputy Walstrom was driving the vehicle the night of the incident.

Deputy Dickson was wearing a department issued body camera on the night of the incident and to Deputy Dickson's knowledge it was properly working. Deputy Dickson stated at some point during the incident the body camera was turned on.

I asked Deputy Dickson to provide a dialogue of the incident starting from before everything started. Deputy Dickson provided the following statement:

On July 20, 2022, Deputy Dickson and Deputy Walstrom had just cleared a domestic violence call for service and were traveling on Fairway Drive towards Herrick Avenue when they heard, via radio broadcast. that a unit was in pursuit of a high speed vehicle. Deputy Walstrom pulled the patrol vehicle to the right and a high speed vehicle passed them. Deputy Dickson believed the vehicle to be a white Mercedes SUV.

Deputy Walstrom activated the vehicles emergency lighting, started pursuing the vehicle and used the radio to notify dispatch they were the primary unit and they were in pursuit. The pursuit traveled along Fairway Drive onto Herrick Avenue. The suspect vehicle turned onto Vance Avenue and they followed.

"Near the end of Vance Avenue", the front passenger threw an item out of the vehicle. Deputy Dickson was unable to identify what the object was. During the turn from Vance Avenue to Eureka Street, the front right passenger extended a long rifle out the window and began firing in their direction.

At that point Dickson drew pistol and lowered himself in the seat. Deputy Dickson described attempting to use the patrol vehicle's engine block as cover.

Deputy Dickson stated that due to his lack of knowledge of the area, he was unable to provide the route the pursuit traveled.

Deputy Dickson stated the suspect fired on several other occasions during the pursuit. Deputy Walstrom asked Deputy Dickson to assist him in removing the patrol rifle from the mount in the patrol vehicle. Deputy Dickson pressed the button to unlock the rifle from the mount. Deputy Dickson assisted Deputy Walstrom in removing the rifle. Deputy Dickson was unable to remove the rifle alone because the mechanism to remove the rifle was on Deputy Walstrom's side of the vehicle.

Deputy Walstrom had the rifle in his right hand as he drove with his left hand, continuing to pursue the white SUV. Deputy Dickson stated, "At some point during the pursuit, Deputy Walstrom discharged his rifle."

I asked Deputy Dickson to describe the rifle the suspect fired. Deputy Dickson stated it was a black AK-47 style rifle.

I asked Deputy Dickson about training he has had on the rifle. Deputy Dickson had not attended a patrol rifle class. Deputy Dickson had not qualified with the Sheriff's Office rifle.

I asked what Deputy Dickson was thinking and feeling just prior to Deputy Walstrom firing his rifle. Deputy Dickson stated, "I was in fear, based on the fact I had just been fired at." Deputy Dickson was concerned for not only his safety, but the safety of others involved.

I asked Deputy Dickson to visualize the incident specifically around Deputy Walstrom firing. I asked Deputy Dickson to vocalize what he was saw, heard, smelled, etc. Deputy Dickson stated he was leaned back in his seat with his head just above the dashboard attempting to read street signs.
Deputy Walstrom fired the rifle an unknown number of times. Deputy Dickson stated that the sound of the first shot impaired his hearing as the windows to the patrol vehicle were rolled up. Deputy Dickson stated he felt the glass from the windshield on his face and in his mouth.

Deputy Walstrom asked Deputy Dickson if he "was good" and Deputy Dickson stated he was. Deputy Walstrom continued pursuing the vehicle.

I asked what Deputy Dickson was feeling right after Deputy Walstrom fired. Deputy Dickson stated he was, "still in fear for my life and the safety of everyone." Deputy Dickson felt that the passenger of the suspect vehicle had "the intent to harm us."

I asked Deputy Dickson what he thought would have happened had Deputy Walstrom not fired. Deputy Dickson stated he did not know.

I asked Deputy Dickson where the incident started. Deputy Dickson stated he believed they were still on Fairway Drive. They were past the golf course, and before it turned into Herrick Avenue.

I asked Deputy Dickson to continue dialogue of the incident starting from right after Deputy Walstrom fired his rifle.

At one point, Deputy Walstrom provided Deputy Dickson the radio mic and advised him to call out the locations they were. Due to Deputy Dickson's lack of knowledge of the area, Deputy Dickson would read the street signs and repeat it over the radio.

The pursuit turned onto Buhne Street. As they crested the hill on Buhne Street approaching Harrision Avenue, Deputy Dickson saw that the suspect vehicle collided with another vehicle. Deputy Dickson announced the collision and location over the radio.

Deputy Dickson exited the patrol vehicle with his firearm drawn and began issuing order to the occupants of the vehicles. Deputy Dickson ordered the driver of the vehicle that was not the suspect vehicle to get out of the way.

Deputy Dickson stated the front passenger and rear passenger of the suspect vehicle exited the vehicle soon after Deputy Dickson exited the patrol vehicle. Deputy Dickson ordered them to lay on the ground with their arms out. Deputy Dickson ordered the driver of the suspect vehicle to put the vehicle in park and exit the vehicle.

Deputy Walstrom took over giving commands. The driver of the suspect vehicle was ordered back to where Deputy Dickson was. A Eureka Police Officer placed the driver in handcuffs and escorted him "behind the line". The female passenger was ordered back to where Deputy Dickson was. Deputy Dickson assisted Deputy

DO NOT DUPLICATE

HUMBOLDT COUNTY SHERIFF
CONTROLLED DOCUMENT

Anderson with placing handcuffs on her. Deputy Dickson then escorted the female to a patrol vehicle. Deputy Dickson conducted a search of the female passenger and placed her in the rear seat of a Sheriff's patrol vehicle.

Deputy Dickson returned to the passenger door of his patrol vehicle and provided cover on the suspect vehicle while the front passenger was ordered to units staged on Harrison Avenue to be detained.

Deputy Dickson then participated in a contact team to approach the vehicles and check for additional persons.

I asked Deputy Dickson if he was injured. He stated he was not.

I asked Deputy Dickson if any force other than uniform presence, voice commands, and pointing of firearms was used by him or anyone else while detaining the occupants of the suspect vehicle. Deputy Walstrom stated there was not.

I asked Deputy Dickson if he was able to give any commands or identify himself at the onset of the incident. Deputy Dickson stated he was not. I asked Deputy Dickson if the person in the white SUV would be able to identify him as law enforcement. Deputy Dickson stated he was in a marked patrol vehicle and "the average person would identify us as law enforcement."

I asked Deputy Dickson if Deputy Walstrom had activated any of the emergency equipment on the vehicle. Deputy Dickson did not know if Deputy Walstrom activated the emergency equipment before or after the white SUV passed them. Deputy Dickson stated the emergency lights and sirens were activated before the white SUV was more than 10-15 feet past them.

I asked Deputy Dickson if he had any opportunity to give any commands during the pursuit and prior to the vehicle collision. He stated he did not.

I asked Deputy Dickson if he was able to estimate the distance between the patrol vehicle and suspect vehicle when Deputy Walstrom fired his rifle. Deputy Dickson was not able to estimate the distance as his vision was obscured by the dashboard of the patrol vehicle.

I asked Deputy Dickson if he was able to provide the location they were when Deputy Walstrom fired his rifle. Deputy Dickson stated he could not. I confirmed with Deputy Dickson that Deputy Walstrom fired an unknown number of rounds from his rifle in one "burst" of fire. Deputy Walstrom did not fire his rifle any other times.

I asked Deputy Dickson if the suspect in the front passenger seat said anything to him. Deputy Dickson stated he did not. I asked Deputy Dickson if the front passenger threatened him. Deputy Dickson stated, "He shot at me, towards me, so I would consider that a threat." I confirmed with Deputy Dickson that when the suspect shot, he fired in Deputy Dickson's direction.

I asked Deputy Dickson if he had any information on the vehicle or the occupants of the vehicle during the initial attempted traffic stop or during the pursuit. Deputy Dickson stated the only information he had was that the

DO NOT DUPLICATE

DISTRIBUTION TO UNAUTHORIZED PERSONS IS PROHIBITED
HUMBOLDT COUNTY SHERIFF

vehicle was involved in a high speed pursuit with Deputy Anderson. Deputy Dickson confirmed that he had no information on the vehicle prior to hearing Deputy Anderson on the radio.

I asked Deputy Dickson when he drew his pistol. Deputy Dickson drew his pistol after the suspect fired at them the first time.

I asked if Deputy Dickson had a search warrant or arrest warrant for any of the occupants of the vehicle. He stated he did not.

I asked Deputy Dickson what the initial probable cause for the traffic stop of the vehicle was. Deputy Dickson stated he did not know.

I asked Deputy Dickson when he became aware there was a weapon in the vehicle. Deputy Dickson stated he first learned there was a weapon in the vehicle near the intersection of Vance Avenue and Eureka Street when the suspect pointed the rifle out of the vehicle. Deputy Dickson did not know about any other weapons in the vehicle.

I asked Deputy Dickson if he reviewed any video footage prior to being interviewed. Deputy Dickson stated he had. I asked Deputy Dickson if he saw anything in the video that he remembered differently. He stated he did not. I asked Deputy Dickson if he saw anything in the video that surprised him. He stated he did not.

I asked Deputy Dickson if he knew who the person in the front passenger seat of the suspect vehicle was. He stated that he did not until after the pursuit had concluded. I asked Deputy Dickson if he had any prior contacts with him. Deputy Dickson sated that he was [redacted] Housing Officer when he worked in the jail. I asked Deputy Dickson when he learned the front passenger was [redacted] Deputy Dickson stated it was after [redacted] exited the vehicle.

Deputy Dickson stated [redacted] threw the rifle out of the vehicle, exited the vehicle, and turned in a complete 360 turn. It was during this turn that Deputy Dickson saw [redacted] face and recognized him.

I asked Deputy Dickson if he knew [redacted] criminal history. He stated he did not. I asked if Deputy Dickson knew [redacted] probation or parole status. He stated he did not.

I asked Deputy Dickson if prior to seeing the gun come out of the vehicle, if he had any prior knowledge of anyone in the vehicle being violent or posing a threat. Deputy Dickson stated that the vehicle was driving recklessly and at a high rate of speed causing a threat.

I asked Deputy Dickson if prior to seeing the gun come out of the vehicle, if he had any prior knowledge of anyone in the vehicle being armed. Deputy Dickson stated he did not.

I asked Deputy Dickson if he saw the front passenger during the pursuit prior to the traffic collision. He stated he did not. I asked if he saw any of the front passenger's clothing prior to the traffic collision. He stated he did not.

HUMBOLDT COUNTY SHERIFF

I asked Deputy Dickson if he recalled what the front passenger was wearing. Deputy Dickson stated he did not.

I asked Deputy Dickson if he saw any of the other occupants of the vehicle during the pursuit and prior to the traffic collision. He stated he did not.

I asked Deputy Dickson to describe the suspect vehicle. Deputy Dickson stated it was a "white, to my knowledge, Mercedes SUV." Deputy Dickson stated it was an older model, possibly a 2006-2012 model.

I asked Deputy Dickson about the observations he made of the vehicle's driving during the pursuit. Deputy Dickson stated the vehicle traveled at a high rate of speed with aggressive braking. Deputy Dickson saw smoke coming from the tires on multiple occasions as it locked up its breaks to navigate turns. Deputy Dickson stated at one point the vehicle drove in the opposite direction on West Henderson at a high rate of speed. Deputy Dickson estimated the speed was in excess of 60 miles per hour.

Investigator Brawner asked Deputy Dickson why he referred to the shooter as "him" Deputy Dickson stated when he observed the rifle come out of the front passenger window when it was fired at Vance Avenue and Eureka Street. At the conclusion of the pursuit, the weapon came out of the front passenger seat area of the vehicle. The person Deputy Dickson believed to be the suspect then exited the front passenger door of the vehicle.

Investigator Brawner asked Deputy Dickson if he believed the person in the front passenger seat at the termination of the pursuit was the same person as was in the front passenger seat at the intersection of Vance Avenue and Eureka Street. Deputy Dickson stated he did.

[redacted] asked Deputy Dickson if the rifle was presented with just hands or if the front passenger leaned out with the rifle. Deputy Dickson stated, "based on my memory, I believe that only the weapon was outside the vehicle". William Baird asked if the weapon was pointed at Deputy Dickson. Deputy Dickson stated it was. [redacted] asked Deputy Dickson if he felt or heard any impacts of the bullets. Deputy Dickson stated he heard the sound of several objects impacting the patrol vehicle. [redacted] asked if that was before Deputy Walstrom fired. Deputy Dickson stated it was.

I asked Deputy Dickson what he believed the impacts were. Deputy Dickson believed they were the bullets from the suspects firearm.

[redacted] asked Deputy Dickson if he believed the suspect would have kept firing if action had not been taken. Deputy Dickson stated he did.

The interview ended at 1408 hours. The interview was audio recorded. The recording was later transferred to CD and booked into evidence

HUMBOLDT COUNTY SHERIFF

On 07/20/2022 at about 1935 hrs., I was off duty and out at my residence when I received a phone call on my department issued cell phone from HCSO Major Crimes Division Lt. Williams who inquired if I had been contacted regarding an officer involved shooting just occurred involving HCSO patrol deputies. I advised him I had not been notified. Lt. Williams requested I standby for a Critical Incident Response Team (CIRT) call out while he gathered more information. A short time later, at about 1948 hrs., I received a second call from Lt. Williams requesting I activate the HCSO CIRT Team members and respond to the MCD for briefing. Initial CIRT activation was requested by the Eureka Police Department, but it was later determined HCSO would take on the role of primary during the CIRT Investigation.

I contacted Inv. S. Hicks, Inv. D. Henderson, Inv. B. Head and Evidence Technician [redacted] and requested they respond to the MCD. I deployed and prepared to head to the MCD as well. While enroute, I again spoke to Lt. Williams who had gained more information regarding the incident. I was informed that deputies had initiated a vehicle pursuit in the Pine Hill area of Eureka during which gunfire was exchanged between the suspect and deputies. The pursuit was ended when the suspect vehicle crashed into another, uninvolved vehicle near the intersection of Buhne and Harrison in the City of Eureka. Three suspects were detained at that time and no injuries to any parties had been reported. It was determined I would respond to the pursuit termination point to gather briefing information for the CIRT Team. I responded to the intersection of Buhne and Harrison streets in Eureka and met with Patrol Sergeants B. Waxler, M. Helm and B. Massaro. I arrived on scene at approx. 2040 hours.

I spoke with Main Station Patrol Sgt. Waxler and requested he brief me on the information known to him regarding the incident up to that point in time. Sgt. Waxler advised the following in summary (refer to his supplemental report for details):

Eureka Patrol Officer "Endsley" had initiated a pursuit on the suspect vehicle for excessive speed. EPD's pursuit was terminated and HCSO received a BE ON LOOKOUT (BOLO) information regarding the reckless driver and vehicle over the radio. A doubled training unit consisting of Field Training Officer J. Walstrom and Deputy Z. Dickson located the vehicle in the "Herrick area" and initiated a traffic enforcement stop for an unknown violation. A pursuit was initiated by deputies when the suspect vehicle failed to yield. During the pursuit "SHOTS FIRED" was broadcast by deputies near the intersection of Vance and Eureka streets. A second "SHOTS FIRED" was broadcast by unknown deputies in the area of Utah and Highland streets in Eureka. The pursuit continued Eastbound on Buhne to the intersection of Harrison street where it terminated when the suspect vehicle collided with an uninvolved vehicle. Two male and one female suspect were detained at that time. The only suspect identity known by Sgt. Waxler was that of alleged shooter (S) [redacted] Sgt. Waxler advised only one deputy had fired his weapon "more than once" and the shots appeared to have been fired through the patrol vehicle windshield at the suspect. Sgt. Waxler clarified this was only his opinion, based on his observations. No suspects or firearms were reported to be outstanding. No other parties were believed to have been injured as a result of the incident. FTO B. Anderson was identified as having been the secondary unit in the pursuit. Walstrom and Dickson had been escorted to the Eureka Police Department. Anderson remained on scene. No information other than public safety statements were requested of the involved deputies on scene.

I spoke briefly with Sergeants Massaro and Helm. Both related information similar to Sgt. Waxler's statement

DO NOT DUPLICATE

that contained no new, relevant information. Refer to their supplemental reports for further details.

I responded to HCSO Main Station and briefed the CIRT Team members in attendance. I was notified Inv. Hicks and District Attorney Inv. B. Brawner would co-lead the CIRT investigation. A response plan was developed and four teams were dispatched to four scenes to collect/process evidence and further investigate the incident. Refer to Inv. Hicks initial report and individual supplemental reports for assignment details.

I remained at the MCD to assist with logistics, support and investigation supervision duties.

This report is for information only.

Nothing further.

HUMBOLDT COUNTY SHERIFF

CONTROLLED DOCUMENT

On 07-20-2022, I was on uniformed patrol driving a fully marked HCSO patrol vehicle. I was assigned to the Southern Humboldt area of Humboldt County for my twelve-hour nighttime patrol shift.

At approximately 1927 hours, I observed a call for service in RIMS wherein numerous HCSO deputies were involved in a vehicle pursuit in the Eureka CA area of Humboldt County. I observed in the call that shots had been fired and a "Code 30" was initiated; meaning all available units respond to assist.

I traveled to Eureka from Garberville to assist where needed. During the time I was traveling north, numerous scenes were being secured by patrol staff. I initially responded to the road closure located at Vance St. and Herrick Ave. in Eureka. This location was an outer perimeter closure.

I did drive to each incident scene to provide food and beverages to on-duty personnel. While at the Buhne St. and Harrison St. location, I did not cross the crime scene perimeter therefore I was not logged as being in the scene.

