### Bloodborne Pathogens (BBP) Exposure Control Training Providers\*

BBP training that meets Cal/OSHA's Bloodborne Pathogens Standard CCR § 5193, in accordance with California Health & Safety Code Div. 104, Part 15, Chapter 7 § 119307 Practitioner Training Requirements, is required for persons who may be exposed to BBP while performing their routine work functions. This includes, but is not limited to: tattoo artists, permanent cosmetics professionals, and body piercers. Additionally, Cal/OSHA and The Safe Body Art Act (AB 300) requires that the training and training material must be **specific to performing body art**. BBP training contact time must meet a **minimum of 2 hours**. Training must be renewed annually. Records must be kept for a minimum of 3 years. Should a class be taken that does not meet these requirements, Humboldt County Division of Environmental Health (DEH) will require that a compliant training class be taken as required by The Safe Body Art Act. DEH is not responsible should a class be taken that does not meet the standards.

Company Name	Course Offered	Contact Info	Website
