

Control Devices

305.1 PURPOSE AND SCOPE

This policy provides guidelines for the use and maintenance of control devices that are described in this policy.

This policy does not address the application of a control device on a juvenile who has already been detained.

305.2 POLICY

In order to control individuals who are violent or who demonstrate the intent to be violent, the Chief Probation Officer may authorize officers to use control devices in accordance with the guidelines in this policy and the Use of Force Policy.

305.3 ISSUING, CARRYING, AND USING CONTROL DEVICES

Control devices described in this policy may be carried and used by members of this department only if the device has been issued by the Department or approved by the Chief Probation Officer or the authorized designee.

Only those members who have been authorized by the Chief Probation Officer and who have successfully completed department-approved training on this policy and the use of any control device are authorized to carry and use the device.

Control devices may be used when a decision has been made to control, restrain, or arrest a person who is violent or who demonstrates the intent to be violent and using the device appears reasonable under the circumstances. When reasonable, a verbal warning and opportunity to comply should precede the use of these devices.

305.4 RESPONSIBILITIES

305.4.1 USER RESPONSIBILITIES

All normal maintenance, charging, or cleaning shall remain the responsibility of personnel using the devices.

Any damaged, inoperative, outdated, or expended control devices, along with documentation explaining the cause of the damage, shall be returned to the Rangemaster for disposition. Documentation shall also be forwarded through the chain of command, when appropriate, explaining the cause of damage.

305.5 OLEORESIN CAPSICUM GUIDELINES

As with other control devices, oleoresin capsicum (OC) spray may be considered for use to bring under control an individual engaging in, or about to engage in, violent behavior. OC spray should not be used against individuals who do not reasonably appear to present a risk to the safety of department members or the public.

Probation Manual

Control Devices

305.5.1 TREATMENT FOR EXPOSURE

Persons who have been sprayed with or otherwise affected by the use of OC should be promptly provided with clean water to cleanse the affected areas. Those who complain of further severe effects shall be examined by appropriate medical personnel.

305.6 POST-APPLICATION NOTICE

Whenever OC has been introduced into a residence, building interior, vehicle, or other enclosed area, the owners or available occupants should be provided with notice of the possible presence of residue that could result in irritation or injury if the area is not properly cleaned. Such notice should include advisement that cleanup will be at the owner's expense. Information regarding how and when the notice was delivered and the individuals notified should be included in related reports.

305.7 TRAINING FOR CONTROL DEVICES

The Training Manager shall ensure that those members who are authorized to carry a control device have been properly trained and certified to carry the specific control device and are retrained or recertified as necessary.

- (a) Proficiency training shall be monitored and documented by a certified control-device weapons or tactics instructor.
- (b) All training and proficiency for control devices will be documented in the member's training file.
- (c) Members who fail to demonstrate proficiency with the control device or knowledge of the Use of Force Policy will be provided remedial training. If a member cannot demonstrate proficiency with a control device or knowledge of the Use of Force Policy after remedial training, the member will be restricted from carrying the control device and may be subject to discipline.

305.8 REPORTING USE OF CONTROL DEVICES

Any application of a control device shall be documented in the related incident report and reported pursuant to the Use of Force Policy.