At approximately 0050 hours on 07-21-2022, I was tasked to transport [redacted] from the HCCF to St. Joseph's Hospital to be medically cleared for booking. When I arrived at the Hospital, I was joined by Sergeant J. McCall who stood by with me as [redacted] was cleared for booking by medical personnel.

At approximately 0153 hours, [redacted] was cleared for booking and I transported him back to the HCCF.

I was not assigned any further details regarding this incident.

CONTROLLED DOCUMENT

On 07/20/2022 at approximately 1920 hours, I was working uniformed patrol for the Humboldt County Sheriff's Office (HCSO) and driving a marked HCSO vehicle.

I was dispatched to assist Deputy Anderson and Deputy Walstrom on a felony traffic stop which later resulted in the arrest of [redacted] Prior to the felony stop, a "Code 30" was issued when shots were fired at deputies from the vehicle in the area of Vance Avenue and Eureka Street.

At Sgt. Waxler's request, I responded to the intersection of Vance Avenue and Eureka Street at approximately 2000 hours. Upon arrival I secured the area with crime scene tape, creating an outer perimeter closure. I remained at this location and assisted completing a crime scene log until approximately 0225 hours.

This is a supplemental report.

HUMBOLDT COUNTY SHERIFF

On 07/20/2022, I was working uniformed patrol for the Humboldt County Sheriff's Office. I was wearing a distinctly marked HCSO uniform and operating a marked HCSO patrol vehicle.

At approximately 1930 hours I self-dispatched myself to respond to the Eureka area for an ongoing pursuit between Deputies and the suspect vehicle after the pursuing Deputies reported that shots had been fired.

I activated my Code-3 lighting, forward facing red lamp and siren and responded from the McKinleyville area to the location that the pursuit ended at the intersection of Buhne St and Harrison Ave. Upon arrival I deployed my department issued patrol rifle and took lethal cover on the suspect vehicle due to not knowing if any further suspects were in the vehicle. After a short period of time, I assisted in clearing the vehicle and making the scene safe. At that time, I began assisting in further efforts to contain the scene and render it safe for bystanders and other responding Officers and Deputies.

Sergeant Helm advised me that he needed me to respond to the area of Vance Ave and Eureka Street to set a perimeter and attempt to locate any evidence in the area. I was advised that this is where the suspect's fired the initial shots at Deputies and it was requested I attempt to locate any bullet casing as well as any persons that may have been injured during the pursuit. I parked my car blocking the roadway at the intersection of Vance Ave and Eureka St with my lighting equipment activated.

I was immediately contacted by (M) [redacted] who advised me that she had heard the chase pass by her residence. She stated that she had walked out after the chase went by and saw a bullet casing laying in the road. She walked over and picked the casing up off the roadway. She stated that as soon as she picked it up, she felt that she had made a mistake but figured it was too late and held onto the casing to hand over to Law Enforcement. [redacted] handed me a spent casing that appeared to be a 7.62x39 casing. I took custody of the casing and placed it into a bag and stored it in the rear storage area of my patrol vehicle to retain the chain of custody until an evidence technician took possession of the evidence. This ended my conversation with [redacted]

I was approached by (M) [redacted] immediately after finishing my conversation with [redacted] [redacted] stated the following to the best of my recollection:

She stated that she had been sitting in her house located at [redacted] when she heard the suspect car pass by along with the patrol vehicles in pursuit. She stated that she felt something land on her arm thinking it was a spider. She swatted the item off of her arm realizing that it was not a spider, and it was a bullet that had passed through her wall and landed on her arm, burning her arm. I asked if she needed medical attention, she advised that she was fine and that she was not injured. I took her information and advised that Deputies would contact her in the near future to take her statement and collect any evidence. This concluded my conversation with [redacted]

At this time, I started walking down Eureka Way in attempt to locate any further evidence that may be in the area. I started walking towards Meyers Ave near Eureka St and Leonard Drive. I located another 7.62x39 casing laying on the ground near a gold sedan. I marked the casing and photographed it with my department issued

HUMBOLDT COUNTY SHERIFF

CONTROLLED DOCUMENT

phone and have attached them to this case. I continued to check the area but was unable to locate any further evidence on Eureka Street or Vance Ave.

Another subject spoke with me about the incident as to give me a better idea of where the gunshots had occurred. (M) [redacted] advised that he had heard multiple gunshots near the school on Vance Ave (Pine Hill Elementary) and at least four additional shots on Eureka Street. I took [redacted] information and informed him that Deputies may contact him at a later time.

Deputy Stoner and I canvased the area from Eureka St down Vance Ave to Herrick Ave attempting to locate further evidence but was unable to locate any. At that time the Deputies on scene remained in place as to secure the location until relieved by evidence technicians.

Once relieved I responded back to the Buhne St and Harrison Ave location to assist the units on scene there by completing CHP-180's for both the suspect vehicle and the patrol vehicle that were being towed for evidence. Once the CHP-180's were completed, I contacted HCSO Dispatch and requested they start Humboldt Towing Company to recover the vehicles for an evidence tow. Humboldt Towing arrived on scene and loaded the vehicles onto two separate flatbeds.

At that time, I followed the flatbeds to their storage facility located at 101 H St in Eureka where I observed the employees for Humboldt Towing store the vehicles in their secured location. I advised Dispatch that the vehicles were released to the tow company at that time and that I was clear the location.

At that time, I returned to HCSO Main Station and began my report as per the request of my supervisor. This report is for supplemental report only, for further information about the incident see the other attached supplemental and primary reports.

Nothing further at this time.

Attachments: Photos, CHP-180.

HUMBOLDT COUNTY SHERIFF

On 20 July 2022 I was working as a Patrol Sergeant for the Humboldt County Sheriff's Office (HCSO), driving a marked patrol vehicle, and wearing a distinct uniform. I was assigned to the North Area Command (NAC), stationed out of McKinleyville, County of Humboldt, California.

At around 1920 hours, I was in the Eureka area and had just left the Sheriff's Office Main Station to respond back to McKinleyville. I overheard radio traffic being broadcast by Deputy Anderson who advised he was attempting to conduct a traffic enforcement stop on a high-speed vehicle on Fairway Drive near the Eureka Municipal Golf Course, in Eureka.

Deputy Walstrom, who is a Field Training Officer (FTO), was doubled up with Deputy Dickson and I overheard that they were with Deputy Anderson attempting to conduct the traffic stop. Moments later, I heard that the suspect vehicle was failing to yield, and the incident escalated into a vehicle pursuit. Upon hearing this, I elected to stay in the Eureka area and began to respond towards their location to assist.

I overheard Deputy Anderson advise the suspect vehicle had turned onto Vance Avenue and was heading north, passing by Pine Hill School, located at 5230 Vance Avenue. Suddenly one of the pursuing deputies shouted on the radio that shots had been fired by the suspect vehicle, towards them. They continued pursuing the suspect vehicle along various roads in the Pine Hill area of Eureka, heading north back towards the city limits of Eureka.

I upgraded my response utilizing my patrol vehicles emergency lighting and siren. I headed towards where the pursuit was taking place and overheard the pursing deputies advise that the suspect had fired additional rounds at them, somewhere on Utah Street in the City of Eureka.

The pursuit continued along several other surface streets in the city, heading both north and then eastbound where the suspect vehicle was beginning to drive the wrong way on Henderson Street. The pursuit continuously changed directions, heading northeast and ended up on Buhne Street from O Street, where it continued east.

At about 1927 hours, Deputy Anderson advised that the suspect vehicle was involved in traffic collision at the intersection of Buhne Street and Harrison Avenue. I continued my response towards that location from Harris Street and I Street. I arrived at their location at about 1929 hours and situated my patrol unit facing north just south of the intersection.

I noted that the suspect vehicle, later determined to be a white, [redacted] Kia, [redacted] displaying California license: [redacted] was situated in the middle of the intersection and it had collided with a black sedan. I observed that there were three subjects that had been commanded to lay down on the ground near the damaged vehicles. Believing these were the occupants of the suspect vehicle, I deployed my department issued rifle and assisted with the high-risk detention of the suspects. I assisted Sergeant Massaro with the detention of (SA)[redacted].

Once the suspects were detained, I completed a physical check of the involved pursuing deputies for any possible physical injuries. I checked the persons of Deputy Walstrom, Deputy Dickson, and Deputy Anderson and confirmed that they did not require any immediate emergency medical attention.

It was determined that there were multiple crime scenes from the pursuit and subsequent shootings. Sergeant Waxler and I advised Corporal Leipzig, Deputy Boyer, and Deputy Stoner to respond to the crime scene located near the intersection of Vance Avenue and Eureka Street to secure it.

I then stood by until Lieutenant Miller arrived and took over command of the scene for HCSO. I assisted as needed on scene with coordinating responding units and scene security. At one point, it was asked if I had a digital audio recorder and it was provided to Sergeant Wilson of the Eureka Police Department (EPD) to be placed in his patrol unit where one of the additional suspects, (SA) [redacted] was detained. I later received the audio recorder back from Sergeant Wilson. While trying to review the recorded audio, it was determined that the recorder had some sort of malfunction, and the audio did not record.

I stood by for several hours at the termination point of the pursuit and then responded to the crime scene at Vance Avenue and Eureka Street. I assisted with coordinating with scene security with HCSO deputies for some time and then departed the scene.

This supplemental report is complete. Refer to all additional supplemental reports and the main report for details not mentioned here.

Nothing further.

DISTRIBUTION TO UNAUTHORIZED PERSONS IS PROHIBITED
HUMBOLDT COUNTY SHERIFF

On 07/20/2022 at approximately 1730 hours, I was on uniformed patrol for the Humboldt County Sheriff's Office. I was travelling southbound on Highway 101 approaching the Humboldt Hill exit in Eureka, when I heard Deputy B. Anderson and Deputy J. Walstrom initiate a pursuit traveling westbound on Herrick Ave approaching Vance Street.

I exited Highway 101 at Humboldt Hill and took the northbound Highway 101 northbound to join the pursuit. I caught up with the other units after the suspect vehicle was involved in a traffic collision at the intersection of Buhne Street and Harrison Avenue in Eureka. I positioned my patrol car facing northbound on Harrison Avenue at the intersection of Harrison Avenue and Buhne Street.

I exited my patrol vehicle and proceeded to engage the three subjects in a high-risk traffic stop. I communicated with my arrest team consisting of Sergeant B. Massaro, and Sergeant M. Helm, among other officers from various assisting agencies. I ordered clear concise instructions to (SA) [redacted] and assisted in taking [redacted] into custody without incident.
After all three subjects were taken into custody and placed in the back seat of patrol vehicles I began to help establish a inner and outer crime scene perimeter using department issued caution tape.

At approximately 1920 hours I was dispatched to contact (M) [redacted] at her residence of [redacted] [redacted] residence had been struck by a bullet during the pursuit and I was instructed by Sergent Helm to contact [redacted] take an initial statement, photograph the scene, and secure the evidentiary integrity of the scene until investigators arrived.
I arrived at [redacted] at approximately 1930 hours and contacted [redacted]. The following is a summary of [redacted] statement:

[redacted] was sitting on her living room floor watching a movie with her son (M) [redacted] (age 1) when she heard sirens pass her house and a loud bang. [redacted] felt something hot land on her arm. [redacted] ooked down and realized it was a bullet. [redacted] then grabbed [redacted] and retreated to the kitchen and called law enforcement.

I inspected the exterior and interior of the household and observed the following. On the left side of the front door there was a hole where I suspected a bullet stuck the house. On the interior side of the same wall there was what I observed to be a exit point for the bullet. At the time of the incident there was a canvas painting hanging on the wall where the bullet struck. I observed a circular dent in the frame of the painting consistent with a bullet striking it. I photographed and documented the entrance point, exit point, and the canvas painting that was struck. I also took photographs of the small visible burn mark on the right arm of [redacted] where the bullet landed. I collected the bullet fragment from [redacted] and later turned it over to the forensic team to be processed and booked into evidence.

I concluded my interview with [redacted] and secured the scene until the forensic evidence team arrived.

At approximately 2031 hours, I was instructed by Sergeant B. Waxler to contact [redacted] at CID's office in Eureka to transport [redacted] to the Humboldt County Correctional Facility.

HUMBOLDT COUNTY SHERIFF

I arrived at Humboldt County Sheriff's Office and along with Sergeant Massaro, escorted [redacted] to HCCF to be released to the custody of HCCF Staff.

At approximately 0059 hours, I returned to the crime scene at Buhne Street and Harrison Avenue. On scene I contacted Sergeant Waxler who instructed me to complete CHP-180 forms for the suspect's vehicle ([redacted]) and Deputy Walstrom's patrol vehicle (#07236). I completed a CHP-180 form for Deputy Walstom's patrol vehicle and partially completed a CHP-180 form for the suspect's vehicle. Deputy Boyer completed the CHP-180 form for the suspect's vehicle.

At approximately 0133 hours, I arrived back on scene at [redacted] Vance Avenue. I contacted the forensic evidence team and transferred the bullet fragment I had retrieved from the residence.
At approximately 0146 hours I was dispatched to Saint Joeseph's Hospital to take custody of (SA) [redacted] I stood by with [redacted] as he was medically cleared by Saint Joeseph's medical staff.

At approximately 0252 hours, I transported [redacted] to HCCF. Upon arrival at HCCF I informed [redacted] of the search warrant that was issued for his personal belongings and clothing. I informed [redacted] that he was required to remove his clothing and I would be taking possession of them for evidence. Upon informing [redacted] he mentioned he was in possession of a small plastic bag containing Fentanyl. After taking possession of [redacted] clothes and allowing him to dress in HCCF prisoner attire, I observed a small plastic bag fall from his waistband and land on the floor of the Sally Port. I collected the bag and later booked it into HCSO Property as evidence.

Upon booking the plastic bag containing suspected Fentanyl, I weighed the bag which had a gross field weight of 9.27 grams. I booked [redacted] clothing into HCSO Property as evidence.

I recorded the felony traffic stop and my interview with [redacted] on my Body Worn Camera and tagged both with a case number.

This report is a supplemental for case 202203774.

HUMBOLDT COUNTY SHERIFF

On 07/20/2022, I was working for the Humboldt County Sheriff's Office as a Corporal in the McKinleyville area. At approximately 1920 hours, I heard radio traffic from Deputy Anderson that he was initiating a traffic enforcement stop on a high-speed motorist on Fairway Drive in Eureka. Deputy Anderson then quickly advised that he was in pursuit. A

t approximately 1921 hours, I heard Deputy Anderson call "shots fired" over the radio and request all available units. Moments later Deputy Anderson broadcast the directions of the pursuit as it made its way through the greater Eureka area. Deputy Anderson then advised that the vehicle he was pursuing was involved in a traffic collision at the intersection of Buhne St and Harrison Ave.

I began responding to the Eureka area with my emergency lighting and sirens activated as soon as I heard Deputy Anderson advice "shots fired." While en route, Sgt. Helm phoned me and requested that I notify the Duty Watch Commander, Lt. Williams, of the known facts of the incident up to this point.

I arrived on scene at the western edge of the Buhne St and Harrison Ave intersection. I could see deputies on the south edge of the intersection detaining a male subject as apart of a high-risk style arrest. I coordinated with several deputies and officers from the Eureka Police Department and the Arcata Police Department to form a contact team to clear the pursued vehicle and the vehicle that it had collided with which were resting in the center of the intersection. Utilizing Deputy Anderson's patrol vehicle as cover we pushed forward to a closer vantage point of the vehicles. Sgt. Waxler, Sgt. Wilson (APD) and I then closed distance on the vehicle and confirmed there were no additional occupants in ether vehicles.

I then stood by with Deputies Walstrom and Dixon due to their involvement in the officer involved shooting portion of this incident. During this time Deputy Walstrom informed me that he was cold and requested his patrol jacket out of the trunk of his vehicle. I retrieved Deputy Walstrom's jacket and provided it to him.

I then responded to the area of Vance St and Eureka St which was determined to be one of the locations that shots had been fired. On scene I assisted Deputy Nasca who was contacting [redacted] at [redacted], [redacted] had reported that her home had been struck by a bullet. On the front exterior wall of the home, just left of the front door, I could see what appeared to be a bullet hole. Refer to Deputy Nasca's supplemental report for further on [redacted] statement of events.

I completed a check of the exterior of [redacted] home and located no additional damage or areas that appeared to be struck by gun fire.

I stayed on scene at Vance St and Eureka St until relieved by members of the multi-agency CIRT team.

All BWC footage was tagged as evidence in accordance with HCSO policy.

This report is for supplemental purposes to the initial report.

Nothing further.

HUMBOLDT COUNTY SHERIFF

On July 20, 2022, I was working as a patrol deputy for the Humboldt County Sheriff's Office and assigned to work in the Garberville station patrol area. I was wearing the marked uniform of a HCSO Deputy Sheriff and driving a marked patrol vehicle.

At approximately 1927 hours, while monitoring my Mobile Data Terminal in the Garberville area, I learned that other HCSO Units were involved in a vehicle pursuit during which an occupant in the suspect vehicle began shooting at Deputies. This initiated a "Code 30" call, which is a request for all available law enforcement officers respond to the incident location for assistance. I immediately responded to the Eureka area. Refer to main narrative for further details.

At approximately 2017 hours, I arrived at the intersection of Herrick Avenue and Vance Avenue in Eureka, which had been identified as the southern boundary of a crime scene where the suspect first fired his weapon at deputies during the pursuit. HCSO Deputies had blocked Vance Avenue to further vehicle traffic. I was directed to respond to the intersection of Meyers Avenue and Eureka Street to relieved HCSO Lieutenant Taylor, who had positioned himself there to block off vehicle traffic at the northern end of the crime scene.

