

SURFACE MINING RECLAMATION PLAN CHECKLIST

Public Resources Code (PRC) Sections 2772, 2773 and 2774 specifies the information and documents required for all reclamation plans. The required information and documents are as follows:

- | Page No. | |
|--------------------------------|--|
| <input type="checkbox"/> _____ | The name and address of the operator and the names and addresses of any persons designated by him as his agent for the service of process; and |
| <input type="checkbox"/> _____ | The names and addresses of the owners of all surface and mineral interests of such lands; and |
| <input type="checkbox"/> _____ | The anticipated quantity and type of minerals for which the surface mining operation is to be conducted; and |
| <input type="checkbox"/> _____ | The proposed dates for the initiation and termination of such operation; |
| <input type="checkbox"/> _____ | The maximum anticipated depth of the surface mining operation; and |
| <input type="checkbox"/> _____ | The size and legal description of the lands that will be affected by such operation, |
| <input type="checkbox"/> _____ | A map that includes the boundaries and topographic detail of such lands, the location of all streams, roads, railroads, and utility facilities within, or adjacent to, such lands, the location of all proposed access roads to be constructed in conducting such operation, |
| <input type="checkbox"/> _____ | A description of the general geology of the area, a detailed description of the geology of the area in which surface mining is to be conducted, |
| <input type="checkbox"/> _____ | A description of and plan for the type of surface mining to be employed and a time schedule that will provide for the completion of surface mining on each segment of the mined lands so that reclamation can be initiated at the earliest possible time on those portions of the mined lands that will not be subject to further disturbance by the surface mining operation; and |
| <input type="checkbox"/> _____ | A description of the proposed use or potential uses of the land after reclamation and evidence that all owners of a possessory interest in the land have been notified of the proposed use or potential uses; and |
| <input type="checkbox"/> _____ | A description of the manner in which contaminants will be controlled, and mining waste will be disposed; and |
| <input type="checkbox"/> _____ | A description of the manner in which rehabilitation of affected streambed channels and streambanks to a condition minimizing erosion and sedimentation will occur; and |
| <input type="checkbox"/> _____ | An assessment of the effect of implementation on the reclamation plan on future mining in the area; and |
| <input type="checkbox"/> _____ | A statement that the person submitting the plan accepts responsibility for reclaiming the mined lands in accordance with the reclamation plan; and |
| <input type="checkbox"/> _____ | A cost estimate prepared by a qualified individual for financial assurances to ensure reclamation is performed in accordance with reclamation plan. |
