Note:

Land use colors shown in the legend do not exactly match colors on the map due to transparency overlay enabling display of terrain shading. Land use is only shown for this planning watershed area in Humboldt County.

Data Sources:

Existing Land Use, Parcels, and Public Lands are based on NCCB digitized GIS parcel dataset and Land Information System (LIS) databases, 2002. Land use and land ownership were derived from these datasets.

Highways and Roads are based on multiple TIger Files, 1990 - 2001.

Hydrography is based on CDF's Fire Resource Assessment Project (FRAP) streams dataset downloaded from http://frap.cdf.ca.gov/data/frapgisdata/select.asp

Watershed boundaries are based on CDF's Calwater dataset also obtained from FRAP. Watershed areas in characteristics table were derived from this data.

Topographic/Hillshading is based on 10 Meter Digital Elevation Models from USGS