At approximately 2033 hours, I relieved Lt. Taylor at the intersection of Meyers Avenue and Eureka Street. I positioned my patrol vehicle to partially block both lanes of traffic and activated my patrol vehicle's emergency lighting to warn traffic traveling southbound on Meyers Avenue as they approached my position. I also set up yellow "Crime Scene" tape between two power poles to further block traffic from the intersection. Lt. Taylor initially stated that residents who lived in the cordoned off area should be allowed entry. This continued until Arcata Police Department Sergeant Ortega arrived on scene with an evidence collection team, at which time I was instructed by Sgt. Ortega to restrict all traffic at the intersection until further notice. While at my post, I allowed various law enforcement officers to access the scene as part of the investigation. Refer to the crime scene log for additional information.

At approximately 0225 hours, I was relieved of my position by HCSO Deputy T. Rogers and cleared the scene.

Supplemental report for information only. Any further information will be documented in a supplemental report.

HUMBOLDT COUNTY SHERIFF

On 07/20/2022, I was working in an on-call capacity as an investigator for the Humboldt County Sheriff's Office (HCSO).

At approximately 1956 hours I was called out to assist with a reported officer involved shooting. Upon arriving at the office, I reviewed the call for service, HCSO incident #2207200161, listened to segments of body worn camera footage from this incident and received a briefing of the incident from Detective Sergeant B. Taylor. The following is a combined summary of the information I received.

At 1920 hours, an HCSO patrol unit attempted to initiate a traffic stop on a high-speed vehicle traveling on Fairway Drive in Eureka, CA. The patrol unit was a double unit with FTO Walstrom and his trainee, Deputy Dickson. A license plate number of [redacted] was provided for the suspect vehicle. Approximately one minute later, the deputies indicated they were in pursuit of that vehicle. At 1921 hours the deputies advised shots had been fired from the suspect vehicle. The radio traffic related to this incident was a combination of multiple deputies that were involved in the pursuit.

Additional shots were fired from the suspect vehicle at 1924 hours in the area of Utah and Highland Streets in Eureka. On the body worn camera footage, I heard FTO Walstrom indicate shots had been fired by officers near that location as well. The pursuit continued going the wrong way on the one-way portion of Henderson Street and led to eastbound Buhne Street. The suspect vehicle ultimately collided with another vehicle in the intersection of Buhne St and Harrison St where the pursuit ended.

I contacted HCSO Undersheriff Braud via phone who was at the location of the traffic collision. US Braud confirmed the license plate number in the call for service and described the suspect vehicle as a white Kia [redacted] (SUV). US Braud told me an assault rifle type firearm was located on the ground in-between the suspect vehicle and the other vehicle involved in the collision.

As a result of the pursuit, three passengers of the suspect vehicle were detained. I spoke to HCSO Sergeant Helm who observed [redacted]. Sergeant Helm said [redacted] was a passenger of the suspect vehicle.

I then spoke with HCSO Sergeant Waxler who spoke with the other two occupants of the suspect vehicle after they were detained. Sergeant Waxler told me [redacted] was identified by an ID card he had on his person and [redacted] identified herself by name.

Using this information, I authored a search warrant and contacted the Honorable Judge Kelly Neel, who was on-call. Judge Neel approved and signed the search warrant returning it to me via email. The search warrant was assigned a number the following morning, SW2200437.

After obtaining the signed warrant, I advised Detective Unsinger with the California Highway patrol. He had been assigned as the team leader of crime scene segment that contained the suspect vehicle. I provided him a copy of the search warrant via email.

At that time, I was told the suspects were going to be brought in to the HCSO main station for interviews. The

DO NOT DUPLICATE
THIS DOCUMENT CONTAINS RESTRICTED INFORMATION
DISTRIBUTION TO UNAUTHORIZED PERSONS IS PROHIBITED
HUMBOLDT COUNTY SHERIFF

search warrant I had obtained authorized the collection of a DNA reference sample from all three suspects.

[redacted] was the first suspect to be interviewed. When [redacted] was brought in, some of his belongings were contained in a small paper bag and provided to investigators by Sergeant Massaro. I have no other information surrounding the collection of these items.

I observed the interview of [redacted] from an alternate room as it occurred. Refer to Investigator Hicks' and Brawner's reports for more information. At the conclusion of their interview, it was requested I obtain the DNA reference sample from [redacted]. I entered the interview room wearing gloves and had a Bode DNA Buccal Collector still in the sealed plastic packaging. I told [redacted] I had a search warrant to obtain his DNA reference sample and explained to him how to collect his own sample. [redacted] swabbed the inside of both his cheeks and then placed the collector into a new transport pouch. I later booked the pouch into property as evidence.

Some time later, [redacted] was walked over to the Humboldt County Correctional Facility (HCCF) by Sergeant Massaro and Deputy Nasca. Sergeant Massaro later returned with [redacted] clothing that had been collected at the time of his booking into the HCCF and placed into paper bags. I later booked [redacted] personal items and clothing into property as evidence. Those items and [redacted] other property are described as indicated below.

I first examined the contents of the small paper bag first provided by Sergeant Massaro. Inside the bag I located:

Locs brand sunglasses
a cell phone
two black and white velcro patches which read "SWAT"
BIC lighter
one syringe
purple and green knife
Blue Lake Casino rewards card with the name "[redacted]"
brown tri-fold wallet.

The contents of the wallet were as follows:

Bear River Casino door key-card
Las Vegas Coin Laundry card
Gold Caesars reward card
Moneytree card
Spring 2019 Housatonic Community College Student ID card for "[redacted]"
Nevada ID card for [redacted]
Social Security Card for [redacted]
Visa Debit Card ending [redacted]

DO NOT DUPLICATE

HUMBOLDT COUNTY SHERIFF

CONTROLLED DOCUMENT

I further examined the cell phone and was unable to locate any additional model or device information. I recognized the operating system as Android and the device did not appear to be password protected when I placed it into airplane mode. I booked the device into locker #5 in the secured MCD phone storage area. The device had a cracked screen, silver back plate and a silver finger loop adhered to the back of the device.

The clothing collected from [redacted] is described as follows:

Left Shoe - Black Converse size 11
Right Shoe - Black Converse size 11
White & Blue boxer shorts
Two white and black socks
Gray Hanes T-shirt
Black and white Shaka Wear shorts

[redacted] was the next person to be interviewed. Fortuna Police Detective Taylor brought [redacted] from the scene to the station, along with a paper bag containing [redacted] property. At the conclusion of the interview, I again obtained a DNA reference sample. I entered the interview room wearing gloves and had a Bode DNA Buccal Collector still in the sealed plastic packaging. I told [redacted] I had a search warrant to obtained his DNA reference sample and explained to him how to collect his own sample. [redacted] swabbed the inside of both his cheeks and then provided me the collector. I placed the collector into a new transport pouch. I later booked the pouch into property as evidence.

The personal property brought along with [redacted] was later booked by me and is described as follows.

Baseball cap
Black tri-fold wallet
Large torch lighter
Bear river key-card
Unopened pack of Kamel cigarettes
CA driver's license [redacted]
White latex glove
-assorted plastic bags
2 resealable plastic bags - sandwich size

I viewed the contents of the plastic bags and all but one appeared to be empty. One single bag that depicted a blue stamped character appeared to contain a very small amount of a white powdery substance. I did not test the substance as it did not appear to be a testable amount and the plastic bags were booked along with the glove as potential drugs.

I then viewed the contents of the wallet that contained a large number of different cards, see photos for more information. Also in the wallet was $38 in US currency that Investigator Hicks also counted. The

denominations of the bills were 1-$20, 1-$10, 1-$5, 3-$1. I booked the currency into property as a separate item. The cards and driver's license were put back into the wallet and booked into property together. The left over items were then booked in together as the final property item associated with the items i had for [redacted].

[redacted] was last to be interviewed. I was asked to obtain her reference sample during a break in the interview. I entered the interview room wearing gloves and had a Bode DNA Buccal Collector still in the sealed plastic packaging. I told [redacted] I had a search warrant to obtained her DNA reference sample and explained to her how to collect her own sample. [redacted] swabbed the inside of both her cheeks and then provided me the collector. I placed the collector into a new transport pouch. I later booked the pouch into property as evidence.

All three individuals were provided a copy of the search warrant for their own records. Photographs of all booked items were copied and booked into property as evidence.

On 07/21/2022, I spoke with Evidence Technician [redacted] and learned only one item had been seized as a result of the scene and suspect vehicle examination at the intersection of Buhne St and Harrison St. This item was a FEG AK-47 type rifle with serial [redacted]. ET [redacted] told me he had located a cell phone inside the suspect vehicle and placed it in airplane mode. The device was left inside the vehicle and the vehicle was towed to Humboldt Towing in Eureka for further examination. No further search other than what was in plain view was conducted for the contents of the suspect vehicle.

I returned the first search warrant and subsequently sought an additional warrant to conduct a search of the suspect vehicle at Humboldt Towing in Eureka, CA. This search warrant was signed by the Honorable Judge Gregory Elvine-Kreis, SW2200440.

Phone Call - [redacted]
07/21/2022

On 07/21/2022, [redacted] called into the HCSO dispatch center to advise she had witnessed part of this incident.

[redacted] said she was walking her dog in the area known as "Jacobs Field". This field is located east of Utah Street and in between Alice Barney Elementary School and the old Zoe Barnum School buildings. [redacted] said she observed a white SUV and two police cars "fly by" toward the mall. [redacted] said she heard several "pops" and thought the car in front was shooting towards the police cars. [redacted] also said she felt as thought the bullets went into the field area. [redacted] said she heard 3-4 "pops". [redacted] said she thought the cars would have been traveling through the "little dip" between the two schools. [redacted] then helped me find the locations she was talking about as I looked at a overhead map of the area. [redacted] had no additional information for me at that time. [redacted] said she could only hear the gunfire and did not see the vehicles at the time of the shots.

Key Retrieval
07/22/2022

On 07/22/2022, I was tasked with retrieving items from Deputy Walstrom's Patrol vehicle that had been towed in relation to this case. Investigator Hicks told me Deputy Dickson had requested someone locate and provide him with the keys to his personal vehicle. Investigator Hicks said the keys would be located in the front passenger door pocket or inside Deputy Dickson's patrol bag in the trunk compartment the patrol vehicle. Investigator Hicks also provided me with two keys to the patrol vehicle.

I notified Humboldt Towing of my intent to access the vehicle. I contacted DA Investigator Brawner who walked with me to Humboldt Towing. I signed us both in at 0903 hours. The patrol vehicle was inside the larger storage area backed in to a row of other vehicles. I observed the vehicle number to be 07236. I observed the patrol vehicle to be unlocked. I cut the tape to the front passenger door and opened it. I could immediately see there were no keys in the door pocket. I then shut the door. I was able to get the trunk hatch opened after cutting the two pieces of evidence tape sealing it and called DAI Brawner back to witness the collection. There were two patrol bags in the trunk area and one was labeled with a patch identifying it as Deputy Walstrom's. I then checked the contents of the other bag's main pocket and located a key ring with two key fobs, one for a Honda. I checked two other small pockets on the bag and did not locate anymore keys. I closed the trunk hatch and locked the doors. I then signed us out at 0912 hours. I performed no additional examination or search of the vehicle at that time. I turned over the patrol vehicle keys and the key ring I collected to Investigator Hicks.

Evidence Booking
07/22/2022

On 07/22/2022, ET [redacted] and EPD Sr Detective Cosetti arrived at the HCSO main station. I was told they had recovered evidence in this case and were requesting it be booked into property. I was provded a small envelope that had writing on the outside. The writing indicated the contents had been collected from [redacted] Vance Street. I removed the contents and observed what appeared to be a bullet fragment. I took two photographs of the fragment and then booked it into property as evidence, item #37. Refer to ET [redacted] and Sr Detective Cosetti's reports for more information about the coolection of the item.

SW2200440 - Suspect Vehicle
07/26/2022

On 07/26/2022, Investigator Hicks, ET [redacted] and a team from CA DOJ served SW2200440 at Humboldt Towing in Eureka, CA.

I was not present for the service and subsequent search. Refer to their reports for additional information. On 07/28/2022, I was provided two search warrant inventory forms indicating the items seized. I returned the warrant the following day and have attached a copy of the documents to this report in RIMS.

HUMBOLDT COUNTY SHERIFF

On 07/20/2022, I was requested to assist with an OIS investigation, I responded to the Humboldt County Sheriff's Office for a briefing.

I accessed the Visual Labs Inc. website to view any body worn camera that may be associated with the incident. Several other investigators at the briefing reviewed the footage with me. I was able to view body worn camera footage that had been uploaded by Deputy Dickson and Deputy Anderson.

I was assigned along with Investigator Henderson and Detective Nunez from the Eureka Police Dept (EPD) to process the involved deputies. We responded to EPD where the involved deputies were waiting.

Deputy Walstrom was processed first. I took overall photographs of Walstrom including his gear. Round counts were conducted on Walstrom's firearm and spare magazines, counts were verified by Detective Nunez and photographed by me. See Investigator Henderson's report for round counts totals and further details. The following items were collected from Walstrom:

1. Glock 17 Gen 5 handgun, Ser# [redacted], 1 Hornady 9mm round from the chamber, the magazine contained 22 Hornady 9mm rounds, 3 spare magazines, each with 22 rounds of Hornady 9mm ammo

Located: on duty belt and duty vest

2. Galaxy Xcover Pro dept. issued cell phone, placed in airplane mode, locked, pass code of [redacted] provided

Located: duty vest

3. Swab of reddish brown stain of potential blood

Located: front of duty vest above name tag

Deputy Dickson was processed next. I took overall photographs of Dickson including his gear. Round counts were conducted on Dickson's firearm and spare magazines, counts were verified by Detective Nunez and photographed by me. See Investigator Henderson's report for round count totals and additional details. The following items were collected from Dickson:

1. Glock 17 gen 4 handgun, 1 Hornady 9mm round from chamber, magazine with 16 Hornady 9mm rounds, 2 spare magazines, each with 16 rounds of Hornady 9mm ammo

Located: on duty belt and duty vest

2. Galaxy Xcover Pro dept. issued cell phone, placed in airplane mode, locked, pass code provided of [redacted]

Located: from duty vest

Deputy Anderson was processed next. I took overall photographs of Anderson including his gear. Round counts were conducted on Anderson's firearm and spare magazines, counts were verified by Detective Nunez and photographed by me. See Investigator Henderson's report for round count totals and additional details. No items were collected from Anderson.

I then responded to Buhne and Harrison with Investigator Henderson and Detective Nunez to assist with processing the scene for evidence. I took overall photographs of the scene.

The scene was closed off with evidence tape on the south and north side of Harrison ave at the intersection of Harrison and Buhne. A larger perimeter was also set up with crime scene tape further out from the intersection. The crime scene was being controlled by LE personnel and a sign in sheet was being kept.

In the middle of the intersection facing to the south west corner was a Toyota [redacted]. Also in the middle of the intersection facing to the north east was a white Kia [redacted] A HCSO patrol vehicle (07221) was parked in the cross walk across Buhne St., to the rear of the Kia [redacted] and facing in the north east direction. A second HCSO patrol vehicle (07236) was parked in the west bound lane of Buhne St. facing to the east. Parked behind this patrol vehicle was an EPD patrol vehicle (99) facing the same direction. The overhead lights of both HCSO vehicles were on.

The [redacted] had crash damage to the front passenger side door area. I was informed this vehicle was uninvolved in the pursuit other than being crashed into by the suspect vehicle at the end of the pursuit.

The [redacted] had minor crash damage to the front bumper area. The rear hatch to the vehicle was open and several items wee on the ground behind it including a suitcase and vehicle parts. The rear, passenger side door was open. On the ground underneath the front passenger side wheel was a 7.62x39 FEG SA 2000M rifle. Skid marks lead from prior to the intersection to the [redacted] resting place. A cell phone was visible in the center console. I placed the cell phone in airplane mode and returned it to the car. Black sunglasses and a red hat were located on the ground to the south of the [redacted], these two items were placed in the vehicle along with the items which appeared to have fallen out of the trunk. The car was sealed with evidence tape for towing as evidence and processing at a later date.

HCSO patrol vehicle 07236 had both front doors open. A projectile defect was in the front windshield in front of the driver. There appeared to be several projectile defects in the passenger side grill and bumper of the vehicle. A patrol issued rifle was lying in the driver's seat area.

Rounds counts were conducted on the following guns located in vehicle 07236:

1. M4 carbine 5.56mm cal. ser# [redacted]. There was 1 Hornady .223 Rem round in the chamber and 23 rounds of the same make and caliber in the magazine

2. Remington Wingmaster Model 870, ser# [redacted] There were no rounds in the chamber and 5 rounds on the stock of the shotgun.

The round count was verified by Detective Nunez. I photographed the round count. The less lethal shotgun was locked in the gun rack in the vehicle. 1 casing was visible on the floorboard of the drivers seat. This vehicle was sealed with evidence tape for towing as evidence and processing at a later date.

Round counts were conducted on the following two guns located in the locked gun rack of HCSO patrol vehicle 07221:

1. M4 Carbine cal 5.56mm ser# [redacted], 29 Hornady 223 rem rounds in magazine

2. Remington Wingmaster Model 879, ser# [redacted] no rounds in chamber or on stock of gun

Round counts were verified by Detective Nunez. I photographed the round counts. This vehicle was not taken as evidence.

