

PREPARING YOUR HOME FOR WILDFIRE

Brochure Printing & Folding Instructions

Printing: Use 11 x 17 (Ledger) paper size, two-sided printing, and flip on the short edge.

If the program allows, print to “actual size” so that the fold lines and design are printed as intended.

Folding: The brochure uses a “double-parallel” fold wherein it is folded in half, and then in half again. The panels on the first page are numbered 5, 1, 2, 3, with the centerfold (backside) being 4.