The following items were collected from the crime scene at Harrison and Buhne.

1. M4 carbine 5.56mm cal. ser# [redacted]. 1 Hornady .223 Rem round from the chamber and 23 rounds of the same make and caliber in the magazine

2. Remington Wingmaster Model 870, ser# [redacted] No rounds in the chamber and 5 rounds on the stock of the shotgun.

3. 7.62x39 FEG SA 2000M rifle ser# [redacted], one wolf 7.62x39 round removed from chamber, magazine

w/ 7 wolf 7.62x39 rounds.

The scene was scanned with a Leica C10 scanner. See Deputies Del Rosario and Jones for details. I returned to HCSO with all items collected and placed them in my locked office.

On 07/21/2022, I copied all photographs to a DVD and booked it into evidence along with all other items collected.

On 07/21/2022, I received the below two items from Detective Casseti and EPD and Evidence Tech [redacted] from EPD:

1. Expended bullet
2. Flash drive with Faro RAW scan data and deliverable

These items were collected at Utah and Highland, I booked them into evidence. See Detective Cassette and Evidence Tech [redacted] reports for details.

On 07/21/2022, I performed a Digital Forensic examination on Deputy Anderson's dept. issued cell phone. See Digital Forensic Examination 1, Supp. #27 for details.

On 07/26/2022, I assisted with serving a search warrant on HCSO vehicle 07236 and the Kia [redacted] which had been towed for evidence. Both vehicles were located at Humboldt towing, in Eureka. Investigator Hicks and CDOJ criminalists [redacted] and [redacted] were also present. Criminalist [redacted] took photographs, see his report for additional details. I collected the following items of evidence from the [redacted]

1. Apple iPhone model A1387, no power
Located: in mInecraft backpack in trunk
2. LG cell phone, no battery, Model LGVS501, IMEI: [redacted]
Located: black Adidas bag
3. Samsung cell phone, broken, no power, model SM-S124DL(GP), IMEI: [redacted]
4. Plastic box of w/ crystalline substance wrapped in paper towel
Located: in trunk
5. 1GB Dane flash drive
Located: in Camo back pack from rear seat
6. iPhone, no power, in black case
Located: in black coach purse in back seat
7. Coach purse, contains misc loose change, cards etc.
Located: in back seat
8. Lenovo Idea Pad 3, SN: [redacted], off
Located: in sparkle bag in back seat
9. Sparkle bag containing makeup and misc. Items
Located; in back seat
10. iPhone, silverModel A1549, IMEI: [redacted], no power
Located: in back seat pocket of driver's chair
11. iPhone black, no power, placed in airplane mode on scene

HUMBOLDT COUNTY SHERIFF

Located: on top of center console

12. White a black silicone container with pink, red and white chunk of chalky substance and rainbow container with pink residue

Located: on steering column

13. Baggie with white crystalline substance

Located: attached to bong in center console area

14. At&T phone, black, broken screen, no power

Located: in center console

15. Samsung, no power, broken screen, IMEI: [redacted]

Located: in center console

16. Motorola Model #Xt1952-6, no power, IMEI: [redacted]

Located: in center console

17. Motorola, blue, no power

Located: plugged into car, between center console and passenger seat

18. Motorola, no power, cracked screen

Located: in glove box

No items were collected by HCSO from the patrol vehicle. Items related to firearms were collected directly by DOJ. On 07/27/2022, I booked into evidence all items collected from the vehicles.

On 08/01/2022, I responded to South Bay Union Elementary school district with DA Investigator Morris to retrieve security camera footage from Pine Hill Elementary school. I copied the footage to an external hard drive. Upon returning to the HCSO, I created a copy for Investigator Hicks and copied the footage to a flash drive. I booked the flash drive into evidence.

On 08/02/2022, I performed a Digital Forensic Examination on Walstrom and Dickson's dept. issued cell phones. See Digital Forensic Examination 2, Supp. #28 for details. After the examination I took Deputy Walstrom's phone out of airplane mode and connected it to WiFi. This allowed the Visual Labs body worn camera footage to upload to the Visual Labs portal.

On the Visual Labs portal which retains HCSO body worn camera footage I located all items associated with this incident. I marked 19 items with the caption 202203774 OIS and marked their retention as indefinite. This included 17 videos and 2 audio recordings.

On 08/04/2022, I fingerprinted the FEG rifle. See attached Fingerprint Examination report for details.

On 08/10/2022, I was provided a search warrant for the electronics collected as evidence from the KIA [redacted] see Digital Forensic Examination 3, supp #26 for details.

Nothing further.

On 07/20/22, I was employed by the Humboldt County Sheriff's Office (HCSO) as a Sheriff's Sergeant assigned to the Special Services Division. On that date I was contacted while off duty at about 2045 hours and asked to respond to the Eureka area to assist with scene security related to an officer involved shooting (OIS) that occurred in the course of a pursuit that the HCSO had been involved in.

At about 2110 hours, I responded to Eureka where I met with Under Sheriff Braud and Lt. Miller at the termination point of the pursuit and OIS at the intersection of Harrison Ave. and Buhne Street. I remained at this location until around 2315 - 2330 hours when I moved to Harrison Ave. north of Buhne St. to relieve a CHP (California Highway Patrol) unit manning the road closure at that location.

At around 0045 hours on 07/21/22, I was directed by US Braud to respond to St. Joseph's ER to meet a deputy who was transporting one of the in-custody subjects to that location for medical clearance for booking. At about 0058 hours, I met with Deputy Soeth at the hospital and stood by at that location with him until around 0150 hours when (SA) [redacted] was cleared medically and transported to jail by Deputy Soeth. I then returned to the nearby scene I had previously been assigned to.

At around 0213 hours I responded to the intersection of Vance Ave. and Herrick Ave. in Eureka where Deputy Stoner was manning a road closure for crime scene preservation north of that location. I relieved Deputy Stoner and took control of the crime scene log he was responsible for at this location. I maintained this post until about 0315-0320 hours when the area was reopened. At that time I provided the crime scene log to HCSO Deputy T. Jones and then cleared the scene.

Nothing further at this time.

On 07-20-22 at approximately 2045 hours, I was off duty. I was contacted by HCSO dispatch. They informed me of this incident and requested I respond to assist with scene security. They also instructed me to contact Lt. Williams for more information. I contacted Lt Williams by phone. He requested that Sergeant McCall, Deputy Whilloughby and I respond to the pursuit termination point at the intersection of Buhne and Harrison and meet with Undersheriff Braud for further assignment.

I arrived at this location at approximately 2200 hours. When I arrived Sergeant McCall was already on scene. I was instructed to relieve a CHP Officer who was staffing a road closure on Harrison Street at the intersection with Russ Street. I relieved the CHP Officer and staffed this road closure until the crime scene was opened back up at approximately 0210 hours.

After completing this assignment I was dispatch to go relieve Deputy Campadonia who was staffing a road closure at the intersection of Myers Ave and Eureka Street. I arrived at this location at approximately 0220 hours and relieved Deputy Campadonia. I remained at this location until this crime scene was opened back up at approximately 0320 hours.

HUMBOLDT COUNTY SHERIFF

On 07/20/2022, at approximately 1955hrs., I was contacted by MCD Sgt. Taylor, regarding a CIRT activation regarding an Officer Involved Shooting(OIS). MCD Sgt. Taylor advised to respond to the Main Station of the Humboldt County Sheriff's Office for briefing.

Arriving at the office, MCD Lt. Williams advised there was an officer involved shooting in Eureka and HCSO Deputies were involved. LT. Williams also advised briefing would be conducted in MCD at 2115hrs.

From briefing I learned that there was a pursuit with the suspects. The number one unit in the pursuit was HCSO Deputy Walstrom and his trainee Deputy Dickson. The number two unit in the pursuit was HCSO Deputy Anderson. During the pursuit the suspect vehicle fired multiple times at the deputies and it was believed Deputy Walstrom returned fire. No other law enforcement personnel were believed to have fired a weapon. Refer to Inv. Hicks' report for complete summary of this incident.

Next, I responded to the Eureka Police Department, 604 C St. Eureka CA 95501 to contact Deputy Waltrom, Deputy Dickson and Deputy Anderson who were there waiting our arrival to conduct a round count. Responding to the Eureka Police Department with me was EPD Det. Nunez and HCSO Evidence Technician [redacted]. All three of us were invovled in the individual processing of the deputies and I took notes of the round counts and firearms. Each deputy was processed individually and the other inovled deputies were not present.

At the police department all involved officer were separated and were with their peer support person prior to my arrival.

*****Deputy processing and round begins at approximately 2220hrs.*****

Deputy Walstrom was processed first. E.T. [redacted] photographed Deputy Walstrom, along with all his gear. Deputy Walstrom's ballistic carrier appeared to have a drop of blood on it and without questioning, Deputy Walstrom indicated it may have been from him biting his own lip. E.T. [redacted] took a swab sample of the substance.

Deputy Walstrom sidearm was as follows:

Glock G17 gen5 9mm serial - # [redacted] (frame and slide) with a trijicon RMR rear optical sight. The firearm also had a Streamlight TLR-1HL weaponlight mounted to it. The firearm had one 9mm Hornady round in the chamber and one 22 round magazine with base plate extension.

(3) 22 round magazines with base plate extentsion(including the magazine in the firearm). The ammunition was Hornady 9mm.A label on each mag with "2271." 2271 is Deputy Walstrom's county PIN.

All three magazines were filled to capacity.

Deputy Walstrom also had one Bola Wrap serial # [redacted] with cartridge.

DO NOT DUPLICATE
THIS DOCUMENT CONTAINS RESTRICTED INFORMATION. DISTRIBUTION TO UNAUTHORIZED PERSONS IS PROHIBITED.
HUMBOLDT COUNTY SHERIFF

At this time Deptuy Walstrom's department cellphone/body worn camera was collected and he provided the passcode of [redacted]

Deputy Walstrom's firearm was collected by E.T. [redacted] along with the magazines and ammunitions.

Deputy Dickson was next and E.T. [redacted] also photographed Deputy Dickson and all of his gear.

Deputy Dickson's sidearm was as follows:

Glock G17 gen4 9mm serial- # [redacted] (frame and slide). The firearm had one round in the chamber and a 17 round magazine containing 16 rounds. The firearm had a Streamlight TLR-1HL weaponlight mounted to it. The ammunition was Hornady 9mm.

(2) 17 round magazines- ammunition was Hornady 9mm filled to capacaity

Taser serial # [redacted]

At this time Deputy Dickson's department issued cellphone/body worn camera was collected by E.T. [redacted]

Deputy Anderson was the final deputy and he was also photographed by E.T. [redacted]

Deputy Anderson's sidearms was as follows:

Glock 17 gen5 9mm serial # [redacted] frame and slide). The firearm had one round in the chamber and a 17 round magazine of Hornady 9mm.

(2)17 round magazines- 16 rounds in each of Hornady 9mm. Deputy Anderson indicated he loads all his magazines to 16 rounds and did not realize the magazine in his firearm contained 17 rounds.

Taser serial # [redacted]

Deputy Anderson did not fire a weapon and his sidearm was not collected.

Once finished with the round counts, we responding to the purusit termination location, the intersection of Harrison and Buhne St. to assist at that location.

DO NOT DUPLICATE
THIS DOCUMENT CONTAINS RESTRICTED INFORMATION. DISTRIBUTION TO UNAUTHORIZED PERSONS IS PROHIBITED.
HUMBOLDT COUNTY SHERIFF

Arriving on scene, I checked with with EPD Officer Baird who was documenting the crime scene log.

During this time CHP Det. Unsinger advised he had the signed search warrant for the suspect vehicle. Refer to CHP Det. Unsinger's report for further details.

I was also infomred during the first portion of my time on scene that the suspect firearm was under the front tire of the suspect vehicle. Later, Deputy Jones and Cpl Del Rasario who were assisting with processing the scene for evdience, collected that firearm, making is safe and documented the neccessary information.

Once the processing of the scene was completed, E.T. [redacted], Det Nunez and I conducted a round count of the firearms located in both the HCSO patrol vehicles on scene. Refer to Det. Nunez's report for details regaridng those firearms.

While on scene, it was determined the best pratcitce was to search the vehicle during daylight hours. The vehicle was secured after E.T. [redacted] placed a cellphone lying on the center console into airplane mode and items that had fallen from the truck were back into the vehicle.

I cleared the scene at approximately 0200hrs., once tow trucks were on scene and loading the suspect vehicle and the damaged patrol vehicle.

Recommendation: attach to orignal and forward to the Humboldt County District Attorney's Office.

Case Status: closed.

CONTROLLED DOCUMENT

On 7/20/22, I was working as an HCSO Patrol Sergeant assigned to the Main Station Patrol Division. At around 1920 hours, I overheard radio traffic of a pursuit involving Main Station Patrol Deputies. The Deputies were Walstrom, Dickson, and Anderson. The radio traffic was somewhat difficult to make out due to the broken broadcasts. Shortly after the pursuit began, I overheard a broadcast of shots fired. I started driving to the location of pursuit which was in the Pine Hill area. I continued observing the broadcasts while the pursuit continued through the Eureka area and terminated at the intersection of Harrison and Buhne Streets. I drove the location and saw numerous HCSO and EPD patrol officers on scene. A female subject was being escorted away from the suspect vehicle in handcuffs while Deputies conducted a felony car stop on the remaining passenger. The female was detained in the back seat of my patrol car shortly after I arrived. I then approached the passenger side of Deputy Anderson's patrol vehicle and assisted with clearing the suspect vehicle. As the suspect vehicle was cleared, I observed an AK-47 style rifle laying on the ground near the passenger side door of the vehicle. The rifle looked as it had an extended 30 round magazine.

Once the scene was secure, Sgt. Helm and I spoke with Deputies Walstrom, Dickson, and Anderson. I asked where the shooting occurred and if any deputies involved were injured and/or returned fire. Deputy Walstrom advised me the suspect, later identified as [redacted], shot at him near the intersection of Allard and Eureka, and a second time near the Highland area of Eureka. Deputy Walstrom advised he returned fire when he had been shot at near the Highland area. Deputy Walstrom said he was the driver of the patrol vehicle and Deputy Dickson was the passenger Deputy Walstrom advised Deputy Dickson did not fire his service weapon. I spoke with Deputy Dickson who confirmed he did not fire. I then spoke with Deputy Anderson who also confirmed he had not fired and was secondary in the pursuit. Sgt. Helm and I then checked Deputies Walstrom, Dickson, and Anderson. None appeared injured.

Due to the multiple locations of the shootings, I instructed other deputies on scene to respond to the Pine Hill area and attempt to locate and secure the scene. EPD Sgt. Wilson was on scene, and he had EPD Officers respond to the Highland area and secure any scene they located.

I remained on scene performing scene security. HCSO Major Crimes Division Sgt. B. Taylor arrived on scene a short while later and I provided him with a brief summary of the incident. HCSO Lt. Miller also arrived and took control of the scene. Eventually, the three detained subjects were transported to the HCSO Major Crimes Division. The suspect vehicle along with Deputy Walstrom's patrol vehicle were towed for evidence from the scene by Humboldt Towing.

For further information refer to other narratives.

HUMBOLDT COUNTY SHERIFF
CONTROLLED DOCUMENT

On 07-20-22 at approximately 2015 hours, I was contacted by Sergeant B. Taylor about a Critical Incident Response Team call out regarding and Officer Involved Shooting. I briefed at the Sheriff's Office Main Station and was assigned to scanning the scene at Buhne Street at Harrison Avenue, Eureka, California (County of Humboldt). I was doubled with Corporal Jones and was the primary evidence technician. I utilized the department's Leica C10 3D laser scanner (serial number 1261541).

Buhne Street at Harrison Avenue Scene -

We arrived at Buhne Street at Harrison Avenue at about 2218 hours and concluded at about 0130 hours. The weather was dark, cool, clear and overcast. I created a scan plan to use as notes to assist with the diagramming process. Once the scan data was processed, I destroyed the scan plan.

I scanned the scene from six (6) locations that I believed would capture the pertinent portions of the intersection relative to this investigation. I placed a four (4.0) foot long scanning artifact within the scene at Scanworld 1 for the purpose of verifying the accuracy of the scan data. [During the registration, the scanning artifact was found to measure at 4.00 foot.]

Due to the time of day (night), the imaging function was not utilized to complete the model. The scene was photographed by other investigators/evidence technicians.

I began by scanning the intersection of Buhne Street at Harrison Avenue. I started at the west side of Buhne Street within the inner perimeter and worked in a counterclockwise fashion to create on Modelspace of the entire scene; Scanworlds 1,2,3,4,5,6,7,8. Scanworld 1-8 captured the termination point of the vehicle pursuit and traffic collision (the intersection); three (3) patrol vehicles (two HCSO and one EPD), the suspect vehicle, and another vehicle.

For Scanworlds 1-8, the scanner was placed on the tripod in order to capture the intersection as completely as possible.

It should be noted after scanning Scanworld 4, "standard setup" my not have been selected prior to scanning Scanworld 5. Due to this, Scanworld 5 was re scanned as Scanworld 6 and Scanworld 4 was re scanned as Scanworld 7. Besides these two errors, I noted no further unusual incidents during the operation of the scanner during this process.

After completing the scan, I was requested to clear the suspect's firearm. I observed what appeared to be a black AMD-65 clone (AKM-47 variant) rifle with the rear grip under the rear of the suspect vehicle's right front tire. I was unable to remove the firearm out from the tire. Due to the ejection port facing up, I was able to render the firearm safe. I removed the thirty (30) round box magazine from firearm by depressing the magazine catch. Inside the magazine, I observed it to be loaded with ammunition. I cycled the bolt rearward, and a live cartridge was extracted out of the breech indicating the firearm was loaded. I informed Evidence Technician [redacted] of my findings.

HUMBOLDT COUNTY SHERIFF

Vance Avenue at Eureka Street Scene –

We arrived at Vance Avenue at Eureka Street at about 0143 hours and concluded at about 0313 hours. The weather was dark, cool, clear, and overcast. I created a scan plan to use as notes to assist with the diagramming process. Once the scan data was processed, I destroyed the scan plan.

I scanned the scene from five (5) locations that I believe would capture the pertinent portions of the streets and residence relative to this investigation. I placed a four (4.0) foot long scanning artifact within the scene at Scanworld 1 for the purpose of verifying the accuracy of the scan data. [During the registration, the scanning artifact was found to measure at 4.00 foot.]

I began by scanning Eureka Street, just east of Leonard Drive, and worked in a westward then southwest fashion to create on Modelspace of the entire scene; Scanworlds 1,2,3,4,5. Scanworld 1-5 captured Eureka Street, Vance Avenue, and the residence/front porch located at [redacted] (street side). Scanworlds 2 and 3 were used as "connectors" to connect [redacted] and Eureka Street (Scanwold 1).

For Scanworlds 1-5, the scanner was placed on the tripod in order to capture the streets and residence.

It should be noted after starting Scanworld 4, I failed to remove the handle from the scanner. Besides the error, I noted no further unusual incidents during the operation of the scanner during this process.

On 08-18-22, Corporal Jones and I registered the scan data from the Buhne Street at Harrison Avenue scene on the department laptop. The registration was accomplished by using the Leica Cyclone software. During the registration, Scanworld 5 would not register with the other scanworlds. This was possibly due to "standard setup" before scanning Scanworld 5. Scanworld 5 was re scanned as Scanworld 6. Scanworld 6 aligned with the other adjacent scanworlds. I observed the registration was an accurate model of the scene as I observed when I scanned it. I created a Truview of this scene and saved it to the department laptop.

Forward to the District Attorney's Office.

Forward to Major Crimes Division.

On 7/20/22 at approximately 1920 hours, I was on uniformed patrol assigned to the greater Willow Creek area. At about this time, I was in Hoopa and heard via radio traffic as Eureka Main Station units were involved in a vehicle pursuit. I heard the radio transmission that shots were fired and I began responding Code 3.

Somewhere in the area of Lord Ellis Summit, I heard radio traffic advising to cancel the Code 30 response and that three suspects were detained. I then responded to cover the greater McKinleyville area with Deputy Thompson. I did not respond to the scene and had no further involvement in this case.

HUMBOLDT COUNTY SHERIFF

On 07/20/2022, I was working as a Deputy Sheriff for the Humbodlt County Sheriff's Office (HCSO) driving a fully marked HCSO patrol vehicle and wearing a distinct HCSO uniform.

At approximately 1922 hours, I overheard Deputy Anderson broadcast "Code 30" over the radio. I was aware that he and other HCSO units were in a pursuit in the Eureka area. I responded Code 3 from milemarker four on SR 96. At approximately 1940 hours, I overheard a deputy broadcast to cancel the "Code 33." At that time I turned off my lights and siren but continued to respond. Once I reached Arcata, I was advised that the "Code 30" was cancelled. I then remained in McKinleyville area and responded to calls for service for the remaineder of my shift with Deputy McKenzie.

This report is a supplemental.

Nothing further.

[ ] *BODY CAMERA RECORDED*			

On 07/20/2022, I was working as a uniformed Deputy for the Humboldt County Sheriff's Office. I was operating a fully makred patrol vehicle.

I was driving south bound on 101 just north of the College of the Redwoods exit when I heard radio traffic stating units were in a pursuit and that shots were fired. I took the CR exit and got back on Hwy 101 north bound. While headed north on Harris from Broadway, I observed multiple law enforcement vehicles also driving north bound.

While approaching Harrison, I heard radio traffic that the vehicle was involved in a traffic collision. I turned west on Harrison and stoped jest east of where Harrison intersects with Buhne. I observed a white SUV and a dark colored sedan stopped in the road way. I exited my patrol vehicle and retrieve my K9. I then took up positionwith Sgt. Massaro at his driver's side door.

I observed a male subject and a female subject laying prone near the vehicles. Other Deputies began issuing commands and detained all subject.

After the vehicles were cleared, I assiste with setting up an inner and exterior perimeter. Once completed, I maintained the east boarder of the perimeter until I was asked to transport Deputy Anderson to the Eureka police department. I stood by with Deputy Anderson until he was cleared to leave. I was then tasked with transporting Deputy Walstrom home. After Dropping Deputy Walstrom off at home, I then went off duty.

Forward with other reports.

On 7/20/22 I was in full duty uniform patrolling the Willow Creek, Ca (County of Humboldt) area in a marked Humboldt County Sheriff's Office (HCSO) patrol vehicle.

After clearing a call for service, I overheard radio traffic on HCSO main channel of a vehicle pursuit in t Eureka area. Shortly after hearing the deputies call pursuit, I overheard additional radio traffic of shots being fired at the deputies.

I responded from the Willow Creek Station (WCS) using my emergency lights and siren.

About mile marker 7.50 on Hwy 299, I observed several other deputies that were on scene clearing from the call. At this time I contacted HCSO dispatch via telephone and confirmed I was no longer needed.

I cleared from the incident and went en route off duty.

My department issues Body Worn Camera was not activated during this response.

SUPPLEMENT:

On 7/20/2022 at approximately 2015 hours, I responded to the area of Buhne Street and Harrison Avenue, City of Eureka, to assist a Deputy who was involved in an Officer Involved Shooting. I had no prior knowledge of the events leading up to, or the events during the incident. I was requested by the primary Deputy involved to be their peer support.

I arrived on scene at approximately 2023 hours. Upon my arrival, I contacted the primary Deputy involved in the incident. I acted as peer support; and informed them of the process to follow, seeing as I had previously been on scene for an Officer Involved Shooting.

I collected the involved Deputy's exterior vest and secured it in the trunk of my vehicle. At approximately 2036 hours, I transported the involved Deputy to the Eureka Police Department where the Deputy was subsequently contacted by Detectives. I arrived at the Eureka Police Department at approximately 2041 hours and remained with the Deputy until I was advised by the Sheriff I could leave. While at the Eureka Police Department; the Deputy's vest was taken, photographed, and then returned to the Deputy. I left the Eureka Police department at approximately 2330 hours.

This outlines and concludes my involvement in the incident.

DISPOSITION:

Attach to original report.

DO NOT DUPLICATE
THIS DOCUMENT CONTAINS RESTRICTED INFORMATION. DISTRIBUTION TO UNAUTHORIZED PERSONS IS PROHIBITED
HUMBOLDT COUNTY SHERIFF

On 7/20/2022 at about 1920 hours, I was on duty driving a marked HCSO patrol SUV. I was traveling on Broadway St., Eureka when I heard radio traffic from Deputy B. Anderson initiating a traffic enforcement stop in the area of Fairway Dr., Eureka. Deputy Anderson's voice was calm and collected as he requested an additional unit for assistance. Shortly after, I heard the voice of Deputy Z. Dickson over the radio. His voice was elevated and rapid, advising units were in pursuit of the vehicle Deputy Anderson was attempting traffic on.

Within less than a minute of that transmission, I heard radio traffic that shots were being fired and the Deputy calling for more units.

I heard radio traffic the suspect vehicle was traveling the wrong way on Henderson St. I know Henderson St. to be a one-way street traveling West, which told me the suspect vehicle was traveling East. I drove East on Harris St., listening for updates when I heard radio traffic the suspect vehicle had been involved in a traffic collision in the intersection of Buhne St. and Harrison Ave.

I responded to that intersection and positioned my vehicle on Harrison Ave., South of the intersection, facing North. I observed Deputy P. Nasca and his vehicle positioned to my left facing the same direction. Upon arrival I observed a white SUV and a blue sedan in the middle of the intersection that appeared to have been involved in a traffic collision. Additional deputies were positioned on Buhne St. facing East towards the collision.

I observed a male subject being called back to the deputies on Buhne St. and then detained in handcuffs. I then observed a female subject called back to the deputies on Buhne St. and then detained in handcuffs. A third male subject was laying in the prone position on the ground to the front of the blue sedan. His head was pointed South and his feet were pointed North.

Deputies on the Buhne St. side yelled to me they wanted the prone subject called to my location and detained. Deputy Nasca and I coordinated calling the prone subject away from the vehicles, to our location. I detained the subject in double-linked handcuffs behind his back and performed a quick pat search of high-risk areas on his person (i.e. waistband, side pockets, mid-back). The subject informed me that he had a pocket knife in one of his pockets. I did not immediately feel anything resembling a weapon. I walked the subject to the rear of my patrol vehicle where I emptied the contents of his pockets onto the ground.

It should be noted that I recognized this subject from prior Law Enforcement contacts as [redacted] was compliant and cooperative during this process.

In the right pocket of [redacted] shorts, I located a folding knife having an iridescent handle, a hypodermic syringe, two (2) tactical Velcro patches bearing "SWAT", and a plastic card. In his left pocket, I located a wallet. I did not open the wallet or examine its contents in any way. I then placed [redacted] in the back seat of my patrol vehicle and rolled down the windows at his request. I returned to the property removed from [redacted] person and placed it into a paper bag.

I asked [redacted] if he needed anything else before I returned to assist with the scene and he asked if we could speed up the process and allow him to speak with whomever he needed to talk to about the incident. He made

DO NOT DUPLICATE
THIS DOCUMENT CONTAINS RESTRICTED INFORMATION. DISTRIBUTION TO UNAUTHORIZED PERSONS IS PROHIBITED
HUMBOLDT COUNTY SHERIFF
CONTROLLED DOCUMENT

spontaneous statements that he was the only one in the car that shot, he already had two (2) strikes against him and this was "Game Over" for him, and just wanted to get on with the process.

I then returned to the scene and began assisting with setting up barrier tape and various tasks as assigned.

I returned to check on [redacted] and he complained about pain in his back. I lifted [redacted] shirt and looked at his back. I saw no redness, bruising, or obvious signs of injury. [redacted] asked how much longer this was going to take. I informed him that the incident had a lot of moving parts, other people involved, and several scenes to be processed. [redacted] spontaneously stated that the other persons in the vehicle with him were not involved; he ([redacted]) forced them to drive the car, and he ([redacted]) was the only one shooting. He then began talking about how he initially wanted to hurt the deputies chasing him, but then realized that the shots he was hitting the patrol car with were having no effect because the vehicle has "armor". [redacted] added that he stopped shooting because he was concerned someone else (uninvolved) was going to get hurt. [redacted] made statements that he had a thirty (30) round magazine and more ammunition in the vehicle, so he could have shot more if he wanted to.

These statements were not recorded with my body worn camera or voice recorder. After these statements were made, I placed my audio recorder in the vehicle to record any future conversations. At the time of this report, I have not reviewed any of my BWC recordings regarding this case.

I thanked [redacted] for his candor and cooperation and advised him that we were working on getting an investigator to come talk with him soon. Shortly after, at his request, [redacted] was served/given water from a fresh water bottle. [redacted] remained handcuffed during this process.

At about 2257 hours, I departed the scene with [redacted] and transported him to the interview room of the Major Crimes Division of the Humboldt County Sheriff's Office. I released him to the care and custody of Humboldt County Investigator S. Hicks and Humboldt County DA Investigator B. Brawner. The property collected from [redacted] person at the time of his detention was provided to MCD Investigators.

I returned to the intersection of Buhne St. and Harrison Ave., Eureka at about 2329 hours. At about 0013 hours, I was tasked with transporting [redacted] from HCSO-MCD to the HCCF for booking. I arrived at HCSO-MCD at about 0018 hours.

With the assistance of Deputy Nasca, I escorted [redacted] to the HCCF where his clothes were collected and bagged as evidence. [redacted] was then walked to the processing room where he was denied medical clearance by HCCF medical staff due to his involvement in the earlier traffic collision without having been cleared by medical staff at a hospital (per HCCF medical staff protocol).

[redacted] was transported to St. Joseph's Hospital by Deputy M. Soeth.

Deputy Nasca and I returned to HCSO-MCD and handed [redacted] clothing to Investigator S. Hicks.

[X] *BODY CAMERA RECORDED*			

On August 6, 2022, I was working as a plain cloths Correctional Deputy at the Humboldt County Correctional facility assigned to the B-7 post position Assistant Classification Officer.

At approximately 1610, I responded to inmate [redacted] attempting to hang himself. After [redacted] was handcuffed and the rope was removed from his neck. I observed a piece of paper and an envelope on the floor in the day room of the unit. I opened the envelope n the units officer station. The envelope contained a card that can be ordered off commissary. The letter was to [redacted] who is currently [redacted] with [redacted] child. The letter said something to the effect of [redacted] was sorry for his actions and that he cried out for help though this crime. I gave the letter to the housing officer to keep it along with the noose. The letter was later brought to the processing area where it was then secured in the HCCF evidence lockers. I later booked the letter into evidence.

I request this report and letter be forwarded to the DA.

Interview of **Brad Anderson,** Humboldt County Sheriff's Deputy.

Current Assignment: Patrol
Current Title: Deputy
Collateral Duty: Field Training Officer
Career Time: approximately 6 years. 1 year at HCCF and 5 years on patrol
Interviewed by: HCSO Investigator Destry Henderson
EPD Detective Ray Nunez

This interview was digitally recorded, and a copy of that recording was later booked into evidence as item #38, code 1949-1. This narrative is a summary of Deputy Anderson's statement and is written for reader comprehension not necessarily in the order the conversation took place.

At the time of the incident, Deputy Anderson was working uniformed patrol in the Eureka area on his normal workday. Deputy Anderson normally works Monday-Wednesday and every other Thursday from 1800-0600hrs. During this incident, Deputy Anderson was not assigned a trainee and was working solo.

On 07/22/2022, at approximately 1226hrs Deputy Anderson spoke with EPD Det. Nunez and I regarding this incident. The interview was conducted at the main station of the Humboldt County Sheriff's Office 826 4th St. in Eureka, CA.

Prior to this interview, Deputy Anderson was allowed to watch his body camera footage. Deputy Anderson declined having a union representative or legal counsel present during the interview. Deputy Anderson was also advised his statement was voluntary which he acknowledged by saying "yes."

I further explained to Deputy Anderson that the purpose of the interview was for the criminal investigation and not for administrative purposes. I informed Deputy Anderson an interview for administrative reasons may or may not come after this and reconfirmed with him that was not the purpose of this interview.

I also instructed Deputy Anderson to keep his answers to what he knew and not to guess.
Prior to the interview Deputy Anderson was offered to be driven through the route of the pursuit or to go to the termination location of the pursuit. Deputy Anderson declined both.
Deputy Anderson was provided two maps which were printed from the Visual Labs software, which tracks the location of the pursuit based upon body camera data. These printouts were provided to me by E.T. [redacted]

Deputy Anderson believed the map was accurate from his recollection when I asked him. Deputy Anderson also confirm it was accurate enough to help him through the interview.

Deputy Anderson explained the following:

Shortly after beginning his shift, Deputy Anderson responded to a call for service near the7900 block of "F" St. Deputy Anderson described after he left that incident he travelled "F" St. toward Herrick Ave. While driving past

DO NOT DUPLICATE
THIS DOCUMENT CONTAINS RESTRICTED INFORMATION. DISTRIBUTION TO UNAUTHORIZED PERSONS IS PROHIBITED.
HUMBOLDT COUNTY SHERIFF
CONTROLLED DOCUMENT

the Eureka Golf Course, near a parking lot on the golf course, he was following behind another vehicle, when a separate vehicle passed him. Deputy Anderson explained that this vehicle passed him and the vehicle in front of him, crossed over the double yellow lines and into the oncoming lane of traffic. Deputy Anderson described the vehicle trying to navigate a corner down a small hill and almost lost traction. During this time Deputy Anderson saw a small amount of smoke from the vehicle's tires. Deputy Anderson activated his emergency lights, which moved the vehicle in front of him out of the way. Deputy Anderson then tried to catch up to the vehicle. Deputy Anderson explained he transmitted to dispatch that he was trying to catch up to a high-speed vehicle and requested another unit to assist.

This part of "F" St that Deputy Anderson described was in fact Fairway Dr. In this area "F" St. turns into Fairway Dr. as it passes the golf course, then Fairway Dr. becomes Herrick Ave. The Fairway Dr. portion of the roadway is the section near the golf course. This area of the roadway also has a "dip" in it, which can be described as going downhill/uphill.

Deputy Anderson continued to explain that he just cleared the previous call with Deputy Walstrom and his trainee (Deputy Dickson), he did not know where they were, but figured they were in the area.

Deputy Anderson explained as he began to go uphill on Fairway Dr., he saw the suspect vehicle pass Deputy Walstrom. Deputy Anderson clarified his statement by saying he saw the back of a patrol vehicle and assumed it was Deputy Walstrom.

Deputy Anderson stated Deputy Walstrom took over radio traffic at that point and that he was in pursuit. Deputy Anderson continued by stating that Deputy Walstrom relinquished radio traffic to Deputy Anderson who started calling out the pursuit.

Deputy Anderson detailed that the pursuit continued on Herrick Ave, then the suspect turned right onto Vance St. Deputy Anderson stated once the suspect vehicle passed Pine Hill School, 5230 Vance St., in Eureka, he saw the suspect throw something out of the window, which looked like a "Mcflurry," which Deputy Anderson transmitted over the radio.

Next, the pursuit turned onto Eureka St., with Deputy Anderson still in the number 2 position, Deputy Anderson saw the suspect vehicle's right rear tire go over the curb. Deputy Anderson stated at that point he thought the suspect's tire had popped, because Deputy Anderson had heard a loud "pop" sound. As the pursuit continued straight on Eureka St., Deputy Anderson heard several additional "pops." Deputy Anderson stated, "I thought in my head are they shooting at us?" Deputy Anderson explained he could not see any passengers in the suspect vehicle, since he was the second vehicle in the pursuit. Deputy Anderson then heard Deputy Walstrom say they were being shot at.

Deputy Anderson described the pursuit continued on Eureka St and turned left onto what he believed was Meyers St. Deputy Anderson stated, "I could smell the gun smoke and was like oh ok." Deputy Anderson explained the pursuit continued with the running of the stop sign at the intersection of Meyers and Alpha St., then the pursuit turned right on Madison, then it turned left onto Union St, "down the big hill," Deputy

HUMBOLDT COUNTY SHERIFF

Anderson believed the next street was Highland St, which the pursuit turned left onto . Deputy Anderson stated he was not good with streets in Eureka and was reading the street names on his GPS. Deputy Anderson did not remember what street he turned onto from Highland, but the pursuit did turn onto Silva St, eventually the pursuit got onto Allard, then it turned right onto Utah St. Deputy Anderson explained as the pursuit passed Alice Birney Elementary School, 707 South Ave., in Eureka, he heard several more gunshots and transmitted that on the radio.

Deputy Anderson explained that he could not see anyone leaning out of the suspect vehicle, because Deputy Walstrom's vehicle was obstructing his view. Deputy Anderson then explained Deputy Walstrom then transmitted "he had also fired shots, or shots were fired by police."

The pursuit continued straight with the suspect failing to stop at the stop sign where Utah St. turns into Central St. Deputy Anderson explained the pursuit continued through the red light at Harris and Central St then it turned the wrong way on Henderson St. Deputy Anderson described the pursuit continued the wrong way on Henderson St. until "O" St. Deputy Anderson explained that once the pursuit reached that point, he had a large gap between his patrol vehicle and Deputy Walstrom's patrol vehicle. Deputy Anderson explained Deputy Walstrom was right behind the pursued vehicle making it easier for Deputy Walstrom to clear all the intersection, but Deputy Anderson had to re-clear all the intersection he went through so he wouldn't cause a traffic accident. Deputy Anderson described that Deputy Walstrom gained a large distance from Deputy Anderson and that this is when Deputy Anderson believed Deputy Dickson took over radio traffic. Deputy Anderson stated this allowed him enough time to catch up so Deputy Anderson could get a visual on Deputy Walstrom. Deputy Anderson stated the pursuit turned on "O" St. and he was "chasing" Deputy Dickson's directions. Deputy Anderson stated the pursuit then turned right onto Buhne St., and the pursuit went through the red light at Buhne and "S" St.

Deputy Anderson described as he was travelling down the hill on "S" St., nearing the bottom (approx. 2200blk), he heard on the radio the suspect vehicle had "T/C'd" (been involved in a traffic collision. Deputy Anderson stated as he crested the hill, he could see that the vehicle is stopped and there are a bunch of "random civilians" and vehicles in the way. Deputy Anderson stated Deputy Walstrom's vehicle was parked the wrong way on Buhne St. Deputy Anderson stated there was a vehicle in the right lane. Deputy Anderson stated he went to the right of that vehicle and told the other vehicle to leave. Deputy Anderson explained there was a vehicle stopped at the stop light and he was yelling at that vehicle to leave, while giving commands to the people in the suspect vehicle to "get out and prone out." Deputy Anderson described that until everyone was "proned out" they got all the civilians out and started to do a "call out."

Deputy Anderson finished after that statement, and I asked some clarifying questions which are as follows:

- Deputy Anderson was driving near the golf driving range of the Eureka City Golf Course heading toward Herrick Ave, when a vehicle passed him and another vehicle over double-yellow lines.
- The vehicle that passed Deputy Anderson was the same vehicle that was involved in a traffic collision at the intersection of Buhne and Harrison St.
- Deputy Anderson saw Deputy Walstrom's vehicle after the suspect passed him in the 400-500blk of Herrick Ave.

DO NOT DUPLICATE
THIS DOCUMENT CONTAINS RESTRICTED INFORMATION
DISTRIBUTION TO UNAUTHORIZED PERSONS IS PROHIBITED
HUMBOLDT COUNTY SHERIFF

- After hearing the second sets of "pops," Deputy Anderson believes the first "pop" where he thought the suspect vehicle popped a tire, was, instead gun fire.
- Deputy Anderson does not see gun fire or muzzle flash but sees "puffs" of smoke from bullets "hitting concert" or "from something of the effect."
- Deputy Anderson "smells the smell of gun fire" and confirms he is talking about burnt gunpowder.
- The occupants of the suspect vehicle never became visible to Deputy Anderson during the pursuit.
- Deputy Anderson only saw the suspects at the termination point.
- Deputy Anderson estimated he was approximately 2 vehicle length behind Deputy Walstrom until he lost sight of the pursuit.
- During the time Deputy Anderson had sight of the pursuit, he estimated Deputy Walstrom was approximately 2 vehicle lengths behind the suspect vehicle.
- Deputy Anderson loss sight of the pursuit for several blocks. Deputy Anderson believed this occurred around "O" and Henderson St. Once the pursuit turned onto Buhne St, Deputy Anderson had caught up to the pursuit.
- The reason Deputy Anderson loss sight of the pursuit was due to the wrong way travel on Henderson St. Deputy Anderson explained the stop lights were facing the wrong way, so he had to clear each intersection.
- Deputy Anderson maintained the number 2 position during the entire time of the pursuit.
- At no time during the pursuit could Deputy Anderson see who was firing.
- Deputy Anderson believed the passenger side of the suspect vehicle was firing at them but did not know why he assumed that. Deputy Anderson stated it was a high stress situation.
- Deputy Anderson was far enough away where he could only see the vehicle, but he heard the gun shots and believed the subjects in the pursed vehicle had fired. When the transmission "The police fired..." was heard by Deputy Anderson believed Deputy Walstrom had fired back at the suspect vehicle.

During the interview the term "Deputy Walstrom" was used generically for who was driving the lead Sheriff's patrol vehicle. During the pursuit Deputy Anderson stated he "assumed" the trainee (Deputy Dickson) was driving the patrol vehicle. Deputy Anderson explained that as a Field Training Officer you are afforded the option of driving, but the standard practice it to have the trainee drive. Deputy Anderson stated his assumption changed later after some self-reflection. Deputy Anderson described that when he arrived at the traffic collision Deputy Walstrom was on the driver side of the vehicle and Deputy Dickson was on the passenger side of the vehicle.

Deputy Anderson initially believed the suspect vehicle was just a reckless driver, possibly teenagers, and did not know until later that EPD had initiated a pursuit on the vehicle earlier.

Next, I asked Deputy Anderson what he was thinking was he realized there was gun fire. Deputy Anderson stated "that's a hard question...more or less that I didn't expect this to happen," "it was such a random pursuit," "that I was kinda shocked that just a car randomly passes us and now they're shooting at us seemingly as like an ambush scenario, I mean you can imagine if you pass the police you're going to get stopped and then now they're shooting at us shortly after, it felt very much like a very odd ambush type scenario."

HUMBOLDT COUNTY SHERIFF

Deputy Anderson also explained that once shots were fired, he thought they needed more people and that is why he called a code 30. ***Code 30 is officer needs assistance and it transmitted to local agency for all available units to respond.***

Deputy Anderson stated he thought "what I am thinking" was a difficult question. Deputy Anderson explained he was engrained into the pursuit. Deputy Anderson stated his other thoughts were difficult to recall. Deputy Anderson followed up by stating that he thought he might get shot, and that he did not know what the suspects were shooting at the deputies with or why. Deputy Anderson stated through the pursuit he kept thinking "this was probably going to be a gunfight at the termination point." Deputy Anderson explained besides that he was thinking about normal pursuit protocol, calling out a pursuit, staying calm on the radio, make sure they don't get into an accident, not putting the public in danger, doing it as safely as possible, but that "they" probably weren't going to terminate the pursuit unless it "gets completely out of hand."

I asked Deputy Anderson if what he was thinking changed or evolved as the pursuit continued and he stated, "not really."

Next, we talked about Deputy Anderson's comment about not terminating the pursuit. Deputy Anderson explained the following: "pursuits are scaled.... We are not going to chase somebody the wrong way on Henderson or through the city of Eureka at high traffic levels, high speeds, for some minor traffic infraction, um, if they're a murder suspect we will raise that a little higher, if they're randomly shooting out of the window, that puts a huge risk on the public we are going to continue that pursuit longer, um if they're willing to shoot at us through the window who else are they willing to shoot out the window at, so my thought is always going through my head during a pursuit, should we continue this, should we continue this, and that's a lot lesser because they're shooting at us, this will go a lot longer then or we will let this go in more, shouldn't say unsafe conditions, but we'll let that level rise a little higher..."

At no point did Deputy Anderson think about firing at the vehicle. When asked, Deputy Anderson explained there was never an opportunity to fire at the vehicle that's why he never considered it.

Next, EPD Det. Nunes and I asked Deputy Anderson a series of questions. The answers are detailed below.

- When arriving to the termination location Deputy Anderson saw the following:
  - The suspect vehicle had "t-boned" another vehicle in the intersection(Harrison/Buhne)
  - There was a person outside the vehicle of the civilian vehicle that was involved in the collision.
  - A person was out of the suspect vehicle on the passenger side, who appeared to be unarmed. Deputy Anderson stated this changed the immediateness of "our" response.
  - Deputy Waltstrom's patrol vehicle was in the "wrong way direction of traffic" on Buhne St. facing Harrison St.
  - In the correct lane of travel was a parked sedan on Buhne St.
  - Parked on southbound Harrison was another sedan, likely a witness according to Deputy

Anderson.

- Once the civilian vehicles move Deputy Anderson saw the following:
  - A subject in a grey and red hat that had got out of the "right front passenger side" (suspect vehicle) and the subject (male) beginning to walk down Harrison while "we" are giving him commands. The subject "prone out" in that area, according to Deputy Anderson. Deputy Anderson explains that once the subject moves away from the vehicle, he can see a black rifle lying next to the right front tire of the suspect vehicle.
  - Deputy Anderson describes the person who got out of the driver seat of the suspect vehicle as an "heavy set" Native American male wearing black.
  - Deputy Anderson stated the female subject came out of the vehicle on the right rear passenger side. Deputy Anderson did not know where the female was seated in the vehicle.
  - Deputy Anderson did not know how the one occupant got out of the vehicle before he arrived on scene.
  - No occupants made any statements to Deputy Anderson that he could remember.
  - Deputy Anderson explained the driver of the victim vehicle was instructed to move out of the area. Deputy Anderson explained the driver eventually walked south on Harrison St.
  - Deputy Andersson saw that Deputy Walstrom's patrol vehicle had 2-3 bullets holes in the windshield near the steering wheel. The shots looked to be from inside to outside, so Deputy Anderson thought the shots were fired from inside the patrol vehicle.
  - After watching his body camera footage and having a few days to think about the incident, Deputy Anderson believed all his radio traffic transmissions were accurate regarding details of the pursuit.
  - During the pursuit Deputy Anderson could remember thinking that he did not know if Deputy Walstrom or Deputy Dickson had been injured but assumed they would have transmitted that information if they had been.

In closing, Deputy Anderson added that he was told by Sgt. Massaro that the passenger which he described as the subject in the grey, had made a spontaneous statement while being detained that "he was the only shooter, and that he had shot because he knew that he was done, he's a double striker, he was going back to prison."

Next, a break was taken, and the interview resumed at approximately 1306hrs.

During this follow up interview Deputy Anderson confirmed Deputy Walstrom, Deputy Dickson and the "subject in the grey" were already out of the vehicle. Deputy Anderson stated everything happened really quickly and for unknown reasons Deputy Anderson believed the subject was unarmed. Deputy Anderson also added he thought the subject in the grey was the "shooter" but did not know why he thought that.

Even though Deputy Anderson called a "code-30" no other law enforcement beat him to the termination point, and no one was behind Deputy Anderson at that point in the incident.

HUMBOLDT COUNTY SHERIFF

Deputy Anderson stated the first person to arrive on scene was EPD Sgt. Eddie Wilson, who arrived behind Deputy Anderson. Deputy Anderson stated the subjects were already "proned out" when EPD Sgt. Wilson arrived.

Next, I talked to Deputy Anderson about a breathing technique he did while we reviewed his body camera. Deputy Anderson explained it was a high stress situation and he was attempting to break up the tunnel vision he was getting and to stay aware of the situation. Deputy Anderson was trying to slow down his breathing and heart. Deputy Anderson called it tactical breathing.

The interview was concluded without further incident.

After the interview I reviewed a Cellebrite download for the day of the incident from Deputy Anderson's department issued cellphone that was provided to me by E.T. [redacted] and did not find anything of relevance. A copy of that download was booked into evidence as item #63, code 2015-63

Results of Examinations:

Item #	Processing Techniques applied:	Results:
1	Visual, photography, swabbing, cyanoacrylate fuming, dusting	Negative

Summary/Results of Examination: I visually examined the above listed items and took overall photographs of them. I then swabbed the trigger, front grip and back grip for touch DNA, utilizing sterile swabs wet with sterile water, followed by dry sterile swabs. I then treated he gun and magazine with cyanoacrylate (superglue) fumes and dusted them with black fingerprint powder. No latent impressions were observed or developed.

The Humboldt County Sheriff's Office conducts latent fingerprint examinations using the Analysis, Comparison, Evaluation, and Verification (ACE-V) process. If usable latent impressions were developed, then the ACE-V process is conducted. Known prints are retrieved from the California Department of Justice (CDOJ) Automated Archive System (AAS) unless otherwise stated. If no known prints are available for comparisons, or no identification has been made, an AFIS search is conducted. The latent impression is entered into the CDOJ Automated Latent Print System (ALPS) and/or the FBI's Next Generation Identification (NGI) system.

Summary of Analysis: N/A

Item #	Value:	Anatomical source:	Complexity:
1			

AFIS search: N/A

Summary of Comparison: N/A

Summary of Evaluation: N/A

2015 [redacted]	08/23/2022	1377 TAYLOR, BRIAN	08/31/2022
[ ] *BODY CAMERA RECORDED*			

Verification: N/A

Disposition of Evidence: All items examined were returned to the Humboldt County Sheriff's Office evidence. A request was made for the item to be sent to CDOJ for a firearms examination.

No further action.

Appendix:

Results Definitions:
--Negative: No latent impressions observed or developed.
--No Value: No latent impressions of comparison value were observed or developed.
--Usable: Latent impressions of comparison value were observed or developed

Value Definitions:
--Latent impression of value: The latent impression may be of value for identification or exclusion. Level one detail is discernible, but level two details may be limited, unreliable or not reproduced in the exemplar, therefore the comparison could result in an inconclusive result.
--Latent impression not of value: The latent impression cannot be identified or excluded due to lack of sufficient, reliable level two detail.

Complexity Definitions:
--Basic: region and orientation of the impression are easily determined, 2nd level detail and 3rd level detail is abundant, not all data is needed for an identification, there is low ambiguity.
--Advanced: region and orientation have multiple possibilities, ancillary features (scars, creases, incipient ridges) are being used, not all data is needed for identification, and interpretation has slight ambiguity and may be interpreted differently by others.
--Complex: Limited data, predominant ambiguity, difficult to demonstrate.

Evaluation Conclusions:
--Identification: is the conclusion reached when an examiner determines two friction ridge impressions are in agreement and that the friction ridge impressions originated from the same source.
--Exclusion: The determination by an examiner that there is sufficient quality and quantity of detail in disagreement to conclude that two friction ridge impressions did not originate from the same source.
--Inconclusive: An inconclusive decision occurs when an examiner is unable to identify or exclude the source of a impression because the corresponding areas of friction ridge detail are absent or unreliable.

The Humboldt County Sheriff's Office (HCSO) conducts digital forensic examinations utilizing licensed Cellebrite UFED 4PC software (version 7.57) and Cellebrite UFED Physical Analyzer (PA) software (version 7.56). The UFED platform allows for data extractions from mobile devices (phones, tablets), Subscriber Identity Modules (SIM), external media cards (SD/Micro-SD, USB flash drives) and some sUAS (drones). The software can perform logical, file system and physical data extractions and can include deleted information. The software has the capability of bypassing many locked (password protected/pattern locked) devices. The extraction, decoding and analysis of data can include call logs, phonebook, text messages (SMS), pictures, videos, audio files, and more from BlackBerry, Windows, Android, and iOS devices. Extractions and generated reports are stored on remote flash drives that have been forensically sterilized.

I hold certifications from Cellebrite in mobile Forensic Fundamentals, Certified Operator, Certified Physical Analyst and Cellebrite Advanced Smartphone Analysis.

The below listed items were examined:

Item #	Barcode#	Description:	Memory Card	SIM card	Received from:

Summary/Results of Examination: I received a signed Superior Court of California, County of Humboldt search warrant for the above listed items, SW#2200471. The search warrant specified for data between the dates of 05/05/2022-08/05/2022. I took overall photographs of each item.

Item #1 (Galaxy S8): The phone was on and fully charged. The phone was in airplane mode. The phone was not locked. I set the lock screen to none. I enabled developer options, stay awake, and usb debugging. I disabled verify apps over USB. I utilized UFED 4PC to perform a file system and logical extraction on the phone. A physical extraction was not supported. I utilized PA to parse the data and generate a Cellebrite report for the data between the dates of 05/05/2022 through 08/05/2022 as specified in the search warrant. I briefly reviewed the report, I did not see anything of evidentiary value.

Item #2 (iPhone 4S): The phone was off. I charged the phone and powered it on. I placed the phone in airplane mode. The phone was not locked. I set auto-lock to never. I utilized UFED 4PC to perform an advanced logical extraction on the phone. I utilized PA to parse the data and generate a Cellebrite report for the data between the dates of 05/05/2022 through 08/05/2022 as specified in the search warrant. I briefly reviewed the report. The device was named [redacted]. A Gmail address of [redacted] was associated with the device. I did not see anything of evidentiary value.

Item #3 (LG K20 V): The phone had no power due to not having a battery. I was unable to locate a replacement battery. No extractions were conducted on this phone.

Item #4 (Galaxy Tab S2): The phone had no power due to the battery being detached. I reattached the battery and attempted to charge the phone. The phone would not charge. No extractions were conducted on this phone.

Item #5 (Dane flash drive): The packaging for this item had been opened and the flash drive was copied by HCSO

HUMBOLDT COUNTY SHERIFF
CONTROLLED DOCUMENT

property for the DA's office prior to a search warrant being obtained and my examination of the item. I utilized UFED 4PC to perform a file system extraction of the flash drive. I utilized PA to parse the data and generate a Cellebrite report for the data between the dates of 05/05/2022 through 08/05/2022 as specified in the search warrant. I briefly reviewed the report, I did not see anything of evidentiary value.

Item #6 (iPhone XR): The phone was off. I removed the SIM card. I charged the phone and powered it on. Upon powering on the home screen read "iPhone locked to owner [redacted] location can be seen by owner. This indicates that Activation Lock had been enabled and Apple securely stores your Apple ID on its activation servers and links it to your device. Your Apple ID password or device pass code is required before anyone can turn off Find My, erase your device, or reactivate and use your device. It is also possible the device was wiped remotely with this feature. I utilized UFED 4PC to perform an advanced logical extraction of the SIM card. I was unable to perform an extraction on the phone due to the activation lock being enabled. I utilized PA to parse the SIM card extraction and generate a Cellebrite report for the data between the dates of 05/05/2022 through 08/05/2022 as specified in the search warrant. The phone number associated with the SIM card is [redacted] This phone number is associated with [redacted] in RIMS.

Item #7 (iPhone 6): The phone was off. I charged the phone and powered it on. The phone was locked with a 6 digit pass code. I unlocked the phone with the pass code [redacted] through social engineering. I placed the phone in airplane mode and set auto-lock to never. I utilized UFED 4PC to perform an advanced logical extraction on the phone. I utilized PA to parse the data and generate a Cellebrite report for the data between the dates of 05/05/2022 through 08/05/2022 as specified in the search warrant. I briefly reviewed the Cellebrite report. The owner of the device was [redacted] There was no data on the device other than device info that was within the date range of the search warrant.

Item #8 (iPhone X): The phone was off. I removed the SIM card and charged the phone. The phone had been placed in airplane mode on scene prior to collection. The phone lost power prior to collection. I powered on the phone. The phone was locked with a 6-digit pass code. UFED 4PC is unable to bypass the pass code on this model phone. No extractions were performed on the phone due to being unable to bypass the pass code. I utilized UFED 4PC to perform an advanced logical extraction on the SIM card. I utilized PA to parse the data and generate a Cellebrite report for the extraction from the SIM card. The phone number associated with the phone was [redacted]

Item #9 (At&T): The phone was off. I charged the phone and powered it on. The phone was locked with a pass code after restart. UFED 4PC is unable to bypass the pass code on this model. I was unable to bypass the pass code with social engineering. No extractions were conducted on this phone due to being unable to bypass the pass code.

Item #10 (Moto G7 Play): The phone was off. I attempted to charge the phone. The phone would not charge. No extractions were performed on the phone due to not being able to power it on .

Item #11 (Galaxy A02s): The phone was off. I charged the phone and powered it on. The phone powered on in setup mode, indicating it had been factory reset. Due to this no extractions were performed on the phone.

Item #12 (Moto G Play): The phone was off. I removed the SIM card and charged the phone. I powered on the phone. The phone was locked with a pass code and was required after restart. I placed the phone in airplane mode. UFED 4PC is unable to bypass the pass code on this model phone. Due to this, no extractions were

performed on the phone. I utilized UFED 4PC to perform an advanced logical extraction on the SIM card. I utilized PA to parse the extraction and generate a Cellebrite report of the SIM card extraction. The phone number associated with this phone is [redacted]

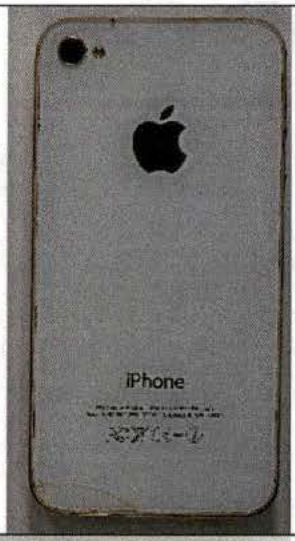

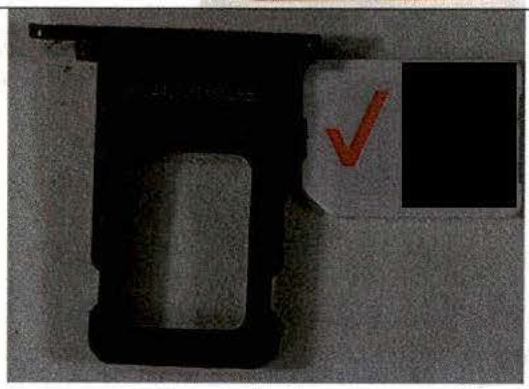

Item #13 (Moto G stylus): The phone was off. I removed the SIM card and charged the phone. I powered on the phone. The phone was locked with a pass code and was required after restart. I placed the phone in airplane mode. UFED 4PC is unable to bypass the pass code on this model phone. Due to this, no extractions were performed on the phone. I utilized UFED 4PC to perform an advanced logical extraction on the SIM card. I utilized PA to parse the extraction and generate a Cellebrite report of the SIM card extraction. The phone number associated with this phone is [redacted]

Item #14 (Idea Pad 3): The HCSO does not currently have the tools necessary to perform a forensic examination on Chromebooks, this item was not analyzed beyond overall photographs. If the owner is known, a search warrant to Google for the associated Google account will yield the most data.

HUMBOLDT COUNTY SHERIFF

On July 20, 2022 at approximately 2046 hours, I was at home when I received a phone call from HCSO Dispatch. I was advised of a pursuit and officer-involved shooting that had occurred in Eureka and I was requested to assist with the scanning of the crime scenes. I responded to the HCSO Major Crimes Unit and was briefed with the other Investigators.

I learned there were three scenes throughout Eureka where shots had been fired. I was paired with HCSO Corporal Del Rosario and we were assigned the scenes at Buhne Street at Harrison Street, where the pursuit ended with a traffic collision, as well as the scene at Vance Street at Eureka Street, where a bullet struck a residence.

We responded first to Buhne Street and Harrison Street, where I assisted Corporal Del Rosario in scanning that scene. We arrived there at approximately 2218 hours and concluded scanning at approximately 0130 hours.

While scanning that scene, we placed a 4 foot long scanning artifact near the scanner in Scanworld 1. This was later used to verify the accuracy of the scan data. (During the registration process, it was found to measure 4.00'.)

We opted not to use the imaging function of the scanner due to the fact that it was nighttime and photographs would not have been of much value to the completed models. (The scene was being photographed by other investigators.)

It should be noted that while scanning this scene, I believe I moved the scanner from Scanworld 4 to Scanworld 5 without first pressing the Standard Setup button on the scanner. Because of this, the scanner did not register that it had been moved from one location to another. That scan was not usable for the registration process, and therefore was not part of the registration that was created. Those two locations were re-scanned as Scanworlds 6 and 7 so as to have a complete and accurate model of the scene. Aside from this, there were no issues noted during the scanning of this scene.

After scanning Buhne Street at Harrison Street, we relocated to Vance Street at Eureka Street. We arrived there at approximately 0143 hours and concluded scanning at approximately 0313 hours. We scanned Eureka Street, starting East of Leonard Drive because there was an empty shell casing lying along the south curbline of Eureka Street. We again placed the 4 foot scanning artifact near the scanner in Scanworld 1. (During the registration process, I found it to measure 4.00' long.) Our final scan (Scanworld 5) was located on the front porch of [redacted] Vance Street, where a bullet had struck the east wall near the front door. There was a trajectory rod still in place in that bullet hole when we scanned this location. Scanworlds 2,3 and 4 were located down the length of Eureka Street and were made to connect Scanworlds 1 and 5. There were no issues during the scanning of this scene.

On July 26, 2022, I downloaded the raw scan data from the scanner onto a flash drive. I used that flash drive to upload the raw scan data onto the department laptop used to process scan data. I kept that flash drive secured solely in my custody until I booked it into evidence at HCSO on August 29, 2022.

On August 22, 2022, Corporal Del Rosario and I registered the scan data from the scene at Buhne Street at

DO NOT DUPLICATE
THIS DOCUMENT CONTAINS RESTRICTED INFORMATION
DISTRIBUTION TO UNAUTHORIZED PERSONS IS PROHIBITED
HUMBOLDT COUNTY SHERIFF

Harrison Street. This was accomplished using the Leica Cyclone software. I uploaded the raw scan data from the flash drive onto the department's laptop used specifically for scan data registration. There were no issues during the upload process.

We used the Cyclone software to register (put together) the individual scans into one model of the scene. We also used that software to "clean" the scans. (Cleaning scans refers to placing irrelevant data "noise" captured by things or people moving in front of the scanner while it's running onto hidden layers, to show an accurate representation of the scene without the "noise".) We also used the software to create a Truview for future presentation purposes, which was saved on that laptop.

On August 24, 2022, I registered the scan data from the scene at Eureka Street at Vance Street, using the same Cyclone software and laptop. I noted that during the registration, Scanworlds 1 and 5 would not align with each other. This was not surprising to me because of their locations, relative to each other. They both aligned properly with the scanworlds adjacent to them. I saw that the resulting registration was an accurate model of the scene as I saw it when we scanned it. I created a Truview of this scene as well, and saved it on the laptop.

This concluded my involvement in this investigation.

HUMBOLDT COUNTY SHERIFF

On Tuesday October 18, 2022, Lieutenant Williams requested I inquire with the District Attorney's Office to determine if the patrol unit (07-236) that was involved in this case could be repaired and put back into service.

On July 26, 2022, when the search warrant on the patrol vehicle was executed, California Department of Justice Criminalist [redacted] had suggested having the vehicle repaired and the parts preserved to determine if there was additional evidence that could be collected from them.
I spoke with Deputy District Attorney [redacted] who stated the vehicle could be repaired but the defense attorney would need an opportunity to examine the vehicle. [redacted] stated he would speak with defense counsel on October 20, 2022 and notify them of our intentions to repair the vehicle.

On November 4, 2022, I exchanged emails with [redacted] who advised me that the defense attorney may want a representative present to witness the vehicle repairs.

I contacted the Humboldt County Fleet Services and notified them of the intentions to bring the car back into service. I advised them that the repairs would potentially need to be witnessed by a defense investigator and that any and all parts or other items removed from the vehicle would need to be preserved as evidence.

On November 12, 2022, I met [redacted] with Fleet Services at Humboldt Towing. Representatives from two repair shops examined the vehicle to provide quotes for the repairs.
On November 13, 2022, I completed a vehicle release authoring Humboldt Towing to release the vehicle to Fleet Services.

On November 18, 2022, [redacted] emailed me and advised that Fleet Services had selected Arcata Body to do the repair work. [redacted] arranged to have the vehicle towed to Arcata Body. The repairs would not start until a defense investigator was provided an opportunity to examine the vehicle and/or witness the repairs.

Between November 18, 2022 and January 9, 2023 several emails were exchanged regarding trying to schedule a time to complete the repairs. [redacted] District Attorney Investigator Brawner, Defense Attorney [redacted] and Defense Investigator Kyle Brown were all notified of the desires to get the patrol vehicle repaired and invited to provide input.

On January 11, 2023 at about 1000 hours, I met Investigator Brown at Arcata Body Shop. Investigator Brown was provided access to the patrol vehicle to take any photographs he desired. I spoke with Investigator Brown and advised him I intended to authorize Arcata Body to complete the repairs. I advised Investigator Brown I would contact him when the repairs were complete, and he could accompany us when we collected the parts so that he could photograph them.

Any further action by me, including retrieving the parts from the vehicle, will be documented in a supplemental report.

SEARCH WARRANT

The People of the State of California
To Any Peace Officer in Humboldt County

Warrant No. SW2200437

The affidavit below, sworn to and subscribed before me, has established probable cause for this search warrant which you are ordered to execute as follows:

Place(s) to be searched: Described in Exhibit 1A, *attached* hereto and incorporated by reference.

Property to be seized: Described in Exhibit 1B, *attached* hereto and incorporated by reference.

Night service: [If initialed by judge] For good cause, as set forth in the Statement of Probable Cause, night service is authorized: _____

Disposition of property: All property seized pursuant to this search warrant shall be retained in the affiant's custody pending further court order pursuant to Penal Code §§ 1528(a), 1536.

7/20/2022 @ 11:13pm
Date and time warrant issued

Kelley L. Neel
Judge of the Superior Court

AFFIDAVIT

Affiant's name and agency: Investigator Brandon Head, Humboldt County Sheriff's Office

Incorporation: The facts in support of this warrant are contained in the Statement of Probable Cause which is incorporated by reference. Incorporated by reference and *attached* hereto are Exhibit 1A, describing the place(s) to be searched; and Exhibit 1B, describing the evidence to be seized.

Evidence type: (Penal Code § 1524)

☐ Stolen or embezzled property.

☑ Property or things used as a means of committing a felony.

☑ Property or things in the possession of any person with the intent to use it as a means of committing a public offense, or in the possession of another to whom he or she may have delivered it for the purpose of concealing it or preventing its being discovered.

☑ Property or things that are evidence that tends to show a felony has been committed, or tends to show that a particular person has committed a felony.

☐ Property or things consisting of evidence that tends to show that sexual exploitation of a child, in violation of Penal Code § 311.3, or possession of matter depicting sexual conduct of a person under the age of 18 years, in violation of Penal Code § 311.11 has occurred or is occurring.

☐ Firearms, deadly weapons: The warrant authorizes a search for a deadly weapon in the following premises:

5150: The premises are occupied or controlled by a person who is in custody on a 5150 W&I hold.

Domestic violence: The premises are occupied by a person arrested for a domestic violence incident involving threatened harm.

No firearms order: The premises are owned or controlled by a person who is prohibited from possessing firearms pursuant to Family Code § 6389.

☑ **Night Service**: [If checked] Authorization for night service is requested based on information contained in the Statement of Probable Cause, filed herewith.

Declaration: I declare under penalty of perjury that the information within my personal knowledge contained in this affidavit, including all incorporated documents, is true.

EXHIBIT 1A

1. [redacted] Kia [redacted] (SUV) bearing CA license plate [redacted] which is currently at the intersection of Buhne Street and Harrison Street in Eureka, CA

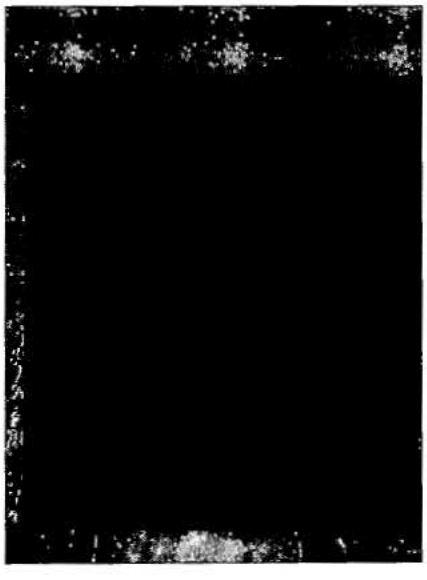

2. The person of [redacted] – CA Driver's License [redacted]

[redacted]

3. The person of [redacted] – CA Driver's License [redacted]

[redacted]

4. The person of [redacted] – CA Driver's License [redacted]

[redacted]

EXHIBIT 1B

Weapons, firearms, ammunition, shell casings, cleaning equipment, holsters, firearm discharge evidence, bodily fluids, trace evidence, drugs and/or controlled substances, human hairs, fingerprints, palm, foot and shoe prints, soil and vegetation samples, clothing fibers, clothing or other objects bearing bodily fluids. Photographs, videos, writings of any nature and any kind which appear to have a direct relationship to the investigation; such as death threats, statements acknowledging responsibility for the assault, and statements by the suspect/victim indicating fear or concern about his/her personal safety. Items of indicia indicating control of the premises including, keys, wallets, purses, cell phones, laptops, tablets, checks, letters or other writings, bills, diaries, utility company receipts, canceled mail, business cards, items which may have been touched by the suspect(s) or left behind by the suspect(s).

A blood sample drawn by a medical professional in a medically approved manner and/or mouths swabs for samples of skin/human cells, to be used for DNA testing. This sample will be obtained from the individuals explicitly listed in Exhibit 1A, [redacted].

Answer, record, monitor, note, and converse with callers who appear to be calling in regards to the crime being investigated, on any telephone or cellular phone within the location(s), vehicle(s) and/or person(s) to be searched without revealing the officer(s) identity. Access any telephone numbers, or any messages stored within the memory of any cellular phone located during the search, for the purposes of calling or identifying suspect(s) and/or witnesses. Seize cellular phones to be examined later. For the purposes of calling and identifying those person(s) paging the suspect(s) and/or victim(s) to determine if the page was regarding the crime being investigated and the peace officer may do so without revealing their identity.

Written documentation, whether typed or handwritten, including, but not limited to, computer manuals and instructions for the use of any computers and their accessories as well as documentation containing passwords.

Investigating officers are authorized to employ the use of outside experts, acting under the direction of the investigating officers, to access and preserve computer data, cellular telephone data. Any digital evidence found during the execution of this search warrant will be seized, transported from the scene, and analyzed at a later time pursuant to additional search warrants that describe each item to be examined specifically. If no evidence of criminal activity is discovered relating to the seized computer systems and associated peripherals, the system will be returned promptly.

It is further ordered that the peace officers executing this warrant be authorized, pursuant to Penal Code section 1530, to bring onto the premises whatever professional or expert assistants or consultants that he/she considers necessary in order to, among other things, properly preserve the premises and physical evidence, conduct tests, experiments and re-enactments, draw floor plans, and collect physical evidence.

It is further ordered that the peace officers executing this warrant be authorized, pursuant to Penal Code section 1530, to bring onto the premises persons knowledgeable about the premises and/or its occupants, furnishings, and other items of personal property normally found within the premises, in order to, among other things, determine if any items of personal property are missing or otherwise out of place.

It is further ordered that the peace officers executing this warrant be authorized to conduct or order whatever experiments, tests, or scientific evaluations are necessary and proper on said seized items of evidence. All such items shall thereafter be maintained and preserved in an appropriate manner according to commonly accepted policies, standards and appropriate law.

If necessary, searching officers are authorized to employ the use of outside experts, acting under the direct control of the investigating officers, access and preserver and computer data.

SEARCHING OFFICERS ARE AUTHORIZED TO VIDEOTAPE AND/OR PHOTOGRAPH THE ENTRY AND SEARCH OF THE PREMISES DESCRIBED HEREIN, AT THE DISCRETION OF THE SEARCHING OFFICERS.

STATEMENT OF PROBABLE CAUSE

On 07/20/2022, I was working in an on-call capacity as an investigator for the Humboldt County Sheriff's Office (HCSO).

At approximately 1956 hours I was called out to assist with a reported Officer Involved Shooting. Upon arriving at the office, I reviewed the call for service, HCSO incident #2207200161, listened to segments of body worn camera footage from this incident and received a briefing of the incident from Detective Sergeant B. Taylor. The following is a combined summary of the information I received.

At 1920 hours, an HCSO patrol unit attempted to initiate a traffic stop on a high-speed vehicle traveling on Fairway Drive in Eureka, CA. The patrol unit was a double unit with FTO Walstrom and his trainee, Deputy Dickson. A license plate number of CA[redacted] was provided for the suspect vehicle. Approximately one minute later, the deputies indicated they were in pursuit of that vehicle. At 1921 hours the deputies advised shots had been fired from the suspect vehicle. The radio traffic related to this incident was a combination of multiple deputies that were involved in the pursuit.

Additional shots were fired from the suspect vehicle at 1924 hours in the area of Utah and Highland Streets in Eureka. On the body worn camera footage, I heard FTO Walstrom indicate shots had been fired by officers near that location as well. The pursuit continued going the wrong way on the one-way Henderson Street and led to eastbound Buhne Street. The suspect vehicle ultimately collided with another vehicle in the intersection of Buhne St and Harrison St where the pursuit ended.

I contacted HCSO Undersheriff Braud via phone who was at the location of the traffic collision. US Braud confirmed the license plate number in the call for service and described the suspect vehicle as a white Kia [redacted](SUV). US Braud told me an assault rifle type firearm was located on the ground in-between the suspect vehicle and the other vehicle involved in the collision.

As a result of the pursuit, three passengers of the suspect vehicle were detained. I spoke to HCSO Sergeant Helm who observed[redacted] Sergeant Helm said [redacted] was a passenger of the suspect vehicle.

I then spoke with HCSO Sergeant Waxler who spoke with the other two occupants of the suspect vehicle after they were detained. Sergeant Waxler told me[redacted] was identified by an ID card he had on his person and[redacted] identified herself by name.

Based on the referenced information, I believe evidence of the attempted murder of a peace officer will be located inside the listed suspect vehicle and on the listed passengers who were inside the suspect vehicle during this incident.

I know from training and experience individuals involved in the commissions of crimes can leave behind trace elements of DNA through the touching of objects. I also know DNA can be extracted from bodily fluids including blood and saliva. If a DNA reference sample was obtained from the persons listed in Exhibit 1A, laboratory tests could be conducted to determine if any of their DNA was located at the crime scene or on any weapons located as a result of this search warrant.

It is my training and experience that weapons and the location of weapons tend to establish the likelihood the victim was or was not armed at any time prior to or during the assault. The evidence of dominion and control as described is necessary in establishing who was present the premises and who controlled the premises. Such evidence is necessary to the identification of the perpetrator, and such evidence is normally left or maintained within premise by those in control or by those visiting such premises. Handwritings and fingerprints are subject to positive identification by experts. Also, clothing, photographs, cancelled mail and

the like are routinely maintained in a person' premises as necessary and incident to maintaining such premises. Persons frequently have taped voice messages on answering machines, home videos and pagers which also will reveal identification. In addition, by intercepting phone calls at the premises while the search warrant is being executed, I expect to talk with persons who are familiar with the persons in control of the premises and will so testify. Such callers and described dominion and control evidence is vital to proving control over the described property to be seized. A thorough search of the premises is necessary in order to establish the exact location of the assault, its extent and the circumstances surrounding the assault. Your affiant is aware that many people now use personal computers, personal digital assistants (PDA's), digital cameras, cellular telephones and other electronic storage devices to store names, addresses, telephone numbers, bank records, letters and other documentation which may tend to show circumstances surround the assault or assist in identifying the suspect(s).

If such computer equipment or items capable of storing digital media are located and seized pursuant to this search warrant, those items will be secured and transported to the Humboldt county Sheriff's Office where they will be booked into evidence. At a later time, additional search warrants will be obtained for these items and each item will be described with particularity. At that point, a complete forensic download/search of these devices will be conducted to locate evidence relevant to the incident being investigated.

Your affiant seeks permission to remove all items described in Exhibit 1B for examination at the Humboldt County Sheriff's Office, or other facility, because the contents of these items or containers are not readily apparent by visual inspection. The items may require the use of special equipment to see if it contains material described above. In the event that one or more of the items described above are located, it would take hours or even days to go through on the premises. This would lead to undue interference with the place to be searched and would represent an undue interference with your affiants other assigned duties.

Therefore, based on my training and experience, and the above facts, I believe I have substantial cause to believe the above-described property or a portion thereof will be at the described premises when the warrant is served.

I, Brandon Head, hereby pray a search warrant be issued for the seizure of said property, or any part thereof, from said premises at any time of the day, good cause being shown therefore, and the same be brought before this magistrate or retained subject to the order of this court.

Statement of Expertise

Your affiant, Brandon Head has been employed by the Humboldt County Sheriff's Office since December 2015. I have worked as Deputy Sheriff since that time and held the position of field training officer. As of July 15, 2019, I have been assigned to the Criminal Investigation Division as a detective and investigator.

I have investigated or assisted with numerous felony and misdemeanor cases including but not limited to; homicide, aggravated assault, domestic violence, missing persons, rape, robbery and child abuse.

I base my opinions on the following specialized training and experience.

1. In December of 2015 I completed the POST-certified basic law enforcement academy at College of the Redwoods.

2. I have received both my POST Basic and Intermediate certificates.

3. In 2012, I completed a Bachelor's of Science Degree in Statistics.

4. I have attended a 16-hour POST-certified Search Warrants A-Z course.

5. In January 2020 I attended the 80-hour Robert Presley Institute of Criminal Investigation (ICI) Core course.

6. In June 2020 I attended the 80-hour Robert Presley Institute of Criminal Investigation (ICI) Homicide Course.

EXHIBIT 1A

1. White Kia [redacted] (SUV) bearing CA license plate [redacted] which is stored at Humboldt Towing – 101 H Street Eureka, CA

EXHIBIT 1B

Weapons, firearms, ammunition, shell casings, cleaning equipment, holsters, firearm discharge evidence, bodily fluids, trace evidence, drugs and/or controlled substances, human hairs, fingerprints, palm, foot and shoe prints, soil and vegetation samples, clothing fibers, clothing or other objects bearing bodily fluids. Photographs, videos, writings of any nature and any kind which appear to have a direct relationship to the investigation; such as death threats, statements acknowledging responsibility for the assault, and statements by the suspect/victim indicating fear or concern about his/her personal safety. Items of indicia indicating control of the premises including, keys, wallets, purses, cell phones, laptops, tablets, checks, letters or other writings, bills, diaries, utility company receipts, canceled mail, business cards, items which may have been touched by the suspect(s) or left behind by the suspect(s).

Answer, record, monitor, note, and converse with callers who appear to be calling in regards to the crime being investigated, on any telephone or cellular phone within the location(s), vehicle(s) and/or person(s) to be searched without revealing the officer(s) identity. Access any telephone numbers, or any messages stored within the memory of any cellular phone located during the search, for the purposes of calling or identifying suspect(s) and/or witnesses. Seize cellular phones to be examined later. For the purposes of calling and identifying those person(s) paging the suspect(s) and/or victim(s) to determine if the page was regarding the crime being investigated and the peace officer may do so without revealing their identity.

Written documentation, whether typed or handwritten, including, but not limited to, computer manuals and instructions for the use of any computers and their accessories as well as documentation containing passwords.

Investigating officers are authorized to employ the use of outside experts, acting under the direction of the investigating officers, to access and preserve computer data, cellular telephone data. Any digital evidence found during the execution of this search warrant will be seized, transported from the scene, and analyzed at a later time pursuant to additional search warrants that describe each item to be examined specifically. If no evidence of criminal activity is discovered relating to the seized computer systems and associated peripherals, the system will be returned promptly.

It is further ordered that the peace officers executing this warrant be authorized, pursuant to Penal Code section 1530, to bring onto the premises whatever professional or expert assistants or consultants that he/she considers necessary in order to, among other things, properly preserve the premises and physical evidence, conduct tests, experiments and re-enactments, draw floor plans, and collect physical evidence.

It is further ordered that the peace officers executing this warrant be authorized, pursuant to Penal Code section 1530, to bring onto the premises persons knowledgeable about the premises and/or its occupants, furnishings, and other items of personal property normally found within the premises, in order to, among other things, determine if any items of personal property are missing or otherwise out of place.

It is further ordered that the peace officers executing this warrant be authorized to conduct or order whatever experiments, tests, or scientific evaluations are necessary and proper on said seized items of evidence. All such items shall thereafter be maintained and preserved in an appropriate manner according to commonly accepted policies, standards and appropriate law.

If necessary, searching officers are authorized to employ the use of outside experts, acting under the direct control of the investigating officers, access and preserver and computer data.

SEARCHING OFFICERS ARE AUTHORIZED TO VIDEOTAPE AND/OR PHOTOGRAPH THE ENTRY AND SEARCH OF THE PREMISES DESCRIBED HEREIN, AT THE DISCRETION OF THE SEARCHING OFFICERS.

STATEMENT OF PROBABLE CAUSE

On 07/20/2022, I was working in an on-call capacity as an investigator for the Humboldt County Sheriff's Office (HCSO).

At approximately 1956 hours I was called out to assist with a reported Officer Involved Shooting. Upon arriving at the office, I reviewed the call for service, HCSO incident #2207200161, listened to segments of body worn camera footage from this incident and received a briefing of the incident from Detective Sergeant B. Taylor. The following is a combined summary of the information I received.

At 1920 hours, an HCSO patrol unit attempted to initiate a traffic stop on a high-speed vehicle traveling on Fairway Drive in Eureka, CA. The patrol unit was a double unit with FTO Walstrom and his trainee, Deputy Dickson. A license plate number of CA: [redacted] was provided for the suspect vehicle. Approximately one minute later, the deputies indicated they were in pursuit of that vehicle. At 1921 hours the deputies advised shots had been fired from the suspect vehicle. The radio traffic related to this incident was a combination of multiple deputies that were involved in the pursuit.

Additional shots were fired from the suspect vehicle at 1924 hours in the area of Utah and Highland Streets in Eureka. On the body worn camera footage, I heard FTO Walstrom indicate shots had been fired by officers near that location as well. The pursuit continued going the wrong way on the one-way Henderson Street and led to eastbound Buhne Street. The suspect vehicle ultimately collided with another vehicle in the intersection of Buhne St and Harrison St where the pursuit ended.

I contacted HCSO Undersheriff Braud via phone who was at the location of the traffic collision. US Braud confirmed the license plate number in the call for service and described the suspect vehicle as a white Kia [redacted] (SUV). US Braud told me an assault rifle type firearm was located on the ground in-between the suspect vehicle and the other vehicle involved in the collision.

As a result of the pursuit, three passengers of the suspect vehicle were detained. I spoke to HCSO Sergeant Helm who observed [redacted]. Sergeant Helm said [redacted] was a passenger of the suspect vehicle.

I then spoke with HCSO Sergeant Waxler who spoke with the other two occupants of the suspect vehicle after they were detained. Sergeant Waxler told me [redacted] was identified by an ID card he had on his person and [redacted] identified herself by name.

Using the above information, I obtained a search warrant, SW2200437, signed by the Honorable Judge Kelly Neel. The service of the warrant occurred shortly after it was signed. As a result of the service, a single rifle was collected from the collision scene and a cell phone was seen inside the suspect vehicle. The cell phone was not collected but placed into airplane mode to preserve evidence. Additional examination of the suspect vehicle did not occur, and the decision was made to tow the vehicle for evidence. Humboldt Towing then took the vehicle to their locked indoor storage facility at 101 H Street pending additional investigative efforts. DNA reference samples were collected from the three mentioned passengers of the suspect vehicle. I returned the first search warrant indicating the items seized.

Based on the referenced information, I believe evidence of the attempted murder of a peace officer will be located inside the listed suspect vehicle.

It is my training and experience that weapons and the location of weapons tend to establish the likelihood the victim was or was not armed at any time prior to or during the assault. The evidence of dominion and control as described is necessary in establishing who was present the premises and who controlled the premises. Such evidence is necessary to the identification of the perpetrator, and such evidence is normally left or

maintained within premise by those in control or by those visiting such premises. Handwritings and fingerprints are subject to positive identification by experts. Also, clothing, photographs, cancelled mail and the like are routinely maintained in a person' premises as necessary and incident to maintaining such premises. Persons frequently have taped voice messages on answering machines, home videos and pagers which also will reveal identification. In addition, by intercepting phone calls at the premises while the search warrant is being executed, I expect to talk with persons who are familiar with the persons in control of the premises and will so testify. Such callers and described dominion and control evidence is vital to proving control over the described property to be seized. A thorough search of the premises is necessary in order to establish the exact location of the assault, its extent and the circumstances surrounding the assault. Your affiant is aware that many people now use personal computers, personal digital assistants (PDA's), digital cameras, cellular telephones and other electronic storage devices to store names, addresses, telephone numbers, bank records, letters and other documentation which may tend to show circumstances surround the assault or assist in identifying the suspect(s).

If such computer equipment or items capable of storing digital media are located and seized pursuant to this search warrant, those items will be secured and transported to the Humboldt county Sheriff's Office where they will be booked into evidence. At a later time, additional search warrants will be obtained for these items and each item will be described with particularity. At that point, a complete forensic download/search of these devices will be conducted to locate evidence relevant to the incident being investigated.

Your affiant seeks permission to remove all items described in Exhibit 1B for examination at the Humboldt County Sheriff's Office, or other facility, because the contents of these items or containers are not readily apparent by visual inspection. The items may require the use of special equipment to see if it contains material described above. In the event that one or more of the items described above are located, it would take hours or even days to go through on the premises. This would lead to undue interference with the place to be searched and would represent an undue interference with your affiants other assigned duties.

Therefore, based on my training and experience, and the above facts, I believe I have substantial cause to believe the above-described property or a portion thereof will be at the described premises when the warrant is served.

I, Brandon Head, hereby pray a search warrant be issued for the seizure of said property, or any part thereof, from said premises at any time of the day, good cause being shown therefore, and the same be brought before this magistrate or retained subject to the order of this court.

Statement of Expertise

Your affiant, Brandon Head has been employed by the Humboldt County Sheriff's Office since December 2015. I have worked as Deputy Sheriff since that time and held the position of field training officer. As of July 15, 2019, I have been assigned to the Criminal Investigation Division as a detective and investigator.

I have investigated or assisted with numerous felony and misdemeanor cases including but not limited to; homicide, aggravated assault, domestic violence, missing persons, rape, robbery and child abuse.

I base my opinions on the following specialized training and experience.

1. In December of 2015 I completed the POST-certified basic law enforcement academy at College of the Redwoods.

2. I have received both my POST Basic and Intermediate certificates.

3. In 2012, I completed a Bachelor's of Science Degree in Statistics.

4. I have attended a 16-hour POST-certified Search Warrants A-Z course.

5. In January 2020 I attended the 80-hour Robert Presley Institute of Criminal Investigation (ICI) Core course.

6. In June 2020 I attended the 80-hour Robert Presley Institute of Criminal Investigation (ICI) Homicide Course.
